2019

Membangun Kearifan Lokal Melalui Reposisi dan Reorganisasi Bisnis

Nurturing Local Wisdom Through Business Repositioning and Restructuring

Sebagai bank pembangunan daerah, bank **bjb** memiliki peran strategis sebagai mitra pemerintah sekaligus motor percepatan pembangunan daerah, oleh karena itu pemanfaatan atas *competitive advantage* yang berupa faktor kedekatan, pemahaman kultural dan sosiologi kedaerahan menjadi kunci keberhasilan dalam upaya menjadi *regional champion*. Sesuai dengan *corporate road map* bank **bjb** yang telah disusun dari tahun 2017-2022, di tahun 2019 merupakan fase ke 2 (dua) bagi bank **bjb** untuk melakukan strategi pertumbuhan bisnis yang berkualitas serta melakukan penguatan infrastruktur yang handal untuk mendukung operasional dan produk berbasis digital. Oleh karena itu arahan strategi telah disusun dengan mempertimbangkan dua faktor, yaitu pertumbuhan organik dengan memperbesar *core business* dari bank, namun tidak tertutup kemungkinan dilakukannya aksi korporasi untuk mempercepat pertumbuhan bank secara non organik.

Untuk mendukung kegiatan operasional dan produk berbasis digital melalui penguatan infrastruktur yang handal, maka telah ditetapkan strategi manajemen di tahun 2019 yaitu penguatan permodalan untuk mendukung akselerasi bisnis, penghimpunan DPK melalui pengembangan *E-Channel* untuk menjaga likuiditas yang memadai, meningkatkan pertumbuhan kredit dengan tetap menjaga kualitas kredit, pengembangan *digital banking* untuk mengoptimalkan transaksi bisnis guna peningkatan pendapatan, dan memperkuat sinergi bidang *supporting* untuk mendukung pencapain target bisnis. Dengan menerapkan berbagai strategi manajemen tersebut, bank **bjb** optimis bahwa prospek usaha bank akan semakin membaik ke depannya.

As a regional development bank, bank **bjb** plays a strategic role as a government's partner and regional development acceleration agent. Therefore, the benefit of competitive advantages, i.e. proximity, cultural understanding, dan sociology of the local, serve as the key of success into becoming a regional champion. In accordance with the bank **bjb** corporate road map arranged for 2017-2022, 2019 is the phase 2 (two) for bank **bjb** to implement the strategy of exceptional business growth and reliable infrastructure reinforcement to support digital-based operations and products. Thus, strategic directives are already organized by taking into account two factors, i.e. organic growth by expanding the Bank's core business and the acceleration of non-organic growth through corporate actions.

To support digital-based operations and products through reliable infrastructure reinforcement, the management strategies for 2019 was set into strengthening capital to support business acceleration, acquiring third Parties funding (DPK) though e-channel to maintain sufficient liquidity, increasing loan growth by preserving loan quality, developing digital banking to optimize business transaction for increasing income, and reinforcing synergy in supports to achieve business target. By applying these strategies, bank **bjb** is confident that banking business is promising going forward.

2018

Memberdayakan Potensi Lokal, Berkontribusi Membangun Negeri

Empowering Local Potential, A Contribution to Nation Building

Di tengah ketidakpastian dan tantangan ekonomi tahun 2018, bank **bjb** mampu membukukan kinerja yang memuaskan, melanjutkan catatan pencapaian kinerja positif yang ditorehkan dalam beberapa tahun terakhir ini. Prestasi ini menempatkan bank **bjb** semakin dekat pada aspirasinya untuk menjadi salah satu jajaran 10 besar bank nasional yang berkinerja baik. Pada saat bersamaan, bank **bjb** tidak melupakan misinya untuk menjadi penggerak perekonomian daerah khususnya bagi daerah Jawa Barat. Melalui berbagai program untuk mendorong inklusivitas layanan perbankan di masyarakat serta untuk lebih mengedepankan keberpihakan pada sektor usaha mikro, kecil dan menengah (UMKM), bank **bjb** terus berupaya memberdayakan potensi lokal sebagai bagian dari pembangunan nasional Indonesia.

Against the backdrop of economic uncertainty and challenges in 2018, bank **bjb** was able to post a satisfactory performance, continuing the positive performance of the past few years. This achievement has brought bank **bjb** closer to its aspiration of becoming one of the top 10 national banks with excellent performance. At the same time, bank **bjb** does not forget its mission to drive the regional economy, especially the economy of West Java. Various programs are launched aiming to promote inclusive banking services in the community, as well as to support the micro, small and medium enterprises (MSME). Through those program, bank **bjb** ceaselessly strives to empower local potential as part of national development.

Oleh karena itu, dalam menyampaikan analisis kinerja Perseroan, izinkan kami menyampaikan telaah perekonomian baik di tingkat global, nasional maupun pada industri perbankan.

With various resources owned by the Company, the Board of Directors effectively managed these resources. The company produced good performance in 2022 amidst economic conditions that had not fully recovered. The Board of Directors considered global, national and banking industry economic conditions in developing business strategies to overcome obstacles, especially those related to the impact of economic conditions on the Company's business. Therefore, in presenting an analysis of the Company's performance, allow us to present an analysis of the economy both at the global, national and banking industry levels.

Tinjauan Makro Ekonomi

Tekanan terhadap perekonomian global pada tahun 2022 masih berlanjut didorong oleh peningkatan tensi geopolitik yang tidak hanya terjadi antara Rusia dan Ukraina tetapi juga antara Tiongkok dan Taiwan. Selain itu, kenaikan inflasi global yang memicu agresifnya kebijakan moneter, serta potensi stagflasi yaitu risiko lambatnya pertumbuhan ekonomi yang dibarengi dengan laju inflasi yang tinggi juga memberikan tekanan terhadap perekonomian global. Risiko stagflasi diperkirakan dapat terjadi pada tahun 2023 didorong oleh kenaikan suku bunga acuan secara global yang berdampak pada melemahnya konsumsi dan investasi.

Macro Economic Review

Pressure on the global economy in 2022 continued to be driven by increasing geopolitical tensions that did not only occur between Russia and Ukraine but also between China and Taiwan. In addition, rising global inflation triggered aggressive monetary policy, as well as the potential for stagflation, namely the risk of slow economic growth together with high inflation rates, that also put pressure on the global economy. The risk of stagflation was expected to occur in 2023 driven by the increase in global benchmark interest rates which had an impact on weakening consumption and investment.

Terkait upaya pengendalian inflasi global, bank-bank sentral utama dunia masih melanjutkan pengetatan kebijakan moneternya. Peningkatan suku bunga acuan secara global dilakukan untuk memerangi tingkat inflasi yang tinggi dan cenderung meningkat. The Fed bahkan semakin agresif menaikkan suku bunga acuannya. Sepanjang Triwulan III-2022, The Fed menaikkan Fed Fund Rate (FFR) sebesar 150 bps, masing-masing sebesar 75 bps pada Federal Open Market Committee (FOMC) Meeting Juli 2022 dan FOMC Meeting September 2022.

Regarding efforts to control global inflation, the world's major central banks continued to tighten their monetary policies. The increase in global benchmark interest rates was carried out to combat high inflation rates and tends to increase. The Fed was even more aggressive in raising its benchmark interest rate. Throughout the third quarter of 2022, the Fed raised the Fed Fund Rate (FFR) by 150 bps, each by 75 bps at the Federal Open Market Committee (FOMC) Meeting in July 2022 and the FOMC Meeting in September 2022.

Pertumbuhan ekonomi Indonesia pada Triwulan IV-2022 tercatat tinggi sebesar 5,01% (yoy), jauh meningkat dari capaian tahun sebelumnya sebesar 3,70% (yoy). Dari sisi pengeluaran, seluruh komponen pengeluaran tumbuh kecuali Konsumsi Pemerintah yang mengalami kontraksi pada Triwulan IV-2022. Sebagai penyumbang utama dari Produk Domestik Bruto (PDB) menurut komponen pengeluaran, konsumsi rumah tangga dan Pembentukan Modal Tetap Bruto (PMTB) tumbuh positif. Komponen ekspor impor mengalami pertumbuhan tinggi. Ekspor didorong oleh *windfall* komoditas unggulan. Sementara peningkatan impor didorong kenaikan impor barang modal dan bahan baku.

Indonesia's economic growth in the fourth quarter of 2022 was recorded at a high rate of 5.01% (yoy), much increased from the previous year's achievement of 3.70% (yoy). From the expenditure side, all expenditure components grew except for Government Consumption which contracted in Quarter IV-2022. As the main contributor to the Gross Domestic Product (GDP) by expenditure component, household consumption and Gross Fixed Capital Formation (PMTB) grew positively. The export-import component experienced high growth. Exports were driven by a windfall of superior commodities. Meanwhile, the increase in imports was driven by increases in imports of capital goods and raw materials.

Dari sisi lapangan usaha, pada Triwulan IV-2022 seluruh *leading sector* yaitu industri, perdagangan, pertambangan, pertanian, dan konstruksi melanjutkan tren positif dan tumbuh mengesankan. Lapangan usaha dengan pertumbuhan tertinggi adalah Transportasi Pergudangan serta akomodasi makan minum yang didorong oleh peningkatan mobilitas masyarakat serta peningkatan kunjungan wisatawan mancanegara dan wisatawan nusantara.

In terms of business fields, in Quarter IV-2022 all leading sectors, namely industry, trade, mining, agriculture and construction continued positive trends and grew impressively. The business fields with the highest growth were Transportation, Warehousing and accommodation for food and drink, which were driven by increased mobility of the people and increased visits by foreign and domestic tourists.

Rapat Dewan Gubernur (RDG) Bank Indonesia pada 21-22 Desember 2022 memutuskan untuk menaikkan BI 7-*Day Reverse Repo Rate* (BI7DRR) sebesar 25 bps menjadi 5,50%, suku bunga *Deposit facility* sebesar 25 bps menjadi 4,75%, dan suku bunga *lending facility* sebesar 25 bps menjadi 6,25%. Keputusan kenaikan suku bunga yang lebih terukur tersebut sebagai langkah lanjutan untuk secara *front loaded, pre-emptive*, dan *forward looking* memastikan terus berlanjutnya penurunan ekspektasi inflasi sehingga inflasi inti tetap terjaga dalam kisaran 3,0±1%. Kebijakan stabilisasi nilai tukar Rupiah terus diperkuat untuk mengendalikan inflasi barang impor (*imported inflation*) di samping untuk memitigasi dampak rambatan dari masih kuatnya dolar AS dan masih tingginya ketidakpastian pasar keuangan global.

The Bank Indonesia Board of Governor's Meeting (RDG) on December 21-22, 2022 decided to increase the BI 7-Day Reverse Repo Rate (BI7DRR) by 25 bps to 5.50%, the deposit facility rate by 25 bps to 4.75%, and lending facility interest rate by 25 bps to 6.25%. The decision to increase interest rates in a more measured manner became a follow-up step for front-loaded, pre-emptive and forward-looking measures to ensure the continued decline in inflation and inflation expectations so that core inflation was maintained within the range of 3.0 ± 1%. The Rupiah exchange rate stabilization policy continued to be strengthened to control imported inflation in addition to mitigating the spillover impact of the still strong US dollar and high uncertainty on global financial markets.

Dari sisi perbankan, fungsi intermediasi dari sektor keuangan juga melanjutkan perbaikan secara bertahap. Pertumbuhan kredit hingga Desember 2022 tumbuh sebesar 11,35% (yoy) meningkat dibandingkan tahun sebelumnya yang hanya tumbuh sebesar 5,24% (yoy) dikarenakan penyaluran kredit yang terbatas akibat COVID-19. Peningkatan pertumbuhan kredit terjadi merata pada seluruh sektor ekonomi dan seluruh jenis kredit terutama Kredit Investasi dan Kredit Modal Kerja. Pemulihan intermediasi juga terjadi pada perbankan syariah, dengan pertumbuhan

From the banking side, the intermediary function of the financial sector also continued to improve gradually. Loan growth until December 2022 grew by 11.35% (yoy), an increase compared to the previous year which only grew by 5.24% (yoy) due to limited loans distribution due to COVID-19. The increase in loan growth occurred evenly in all economic sectors and all types of loans, especially Investment Loans and Working Capital Loans. Intermediation recovery also occurred in sharia banking, with financing growth in December 2022 of 20.1% (yoy), higher

pembiayaan pada Desember 2022 sebesar 20,1% (yoy), lebih tinggi dibandingkan dengan capaian tahun sebelumnya sebesar 6,6% (yoy). Di segmen UMKM, pertumbuhan kredit juga terus berlanjut, khususnya penyaluran Kredit Usaha Rakyat (KUR) yang tumbuh tinggi sebesar 29,66% (yoy). Perbaikan intermediasi perbankan didukung sisi penawaran kredit sejalan dengan likuiditas perbankan yang memadai dan standar penyaluran kredit/pembiayaan yang longgar. Permintaan kredit juga meningkat sejalan kinerja korporasi dan konsumsi rumah tangga yang membaik yang mendorong kenaikan permintaan pembiayaan.

than the previous year's achievement of 6.6% (yoy). In the MSME segment, loan growth also continued, particularly the disbursement of People's Business Loan (KUR), which grew high by 29.66% (yoy). Improvements in banking intermediation were supported by the supply side of loans in line with adequate banking liquidity and loose loan/financing standards. Demand for loan also increased in line with improved corporate performance and household consumption which boosted demand for financing.

Dari sisi permodalan, kondisi permodalan Bank yang meningkat dan cukup solid menunjukkan kemampuan Bank yang memadai dalam menyerap risiko dengan rasio kecukupan modal (*Capital Adequacy Ratio*/CAR) perbankan pada Desember 2022 tetap tinggi yaitu 25,09%. Lebih lanjut, risiko kredit tercatat menurun dengan rasio kredit bermasalah (*Non Performing Loan*/NPL) yakni 2,44% (bruto) 0,71% (neto) pada Desember 2022.

In terms of capital, the condition of the Bank's capital which increased and was quite solid indicated the Bank's adequate ability to absorb risk with the banking Capital Adequacy Ratio (CAR) in December 2022 remaining high at 25.09%. Furthermore, credit risk was recorded to have decreased with a non-performing loan (NPL) ratio of 2.44% (gross) to 0.71% (net) in December 2022.

Likuiditas perbankan pada Desember 2022 tetap terjaga didukung oleh pertumbuhan Dana Pihak Ketiga (DPK) sebesar 9,01% (yoy). Hasil simulasi *stress test* Bank Indonesia menunjukkan bahwa ketahanan perbankan masih terjaga. Bank Indonesia akan terus memperkuat sinergi dengan Komite Stabilitas Sistem Keuangan (KSSK) dalam memitigasi berbagai risiko makro ekonomi domestik dan global yang dapat mengganggu ketahanan sistem keuangan.

Banking liquidity in December 2022 was maintained supported by growth in Third Parties Funds (TPF) of 9.01% (yoy). The results of Bank Indonesia's stress test simulation showed that banking resilience was still maintained. Bank Indonesia continued to strengthen synergies with the Financial System Stability Committee (KSSK) in mitigating various domestic and global macroeconomic risks that could undermine financial system resilience.

Berdasarkan analisis perekonomian dan industri serta memperhatikan tantangan yang ada, maka bank **bjb** menetapkan target pasar berupa peningkatan DPK dan Kredit. Target DPK dan Penyaluran Kredit di tahun 2022 masing-masing sebesar Rp113,86 triliun dan Rp103,56 triliun. Peningkatan ini dilakukan antara lain dengan pelaksanaan aktivitas *Bancassurance* berupa kerjasama dengan PT Asuransi Sinar Mas, Bank Asuransi Dayin Mitra, Bank Asuransi Tugu, dan Bank Asuransi Cakrawala serta *launching* produk KPR Tapera dan BI FAST.

Based on economic and industry analysis and considering the existing challenges, bank **bjb** set a target market in the form of increasing TPF and loans. The target for TPF and Loan Disbursement in 2022 was IDR 113.86 trillion and IDR 103.56 trillion, respectively. This increase was carried out by implementing Bancassurance activities in the form of collaboration with PT Asuransi Sinar Mas, Bank Asuransi Dayin Mitra, Bank Asuransi Tugu, and Bank Asuransi Cakrawala as well as launching KPR Tapera and BI FAST products.

Untuk mencapai target pasar tersebut, telah ditetapkan suku bunga dasar kredit tahun 2022 adalah sebagai berikut:

Strategi tertuang dalam Arahan Strategis Direksi Tahunan yang diturunkan ke dalam Rencana Bisnis Bank (RBB). Direksi memastikan terlaksananya strategi dan senantiasa melakukan evaluasi untuk memastikan efektivitas penerapan strategi yang telah ditetapkan. Evaluasi pelaksanaan strategi dilakukan melalui rapat-rapat Direksi dengan Kepala Divisi terkait, Rapat Direksi dengan Komite di bawah Direksi serta mekanisme pelaporan internal secara berkala.

Pencapaian Kinerja

Berdasarkan strategi yang telah diterapkan, pada tahun 2022 bank **bjb** telah menghasilkan kinerja yang baik sesuai dengan yang ditargetkan. Pada tahun 2022, *outstanding* kredit konsumer tumbuh sebesar 4,06% (yoy) dengan *volume* sebesar Rp47,14 triliun. Per 31 Desember 2022, komposisi portofolio kredit yang paling tinggi berasal dari kredit konsumer mencapai 44,37% dari total penyaluran kredit pada bank **bjb**. Peningkatan penyaluran kredit konsumer ini mencapai Rp1,84 triliun atau 4,06% dibandingkan dengan tahun 2021 yang sebesar Rp45,30 triliun. Sehingga dapat dikatakan bahwa segmen kredit konsumer masih menjadi segmen kredit yang dominan di bank **bjb**.

Total DPK tahun 2022 mencapai Rp38,49 triliun, meningkat 4,72% atau Rp1,74 triliun dibandingkan dengan tahun 2021 yang mencapai Rp36,75 triliun. Peningkatan ini terutama berasal dari pertumbuhan tabungan sebesar 7,56% dan tabungan sebesar 13,42%. Produk giro konsumer dari tahun ke tahun mengalami fluktuaktif. Giro tahun 2022 mencapai Rp1,11 triliun, meningkat 13,42% dibandingkan tahun 2021 sebesar Rp0,98 triliun.

Jasa layanan bank **bjb** juga menunjukkkan kinerja yang baik di tahun 2022. Premi *bancasssurance* tahun 2022 mencapai Rp27,87 miliar, meningkat sebesar 34,61% dibandingkan tahun 2021 mencapai Rp20,70 miliar. DPK **bjb** Prioritas tahun 2022 sebesar Rp13,47 triliun, meningkat 12,96% dibandingkan dengan tahun 2021 yang sebesar Rp11,92 triliun. Realisasi kinerja *International and Transaction Banking* secara keseluruhan pada tahun 2022 adalah Rp113,51 miliar yang terdiri dari *fee based income* sebesar Rp22,3 miliar dan *interest income* sebesar Rp91,2 miliar. Pendapatan tersebut naik sebesar 58,71% (Rp41,99 miliar) dari pendapatan tahun lalu periode 31 Desember 2021. Disisi lain *volume* transaksi yang dikelola juga mengalami peningkatan

e. Increasing risk awareness through the implementation of a risk culture to create measurable risk management implementation for all work units.
f. Improving the understanding, management and control of legal risk in every operational activity and bank business activity
g. Strengthening the synergy of audit, risk management, compliance and legal functions in developing the bank's business and operations.

In formulating the bank **bjb** strategy, the Board of Directors lead directly through various meetings between the Board of Directors and executive officials. The strategy was contained in the Annual Directors Strategic Direction translated into the Bank's Business Plan. The Board of Directors ensured the implementation of the strategy and constantly evaluated it to ensure the effectiveness of implementing the strategy that had been set. Evaluation of the implementation of the strategy was carried out through meetings of the Board of Directors with related Division Heads, Board of Directors meetings with Committees under the Board of Directors as well as periodic internal reporting mechanisms.

Pencapaian dana pihak ketiga sebesar

In general, the achievement of bank **bjb** targets in 2022 showed good results and met the expectations of Stakeholders. bank **bjb** in 2022 succeeded in exceeding the asset target of 114.73% with realization reaching IDR 181.24 trillion. The achievement of third parties funds was 115.173% which was above the target, which

115,173% yang berada di atas target, yang didukung juga dengan pencapaian giro sebesar 110,59%, tabungan sebesar 108,46% dan simpanan berjangka sebesar 119,65%. Hal ini menunjukan bahwa semakin tingginya tingkat kepercayaan masyarakat kepada bank **bjb** walaupun masih dalam kondisi pandemi.

Pencapaian target kredit yang diberikan juga berada di atas target yaitu sebesar 111,78%. Pencapaian kredit dipengaruhi oleh pertumbuhan kredit korporasi, konsumer, KPR, Komersial serta UMKM. Dengan melakukan penyaluran kredit yang sangat *prudent* ini NPL *gross* bank **bjb** dapat terjaga di level 1,16% atau lebih rendah dari target sebesar 1,60%.

Demikian pula dengan pencapaian pendapatan bunga dan syariah yang melampaui target sebesar 112,70%. Sedangkan dari sisi laba, pencapaian laba tahun berjalan sebesar 123,18% yang berhasil melampaui target yang ditetapkan. Dari sisi rasio, rasio CAR, ROE dan ROA berada di atas target dengan masing-masing pencapaian sebesar 109,28%, 100,05% dan 102,34%. Ke depannya bank **bjb** akan senantiasa melakukan evaluasi pelaksanaan strategi yang telah ditetapkan, sehingga kinerja bank **bjb** di masa yang akan datang akan senantiasa mengalami peningkatan secara berkelanjutan.

Kendala-Kendala yang Dihadapi Perusahaan dan Langkah-Langkah Penyelesaiannya

Dalam menjalankan kegiatan operasionalnya, bank **bjb** juga mengalami berbagai kendala. Kendala tersebut antara lain, segmen utama bank **bjb** yaitu ASN sudah menyentuh titik jenuh sehingga adanya urgensi mencari market segmen lain. Selain itu, digitalisasi di sisi pemerintah Indonesia juga menimbulkan perlambatan jumlah ASN. Untuk menghadapi kendala tersebut, bank **bjb** melakukan ekspansi kredit dan peningkatan dana pihak ketiga.

Kendala lainnya yaitu, penetrasi produk digital bank **bjb** masih rendah dibandingkan kompetitor. Untuk menghadapi kendala tersebut, bank **bjb** memiliki strategi yaitu proaktif dalam penerapan teknologi terkini guna mendukung pengembangan produk dan layanan *one stop solution*. bank **bjb** juga mendorong dan mendukung pengembangan layanan perbankan dalam rangka menumbuhkan *transactional banking and product holding* sebagai gerbang utama bisnis nasabah institusi yang berbasis digital melalui penerapan *platform* **bjb** Go Smart City dalam upaya elektronifikasi layanan Pemda. Selain itu, bank **bjb** juga melakukan optimalisasi dan pengembangan infrastruktur digital dengan simplikasi proses kredit melalui *Loan on Boarding* dan **bjb** Laku.

was also supported by the achievement of demand deposits of 110.59%, savings of 108.46% and time deposits of 119.65%. This showed that the level of public trust in bank **bjb** increased even though it was still in a pandemic condition.

Achievement of the loan target provided was also above the target of 111.78%. Loan achievement was influenced by the growth of corporate, consumer, mortgage, commercial and MSME loans. By channeling very prudent loans, bank **bjb** gross NPL could be maintained at the level of 1.16% or lower than the target of 1.60%.

Likewise, the achievement of interest and sharia income exceeded the target of 112.70%. Meanwhile, from the profit side, the achievement of profit for the year reached 123.18% which managed to exceed the target set. In terms of ratios, the CAR, ROE and ROA ratios were above the target with respective achievements of 109.28%, 100.05% and 102.34%. Going forward, bank **bjb** will always evaluate the implementation of the strategy that has been set, so that the performance of bank **bjb** in the future will always experience continuous improvement.

Constraints Faced by The Company and Steps to Solve Them

In carrying out its operational activities, bank **bjb** also experienced various obstacles. These obstacles included, bank **bjb** main segment, namely Civil Apparatus, reached a saturation point, so there was an urgency to find other market segments. In addition, digitalization on the Indonesian government side also caused a slowdown in the number of Civil Apparatus. To deal with these obstacles, bank **bjb** expanded loans and increased third parties funds.

Another obstacle was bank **bjb** digital product penetration was still low compared to competitors. To deal with these obstacles, bank **bjb** had a proactive strategy in applying the latest technology to support the development of one stop solution products and services. Bank **bjb** also encouraged and supported the development of banking services in order to grow transactional banking and product holding as the main gateway for digital-based institutional customer businesses through the implementation of the **bjb** Go Smart City platform in an effort to electrify local government services. In addition, bank **bjb** also optimized and developed digital infrastructure by simplifying the loan process through Loan on Boarding and **bjb** Laku.

Hal-Hal Penting yang Diperkirakan Terjadi pada Masa Mendatang dan Prospek Usaha

Ancaman resesi mulai mengintai pertumbuhan ekonomi sejumlah negara di dunia. Banyak faktor yang mempengaruhi, mulai dari dampak perang Rusia-Ukraina, melonjaknya inflasi global, hingga kenaikan suku bunga The Fed. Bahkan Bank Dunia dalam Laporan Juni 2022 memangkas perkiraan pertumbuhan ekonomi global, dan memperingatkan banyak negara jika ekonominya akan terkoreksi. Dilansir dari Laporan Bank Dunia bertajuk Global Economic Prospect pada Juni 2022, ekonomi global diperkirakan akan berada di sekitar level 3% pada tahun 2023 hingga 2024 mendatang.

Menurut laporan Bank Dunia pertumbuhan ekonomi Indonesia diprediksi cukup baik yaitu sebesar 5,1% lebih tinggi dibandingkan proyeksi tahun lalu yang sebesar 3,7%. Namun, kondisi perekonomian nasional masih dihadapkan pada tantangan ketidakpastian yang tinggi di tahun 2023, sehingga menuntut Pemerintah untuk dapat memperkuat instrumen bauran kebijakan agar stabilitas moneter dapat tetap terjaga dalam mendukung pemulihan ekonomi. Terjadi eskalasi risiko global yang dipicu khususnya oleh percepatan normalisasi kebijakan moneter Amerika Serikat dan konflik geopolitik Rusia dengan Ukraina. Perpaduan faktor tersebut menimbulkan kenaikan harga komoditas global khususnya sektor pangan dan energi, serta kenaikan inflasi di beberapa negara maju di Eropa dan Amerika. Tingginya tingkat inflasi tersebut meningkatkan volatilitas arus modal, nilai tukar, sektor keuangan dan mendorong percepatan normalisasi kebijakan moneter bagi negara berkembang seperti Indonesia.

Memasuki tahun 2023, Indonesia dihadapkan pada pekerjaan rumah yang harus segera disesuaikan yaitu transisi dari masa pandemi menjadi endemi dan kemampuan mencuri peluang dari tantangan konflik Rusia-Ukraina yang berdampak pada rantai pasokan komoditas. Peluang ekspor komoditas yang mengalami pelarangan oleh negara-negara barat terhadap Rusia dapat menciptakan peluang kenaikan ekspor komoditas seperti gas dan batu bara. Kenaikan tersebut mulai terlihat pada kuartal II tahun 2022 dengan ekspor mampu tumbuh 19,74% (yoy), faktor ini harus mampu dijaga secara sustain selama tahun 2023.

Tahun 2023 merupakan tahun yang penuh tantangan bagi industri perbankan. Tidak seragamnya laju pemulihan ekonomi global dan rencana normalisasi kebijakan The Fed memicu isu *tapering* yang menyebabkan potensi kenaikan suku bunga acuan di masa mendatang. Akselerasi pemulihan ekonomi global diikuti juga dengan melonjaknya inflasi di beberapa negara maju serta diperparah dengan ancaman resesi di beberapa negara, telah mendorong bank sentral di beberapa negara mengeluarkan kebijakan yang berpotensi membuat kesalahan dengan penerapan pengetatan moneter terlalu agresif untuk mengendalikan gejolak inflasi. Namun berbeda dengan Indonesia, berbagai bauran

Important Things to Happen in The Future and Business Prospects

The threat of recession started to lurk the economic growth of a number of countries in the world. Many factors contributed, starting from the impact of the Russia-Ukraine war, soaring global inflation, to the increase in the Fed's interest rate. Even the World Bank in its June 2022 Report cut its forecast for global economic growth, and warned many countries that their economy would correct itself. Reporting from the World Bank report entitled Global Economic Prospect in June 2022, the global economy was expected to be around the level of 3% in 2023 to 2024.

According to a World Bank report, Indonesia's economic growth was predicted to be quite good at 5.1%, higher than last year's projection of 3.7%. However, the condition of the national economy will still be faced with challenges of high uncertainty in 2023, thus demanding the Government to strengthen the policy mix instruments so that monetary stability can be maintained in support of economic recovery. There was an escalation in global risk, triggered in particular by the accelerated normalization of US monetary policy and Russia's geopolitical conflict with Ukraine. The combination of these factors led to an increase in global commodity prices, particularly in the food and energy sectors, as well as an increase in inflation in several developed countries in Europe and America. The high inflation rate increased the volatility of capital flows, exchange rates, the financial sector and accelerated the normalization of monetary policy for developing countries such as Indonesia.

Entering 2023, Indonesia was faced with several matters that had to be adjusted immediately, namely the transition from a pandemic to an endemic and the ability to seize opportunities from the challenges of the Russia-Ukraine conflict which had an impact on the commodity supply chain. Opportunities for commodity exports that had been banned by western countries against Russia could create opportunities for increased exports of commodities such as gas and coal. This increase began to be seen in the second quarter of 2022 with exports to grow 19.74% (yoy), this factor had to be able to be maintained sustainably throughout 2023.

2023 will become a year full of challenges for the banking industry. The uneven pace of global economic recovery and the Fed's policy normalization plans sparked the issue of tapering, which raised the potential for future benchmark interest rate hikes. Accelerated global economic recovery followed by soaring inflation in several developed countries and exacerbated by the threat of recession in several countries prompted central banks in several countries to issue policies that had the potential to make mistakes by implementing too aggressive monetary tightening to control inflationary shocks. However, in contrast to Indonesia, the various macroprudential policy mixes between the central

kebijakan makroprudensial antara bank sentral dan Pemerintah dalam menahan laju inflasi sampai dengan kuartal II tahun 2022 ini cukup berhasil. Perekonomian nasional yang berangsur-angsur pulih dan *sustain* tersebut memberikan optimisme ekspektasi bagi pelaku ekonomi yang berimbas kepada tren pertumbuhan ekonomi dan tren pertumbuhan kinerja perbankan. Intermediasi perbankan di tahun 2023 akan semakin membaik, Otoritas Jasa Keuangan memproyeksikan pertumbuhan kredit sebesar 8,50% dan pertumbuhan dana pihak ketiga sebesar 7,50%.

bank and the government in containing the inflation rate until the second quarter of 2022 were quite successful. The national economy, which is gradually recovering and is sustainable, provides optimism for expectations for economic actors which impact on trends in economic growth and growth trends in banking performance. Banking intermediation in 2023 will get better, the Financial Services Authority projected loan growth of 8.50% and growth of third parties funds of 7.50%.

Berbagai perkiraan kondisi perekonomian tersebut, bank **bjb** yakin memiliki prospek yang baik serta peluang untuk terus tumbuh secara berkelanjutan. Peluang yang dimiliki bank **bjb** antara lain sebagai berikut:

1. Berdasarkan skala pasar, sebagian besar Kantor Cabang bank **bjb** masih menjadi *market nichers* di wilayah operasionalnya sehingga masih memiliki peluang yang cukup besar untuk meningkatkan pangsa pasarnya dari sisi aset, baik DPK maupun kredit.
2. Semakin meningkatnya literasi keuangan masyarakat melalui program yang dicanangkan oleh Bank Indonesia dan Otoritas Jasa Keuangan dalam rangka menerapkan kebijakan keuangan inklusif sebagai suatu bentuk pendalaman layanan keuangan (*financial service deepening*) yang ditujukan kepada masyarakat kelas menengah ke bawah untuk memanfaatkan produk dan jasa keuangan formal seperti sarana menyimpan uang yang aman (*keeping*), *transfer*, menabung maupun pinjaman dan asuransi.
3. Kegiatan pelaku ekonomi yang cukup tinggi di Provinsi Jawa Barat, Banten dan DKI Jakarta merupakan potensi pengembangan perkreditan dan pendanaan.
4. Berbagai proyek pembangunan infrastruktur, termasuk Proyek Strategis Nasional berada di wilayah kerja Jawa Barat dan Banten, sehingga bank **bjb** memiliki kesempatan untuk memaksimalkan penyaluran kredit dan mampu mendorong pertumbuhan ekonomi daerah secara optimal.
5. Dukungan dari Pemerintah Daerah secara konsisten dan berkesinambungan dalam mengembangkan bank **bjb** sebagai penggerak dan pendorong laju perekonomian di daerah.
6. Potensi yang masih besar dalam pengembangan produk digital untuk menyasar segmen ritel dan membangun eksositem bisnis bank **bjb**.

With various estimates of these economic conditions, bank **bjb** believes it has good prospects and opportunities to continue to grow in a sustainable manner. Opportunities owned by bank **bjb** include the following:

1. Based on market scale, most of bank **bjb** Branch Offices were still market nichers in their operational areas so that they still had considerable opportunities to increase their market share in terms of assets, both TPF and loans.
2. Increasing public financial literacy through programs launched by Bank Indonesia and the Financial Services Authority in the framework of implementing financial inclusion policies as a form of financial service deepening aimed at the public at the bottom of the pyramid to utilize formal financial products and services such as means of keeping money safe (keeping), transfers, savings as well as loans and insurance.
3. The relatively high activity of economic actors in the provinces of West Java, Banten and DKI Jakarta became a potential for developing loan and funding.
4. Various infrastructure development projects, including the National Strategic Project were in the working areas of West Java and Banten, so that bank **bjb** had the opportunity to maximize lending and be able to optimally promote regional economic growth.
5. Support from the Regional Government consistently and continuously in developing bank **bjb** as a driver of the economy in the region.
6. There was still great potential in the development of digital products to target the retail segment and build a bank **bjb** business ecosystem.

Di tengah kondisi perekonomian yang dihadapkan pada meningkatnya risiko stagflasi dan tingginya ketidakpastian pasar keuangan serta persaingan industri perbankan yang semakin kompetitif, bank **bjb** tetap menegaskan komitmen untuk terus berkontribusi nyata terhadap perekonomian Indonesia. Semua gejolak ekonomi tersebut mendorong bank **bjb** untuk beradaptasi dengan cepat menghadapi perubahan industri perbankan modern dengan semangat meningkatkan persaingan dan pengembangan usaha.

In the midst of economic conditions faced with increasing risk of stagflation and high financial market uncertainty as well as increasingly competitive banking industry competition, bank **bjb** continued to emphasize its commitment to make a real contribution to the Indonesian economy. All these economic upheavals encouraged bank **bjb** to quickly adapt to changes in the modern banking industry with the spirit of increasing competition and business development.

Untuk menjaga kinerja, bank **bjb** melakukan percepatan pertumbuhan operasional dan keuangan melalui pemanfaatan ekosistem perbankan digital. Di era disrupsi teknologi informasi

Tata Kelola Perusahaan

Good Corporate Governance (GCG) merupakan suatu sistem peraturan yang mengatur hubungan dari berbagai pihak yang bersangkutan dengan Pemegang Saham, Dewan Komisaris, Direksi, dan Komite-komite. Dengan kata lain, GCG mencakup hubungan antara para pemangku kepentingan (*stakeholder*) yang terlibat serta tujuan pengelolaan perusahaan. Selain itu, penerapan GCG tidak hanya menjadi suatu keharusan, tetapi juga merupakan fondasi utama dalam menjalankan usaha untuk memaksimalkan manfaat dan nilai tambah bagi para pemangku kepentingan serta menjaga keberlangsungan usaha. Penerapan GCG kian menjadi faktor penentu strategis bagi perbankan agar dapat meningkatkan nilai dan memelihara proses pertumbuhan yang berkelanjutan. Setiap perbankan perlu terus meningkatkan kinerja agar dapat mengambil manfaat dari penerapan GCG. Tujuan penerapan GCG yaitu menciptakan nilai tambah bagi semua pihak yang berkepentingan, pihak – pihak tersebut adalah pihak internal yang meliputi Dewan Komisaris, Direksi, Karyawan, dan pihak eksternal yang meliputi investor, kreditur, pemerintah, masyarakat dan pihak berkepentingan lainnya.

Corporate Governance

Good Corporate Governance (GCG) becomes a regulatory system that regulates the relationship of various parties concerned with Shareholders, Board of Commissioners, Board of Directors and Committees. In other words, GCG includes the relationship between the stakeholders involved and the objectives of managing the company. In addition, the implementation of GCG is not only a must, but also the main foundation in running a business to maximize benefits and added value for stakeholders and maintain business continuity. The implementation of GCG is increasingly becoming a strategic determining factor for banks in order to increase value and maintain a process of sustainable growth. Every bank needs to continue to improve its performance so that it can benefit from the implementation of GCG. The purpose of implementing GCG is to create added value for all interested parties, these parties are internal parties which include the Board of Commissioners, Directors, Employees and external parties which include investors, creditors, government, communities and other interested parties.

Sebagai lembaga intermediasi dan lembaga kepercayaan, Perseroan dalam melaksanakan kegiatan usahanya harus berpedoman terhadap prinsip keterbukaan (*transparancy*), memiliki ukuran kinerja dari semua jajaran berdasarkan ukuran yang konsisten dengan *corporate values*, sasaran usaha dan strategi bank sebagai cerminan akuntabilitas (*accountability*), menjamin dilaksanakannya ketentuan yang berlaku sebagai wujud tanggung jawab (*responsibility*), objektif dan bebas dari tekanan pihak manapun dalam pengambilan keputusan (*independency*), serta senantiasa memperhatikan kepentingan seluruh *stakeholders* (Pemangku Kepentingan) berdasarkan azas kesetaraan dan kewajaran (*fairness*).

As an intermediary and trust institution, the Company in carrying out its business activities must be guided by the principle of transparency, have performance measures from all levels based on measures that are consistent with corporate values, business objectives and bank strategies as a reflection of accountability, guarantee the implementation of provisions which acts as a form of responsibility, is objective and free from pressure from any party in making decisions (independence), and always pays attention to the interests of all stakeholders based on the principles of equality and fairness.

Kelima asas tersebut diimplementasikan melalui pemenuhan kepentingan pemegang saham dan memberikan perlakuan yang sama kepada seluruh pemegang saham; pemenuhan kepentingan *stakeholders* lainnya; melaksanakan pengungkapan dan transparansi; serta tugas dan tanggung jawab Dewan Komisaris dalam menjalankan fungsi pengawasan dan pemberian nasihat kepada Direksi.

These five principles were implemented through fulfilling the interests of shareholders and providing equal treatment to all shareholders; implementing disclosure and transparency; as well as the duties and responsibilities of the Board of Commissioners in carrying out the supervisory and advisory functions to the Board of Directors.

Supervision and provision of advice was realized through evaluation of monthly performance achievements, implementation of the provisions of the Articles of Association and GMS Decisions.

Dewan Komisaris memberikan penghargaan yang setinggi-tingginya kepada kinerja Direksi yang telah mampu menghadapi tantangan perekonomian dan mampu memberikan kinerja yang baik. Dasar penilaian Dewan Komisaris atas kinerja Direksi adalah terkait kinerja operasional dan keuangan serta tingkat kesehatan bank yang dapat disampaikan sebagai berikut.

The Board of Commissioners address the highest appreciation to the performance of the Directors who were able to face economic challenges and to provide good performance. The basis for the Board of Commissioners' assessment of the performance of the Board of Directors was related to operational and financial performance as well as the soundness level of the bank which could be conveyed as follows.

Pada tahun 2022, perekonomian global masih mengalami tekanan yang didorong oleh peningkatan tensi geopolitik, kenaikan inflasi global yang memicu agresifnya kebijakan moneter, serta potensi stagflasi yaitu risiko lambatnya pertumbuhan ekonomi yang dibarengi dengan laju inflasi yang tinggi. Di Eropa, European Central Bank (ECB) juga masih melanjutkan pengetatan kebijakan moneter dengan menaikkan suku bunga acuan sebesar 75 bps ke level 0,75% pada September 2022. Bank of England (BoE) juga menaikkan suku bunga acuannya sebesar 50 bps ke level 2,25% pada Rapat Dewan Gubernur 22 September 2022. BoE juga mengumumkan akan memulai penjualan aktif surat berharga (*quantitative tightening*) sebesar GBP 80 miliar secara bertahap dalam 12 bulan ke depan. Selain itu, BoE juga memperkirakan inflasi Inggris akan mencapai puncaknya pada Oktober 2022 di kisaran 11%. Seiring dengan tingginya berbagai ketidakpastian global ke depan, IMF merevisi ke bawah proyeksi pertumbuhan ekonomi global tahun 2023 menjadi 2,7% pada *World Economic Outlook* (WEO) Oktober 2022.

In 2022, the global economy still experienced pressure driven by increasing geopolitical tensions, rising global inflation which triggered aggressive monetary policy, as well as the potential for stagflation, namely the risk of slow economic growth accompanied by high inflation rates. In Europe, the European Central Bank (ECB) also continued to tighten monetary policy by raising its benchmark interest rate by 75 bps to a level of 0.75% in September 2022. The Bank of England (BoE) also raised its benchmark interest rate by 50 bps to level 2 .25% at the Board of Governors' Meeting on 22 September 2022. The BoE also announced that it would begin active sales of securities (quantitative tightening) of GBP 80 billion in stages over the next 12 months. In addition, the BoE also predicted that UK inflation would peak in October 2022 around 11%. In line with the heightened global uncertainties going forward, the IMF revised down its global economic growth projection for 2023 to 2.7% in the October 2022 World Economic Outlook (WEO).

Pertumbuhan ekonomi nasional masih relatif kuat, di tengah ketidakpastian risiko global tersebut. Laju pertumbuhan ekonomi Indonesia diperkirakan akan terus membaik. Sejumlah institusi internasional, termasuk Bank Dunia, IMF, dan Bloomberg, memperkirakan bahwa Indonesia merupakan salah satu perekonomian dengan resiliensi yang relatif baik dibandingkan dengan negara berkembang lainnya. Selain itu, potensi pertumbuhan yang lebih baik di tengah transformasi ekonomi juga akan dapat menopang pertumbuhan ekonomi nasional. Meskipun tidak setinggi perkiraan sebelumnya, dengan masih besarnya potensi dorongan tersebut, pertumbuhan ekonomi nasional di tahun 2023 diperkirakan pada 5,3%.

National economic growth was still relatively strong, amidst the uncertainty of global risks. Indonesia's economic growth rate was expected to continue to improve. A number of international institutions, including the World Bank, IMF and Bloomberg, estimated that Indonesia had an economy with relatively good resilience compared to other developing countries. In addition, the potential for better growth amid economic transformation would also be able to sustain national economic growth. Even though it was not as high as previous estimates, with the large potential for this boost, national economic growth in 2023 was estimated at 5.3%.

Dari sisi perbankan, fungsi intermediasi dari sektor keuangan juga melanjutkan perbaikan secara bertahap. Pertumbuhan kredit hingga Desember 2022 tumbuh sebesar 11,35% (yoy) meningkat dibandingkan tahun sebelumnya yang hanya tumbuh sebesar 5,24% (yoy). Pemulihan intermediasi juga terjadi pada perbankan syariah, dengan pertumbuhan pembiayaan pada Desember 2022 sebesar 20,1% (yoy), lebih tinggi dibandingkan dengan capaian tahun sebelumnya sebesar 6,6% (yoy). Pertumbuhan kredit juga terus berlanjut pada segmen UMKM, khususnya penyaluran Kredit Usaha Rakyat (KUR) yang tumbuh tinggi sebesar 29,66% (yoy). Dari sisi permodalan, kondisi permodalan Bank yang meningkat dan cukup solid menunjukkan kemampuan Bank yang memadai dalam menyerap risiko dengan rasio kecukupan modal (*Capital Adequacy Ratio*/CAR) perbankan pada Desember 2022 tetap

From the banking side, the intermediary function of the financial sector also continued to improve gradually. Loan growth until December 2022 grew by 11.35% (yoy), an increase compared to the previous year which only grew by 5.24% (yoy). Intermediation recovery also occurred in sharia banking, with financing growth in December 2022 of 20.1% (yoy), higher than the previous year's achievement of 6.6% (yoy). Loan growth also continued in the MSME segment, particularly the disbursement of People's Business Loan (KUR), which grew high by 29.66% (yoy). In terms of capital, the condition of the Bank's capital which increased and was quite solid indicated the Bank's adequate ability to absorb risk with the banking Capital Adequacy Ratio (CAR) in December 2022 remaining high at 25.09%. Furthermore, credit risk was recorded to have decreased with the non-performing loans (NPL) ratio of

tinggi yaitu 25,09%. Lebih lanjut, risiko kredit tercatat menurun dengan rasio kredit bermasalah (*Non Performing Loan*/NPL) yakni 2,44% (bruto) 0,71% (neto) pada Desember 2022. Likuiditas perbankan pada Desember 2022 tetap terjaga didukung oleh pertumbuhan Dana Pihak Ketiga (DPK) sebesar 9,01% (yoy).

2.44% (gross) to 0.71% (net) in December 2022. Banking liquidity in December 2022 was maintained supported by growth in Third Parties Funds (TPF) of 9.01% (yoy).

Di tengah kondisi perekonomian tersebut, Direksi mampu menghadapi tantangan dan peluang yang terjadi dengan mencatatkan kinerja yang baik di tahun 2022. Pada tahun 2022, *outstanding* kredit konsumer tumbuh sebesar 4,06% (yoy) dengan *volume* sebesar Rp47,14 triliun. Total DPK tahun 2022 mencapai Rp38,49 triliun, meningkat 4,72% atau Rp1,74 triliun dibandingkan dengan tahun 2021 yang mencapai Rp36,75 triliun.

In the midst of these economic conditions, the Board of Directors was able to face the challenges and opportunities that occurred by recording good performance in 2022. In 2022, outstanding consumer loans grew by 4.06% (yoy) with a volume of IDR47.14 trillion. Total TPF in 2022 reached IDR38.49 trillion, an increase of 4.72% or IDR1.74 trillion compared to 2021 which reached IDR36.75 trillion.

Pada tahun 2022, peningkatan kinerja operasional juga terlihat dari pencapaian jasa layanan bank **bjb**. Premi *bancasssurance* tahun 2022 mencapai Rp27,87 miliar, meningkat sebesar 34,61% dibandingkan tahun 2021 mencapai Rp20,70 miliar. DPK **bjb** Prioritas tahun 2022 sebesar Rp13,47 triliun, meningkat 12,96% dibandingkan dengan tahun 2021 yang sebesar Rp11,92 triliun. Realisasi kinerja *International and Transaction Banking* secara keseluruhan pada tahun 2022 adalah Rp113,51 miliar yang terdiri dari *fee based income* sebesar Rp22,3 miliar dan *interest income* sebesar Rp91,2 miliar. Di sisi lain *volume* transaksi yang dikelola juga mengalami peningkatan sebesar 47,91% dari Rp3,73 triliun di tahun 2021 menjadi Rp5,51 triliun di tahun 2022. Kinerja transaksi *financial institution* mengalami peningkatan sangat signifikan sebesar 94,98% secara Yoy dari tahun 2021. *Outstanding money market* tahun 2022 mencapai Rp11,87 triliun, meningkat 14,92% dibandingkan dengan tahun 2021 sebesar Rp10,33 triliun. Dana Pensiun Lembaga Keuangan bank **bjb** juga mengalami peningkatan. Dana kelolaan DPLK bank **bjb** tahun 2022 mencapai Rp1,15 triliun, meningkat Rp626,83 miliar atau 120,06% dibandingkan tahun 2018 yang mencapai Rp783,01 miliar.

In 2022, an increase in operational performance could also be seen from the achievement of bank **bjb** services. Bancasssurance premiums in 2022 reached IDR27.87 billion, an increase of 34.61% compared to 2021 reaching IDR20.70 billion. TPF of **bjb** Prioritas in 2022 reached IDR13.47 trillion, an increase of 12.96% compared to 2021 which amounted to IDR11.92 trillion. Realization of International and Transaction Banking performance as a whole in 2022 was IDR113.51 billion consisting of fee-based income of IDR22.3 billion and interest income of IDR91.2 billion. On the other hand, the volume of transactions managed also increased by 47.91% from IDR3.73 trillion in 2021 to IDR5.51 trillion in 2022. The performance of financial institution transactions experienced a very significant increase of 94.98% YoY from 2021 The outstanding money market in 2022 reached IDR11.87 trillion, an increase of 14.92% compared to 2021 which reached IDR10.33 trillion. bank **bjb** Financial Institution Pension Fund also experienced an increase. Bank **bjb** Financial Institution Pension Fund managed funds in 2022 reached IDR1.15 trillion, an increase of IDR626.83 billion or 120.06% compared to 2018 which reached IDR783.01 billion.

Pencapaian yang baik juga terlihat dari sisi keuangan. Pendapatan bunga dan syariah meningkat sebesar 3,19% dari sebesar Rp13,21 triliun di tahun 2021 menjadi sebesar Rp13,64 triliun di tahun 2022. Laba tahun berjalan meningkat sebesar 11,23% dari sebesar Rp2,02 triliun di tahun 2021 menjadi sebesar Rp2,25 triliun di tahun 2022.

This good achievement was also seen from a financial perspective. Interest and sharia income increased by 3.19% from IDR13.21 trillion in 2021 to IDR13.64 trillion in 2022. Profit for the year increased by 11.23% from IDR2.02 trillion in 2021 to IDR2.25 trillion in 2022.

Selain kinerja operasional dan keuangan, tingkat kesehatan bank juga menjadi salah satu pertimbangan Dewan Komisaris dalam melakukan penilaian atas kinerja Direksi. Peringkat Komposit Tingkat Kesehatan bank **bjb** posisi 31 Desember 2022 berada pada PK 2 (Sehat). Kondisi bank **bjb** secara umum sehat, sehingga dinilai mampu menghadapi pengaruh negatif yang signifikan dari perubahan kondisi bisnis dan faktor eksternal lainnya. Hal ini tercermin dari peringkat faktor penilaian antara lain profil risiko, penerapan tata kelola, rentabilitas, dan permodalan yang secara umum baik. Dalam hal terdapat kelemahan, maka secara umum kelemahan tersebut kurang signifikan.

In addition to operational and financial performance, the soundness level of the bank was also one of the considerations for the Board of Commissioners in evaluating the performance of the Board of Directors. Bank **bjb** Composite Rating for December 31, 2022 was at CR-2 (General Sound). The condition of bank **bjb** was General Sound, so it was considered capable of facing significant negative influences from changes in business conditions and other external factors. This was reflected in the ranking of assessment factors including risk profile, implementation of good governance, profitability and capital which were generally good. In the event that there were weaknesses, in general these weaknesses were less significant.

Selain itu, pada tahun 2022 bank bjb melaksanakan aksi korporasi penambahan modal melalui skema *right issue* I atau Penambahan Modal dengan Hak Memesan Efek Terlebih Dahulu (PMHMETD). bank **bjb** menerbitkan sebanyak-banyaknya 925.000.000 saham seri B baru dengan nilai nominal Rp250 per saham, dengan harga pelaksanaan sebesar Rp1.355 per lembar saham. Pada bulan Maret 2022 dana berhasil terserap sebesar Rp924.999.591.375 dengan jumlah lembar saham Seri B baru yang diterbitkan sebanyak 682.656.525 lembar saham. bank **bjb** juga melakukan penyertaan Modal ke Bank Bengkulu Tahap I sebesar Rp99,9 miliar dengan kepemilikan 7,15%. Kinerja yang positif lainnya selama tahun 2022 yaitu Peningkatan Rating Pefindo dan Fitch, rating Pefindo 1 Notch menjadi idAA, rating Fitch 1 Notch menjadi AA-.

In addition, in 2022 bank bjb carried out a corporate action to increase capital through the rights issue I scheme or Additional Capital with Pre-emptive Rights (PMHMETD). bank **bjb** issued a maximum of 925,000,000 new series B shares with a nominal value of IDR250 per share, with an exercise price of IDR1,355 per share. In March 2022, IDR924,999,591,375 was successfully absorbed, with 682,656,525 new Series B shares issued. bank **bjb** also made equity participation in Bank Bengkulu Phase I of IDR99.9 billion with 7.15% ownership. Another positive performance during 2022 was the increase in Pefindo and Fitch's ratings, Pefindo's rating of 1 Notch to idAA, Fitch's rating of 1 Notch to AA-.

Pandangan atas Prospek Usaha yang Disusun Direksi

Perekonomian global masih dihadapkan pada ancaman resesi yang mengintai pertumbuhan ekonomi sejumlah negara di dunia. Bahkan Bank Dunia dalam Laporan Juni 2022 memangkas perkiraan pertumbuhan ekonomi global, dan memperingatkan banyak negara jika ekonominya akan terkoreksi. Dilansir dari Laporan Bank Dunia bertajuk *Global Economic Prospect* pada Juni 2022, ekonomi global diperkirakan akan berada di sekitar level 3% pada tahun 2023 hingga 2024 mendatang.

Dari sisi domestik, Bank Indonesia memprakirakan pertumbuhan ekonomi nasional berada di kisaran 4,7%-5,5% pada tahun 2023. Memasuki tahun 2023, Indonesia dihadapkan pada pekerjaan rumah yang harus segera disesuaikan yaitu transisi dari masa pandemi menjadi endemi dan kemampuan mengambil peluang dari tantangan konflik Rusia-Ukraina yang berdampak pada rantai pasokan komoditas. Peluang ekspor komoditas yang mengalami pelarangan oleh negara-negara barat terhadap Rusia dapat menciptakan peluang kenaikan ekspor komoditas seperti gas dan batu bara. Kenaikan tersebut mulai terlihat pada kuartal II tahun 2022 dengan ekspor mampu tumbuh 19,74% (yoy), faktor ini harus mampu dijaga secara *sustain* selama tahun 2023.

Dari sisi perbankan, tidak seragamnya laju pemulihan ekonomi global dan rencana normalisasi kebijakan The Fed memicu isu *tapering* yang menyebabkan potensi kenaikan suku bunga acuan di masa mendatang. Akselerasi pemulihan ekonomi global diikuti juga dengan melonjaknya inflasi di beberapa negara maju serta diperparah dengan ancaman resesi di beberapa negara, telah mendorong bank sentral di beberapa negara mengeluarkan kebijakan yang berpotensi membuat kesalahan dengan penerapan pengetatan moneter terlalu agresif untuk mengendalikan gejolak inflasi. Namun berbeda dengan Indonesia, berbagai bauran kebijakan makro prudensial antara Bank Indonesia dan Pemerintah dalam menahan laju inflasi sampai dengan kuartal II tahun 2022 ini cukup berhasil. Perekonomian nasional yang berangsur-angsur pulih dan *sustain* tersebut memberikan optimisme ekspektasi bagi pelaku ekonomi yang berimbas kepada tren pertumbuhan ekonomi dan tren pertumbuhan kinerja perbankan. Views on The Business Prospects Prepared by The Directors

The global economy still faced the threat of recession which hampered the economic growth of a number of countries in the world. Even the World Bank in its June 2022 Report cut its forecast for global economic growth, and warned many countries that their economy would correct itself. Reporting from the World Bank report entitled Global Economic Prospect in June 2022, the global economy was expected to be around the level of 3% in 2023 to 2024.

From the domestic side, Bank Indonesia predicted that national economic growth would be in the range of 4.7%-5.5% in 2023. Entering 2023, Indonesia is faced with challenges that must be adjusted immediately, namely the transition from a pandemic to endemic and the ability to take opportunities of the challenges of the Russia-Ukraine conflict which had an impact on the commodity supply chain. Opportunities for commodity exports banned by western countries against Russia could create opportunities for increased exports of commodities such as gas and coal. This increase began to be seen in the second quarter of 2022 with exports to grow 19.74% (yoy), this factor must be able to be maintained sustainably throughout 2023.

From the banking side, the uneven pace of global economic recovery and the Fed's policy normalization plans had sparked the issue of tapering, which raised the potential for future benchmark interest rates to rise. Accelerated global economic recovery followed by soaring inflation in several developed countries and exacerbated by the threat of recession in several countries prompted central banks in several countries to issue policies that had the potential to make mistakes by implementing too aggressive monetary tightening to control inflationary shocks. However, in contrast to Indonesia, the various macro-prudential policy mixes between Bank Indonesia and the Government in curbing the inflation rate up to the second quarter of 2022 had been quite successful. The national economy, which gradually recovered and was sustainable, provided optimism for expectations for economic actors which impacted on trends in economic growth and growth trends in banking performance. Banking intermediation in 2023

perbankan di tahun 2023 akan semakin membaik, Otoritas Jasa Keuangan memproyeksikan pertumbuhan kredit sebesar 8,50% dan pertumbuhan dana pihak ketiga sebesar 7,50%.

Setelah mempertimbangkan kondisi perekonomian, Dewan Komisaris berpendapat bahwa prospek usaha yang telah disusun oleh Direksi sudah tepat. Dewan Komisaris berkeyakinan bahwa Perseroan akan dapat memanfaatkan peluang yang ada di antaranya adalah sebagian besar Kantor Cabang bank **bjb** masih menjadi *market nichers* di wilayah operasionalnya sehingga masih memiliki peluang yang cukup besar untuk meningkatkan pangsa pasarnya dari sisi aset, baik DPK maupun kredit. Peluang lainnya yaitu, semakin meningkatnya literasi keuangan masyarakat melalui program yang dicanangkan oleh Bank Indonesia dan Otoritas Jasa Keuangan dalam rangka menerapkan kebijakan keuangan inklusif sebagai suatu bentuk pendalaman layanan keuangan (*financial service deepening*) yang ditujukan kepada masyarakat kelas menengah ke bawah untuk memanfaatkan produk dan jasa keuangan formal. Kegiatan pelaku ekonomi yang cukup tinggi di Provinsi Jawa Barat, Banten dan DKI Jakarta juga merupakan peluang potensi pengembangan perkreditan dan pendanaan. Berbagai proyek pembangunan infrastruktur, termasuk Proyek Strategis Nasional berada di wilayah kerja Jawa Barat dan Banten, sehingga bank **bjb** memiliki kesempatan untuk memaksimalkan penyaluran kredit dan mampu mendorong pertumbuhan ekonomi daerah secara optimal. Dukungan dari Pemerintah Daerah merupakan peluang bagi Perseroan yang secara konsisten dan berkesinambungan dalam mengembangkan bank **bjb** sebagai penggerak dan pendorong laju perekonomian di daerah. Selain itu, potensi yang masih besar dalam pengembangan produk digital juga menjadi peluang Perseroan untuk menyasar segmen ritel dan membangun ekosistem bisnis bank **bjb**. Hal-hal tersebut didukung oleh efektifnya strategi usaha yang telah ditetapkan oleh Direksi.

Pandangan atas Penerapan Tata Kelola Bank

Melalui penerapan *good corporate governance* (GCG) dengan mengacu kepada pedoman dan standar Tata Kelola bank yang berlaku, baik secara nasional dan internasional bank **bjb** memiliki cita-cita untuk menjadi Bank terdepan kebanggaan Indonesia dan pilihan utama masyarakat serta mencapai tujuan jangka panjang yang telah ditetapkan serta senantiasa memberikan kontribusi positif bagi seluruh masyarakat dan Pemangku Kepentingan. bank **bjb** berkomitmen untuk menerapkan prinsip-prinsip GCG dan mengacu kepada beberapa ketentuan yang berlaku serta pedoman-pedoman implementasi GCG yang sesuai dengan *best practice*/standar internasional. bank **bjb** senantiasa menerapkan standar praktik GCG yang tinggi dengan mengacu pada ketentuan OJK dan standar internasional. Dewan Komisaris menyadari pentingnya penerapan GCG di Perseroan, sehingga setiap kegiatan bisnis Perseroan tidak bertentangan dengan peraturan yang menimbulkan pelanggaran hukum.

will get better, the Financial Services Authority projected loan growth of 8.50% and growth of third parties funds of 7.50%.

After considering the economic conditions, the Board of Commissioners was of the opinion that the business prospects prepared by the Directors were appropriate. The Board of Commissioners believed that the Company will be able to take advantage of the opportunities that exist, including most of the bank **bjb** Branch Offices which still became market nichers in their operational areas so that they still had considerable opportunities to increase their market share in terms of assets, both TPF and loans. Another opportunity was the increase of public financial literacy through a program launched by Bank Indonesia and the Financial Services Authority in the framework of implementing inclusive financial policies as a form of financial service deepening aimed at the public at the bottom of the pyramid to take advantage of products and formal financial services. The relatively high activity of economic actors in the provinces of West Java, Banten and Jakarta Special Province also became a potential opportunity for developing loans and funding. Various infrastructure development projects, including the National Strategic Project were in the working areas of West Java and Banten, so that bank **bjb** had the opportunity to maximize lending and to optimally promote regional economic growth. Support from the Regional Government was an opportunity for the Company to consistently and continuously develop bank **bjb** as a driver of the economy in the region. In addition, the still large potential in developing digital products was also an opportunity for the Company to target the retail segment and build a bank **bjb** business ecosystem. These matters were supported by the effective business strategy set by the Board of Directors.

Views on The Implementation of Bank Governance

Through the implementation of good corporate governance (GCG) with reference to the applicable bank governance guidelines and standards, both nationally and internationally bank **bjb** had aspirations to become the leading bank as the pride of Indonesia and the people's first choice and to achieve long-term goals that had been set and made a positive contribution to the whole community and Stakeholders. bank **bjb** committed to implementing GCG principles and referring to several applicable regulations and GCG implementation guidelines in accordance with international best practice/standards. bank **bjb** implemented high GCG practice standards with reference to FSA regulations and international standards. The Board of Commissioners realized the importance of implementing GCG in the Company, so that every business activity of the Company did not conflict with regulations resulting in violations of the law.

Dewan Komisaris berpendapat bahwa Direksi telah menerapkan GCG dengan efektif dan konsisten di 2022. Salah satu isu kunci terkait dengan penerapan GCG adalah penerapan manajemen risiko, penerapan *whistleblowing system* (WBS) serta sistem pengendalian internal. Dewan Komisaris memberikan arahan sejak pengembangan sistem sampai dengan penerapan dan evaluasi pelaksanaannya.

The Board of Commissioners believed that the Board of Directors had implemented GCG effectively and consistently in 2022. One of the key issues related to GCG implementation was the implementation of risk management, the implementation of the whistleblowing system (WBS) and the internal control system. The Board of Commissioners provided direction from the development of the system to the implementation and evaluation of its implementation.

Manajemen Risiko

Perseroan melaksanakan penerapan sistem manajemen risiko berdasarkan 4 (empat) pilar yaitu, Pengawasan aktif Direksi dan Dewan Komisaris, Kecukupan kebijakan, prosedur dan penetapan limit sebagai pedoman penerapan manajemen risiko, Kecukupan proses identifikasi, pengukuran, pemantauan dan pengendalian risiko serta, sistem informasi manajemen serta Sistem pengendalian internal yang menyeluruh. Terkait pengawasan aktif Direksi dan Dewan Komisaris, Direksi secara aktif terlibat dalam *Risk Management Commite (RMC)*, Komite Manajemen Risiko Terintegrasi (KMRT) serta pembentukan Komite dalam struktur Dewan Komisaris seperti Komite Pemantau Risiko (KPR), Komite Audit dan Komite Tata Kelola (KTT).

Risk Management

The Company carried out the implementation of a risk management system based on 4 (four) pillars, namely, Active supervision of the Board of Directors and Board of Commissioners, Adequacy of policies, procedures and setting limits as a guideline for the implementation of risk management, Adequacy of risk identification, measurement, monitoring and control processes as well as management information systems and internal control comprehensive systems. Regarding the active supervision of the Board of Directors and the Board of Commissioners, the Board of Directors was actively involved in the Risk Management Committee (RMC), Integrated Risk Management Committee (KMRT) and the establishment of Committees within the Board of Commissioners structure such as the Risk Monitoring Committee (KPR), Audit Committee and Governance Committee (KTT).

Kecukupan kebijakan, prosedur dan penetapan limit sebagai pedoman penerapan manajemen risiko terlihat dengan dimilikinya kebijakan dan prosedur telah didasarkan pada strategi Manajemen Risiko yang dilengkapi dengan toleransi Risiko dan limit Risiko. Penetapan toleransi Risiko dan limit Risiko dilakukan dengan memperhatikan tingkat Risiko yang akan diambil dan strategi Bank secara keseluruhan. Penerapan Manajemen Risiko yang efektif telah didukung dengan kerangka yang mencakup kebijakan dan prosedur Manajemen Risiko serta limit Risiko yang ditetapkan secara jelas sejalan dengan visi, misi, dan strategi bisnis Bank. Penyusunan kebijakan dan prosedur Manajemen Risiko tersebut dilakukan dengan memperhatikan antara lain: jenis, kompleksitas kegiatan usaha, profil Risiko, *risk appetite dan risk tolerance*, keterkaitan antar Risiko, serta peraturan yang ditetapkan otoritas dan/atau praktik perbankan yang sehat. Selain itu, penerapan kebijakan dan prosedur Manajemen Risiko yang dimiliki Bank harus didukung oleh kecukupan permodalan dan kualitas SDM.

The adequacy of policies, procedures and setting limits as a guideline for the implementation of risk management could be seen by having policies and procedures based on a Risk Management strategy complemented by Risk tolerance and Risk limits. Determination of Risk tolerance and Risk limits was carried out by considering the level of Risk to be taken and the overall strategy of the Bank. Effective implementation of Risk Management was supported by a framework that included Risk Management policies and procedures as well as Risk limits that were clearly defined in line with the Bank's vision, mission and business strategy. The preparation of Risk Management policies and procedures was carried out by considering the type, complexity of business activities, Risk profile, risk appetite and risk tolerance, interrelationships between Risks, as well as regulations stipulated by the authorities and/or sound banking practices. In addition, the implementation of Risk Management policies and procedures owned by the Bank had to be supported by adequate capital and quality human resources.

Kecukupan proses identifikasi, pengukuran, pemantauan dan pengendalian risiko serta sistem informasi manajemen diwujudkan dengan identifikasi risiko yang bersifat proaktif, mencakup seluruh produk dan aktivitas bisnis Bank dan dilakukan dalam rangka menganalis sumber dan kemungkinan timbulnya Risiko serta dampaknya terhadap kelangsungan bisnis Perseroan. Selanjutnya perlu dilakukan pengukuran Risiko yang telah diidentifikasi sesuai dengan karakteristik dan kompleksitas kegiatan usaha Perseroan. Atas hasil pengukuran tersebut perlu dilakukan pemantauan

The adequacy of risk identification, measurement, monitoring and control processes as well as management information systems was realized by proactive risk identification, covering all products and business activities of the Bank and was carried out in order to analyze the sources and possibilities of risks arising and their impact on the continuity of the Company's business. Furthermore, it was necessary to measure the identified risks in accordance with the characteristics and complexity of the Company's business activities. The results of these measurements needed

yang dilakukan oleh *Risk Taking Unit* (RTU) yang berkoordinasi dengan Satuan Kerja Manajemen Risiko (SKMR) selaku pihak yang independen. Selain itu, guna mendukung efektivitas penerapan Manajemen Risiko perlu didukung pula oleh pengendalian risiko dan sistem informasi manajemen risiko yang memadai.

Terkait sistem pengendalian internal yang menyeluruh, proses penerapan Manajemen Risiko yang efektif telah dilengkapi dengan sistem pengendalian internal yang andal. Penerapan sistem pengendalian internal secara efektif dapat membantu pengurus Perseroan menjaga aset Bank, menjamin tersedianya pelaporan keuangan dan manajerial yang dapat dipercaya, meningkatkan kepatuhan Bank terhadap ketentuan dan peraturan perundang-undangan serta mengurangi Risiko terjadinya kerugian, penyimpangan dan pelanggaran aspek kehati-hatian. Terselenggaranya sistem pengendalian internal Bank yang andal dan efektif menjadi tanggung jawab dari seluruh *Risk Taking Unit* dan satuan kerja pendukung serta Satuan Kerja Audit Internal.

Hasil *self-assessment* terhadap peringkat risiko bank **bjb** secara keseluruhan setiap triwulan pada tahun 2022 adalah *Low to Moderate* dengan trend risiko stabil apabila dibandingkan dengan tahun sebelumnya. Hal tersebut mencerminkan kemungkinan kerugian yang dihadapi dari risiko inheren tergolong rendah selama periode waktu tertentu di masa datang dan terkait kualitas penerapan manajemen risiko bank secara komposit memadai, meskipun terdapat kelemahan minor tetapi kelemahan tersebut telah menjadi perhatian manajemen bank.

Direksi dan Dewan Komisaris melalui Komite Pemantau Risiko menilai bahwa kecukupan manajemen risiko telah berjalan memadai yang tercermin hasil *review* atas kelengkapan dan keakuratan identifikasi, pengukuran, pemantauan, pengendalian dan pelaporan risiko, serta atas kecukupan skenario mitigasi yang diusulkan oleh unit kerja operasional telah memadai.

Sistem Pengendalian Internal

Sistem Pengendalian Intern bank **bjb** mengacu pada SEOJK 35/SEOJK.03/2017 tentang Pedoman Sistem Pengendalian Intern Bagi Bank Umum. Pengendalian intern diselenggarakan secara berkesinambungan (*on going basis*) untuk mencapai 3 (tiga) sasaran, yaitu:

1. Mencapai efektivitas dan efisiensi pada setiap aktivitas yang dijalankan oleh Perseroan, mencakup kinerja operasional dan keuangan, serta menjaga dan mengamankan harta kekayaan Perseroan.
2. Menciptakan laporan finansial dan non-finansial bagi pihak internal dan eksternal yang terpercaya, tepat waktu, dan transparan, serta sesuai dengan regulasi dan standar yang berlaku.
3. Menjaga kepatuhan terhadap hukum dan regulasi dalam seluruh aspek aktivitas Perseroan.

to be monitored by the Risk Taking Unit (RTU) in coordination with the Risk Management Unit (SKMR) as an independent party. In addition, in order to support the effectiveness of the implementation of Risk Management, it was also necessary to be supported by adequate risk control and risk management information systems.

Regarding the overall internal control system, the process of implementing effective Risk Management had been complemented by a reliable internal control system. The implementation of an effective internal control system could help the Company's management maintain the Bank's assets, ensure the availability of reliable financial and managerial reporting, increase the Bank's compliance with laws and regulations and reduce the Risk of losses, irregularities and violations of prudential aspects. The implementation of a reliable and effective internal control system of the Bank became the responsibility of all Risk Taking Units and supporting work units as well as the Internal Audit Unit.

The results of the self-assessment of bank **bjb** overall risk rating every quarter in 2022 were Low to Moderate with a stable risk trend when compared to the previous year. This reflected that the possibility of loss from inherent risk was relatively low for a certain period of time in the future and related to the quality of the bank's adequate composite risk management implementation even though there were minor weaknesses; these weaknesses had come to the attention of the bank's management.

The Board of Directors and Board of Commissioners through the Risk Oversight Committee assessed that the adequacy of risk management had been carried out adequately reflected in the results of reviews on the completeness and accuracy of risk identification, measurement, monitoring, control and reporting, as well as on the adequacy of the mitigation scenarios proposed by adequate operational work units.

Internal Control System

bank **bjb** Internal Control System referred to SEOJK 35/SEOJK.03/2017 concerning Guidelines for Internal Control Systems for Commercial Banks. Internal control was carried out on an ongoing basis to achieve 3 (three) objectives, namely:

1. Achieving effectiveness and efficiency in every activity carried out by the Company, including operational and financial performance, as well as maintaining and securing the Company's assets.
2. Creating financial and non-financial reports for internal and external parties that were reliable, timely and transparent, and in accordance with applicable regulations and standards.
3. Maintaining compliance with laws and regulations in all aspects of the Company's activities.

Sistem Pengendalian Internal (SPI) yang efektif merupakan komponen penting dalam manajemen bank **bjb** dan menjadi dasar bagi kegiatan operasional Perseroan yang sehat dan aman. SPI yang efektif dapat membantu Direksi dan Dewan Komisaris menjaga aset bank, menjamin tersedianya pelaporan keuangan dan manajerial yang dapat dipercaya, meningkatkan kepatuhan bank terhadap ketentuan dan peraturan perundang-undangan, serta mengurangi risiko terjadinya kerugian, penyimpangan, dan pelanggaran aspek kehati-hatian.

Kelemahan dalam pengendalian intern, baik yang diidentifikasi oleh satuan kerja operasional (*risk taking unit*), SKAI maupun pihak lainnya, segera dilaporkan dan menjadi perhatian pejabat atau Direksi yang berwenang. Kelemahan pengendalian intern yang material juga dilaporkan kepada Dewan Komisaris. Langkah-langkah perbaikan yang dilakukan Perseroan dalam rangka memperbaiki kelemahan pengendalian intern, antara lain:

1. Perseroan tidak memberikan toleransi terhadap segala bentuk tindakan *Fraud* (*zero tolerance for Fraud*) dan segala bentuk kejahatan perbankan, baik yang dilakukan secara individu atau kelompok serta secara langsung maupun tidak langsung.
2. Setiap laporan mengenai kelemahan dalam pengendalian intern atau tidak efektifnya pengendalian risiko Bank segera ditindaklanjuti oleh Dewan Komisaris, Direksi dan pejabat eksekutif terkait.
3. SKAI melakukan *review* atau langkah pemantauan lainya yang memadai terhadap kelemahan yang terjadi dan segera melaporkan kepada Direktur Utama, Dewan Komisaris dan Komite Audit, dalam hal masih terdapat kelemahan yang belum diperbaiki atau tindakan korektif yang belum ditindaklanjuti.
4. Untuk menentukan bahwa seluruh kelemahan segera ditindaklanjuti maka harus ada kesadaran dari unit terkait untuk segera mengambil langkah perbaikan. Direksi dan Dewan Komisaris harus menerima laporan secara berkala berupa ikhtisar mengenai hasil identifikasi seluruh permasalahan dalam pengendalian intern.

SKAI, Direksi, Dewan Komisaris serta Komite Audit telah melakukan pemantauan terhadap efektivitas keseluruhan pelaksanaan pengendalian intern. SKAI, Direksi, Dewan Komisaris serta Komite Audit memantau dan mengevaluasi kecukupan sistem pengendalian intern berkaitan dengan adanya perubahan kondisi internal dan eksternal serta harus meningkatkan kapasitas sistem pengendalian internal tersebut agar efektivitasnya dapat ditingkatkan. SKAI, Direksi, Dewan Komisaris serta Komite Audit menilai bahwa sistem pengendalian internal telah memadai.

Whistleblowing System

Whistleblowing System (WBS) berperan penting dalam meningkatkan pelaksanaan tata kelola perusahaan yang baik serta merupakan bagian dari pemeliharaan budaya dan kepedulian atas *anti fraud* di jajaran organisasi bank **bjb**. Dalam rangka

An effective Internal Control System (SPI) was an important component in bank **bjb** management and forms the basis for the Company's healthy and safe operational activities. An effective Internal Control System could help the Board of Directors and Board of Commissioners maintain bank assets, ensure the availability of reliable financial and managerial reporting, increase bank compliance with laws and regulations, and reduce the risk of losses, irregularities and violations of prudential aspects.

Weaknesses in internal control, whether identified by the operational work unit (risk taking unit), Internal Audit Work Unit or other parties, were immediately reported and come to the attention of the authorized officer or Board of Directors. Material internal control weaknesses were also reported to the Board of Commissioners. Corrective steps taken by the Company in order to improve internal control weaknesses included among others:

1. The Company did not tolerate all forms of fraud (zero tolerance for fraud) and all forms of banking crimes, whether committed individually or in groups and directly or indirectly.
2. Any reports regarding weaknesses in internal control or ineffectiveness of the Bank's risk controls were immediately followed up by the Board of Commissioners, Directors and relevant executive officers.
3. Internal Audit Work Unit conducted reviews or other adequate monitoring steps on weaknesses that occured and immediately reported to the President Director, the Board of Commissioners and the Audit Committee, in the event that there were still weaknesses that were not corrected or corrective actions that were not followed up.
4. To determine that all weaknesses were immediately followed up, there had to be awareness from the relevant units to immediately take corrective steps. The Board of Directors and Board of Commissioners had to receive periodic reports in the form of a summary of the results of identification of all problems in internal control.

Internal Audit Unit, the Board of Directors, the Board of Commissioners and the Audit Committee monitored the overall effectiveness of internal control implementation. Internal Audit Unit, the Board of Directors, the Board of Commissioners and the Audit Committee monitored and evaluated the adequacy of the internal control system in relation to changes in internal and external conditions and had to increase the capacity of the internal control system so that its effectiveness could be increased. Internal Audit Unit, the Board of Directors, the Board of Commissioners and the Audit Committee considered that the internal control system was adequate.

Whistleblowing System

The Whistleblowing System (WBS) played an important role in improving the implementation of good corporate governance and was part of maintaining a culture and concern for anti-fraud within the bank **bjb** organization. In order to increase the effectiveness

meningkatkan efektivitas penerapan *Good Corporate Governance* melalui peran aktif para pelapor (*whistleblower*) maka Perseroan telah membentuk Sistem Pengaduan Pelanggaran berupa **bjb**WBS (*Whistleblowing System*). Penyampaian laporan kejadian indikasi *fraud* (*whistleblowing*) dapat dilakukan oleh seluruh pihak baik internal maupun eksternal kepada bank **bjb**. Sarana penyampaian laporan pengungkapan kejadian indikasi *fraud* merupakan fasilitas komunikasi yang bersifat independen, bebas dan rahasia, sehingga setiap laporan yang disampaikan akan diterima langsung oleh pengelola *Whistleblowing System*.

Whistleblowing System bank **bjb** dikelola oleh Satuan Kerja Audit Internal yang bertanggung jawab secara langsung kepada Direktur Utama serta memiliki hubungan komunikasi kepada Dewan Komisaris. Dewan Komisaris senantiasa melakukan evaluasi atas efektivitas *whistleblowing system* melalui Komite Audit yang secara berkala menelaah program kerja dan pelaksanaan tugas Satuan Kerja Audit Internal. Dewan Komisaris berpendapat bahwa penerapan *Whistleblowing System* telah diterapkan secara baik pada operasional Perseroan.

Untuk meningkatkan pemahaman mengenai *Whistleblowing System* kepada seluruh tingkatan pegawai, bank **bjb** secara konsisten melakukan presentasi kepada masing-masing unit kerja serta menampilkan materi dalam *screen display* pada *workstation* setiap pegawai. Pada tahun 2022 terdapat 60 (enam puluh) pengaduan melalui *Whistleblowing System*. Selama tahun 2022, bank **bjb** telah berupaya melakukan langkah-langkah sebagai bentuk tindak lanjut penyelesaian tindakan *fraud*, antara lain dengan pemberian sanksi kepegawaian serta upaya hukum dengan melaporkan pelaku *fraud* ke Aparat Penegak Hukum (APH) sebagai bagian dari implementasi program "*Zero Tolerance For Fraud*".

Penilaian Kinerja Komite-Komite di Bawah Dewan Komisaris

Dalam rangka meningkatkan peran Dewan Komisaris dalam menjalankan fungsi pengawasan, Dewan Komisaris telah membentuk 4 (empat) komite yaitu:

1. Komite Audit
2. Komite Nominasi dan Remunerasi
3. Komite Pemantau Risiko
4. Komite Tata Kelola Terintegrasi

Prosedur penilaian kinerja Komite di bawah Dewan Komisaris dilakukan oleh Dewan Komisaris secara periodik yang dilakukan 1 (satu) kali dalam satu tahun setiap akhir tahun buku. Adapun kriteria penilaian kinerja Komite di bawah Dewan Komisaris berdasarkan rapat dan pelaksanaan tugas komite selama tahun buku.

of the implementation of Good Corporate Governance through the active role of whistleblowers, the Company established a Whistleblowing System in the form of **bjb**WBS (Whistleblowing System). All parties, both internal and external, could submit reports on indications of fraud (whistleblowing) to bank **bjb**. The means of submitting reports for disclosing incidents of indications of fraud was a communication facility that was independent, free and confidential, so that each report submitted could be received directly by the Whistleblowing System manager.

Bank **bjb** Whistleblowing System was managed by the Internal Audit Work Unit directly responsible to the Main Director and had a communication relationship with the Board of Commissioners. The Board of Commissioners constantly evaluated the effectiveness of the whistleblowing system through the Audit Committee which regularly reviewed the work program and implementation of the duties of the Internal Audit Work Unit. The Board of Commissioners believed that the implementation of the Whistleblowing System had been well implemented in the Company's operations.

To increase understanding of the Whistleblowing System for all levels of employees, bank **bjb** consistently made presentations to each work unit and displays material on a screen display at each employee's workstation. In 2022 there were 60 (sixty) complaints through the Whistleblowing System. During 2022, bank **bjb** attempted to take steps as a form of follow-up to the settlement of fraud, including by imposing employment sanctions and legal remedies by reporting fraud perpetrators to Law Enforcement Officials (APH) as part of the implementation of the "Zero Tolerance For Fraud" program.

Performance Assessment of Committees Under The Board of Commissioners

In order to enhance the role of the Board of Commissioners in carrying out the supervisory function, the Board of Commissioners formed 4 (four) committees namely:

1. Audit Committee
2. Nomination and Remuneration Committee
3. Risk Monitoring Committee
4. Integrated Governance Committee

The procedure for evaluating the performance of Committees under the Board of Commissioners was carried out by the Board of Commissioners periodically which was carried out 1 (one) time in a year at the end of the financial year. The criteria for assessing the performance of the Committees under the Board of Commissioners were based on meetings and implementation of committee duties during the financial year.

Komite Audit memiliki tugas dan tanggung jawab untuk membantu Dewan Komisaris melakukan pengawasan atas efektivitas sistem pengendalian internal, internal audit dan proses pelaporan keuangan. Sepanjang tahun 2022, Komite Audit telah melaksanakan rapat sebanyak 16 (enam belas) kali dan telah menjalankan tugas dan tanggungjawabnya dengan baik.

The Audit Committee had duties and responsibilities to assist the Board of Commissioners in supervising the effectiveness of the internal control system, internal audit and financial reporting process. Throughout 2022, the Audit Committee held 16 (sixteen) meetings and carried out its duties and responsibilities properly.

Komite Nominasi dan Remunerasi berfungsi untuk membantu Dewan Komisaris dalam melaksanakan fungsi dan tugasnya di bidang yang berkaitan dengan nominasi dan remunerasi terhadap anggota Direksi dan Dewan Komisaris. Sepanjang tahun 2022, Komite Nominasi dan Remunerasi telah melaksanakan rapat sebanyak 13 (tiga belas) kali dan telah menjalankan tugas dan tanggungjawabnya dengan baik.

The Nomination and Remuneration Committee functioned to assist the Board of Commissioners in carrying out its functions and duties in areas related to the nomination and remuneration of members of the Board of Directors and Board of Commissioners. Throughout 2022, the Nomination and Remuneration Committee held 13 (thirteen) meetings and carried out its duties and responsibilities properly.

Komite Pemantau Risiko berfungsi untuk membantu Dewan Komisaris dalam memonitor risiko dan menilai toleransi risiko yang dapat diambil oleh Bank, mengevaluasi perbaikan yang dilakukan atas kebijakan, prosedur dan praktik manajemen risiko Bank guna memastikan telah dilakukannya pengelolaan risiko dengan baik. Sepanjang tahun 2022, Komite Pemantau Risiko telah melaksanakan rapat sebanyak 8 (delapan) kali dan telah menjalankan tugas dan tanggungjawabnya dengan baik.

The Risk Monitoring Committee functioned to assist the Board of Commissioners in monitoring risk and assessing the risk tolerance that could be taken by the Bank, evaluating improvements made to the Bank's risk management policies, procedures and practices to ensure proper risk management had been carried out. Throughout 2022, the Risk Monitoring Committee held 8 (eight) meetings and carried out its duties and responsibilities properly.

Komite Tata Kelola Terintegrasi berfungsi untuk membantu Dewan Komisaris dalam melakukan pengawasan terhadap pelaksanaan tata kelola terintegrasi bagi Lembaga Jasa Keuangan dalam konglomerasi keuangan bank **bjb**. Sepanjang tahun 2022, Komite Tata Kelola Terintegrasi telah melaksanakan rapat sebanyak 6 (Enam) kali dan telah menjalankan tugas dan tanggungjawabnya dengan baik.

The Integrated Governance Committee functioned to assist the Board of Commissioners in supervising the implementation of integrated governance for Financial Services Institutions within the bank **bjb** financial conglomerate. Throughout 2022, the Integrated Governance Committee held 6 (six) meetings and carried out its duties and responsibilities properly.

bank bjb

Logo Perseroan memiliki makna Jangkauan Pelayanan, dalam perspektif sekunder berarti sayap yang terbang untuk kemajuan. Bentuk sayap pada logo bank **bjb** melambangkan lengan yang menjangkau jauh untuk memberikan pelayanan yang terbaik kepada nasabah, *shareholder* dan seluruh masyarakat. Sedangkan penggunaan huruf pada *logotype* merupakan pengembangan bentuk dari huruf Alte Haas Grothesk.

bank **bjb** logo has the meaning of Service Outreach, in a secondary perspective it means wings that fly to progress. The wing shape on the bank **bjb** logo symbolizes the far reaching arm to provide the best service to customers, shareholders and the entire community. While the use of letters on the logotype is the development of the shape of the letters Alte Haas Grothesk.

Pemilihan nama bank **bjb** hadir sebagai akronim dari Bank Jabar Banten menggambarkan sifat kesederhanaan dan sifat modern masyarakat di mana bank **bjb** akan berbakti. Nama ini menggambarkan transformasi bank **bjb** untuk menjadi lebih efektif dan profesional dalam melayani seluruh lapisan masyarakat dari Sabang sampai Merauke.

The selection of the name bank **bjb** was present as an acronym for Bank Jabar Banten describing the simplicity and modern nature of the society in which the bank **bjb** will serve. This name describes the transformation of the bank **bjb** to be more effective and professional in serving all levels of society from Sabang to Merauke.

Brand Personality bank **bjb** menggambarkan sosok institusi finansial perbankan yang cekatan, sigap dan terampil dalam setiap tindakan maupun interaksi, baik dengan *shareholder*, nasabah maupun dengan masyarakat pada umumnya. Selain itu, juga menunjukkan sosok institusi finansial yang membumi, akrab, ingin selalu dekat dengan masyarakat, *shareholder* dan nasabahnya. Sehingga dalam proses operasional hari ke hari, sifat ini menjadi nafas dalam setiap tindakan. Serta, menampilkan sosok sebuah institusi finansial yang mapan, memiliki fondasi yang kuat dan dengan demikian tampak penuh percaya diri dalam menghadapi persaingan, menjadi pemain teratas dalam industri maupun dalam proses pelayanan dengan nasabah.

bank **bjb** Brand Personality describes the figure of a bank financial institution that is dexterous, alert and skilled in every action and interaction, both with shareholders, customers and the community in general. In addition, it also shows the figure of a financial institution that is grounded, familiar, wants to always be close to the community, shareholders and customers. So that in the operational process day to day, this trait becomes a breath in every action. And, displaying the figure of an established financial institution, has a strong foundation and thus appears confident in the face of competition, becomes the top player in the industry and in the process of service with customers.

Riwayat Singkat Perusahaan
Company Brief History

PT Bank Pembangunan Daerah Jawa Barat dan Banten Tbk (selanjutnya disebut "bank bjb" atau Perseroan) didirikan berdasarkan Peraturan Pemerintah No. 33 Tahun 1960 tentang penentuan perusahaan milik Belanda di Indonesia yang dikenakan nasionalisasi.

PT Bank Pembangunan Daerah Jawa Barat dan Banten, Tbk. (from now on referred to as "bank **bjb**" or the Company) was established based on Government Regulation No. 33 of 1960 concerning the determination of Dutch-owned companies in Indonesia subject to nationalization.

Salah satu perusahaan milik Belanda yang berkedudukan di Bandung yaitu N.V Denis (*De Eerste Nederlandsche Indische Shareholding*) terkena ketentuan tersebut dan diarahkan kepada Pemerintah Daerah Provinsi Daerah Tingkat I Jawa Barat. Bank telah mulai beroperasi secara komersial pada tanggal 20 Mei 1961.

Sebagai tindak lanjut dari peraturan Pemerintah No. 33 tahun 1960, Pemerintah daerah Tingkat Provinsi I Jawa Barat mendirikan Bank Karja Pembangunan dengan Akta Notaris Noezar No. 152 tanggal 21 Maret 1961 dan No. 184 tanggal 13 Mei 1961 yang kemudian dikukuhkan dengan surat Keputusan Gubernur Provinsi Jawa Barat No. 7/GKDN/BPD/61 tanggal 20 Mei 1961 dengan nama PT Bank Karja Pembangunan Daerah Djawa Barat. Berdasarkan Peraturan Daerah Provinsi DJawa Barat No. 11/PD/DPRD/72 tanggal 27 Juni 1972, kedudukan hukum PT Bank Karja Pembangunan Daerah Djawa Barat diubah menjadi PD Bank Karja Pembangunan Daerah Djawa Barat. Nama PD Bank Karja Pembangunan Daerah Jawa Barat selanjutnya diubah menjadi Bank Pembangunan Daerah Jawa Barat (BPD Jabar) sesuai Perda Provinsi Jawa Barat Nomor 1/DP-040/PD/1978 Tanggal 27 Juni 1978. Pada tahun 1992 sesuai dengan Surat Keputusan Bank Indonesia No. 25/84/KEP/DIR tanggal 2 November 1992 status BPD Jabar meningkat menjadi bank umum devisa. Berdasarkan Peraturan Daerah No. 11 Tahun 1995, BPD Jabar memiliki sebutan Bank Jabar dengan logo baru.

Berdasarkan Peraturan Daerah Provinsi Daerah Tingkat I Jawa Barat No.22 Tahun 1998 tanggal 14 Desember 1998 tentang Perubahan Bentuk Hukum Bank Pembangunan Daerah Jawa Barat dari Perusahaan Daerah (PD) menjadi Perseroan Terbatas (PT). Perda tersebut dituangkan lebih lanjut pada Akta Pendirian Nomor 4 Tanggal 8 April 1999 juncto Akta Perbaikan

One of the Dutch-owned companies based in Bandung, namely N.V Denis (De Eerste Nederlandsche Indische Shareholding), is affected by this provision and directed to the Regional Government of the Provincial Level Region of West Java. The bank began its commercial operation on May 20, 1961.

As a follow up to Government Regulation No. 33 of 1960, the Regional Government of the Provincial Level I of West Java established the Development Work Bank with Noezar Notarial Deed No. 152 March 21, 1961 and No. 184 dated May 13, 1961 which was then confirmed by the Decree of the Governor of West Java Province No. 7/GKDN/BPD/61 dated May 20, 1961 under the name of PT Bank Karya Pembangunan Daerah Djawa Barat. Based on the Regional Regulation of West Java Province No. 11/PD/DPRD/72 dated June 27, 1972, the legal position of PT Bank Karya Pembangunan Daerah in West Java was changed to PD Bank Karja Pembangunan Jawa Barat. The name PD Karja Pembangunan Jawa Barat is subsequently changed to West Java BPD according to West Java Provincial Regulation Number 1/DP-040/PD/1978 dated June 27, 1978. In 1992 according to Bank Indonesia Decree No.25/84/KEP/DIR on November 2, 1992 the status of the West Java BPD increased to a foreign exchange commercial bank. Based on Regional Regulation No. 11 of 1995, West Java BPD has the name Bank Jabar with a new logo.

Based on the Regional Regulation of the Provincial Level I West Java No.22 of 1998 dated December 14, 1998 concerning the Changing the Legal Form of the West Java Regional Development Bank from a Regional Company (PD) to a Limited Liability Company (PT). The Regional Regulation was further outlined in Deed of Establishment Number 4 dated on April

Nomor 8 Tanggal 15 April 1999. Keduanya dibuat di hadapan Popy Kuntari Sutresna, S.H., Notaris di Bandung yang telah memperoleh pengesahan Menteri Kehakiman RI berdasarkan Surat Keputusan No. C2-7103.HT.01.01.TH.99 tanggal 16 April 1999, didaftarkan dalam Daftar Perusahaan di Kantor Pendaftaran Perusahaan Kab/ Kodya Bandung di bawah No. 871/BH.10.11/IV/99 tanggal 24 April 1999, serta telah diumumkan dalam Berita Negara Republik Indonesia No.39 tanggal 14 Mei 1999, Tambahan No. 2811, bentuk hukum Bank Jabar diubah dari Perusahaan Daerah (PD) menjadi Perseroan Terbatas (PT).

8, 1999 juncto Deed of Amendment Number 8 dated April 15, 1999. Both of them were made before Popy Kuntari Sutresna, SH, a Notary in Bandung who had been approved by the Minister of Justice of the Republic of Indonesia based on Decree No.C2-7103.HT.01.01.TH.99 dated April 16, 1999, was registered in the Company Register at the Bandung District/Kodya Company Registration Office under No.871/BH.10.11/IV/99 dated April 24, 1999, and was announced in the News Negara Republik Indonesia No.39 dated May 14, 1999, Supplement No.2811 the legal form of Bank Jabar was changed from a Regional Company (PD) to a Limited Liability Company (PT).

Untuk memenuhi meningkatnya kebutuhan masyarakat akan jasa layanan perbankan yang berlandaskan syariah, sesuai dengan izin Bank Indonesia No. 2/18/DpG/DPIP Tanggal 12 April 2000 maka sejak tanggal 15 April 2000 Bank Jabar menjadi BPD pertama di Indonesia yang menjalankan *dual banking system*, yaitu memberikan layanan perbankan dengan sistem konvensional dan sistem syariah.

To meet the increasing needs of the community for sharia-based banking services, in accordance with BI license Number 2/18/DpG/DPIP on April 12, 2000, since April 15, 2000 Bank Jabar became the first BPD in Indonesia to run a dual banking system, namely providing banking services with conventional and sharia systems.

Berdasarkan Rapat Umum Pemegang Saham (RUPS) tanggal 16 April 2001 menyetujui peningkatan modal dasar Bank Jabar menjadi Rp1 triliun. Selanjutnya, berdasarkan hasil keputusan Rapat Umum Pemegang Saham (RUPS) yang diselenggarakan pada tanggal 14 April 2004 berdasarkan Akta No. 10 Tanggal 14 April 2004, modal dasar Bank Jabar dinaikkan dari Rp1 triliun menjadi Rp2 triliun. Melihat perkembangan prospek usaha yang terus membaik, hasil RUPS tanggal 5 April 2006 menetapkan kenaikan modal dasar Bank Jabar dari Rp2 triliun menjadi Rp4 triliun.

Based on the General Meeting of Shareholders (GMS) on April 16, 2001, the bank approved an increase in authorized capital of Bank Jabar to IDR1 trillion. Furthermore, based on the results of the GMS decision held on April 14, 2004 based on Deed No. 10 dated April 14, 2004, the authorized capital of Bank Jabar was increased from IDR1 trillion to IDR2 trillion. By seeing the development of business prospects which continues to improve, the results of the Annual GMS on April 5, 2006 set an increase in the authorized capital of Bank Jabar from IDR2 trillion to IDR4 trillion.

Pada bulan November 2007, sebagai tindak lanjut SK Gubernur BI No. 9/63/kep.gbi/2007 tentang Perubahan Izin Usaha Atas Nama PT Bank Pembangunan Daerah Jawa Barat Menjadi Izin Usaha Atas Nama PT Bank Pembangunan Daerah Jawa Barat dan Banten, dilaksanakan penggantian *call name* dari "Bank Jabar" menjadi "Bank Jabar Banten".

Sehubungan dengan kegiatan usaha perbankan syariah, Bank Jabar Banten melakukan pemisahan (*spin off*) unit usaha syariah menjadi bank syariah dengan nama PT Bank Jabar Banten Syariah. Berdasarkan Akta Pendirian Perseroan Terbatas, PT Bank Jabar Banten Syariah No.4 tanggal 15 Januari 2010, dibuat oleh Fathiah Helmi, S.H., Notaris di Jakarta, bank **bjb** memiliki penyertaan sebanyak 1.980.000.000 (satu miliar sembilan ratus delapan puluh juta) saham yang merupakan 99% (sembilan puluh sembilan persen) dari seluruh saham yang telah ditempatkan dan disetor penuh dalam Anak Perusahaan. PT Bank Jabar Banten Syariah memperoleh izin usaha dari Bank Indonesia sesuai dengan Keputusan Gubernur Bank Indonesia No.12/35/KEP.GBI/2010 tanggal 30 April 2010 Tentang Pemberian Izin Usaha PT Bank Jabar Banten Syariah.

Seiring dengan perkembangan jaringan kantor yang lebih luas maka berdasarkan Hasil Rapat Umum Pemegang Saham Luar Biasa PT Bank Pembangunan Jawa Barat dan Banten No. 26 tanggal 21 April 2010 dan sesuai Surat Bank Indonesia No. 12/78/APBU/Bd tanggal 30 Juni 2010 perihal Rencana Perubahan Logo Bank serta Surat Keputusan Nomor 1337/SK/DI(R-PPN/2010 tanggal 5 Juli 2010 tentang Perubahan Logo dan Penyebutan Nama Serta Pemberlakuan *Brand Identity Guidelines*, maka pada tanggal 8 Agustus 2010 nama "Bank Jabar Banten" resmi berubah menjadi "bank **bjb**". Pada 8 Juli 2010 bank Bank Jabar Banten mencatatkan saham perdananya (IPO) di Bursa Efek Indonesia dengan kode saham BJBR. Pada Tahun 2021 bank **bjb** memiliki Perusahaan Efek Daerah Pertama. Di Tahun yang sama bank **bjb** menjadi Perusahaan Konglomerasi.

In November 2007, as a follow-up to the Decree of the Governor of BI No. 9/63/kep.gbi/2007 concerning the change of business license on behalf of PT Bank Pembangunan Daerah Jawa Barat to become a business license on behalf of PT Bank Pembangunan Daerah Jawa Barat dan Banten, the call name was changed from "Bank Jabar" to "Bank Jabar Banten"

In connection with sharia banking business activities, Bank Jabar Banten spin off sharia business units into Islamic banks under the name PT Bank Jabar Banten Syariah. Based on the Deed of Establishment of a Limited Liability Company, PT Bank Jabar Banten Syariah No.4 on January 15, 2010, made by Fathiah Helmi, SH, Notary in Jakarta, bank **bjb** has an investment of 1,980,000,000 (one billion nine hundred eighty million) shares which constitute 99% (ninety nine percent) of all shares that have been placed and fully paid in the Subsidiary. Bank Jabar Banten Syariah obtained a business license from Bank Indonesia in accordance with the Decree of the Governor of Bank Indonesia No.12/35/KEP.GBI/2010 dated April 30, 2010 concerning the Granting of a Business License of PT Bank Jabar Banten Syariah.

Along with the development of a wider office network, based on the Results of the Extraordinary General Meeting of Shareholders, PT Bank Pembangunan Jawa Barat dan Banten Number 26 dated April 21, 2010 and in accordance with Bank Indonesia Letter No. 12/78/APBU/Bd dated June 30, 2010 concerning the Plan for Changing the Bank Logo and Decree Number 1337/SK/DI (R-PPN/2010 dated July 5, 2010 concerning Change of Logo and Mention of Names and Enforcement of Brand Identity Guidelines, then on August 8, 2010 the name "Bank Jabar Banten" officially changed to "bank **bjb**". On July 8, 2010 Bank Jabar Banten bank listed its initial shares (IPO) on the Indonesia Stock Exchange with the stock code BJBR. In 2021 bank **bjb** has the First Regional Securities Company. In the same year bank **bjb** became a conglomerate company.

Perubahan Komposisi Anggota Dewan Komisaris dan Alasan Perubahannya

Selama tahun 2022, telah terjadi perubahan komposisi anggota Dewan Komisaris sebagaimana penjelasan berikut:

Komposisi Dewan Komisaris Sebelum RUPS Tahunan 2021

Komposisi Dewan Komisaris sebelum RUPS Tahunan 2021 sebanyak 3 (tiga) orang yang terdiri dari 1 (satu) orang Komisaris Utama Independen, 1 (satu) orang Komisaris Independen dan 1 (satu) orang Komisaris. Seluruh Dewan Komisaris berdomisili di wilayah kerja Kantor bank **bjb**. Komposisi dan dasar pengangkatan Dewan Komisaris dapat dilihat pada tabel di bawah ini.

Composition and Reasons Changes of Members of The Board of Commissioners

During 2022, there has been a change in the composition of the members of the Board of Commissioners as explained below:

Composition of The Board of Commissioners Before The 2021 Annual GMS

The composition of the Board of Commissioners before the 2021 Annual GMS was 3 (three) people consisting of 1 (one) Independent Main Commissioner, 1 (one) Independent Commissioner and 1 (one) Commissioner. The entire Board of Commissioners was domiciled in the working area of the bank **bjb** office. The composition and basis for the appointment of the Board of Commissioners can be seen in the table below.

Komposisi Dewan Komisaris Setelah RUPS Tahunan 2021

Berdasarkan Akta Pernyataan Keputusan RUPST No. 154 tanggal 30 Maret 2022, anggota Dewan Komisaris berjumlah 6 (enam) orang yang terdiri dari 1 (satu) Komisaris Utama Independen, 3 (tiga) Komisaris Independen, dan 2 (dua) Komisaris.

Dari 6 (enam) anggota Dewan Komisaris, 1 (satu) Komisaris Independen tidak mendapatkan persetujuan dari Otoritas Jasa Keuangan (OJK) melalui surat OJK No. SR-191/PB.12/2022 tanggal 26 Agustus 2022, sehingga jumlah anggota Dewan Komisaris yang efektif menjabat adalah 5 (lima) orang yang terdiri dari 1 (satu) Komisaris Utama Independen, 2 (dua) Komisaris dan 2 (dua) Komisaris Independen. Sehingga Komposisi Dewan Komisaris yang efektif menjabat pada 31 Desember 2022 adalah sebagai berikut:

Composition of The Board of Commissioners After The 2021 Annual GMS

Based on the Deed of Statement of AGMS No. 154 dated March 30, 2022, there are 6 (six) members of the Board of Commissioners consisting of 1 (one) Independent President Commissioner, 3 (three) Independent Commissioners, and 2 (two) Commissioners.

Of the 6 (six) members of the Board of Commissioners, 1 (one) Independent Commissioner did not obtain approval from the Financial Services Authority (OJK) through OJK letter No. SR-191/PB.12/2022 dated August 26, 2022, so the number of members of the Board of Commissioners who effectively serve is 5 (five) people consisting of 1 (one) Independent President Commissioner, 2 (two) Commissioners and 2 (two) Commissioners Independent. So that the composition of the Board of Commissioners who effectively took office on December 31, 2022 is as follows:

Tinjauan Perekonomian
Economic Review

Analisis Perekonomian Global

Tekanan terhadap perekonomian global pada tahun 2022 masih berlanjut didorong oleh peningkatan tensi geopolitik yang tidak hanya terjadi antara Rusia dan Ukraina tetapi juga antara Tiongkok dan Taiwan, kenaikan inflasi global yang memicu agresifnya kebijakan moneter, serta potensi stagflasi yaitu risiko lambatnya pertumbuhan ekonomi yang dibarengi dengan laju inflasi yang tinggi. Risiko stagflasi diperkirakan dapat terjadi pada tahun 2023 didorong oleh kenaikan suku bunga acuan secara global yang berdampak pada melemahnya konsumsi dan investasi.

Global Economic Analysis

Pressure on the global economy in 2022 continued to be driven by increasing geopolitical tensions that did not only occur between Russia and Ukraine but also between China and Taiwan, rising global inflation which triggered aggressive monetary policy, as well as the potential for stagflation, namely the risk of slowing economic growth coupled with the high inflation. The risk of stagflation was expected to occur in 2023 driven by the increase in global benchmark interest rates which would have an impact on weakening consumption and investment.

Terkait upaya pengendalian inflasi global, bank-bank sentral utama dunia masih melanjutkan pengetatan kebijakan moneternya. Peningkatan suku bunga acuan secara global dilakukan untuk memerangi tingkat inflasi yang tinggi dan cenderung meningkat. The Fed bahkan semakin agresif menaikkan suku bunga acuannya. Sepanjang Triwulan III-2022, The Fed menaikkan *Fed Fund Rate* (FFR) sebesar 150 bps, masing-masing sebesar 75 bps pada Federal Open Market Committee (FOMC) *Meeting* Juli 2022 dan FOMC *Meeting* September 2022.

Di Eropa, European Central Bank (ECB) juga masih melanjutkan pengetatan kebijakan moneter dengan menaikkan suku bunga acuan sebesar 75 bps ke level 0,75% pada September 2022. Bank of England (BoE) juga menaikkan suku bunga acuannya sebesar 50 bps ke level 2,25% pada Rapat Dewan Gubernur 22 September 2022. BoE juga mengumumkan akan memulai penjualan aktif surat berharga *(quantitative tightening)* sebesar GBP 80 miliar secara bertahap dalam 12 bulan ke depan. Selain itu, BoE juga memperkirakan inflasi Inggris akan mencapai puncaknya pada Oktober 2022 di kisaran 11%. Seiring dengan tingginya berbagai ketidakpastian global ke depan, IMF merevisi ke bawah proyeksi pertumbuhan ekonomi global tahun 2023 menjadi 2,7% pada *World Economic Outlook* (WEO) Oktober 2022.

Sumber:
International Monetery Fund (IMF), World Economic Outlook (WEO) Oktober 2022.

Regarding efforts to control global inflation, the world's major central banks continued to tighten their monetary policies. The increase in global benchmark interest rates was carried out to combat high inflation rates and tends to increase. The Fed was even more aggressive in raising its benchmark interest rate. Throughout the third quarter of 2022, the Fed raised the Fed Fund Rate (FFR) by 150 bps, each by 75 bps at the Federal Open Market Committee (FOMC) Meeting in July 2022 and the FOMC Meeting in September 2022.

In Europe, the European Central Bank (ECB) also continued to tighten monetary policy by raising its benchmark interest rate by 75 bps to a level of 0.75% in September 2022. The Bank of England (BoE) also raised its benchmark interest rate by 50 bps to level 2 .25% at the Board of Governors' Meeting on September 22, 2022. The BoE also announced that it would begin active sales of securities (quantitative tightening) of GBP 80 billion in stages over the next 12 months. In addition, the BoE also predicted that UK inflation would peak in October 2022 around 11%. In line with the heightened global uncertainties going forward, the IMF revised down its 2023 global economic growth projection to 2.7% in the October 2022 World Economic Outlook (WEO).

Analisis Perekonomian Nasional

Di tengah pertumbuhan ekonomi dunia yang masih belum sepenuhnya membaik, pertumbuhan ekonomi Indonesia pada Triwulan IV-2022 tercatat tinggi sebesar 5,01% (yoy), jauh meningkat dari capaian tahun sebelumnya sebesar 3,70% (yoy). Dari sisi pengeluaran, seluruh komponen pengeluaran tumbuh kecuali Konsumsi Pemerintah yang mengalami kontraksi pada Triwulan IV-2022. Sebagai penyumbang utama dari Produk Domestik Bruto (PDB)

National Economic Analysis

In the midst of world economic growth that is still not fully improved, Indonesia's economic growth in the fourth quarter of 2022 was recorded at 5.01% (yoy), much increased from the previous year's achievement of 3.70% (yoy). From the expenditure side, all expenditure components grew except for Government Consumption which contracted in Quarter IV-2022. The main components of the Gross Domestic Product (GDP) by expenditure

menurut komponen pengeluaran, konsumsi rumah tangga dan Pembentukan Modal Tetap Bruto (PMTB) tumbuh positif. Komponen ekspor impor mengalami pertumbuhan tinggi. Ekspor didorong oleh *windfall* komoditas unggulan. Sementara peningkatan impor didorong kenaikan impor barang modal dan bahan baku.

component, household consumption and Gross Fixed Capital Formation (PMTB) grew positively. The export-import component experienced high growth. Exports were driven by a windfall of superior commodities. Meanwhile, the increase in imports was driven by increases in imports of capital goods and raw materials.

Dari sisi lapangan usaha pada Triwulan IV-2022 seluruh *leading sector* yaitu industri, perdagangan, pertambangan, pertanian, dan konstruksi melanjutkan tren positif dan tumbuh mengesankan. Lapangan usaha dengan pertumbuhan tertinggi adalah transportasi pergudangan serta akomodasi makan minum yang didorong oleh peningkatan mobilitas masyarakat serta peningkatan kunjungan wisatawan mancanegara dan wisatawan nusantara.

In terms of business fields, in Quarter IV-2022 all leading sectors, namely industry, trade, mining, agriculture, and construction, continued a positive trend and grew impressively. The business fields with the highest growth were Transportation, Warehousing and food and beverage accommodation, which were driven by increased community mobility and increased visits of foreign tourists and domestic tourists.

Untuk tahun 2023, secara agregat pertumbuhan ekonomi diperkirakan masih relatif kuat, di tengah ketidakpastian risiko global. Tensi geopolitik yang tinggi di tahun 2022 diperkirakan masih menyimpan risiko pada laju pertumbuhan ekonomi global di tahun 2023. Selain itu, tingginya tingkat inflasi yang berkepanjangan dan diiringi dengan pengetatan kebijakan moneter juga masih berpotensi menciptakan stagflasi perekonomian dunia.

For 2023, in aggregate, economic growth was expected to remain relatively strong, amidst the uncertainty of global risks. High geopolitical tensions in 2022 were expected to pose risks to the pace of global economic growth in 2023. In addition, prolonged high inflation rates accompanied by tightening monetary policy also have the potential to create stagflation in the world economy.

Laju pertumbuhan ekonomi Indonesia diperkirakan akan terus membaik. Sejumlah institusi internasional, termasuk Bank Dunia, IMF, dan Bloomberg, memperkirakan bahwa Indonesia merupakan salah satu perekonomian dengan resiliensi yang relatif baik dibandingkan dengan negara berkembang lainnya. Selain itu, potensi pertumbuhan yang lebih baik di tengah transformasi ekonomi juga akan dapat menopang pertumbuhan ekonomi nasional. Meskipun tidak setinggi perkiraan sebelumnya, dengan masih besarnya potensi dorongan tersebut, pertumbuhan ekonomi nasional di tahun 2023 diperkirakan pada 5,3%.

Indonesia's economic growth rate was expected to continue to improve. A number of international institutions, including the World Bank, IMF and Bloomberg, estimated that Indonesia was an economy with relatively good resilience compared to other developing countries. In addition, the potential for better growth amid economic transformation was also able to sustain national economic growth. Even though it was not as high as previous estimates, with the large potential for this boost, national economic growth in 2023 was estimated at 5.3%.

Analisis Industri Perbankan

Rapat Dewan Gubernur (RDG) Bank Indonesia pada 21-22 Desember 2022 memutuskan untuk menaikkan BI 7-*Day Reverse Repo Rate* (BI7DRR) sebesar 25 bps menjadi 5,50%, suku bunga D*eposit facility* sebesar 25 bps menjadi 4,75%, dan suku bunga *lending facility* sebesar 25 bps menjadi 6,25%. Keputusan kenaikan suku bunga yang lebih terukur tersebut sebagai langkah lanjutan untuk secara *front loaded, pre-emptive*, dan *forward looking* memastikan terus berlanjutnya penurunan ekspektasi inflasi dan inflasi sehingga inflasi inti tetap terjaga dalam kisaran 3,0±1%. Kebijakan stabilisasi nilai tukar Rupiah terus diperkuat untuk mengendalikan inflasi barang impor (*imported inflation*) di samping untuk memitigasi dampak rambatan dari masih kuatnya dolar AS dan masih tingginya ketidakpastian pasar keuangan global.

Banking Industry Analysis

The Bank Indonesia Board of Governors' Meeting (RDG) on December 21-22, 2022 decided to increase the BI 7-Day Reverse Repo Rate (BI7DRR) by 25 bps to 5.50%, the deposit facility rate by 25 bps to 4.75%, and lending facility interest rate by 25 bps to 6.25%. The decision to increase interest rates in a more measured manner was a follow-up step for a front-loaded, pre-emptive and forward-looking manner to ensure the continued decline in inflation and inflation expectations so that core inflation was maintained within the range of 3.0 ± 1%. The Rupiah exchange rate stabilization policy continued to be strengthened to control imported inflation in addition to mitigating the spillover impact of the continued strength of the US dollar and high uncertainty on global financial markets.

Fungsi intermediasi dari sektor keuangan juga melanjutkan perbaikan secara bertahap. Pertumbuhan kredit hingga Desember 2022 tumbuh sebesar 11,35% (yoy) meningkat dibandingkan tahun sebelumnya yang hanya tumbuh sebesar 5,24% (yoy) dikarenakan penyaluran kredit yang terbatas akibat Covid-19. Peningkatan pertumbuhan kredit terjadi merata pada seluruh sektor ekonomi dan seluruh jenis kredit terutama Kredit Investasi dan Kredit Modal Kerja. Pemulihan intermediasi juga terjadi pada perbankan syariah, dengan pertumbuhan pembiayaan pada Desember 2022 sebesar 20,1% (yoy), lebih tinggi dibandingkan dengan capaian tahun sebelumnya sebesar 6,6% (yoy). Di segmen UMKM, pertumbuhan kredit juga terus berlanjut, khususnya penyaluran Kredit Usaha Rakyat (KUR) yang tumbuh tinggi sebesar 29,66% (yoy). Perbaikan intermediasi perbankan didukung sisi penawaran kredit sejalan likuiditas perbankan yang memadai dan standar penyaluran kredit/pembiayaan yang longgar. Permintaan kredit juga meningkat sejalan kinerja korporasi dan konsumsi rumah tangga yang membaik yang mendorong kenaikan permintaan pembiayaan.

The intermediary function of the financial sector also continued to improve gradually. Loan growth until December 2022 grew by 11.35% (yoy), an increase compared to the previous year which only grew by 5.24% (yoy) due to limited loan distribution due to Covid-19. The increase in loan growth occurred evenly in all economic sectors and all types of loans, especially Investment Loans and Working Capital Loans. Intermediation recovery also occurred in sharia banking, with financing growth in December 2022 of 20.1% (yoy), higher than the previous year's achievement of 6.6% (yoy). In the MSME segment, loan growth also continued, particularly the disbursement of People's Business Loan (KUR), which grew high by 29.66% (yoy). Improvements in banking intermediation are supported by the supply side of loans in line with adequate banking liquidity and loose loan/financing standards. Demand for loans also increased in line with improved corporate performance and household consumption which boosted demand for financing.

Dari sisi permodalan, kondisi permodalan Bank yang meningkat dan cukup solid menunjukkan kemampuan Bank yang memadai dalam menyerap risiko dengan rasio kecukupan modal *(Capital Adequacy Ratio*/CAR*)* perbankan pada Desember 2022 tetap tinggi yaitu 25,09%. Lebih lanjut, risiko kredit tercatat menurun dengan rasio kredit bermasalah *(Non Performing Loan*/NPL*)* yakni 2,44% (bruto) dan 0,71% (neto) pada Desember 2022.

In terms of capital, the condition of the Bank's capital which has increased and is quite solid showed the Bank's adequate ability to absorb risk with the banking Capital Adequacy Ratio (CAR) in December 2022 remaining high at 25.09%. Furthermore, loan risk was recorded to have decreased with a non-performing loan (NPL) ratio of 2.44% (gross) and 0.71% (net) in December 2022.

Likuiditas perbankan pada Desember 2022 tetap terjaga didukung oleh pertumbuhan Dana Pihak Ketiga (DPK) sebesar 9,01% (yoy). Hasil simulasi *stress test* Bank Indonesia menunjukkan bahwa ketahanan perbankan masih terjaga. Bank Indonesia akan terus memperkuat sinergi dengan Komite Stabilitas Sistem Keuangan (KSSK) dalam memitigasi berbagai risiko makroekonomi domestik dan global yang dapat mengganggu ketahanan sistem keuangan.

Banking liquidity in December 2022 was maintained supported by growth in Third Parties Funds of 9.01% (yoy). The results of Bank Indonesia's stress test simulation showed that banking resilience was still maintained. Bank Indonesia continued to strengthen synergies with the Financial System Stability Committee (KSSK) in mitigating various domestic and global macroeconomic risks that could undermine financial system resilience.

Pada Desember 2022, rasio Alat Likuid terhadap Dana Pihak Ketiga (AL/DPK) tetap tinggi, mencapai 31,20% dan meningkat dari bulan sebelumnya yang tercatat sebesar 30,42%, sehingga mendukung ketersediaan dana bagi perbankan untuk penyaluran kredit/pembiayaan bagi dunia usaha. Hal ini sejalan dengan *stance* kebijakan likuiditas yang akomodatif oleh Bank Indonesia.

In December 2022, the ratio of Liquid Assets to Third Parties Funds remained high, reaching 31.20% and increased from the previous month which was recorded at 30.42%, thus supporting the availability of funds for banks to distribute loan/financing to the world business. This was in line with the accommodative liquidity policy stance by Bank Indonesia.

Faktor Pendukung dan Penghambat Bisnis Kredit Konsumer

1. **Faktor Pendukung**
   a. Jumlah populasi Aparatur Sipil Negara (ASN) yang akan memasuki masa pensiun mengalami kenaikan setiap tahunnya dan ini menjadi peluang bagi bank **bjb** untuk meningkatkan portofolio kredit, khususnya *market share* produk **bjb** Kredit Pra Purna Bhakti (**bjb** KPPB).
   b. Beberapa tahun terakhir, Pemerintah membuka penerimaan Pegawai Pemerintah dengan Perjanjian Kerja (PPPK). Hal ini tentunya menjadi pendukung meningkatnya portofolio Kredit Konsumer, khususnya **bjb** KGB.
   c. Kebijakan dari regulator berupa Gerakan Nasional Non Tunai (GNNT), khususnya di wilayah Jawa Barat, terimplementasikan dengan dibayarkannya gaji ASN secara langsung ke masing-masing rekening gaji pegawai. Hal ini memudahkan bank **bjb** sebagai bank penyalur gaji mayoritas ASN di Jawa Barat untuk melakukan pemotongan gaji guna pembayaran angsuran kredit.
   d. Penyerapan jumlah ASN yang sudah menjadi debitur adalah sebesar 62%. Hal ini menunjukkan bahwa masih terdapat potensi peningkatan portofolio Kredit Konsumer melalui optimalisasi penyerapan ASN, khususnya di Jawa Barat dan Banten.
2. **Faktor Penghambat**
   Munculnya Covid-19 pada akhir Tahun 2019 yang telah dinyatakan sebagai *global pandemic* oleh *World Heatlh Organization* (WHO), hingga berakhirnya tahun 2022 penyebarannya masih cukup fluktuatif. Hal ini cukup berdampak terhadap aktivitas pemasaran Kredit Konsumer. Kebijakan *Work From Home* (WFH) yang diberlakukan pemerintah dan diimplementasikan pada dinas/instansi yang merupakan *captive market* menyebabkan kurang optimalnya penyaluran Kredit Konsumer.

Supporting and Inhibiting Factors in Consumer Loan Business

1. **Supporting Factors**
   a. The total population of State Civil Servants (ASN) who were about to enter retirement increased every year and this was an opportunity for bank **bjb** to increase its loan portfolio, especially the market share of the product **bjb** Kredit Pra Purna Bhakti (**bjb** KPPB).
   b. In recent years, the Government opened the acceptance of Candidates for Civil Servants (CPNS), both for Central and Regional Civil Servants. This certainly supported the increase in the consumer and retail loan portfolio, especially **bjb** KGB
   c. The regulator's policy in the form of the National Non Cash Movement (GNNT), especially in the West Java region, was implemented by paying ASN salaries directly to each employee's salary account. This made it easier for bank **bjb** as the bank that distributed the majority of ASN salaries in West Java to make salary deductions for payment of loan installments.
   d. Absorption of the number of Civil Government who had become debtors is 62%. This showed that there was still potential for an increase in the Consumer Loans portfolio through optimizing the absorption of Civil Government, particularly in West Java and Banten.
2. **Inhibiting Factors**
   The emergence of Coronavirus Disease 2019 (Covid-19) at the end of 2019 which has been declared a global pandemic by the World Heatlh Organization (WHO), until the end of 2022 its spread is still quite volatile. This has quite an impact on consumer loan marketing activities. The Work From Home (WFH) policy imposed by the government and implemented in agencies/agencies that are captive markets has resulted in less than optimal distribution of consumer loan.

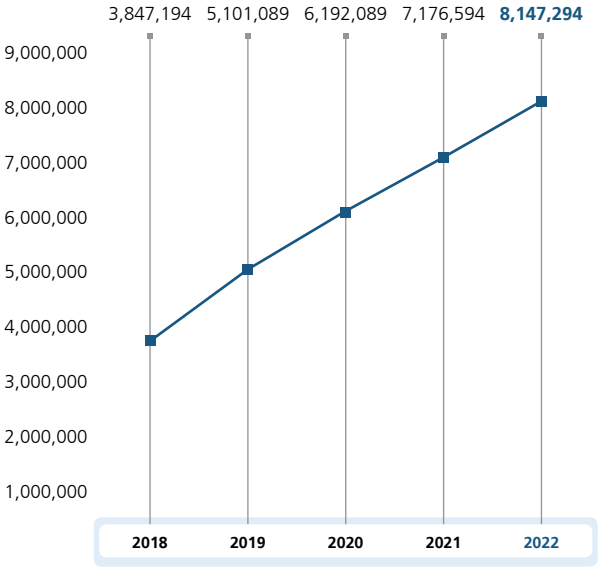
Berdasarkan data *net growth* di atas, dari periode tahun 2018 – 2022 kredit ritel tumbuh sebesar Rp8,36 triliun. Adapun *net growth* tertinggi berada pada produk **bjb** KPB Taspen sebesar Rp5,39 triliun kemudian produk **bjb** KGB Pola 3 yang memiliki angka *net growth* tertinggi kedua dengan pertumbuhan sebesar Rp1,04 Triliun. Sedangkan angka *negative growth* tertinggi berada pada produk **bjb** Channeling Sulut sebesar Rp127,30 miliar.



Produk Unggulan Kredit Ritel

Produk unggulan **bjb** KPB Taspen yang diberikan kepada pensiunan yang manfaat pensiunnya telah disalurkan melalui bank **bjb**. Adapun untuk produk **bjb** KGB Pola 2 bagi pegawai aktif saat ini Divisi Kredit Ritel fokus penyaluran kredit kepada Anggota TNI, BUMN dan ASN Vertikal. Dapat kami informasikan data perkembangan produk dimaksud pada tabel berikut:

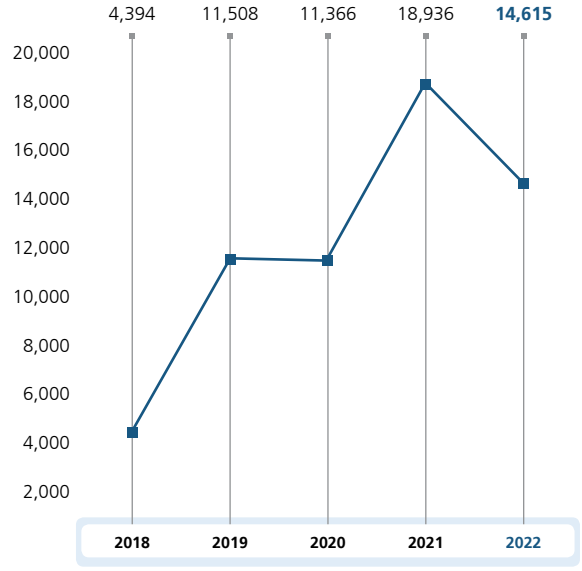
a. **Produk bjb KPB Taspen**

Outstanding bjb KGB

(dalam juta Rupiah / in IDR million)

Secara signifikan produk **bjb** KPB Taspen mengalami pertumbuhan positif selama 5 (lima) tahun terakhir (2018-2022) dengan total pertumbuhan sebesar Rp4,30 triliun. Pada tahun 2022, produk **bjb** KPB Taspen membukukan pertumbuhan sebesar Rp970,69 miliar. Dalam perspektif kualitas kredit, **bjb** KPB Taspen juga mengalami kenaikan absolut NPL, dari semula Rp4,39 miliar pada tahun 2018 menjadi Rp14,62 miliar tahun 2022. Pada tahun 2021 mencetak absolut NPL tertinggi dalam 5 (lima) tahun terakhir dikarenakan meningkatnya klaim meninggal dunia akibat pandemi Covid-19.

Based on the net growth data above, from the 2018 – 2022 period, retail loans grew by IDR8.36 trillion. The highest net growth was in the **bjb** KPB Taspen product of IDR5.39 trillion, followed by the **bjb** KGB Pattern 3 product which had the second highest net growth figure with growth of IDR1.04 trillion. Meanwhile, the highest negative growth figure was in the North Sulawesi Channeling **bjb** product of IDR127.30 billion.



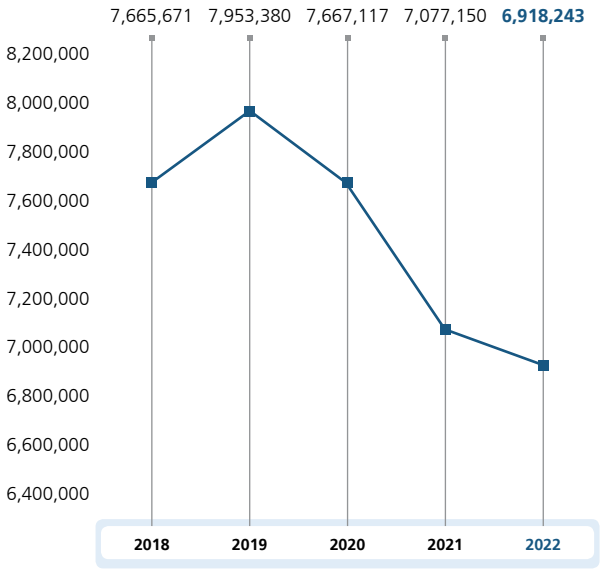
Retail Loan Featured Products

The superior product of **bjb** KPB Taspen given to retirees whose retirement benefits had been channeled through bank **bjb**. As for **bjb** KGB Pattern 2 products for active employees, currently the Retail Loan Division focused on channeling loan to Members of the Armies, SOEs and Vertical Civil Servants. The information of the product development data referred to can be seen in the following figure:

a. **bjb KPB Taspen Product**

Absolute NPL bjb KGB

(dalam juta Rupiah / in IDR million)



Significantly **bjb** KPB Taspen products experienced positive growth over the last 5 (five) years (2018-2022) with a total growth of IDR4.30 trillion. In 2022, KPB Taspen's **bjb** products recorded a growth of IDR970.69 billion. In the perspective of loan quality, **bjb** KPB Taspen also experienced an increase in absolute NPL, from IDR4.39 billion in 2018 to IDR14.62 billion in 2022. In 2021 it recorded the highest absolute NPL in the last 5 (five) years due to increased death claims due to the Covid-19 pandemic.

b. **Produk bjb KGB Pola 2**

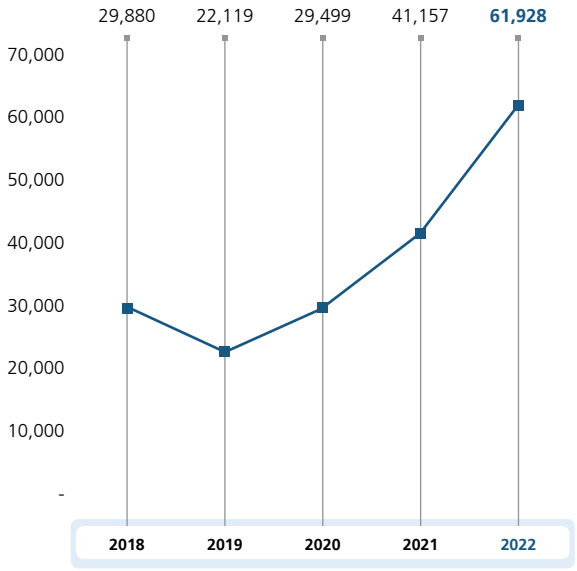
Outstanding bjb KGB Pola 2

Outstanding **bjb** KGB Pattern 2

(dalam juta Rupiah / in IDR million)

Dalam 5 (lima) tahun terakhir, perkembangan **bjb** KGB Pola 2 mengalami kenaikan pada tahun 2019 dengan rata-rata *net growth* sebesar Rp287,7 miliar. Namun pada tahun 2020, 2021 dan 2022 produk tersebut mengalami pertumbuhan negatif. Pemberlakuan Gerakan Nasional Non Tunai (GNNT) pada setiap Pemerintah Daerah menyebabkan gaji debitur *non payroll*, khususnya ASN Daerah di luar wilayah Jawa Barat dan Banten telah disalurkan secara otomatis melalui Sistem Informasi Pembangunan Daerah (SIPD), gaji di *transfer* langsung dari kas daerah ke rekening gaji masing-masing ASN.

Sehingga bendahara/juru bayar tidak dapat melakukan pemotongan langsung atas gaji/tunjangan debitur untuk pembayaran angsuran secara kolektif. Dampak dari kebijakan tersebut juga berimplikasi pada dilakukannya penyaluran kredit secara selektif kepada *target market* tersebut, dan menyebabkan menurunnya ekspansi kredit. Selain berdampak terhadap pertumbuhan, kebijakan tersebut juga mengakibatkan kenaikan absolut NPL **bjb** KGB Pola 2 yang signifikan pada 5 (lima) tahun terakhir dari angka Rp29,88 miliar menjadi Rp61,93 miliar.



Merespon hal tersebut, Divisi Kredit Ritel berupaya melakukan *shifting* (pengalihan) *target market* **bjb** KGB Pola 2 kepada anggota TNI, seiring dengan telah dilaksanakannya Perjanjian Kerjasama (PKS) penyaluran kredit secara Nasional dengan Markas Besar (Mabes) TNI, TNI AD serta TNI AU pada Oktober dan November 2022. Diharapkan dengan dilaksanakan kerjasama tersebut, potensi anggota TNI yang tinggi dapat memberikan kontribusi positif terhadap pertumbuhan **bjb** KGB Pola 2 yang berkualitas.

b. **bjb KGB Pattern 2 Product**

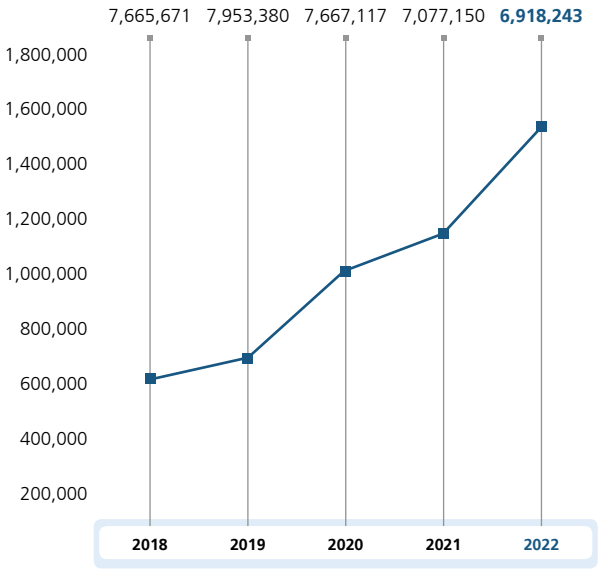
Absolute NPL bjb KGB Pola 2

Absolute NPL **bjb** KGB Pattern 2

(dalam juta Rupiah / in IDR million)

In the last 5 (five) years, the development of **bjb** KGB Pattern 2 has increased in 2019 with an average net growth of IDR287.7 billion. However, in 2020, 2021 and 2022 these products experienced negative growth. The implementation of the Non-Cash National Movement (GNNT) in each Regional Government caused non-payroll debtor salaries, especially Regional Civil servants outside the West Java and Banten regions, to channel automatically through the Regional Development Information System (SIPD); salaries were transferred directly from the regional Treasury to the account salary for each civil servant.

Hence, the treasurer/payer could not make direct deductions from debtors' salaries/allowances for collective installment payments. The impact of this policy also had implications for selective lending to the target market, and caused a decline in loan expansion. Apart from having an impact on growth, this policy also resulted in a significant increase in absolute NPL **bjb** KGB Pattern 2 in the last 5 (five) years from IDR29.88 billion to IDR61.93 billion.



Responding to this, the Retail Loan Division attempted to shift the target market of **bjb** KGB Pattern 2 to members of the Armies, in line with the implementation of the National Loan Distribution Cooperation Agreement (PKS) with the Headquarters (Mabes) of the Indonesian National Army, Indonesain National Military – Land Force and Indonesian National Military – Air Force in October and November 2022. It was expected that by carrying out this collaboration, the high potential of Armies members could make a positive contribution to the quality growth of **bjb** KGB Pattern 2.

c. **Produk bjb KGB Pola 3**

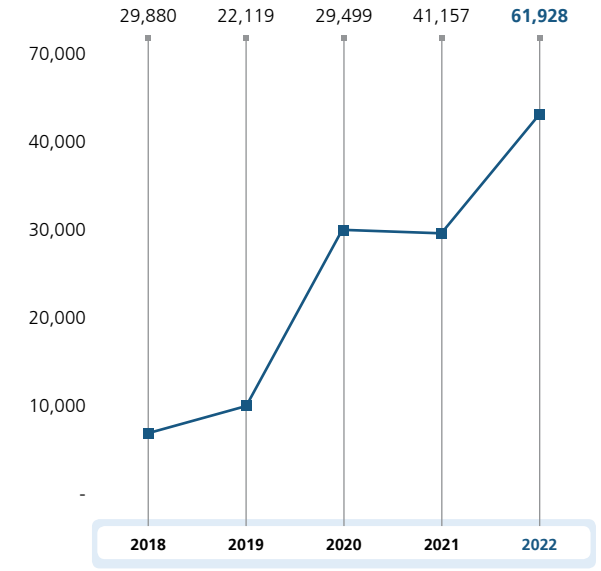
Outstanding bjb KGB Pola 3

Outstanding **bjb** KGB Pattern 3

(dalam juta Rupiah / in IDR million)

Produk Divisi Kredit Ritel untuk target *market* pegawai aktif yang memiliki tren pertumbuhan positif pada 5 (lima) tahun terakhir adalah **bjb** KGB Pola 3. Produk tersebut memberikan fasilitas kredit konsumtif kepada pegawai swasta, yayasan, dana pensiun, pegawai non tetap instansi pemerintah dan perangkat desa.

Pada tahun 2022 produk **bjb** KGB Pola 3 berhasil mencatat pertumbuhan bersih sebesar Rp382,81 miliar yang sebagian besar berasal dari realisasi kredit kepada perangkat desa Rp181 miliar dan Tenaga Alih Daya (TAD) internal bank **bjb** Rp91 miliar. Produk **bjb** KGB Pola 3 merupakan produk dengan pertumbuhan bersih tertinggi kedua pada Divisi Kredit Ritel setelah **bjb** KPB Taspen.



Seiring dengan pertumbuhan OS, absolut NPL **bjb** KGB Pola 3 juga mengalami peningkatan dari semula Rp3,29 miliar pada tahun 2018 menjadi Rp10,66 miliar pada 2022. Pergerakan absolut NPL **bjb** KGB Pola 3 pada tahun 2022 mengalami kenaikan sebesar Rp2,77 miliar sebagian besar disebabkan oleh debitur yang terdampak kebijakan PHK massal di beberapa perusahaan.

c. **bjb KGB Pattern 3 Product**

Absolute NPL bjb KGB Pola 3

Absolute NPL **bjb** KGB Pattern 3

(dalam juta Rupiah / in IDR million)

The product of the Retail Loan Division for the target market of active employees who had a positive growth trend in the last 5 (five) years was **bjb** KGB Pattern 3. This product provided consumer loan facilities to private employees, foundations, pension funds, non-permanent employees of government agencies and village officials.

In 2022 the **bjb** KGB Pattern 3 product managed to record a net growth of IDR382.81 billion, most of which came from loan realization to village officials of IDR181 billion and bank **bjb** internal outsourced personnel (TAD) of IDR91 billion. The **bjb** KGB Pattern 3 product was the product with the second highest net growth in the Retail Loan Division after **bjb** KPB Taspen.

Along with OS growth, the absolute NPL **bjb** KGB Pattern 3 also increased from IDR3.29 billion in 2018 to IDR10.66 billion in 2022. The absolute movement of NPL **bjb** KGB Pattern 3 in 2022 increased by IDR2.77 billion, mostly caused by debtors affected by mass layoff policies in several companies.

Faktor Pendukung dan Penghambat Bisnis Kredit Ritel

1. Faktor Pendukung
   a. Suku Bunga dan fitur produk Kredit Ritel yang kompetitif.
   b. Memiliki produk dan layanan yang dapat menjawab kebutuhan *customer* sesuai dengan *life stages*.
   c. Terdapat program-program pemasaran untuk *referral marketing*.
   d. Banyak terdapat program *cashback* dan hadiah lainnya untuk debitur baru dan debitur eksisting yang mengajukan perpanjangan/*top up* kredit.
   e. Memiliki tenaga kerja yang berpengalaman di bidang kredit konsumtif.
   f. Terdapat program pemberdayaan bagi debitur baik pegawai aktif maupun pensiunan dalam bentuk kemitraan usaha dan edukasi literasi keuangan.
2. Faktor Penghambat
   a. Terdapat proteksi dari masing-masing BPD di luar Jawa Barat dan Banten yang menyebabkan akses Bendahara Keuangan terhadap pemotongan gaji Debitur untuk pembayaran angsuran menjadi hilang dan berimplikasi terhadap penyempitan segmen *market* **bjb** Kredit Guna Bhakti (KGB) Pola 2.
   b. Jaringan Kantor bank **bjb** di daerah di luar Jawa Barat dan Banten masih minim.

Perkembangan Bisnis atau Kinerja

Beberapa fokus pada perkembangan bisnis dan kinerja Kredit Ritel pada tahun 2023 adalah:

1. Fokus terhadap *captive market* yang masih memiliki risiko yang terukur seperti Anggota TNI, ASN Vertikal, Pegawai BUMN/Swasta dan Pensiunan.
2. Inisiasi Perjanjian Kerjasama (PKS) secara Nasional.
3. Optimalisasi strategi *account solution* dalam rangka pengembangan kerjasama bisnis penyaluran kredit ritel secara nasional (PKS Nasional dengan beberapa *Holding Company*).

Rencana dan Strategi Kredit Ritel Tahun 2023

Uraian Rencana dan Strategi Kredit Ritel yang akan dilakukan pada tahun 2023 adalah sebagai berikut:

4. Implementasi penyaluran produk **bjb** PayLater.
5. Program *marketing* khusus mitra strategis misalnya untuk *Holding Company* dan PKS Nasional.

Supporting and Inhibiting Factors for Retail Loan Business

1. Supporting Factors
   a. Competitive Interest Rates and Retail Loan product features.
   b. Having products and services that could answer customer needs according to life stages.
   c. There were marketing programs for referral marketing.
   d. There were many cashback programs and other prizes for new debtors and existing debtors who apply for loan extensions/top-ups.
   e. Having an experienced workforce in the field of consumer loan.
   f. There was an empowerment program for debtors, both active and retired employees, in the form of business partnerships and financial literacy education.
2. Inhibiting Factors
   a. There was protection from each BPD outside West Java and Banten which caused the Financial Treasurer's access to deductions from Debtor salaries for installment payments to be lost and had implications for narrowing the market segment **bjb** Kredit Guna Bhakti (KGB) Pattern 2.
   b. The network of bank **bjb** offices in areas outside West Java and Banten was still minimal.

Business Development or Performance

Several focuses on business development and Retail Loan performance in 2023 are:

1. Focusing on captive markets that still have measurable risks such as Members of the Indonesian Armies, Vertical Civil Servants, SOEs/Private Employees and Pensioners.
2. Initiation of National Cooperation Agreement (PKS).
3. Optimizing the account solution strategy in the framework of developing national retail loan distribution business cooperation (National PKS with several Holding Companies).

Retail Loan Plans and Strategies for 2023

The description of the Retail Loan Plan and Strategy to be carried out in 2023 is as follows:

Produk unggulan Divisi Komersial selama 5 (lima) tahun terakhir berdasarkan data tersebut di atas dengan posisi tahun 2022 adalah Kredit Modal Kerja Umum, Kredit Modal Kerja Kontrak (KMKK), Kredit Modal Kerja BPR, Kredit Modal Kerja Umum dan KMK Kepada Koperasi (Penerus Pinjaman). Adapun uraian kenaikan/penurunan produk Kredit Komersial yaitu sebagai berikut:

- Kredit *cash collateral* mengalami pertumbuhan yang signifikan dalam 5 (lima) tahun terakhir dari Rp109,83 miliar naik menjadi Rp2,47 triliun atau 21 kali lipat.
- KMKK (A03) dalam 5 (lima) tahun terakhir mengalami penurunan hingga 25,46% dari posisi tahun 2018 sebesar Rp3,23 triliun dan tahun 2022 menjadi Rp2,41 triliun, namun hal ini merupakan upaya Divisi Komersial dalam menumbuhkan kredit yang sehat, sebagai informasi yang perlu diketahui bahwa penyumbang *absolute Net Performance Loan* (NPL) posisi tahun 2022 sebesar 60% berasal dari KMKK khususnya kontruksi
- Kredit Modal Kerja BPR selama 5 (lima) tahun terakhir mengalami fluktuatif, dengan tren pada tahun 2019 hingga 2021 terdapat penurunan terutama di tahun 2020 hingga 2021 yang kita ketahui menjadi tahun pandemi Covid-19 sehingga dalam kinerja dan ekspansinya pada saat itu di samping melakukan restrukturisasi kepada debitur yang mengalami penurunan kinerja serta melakukan filter analisis yang lebih mendalam dan berhati-hati untuk menjaga pertumbuhan segmen Kredit Modal Kerja BPR agar tetap sehat, namun secara yoy (2021 – 2022) mengalami peningkatan 3,38%.
- KMKU mengalami pertumbuhan yang baik dari posisi tahun 2018 sebesar Rp1,09 triliun dan tahun 2022 menjadi Rp2,15 triliun atau secara presentase naik 96,41% sehingga hal ini menjadi momentum yang baik serta sejalan dengan rencana manajemen dalam menumbuhkan kredit yang produktif dan sehat.
- KMK Kepada Koperasi selama 5 (lima) tahun terakhir cenderung menurun, terutama di tahun 2020 hingga 2021 yang kita ketahui menjadi tahun pandemi Covid-19 sehingga dalam kinerja dan ekspansinya pada saat itu di samping melakukan restrukturisasi kepada debitur yang mengalami penurunan kinerja serta melakukan filter analisis yang lebih mendalam dan berhati-hati agar menjaga portofolio segmen KMK Kepada Koperasi tetap sehat.

The superior products of the Commercial Division for the last 5 (five) years based on the above data with the position of 2022 were General Working Capital Loans, Contract Working Capital Loans (KMKK), Rural Bank Working Capital Loans, General Working Capital Loans and KMK to Cooperatives (Loan Successor). The description of the increase/decrease in Commercial Loan products is as follows:

- Cash collateral loans experienced significant growth in the last 5 (five) years from IDR109.83 billion, up to IDR2.47 trillion or 21 times.
- KMKK (A03) in the last 5 (five) years decreased by 25.46% from the position in 2018 of IDR3.23 trillion and in 2022 to IDR2.41 trillion, but this was an effort by the Commercial Division to grow healthy loans, as information that needed to be known that contributors to the absolute Net Performance Loan (NPL) position in 2022 of 60% came from KMKK especially construction
- Rural Bank Working Capital Loans for the last 5 (five) years fluctuated, with a trend in 2019 to 2021 there was a decline, especially in 2020 to 2021 as the year of the Covid-19 pandemic so that in terms of performance and expansion at that time, in addition to restructuring the debtors who experienced a decline in performance and carry out a more in-depth and careful analysis filter to maintain the growth of the BPR Working Capital Loan segment to remain healthy, but on a yoy basis (2021 - 2022) it increased 3.38%.

- KMKU experienced good growth from its position in 2018 of IDR1.09 trillion and in 2022 to IDR2.15 trillion or a percentage increase of 96.41%, so this was good momentum and in line with management's plan to grow productive and healthy loans.
- Working Capital Loans for Cooperatives for the past 5 (five) years tended to decline, especially in 2020 to 2021 as the year of the Covid-19 pandemic so that in terms of performance and expansion at that time, in addition to restructuring debtors who experienced decreased performance and carried out filter analysis more in-depth and careful way to keep the KMK segment portfolio for Cooperatives healthy.

In addition, bank **bjb** also launched a digital-based financial recording application, namely the Complete Accounting Record Application (CAKAP) for MSME players.

Advantages of MSME Loan Services

The description of the advantages of MSME loan services is as follows:

1. **PESAT**

   Program Pemberdayaan Ekonomi Masyarakat Terpadu (PESAT) was a business actor empowerment program for both the community and MSME loan debtors. This program had been running since 2015 under the MSME Credit Division. This program aimed to improve the competence of business actors and opportunities for developing business capacity. In 2022 there were several developments in the PESAT program, namely:

   a. **Development of the Number of Centers**

      Also in 2022, in November to be precise, the MSME Center for Regional Office 5 had operated with the PESAT

program PESAT, dengan alamat kantor layanan di Cabang Surabaya. Sentra UMKM ini akan melayani program pemberdayaan bagi pelaku UMKM di seluruh jejaring kantor Cabang di area kerja Kantor Wilayah 5 yang tersebar di provinsi; Jawa Tengah, Jawa Timur, Bali, Kalimantan, dan Sulawesi. Hadirnya Sentra UMKM Wilayah 5 telah menambah jumlah keseluruhan Sentra UMKM menjadi 6 (enam) kantor, sebelumnya telah berjalan lima Sentra UMKM yaitu; Sentra Bandung Raya, Sentra Pakuan, Sentra Cirebon, Sentra Priangan Timur dan Sentra Banten.

b. **Penambahan kegiatan pada Pilar Program PESAT KAPASITAS USAHA**

Semula pembelajaran dilakukan dengan daring dan media *digital*, seiring dengan perkembangan kebijakan telah dimulai beberapa kelas secara *offline*. Jangkauan penyelenggaraan kelas tidak hanya di Jawa Barat dan Banten, namun juga masuk ke DKI Jakarta, Jawa Timur, dan Jawa Tengah melalui Kerjasama Kantor Cabang bank **bjb** dengan pemerintah daerah setempat. Pesat juga mengirimkan bulletin *Digital* kepada para debitur. Pada Pilar ini juga, dimulai kegiatan pemberian kesempatan kurasi ekspor untuk debitur UMKM yang memiliki potensi dan kapasitas produksi yang memadai. Kurasi ekspor ini bekerjasama dengan *Indonesia in your hand* sebagai Lembaga perantara ekspor dan pemilik *storage* atau gudang produk Indonesia di Australia dan Eropa. Di samping itu juga bekerjasama dengan REDEF Foundation dan Business Indonesia Singapore Association (BISA).

program, with the service office address at the Surabaya Branch. This MSME center served empowerment programs for MSME actors throughout the network of branch offices in the work area of Regional Office 5 which were spread across the province; Central Java, East Java, Bali, Kalimantan and Sulawesi. The presence of Region 5 MSME Centers increased the total number of MSME Centers to 6 (six) offices. Previously, there were five MSME Centers, namely; Bandung Raya Center, Pakuan Center, Cirebon Center, East Priangan Center and Banten Center.

b. **Adding activities to the PESAT Program Pillar Business Capacity**

Initially, learning was carried out online and digital media, along with policy developments, several offline classes were started. The scope of class implementation was not only in West Java and Banten, but also in DKI Jakarta, East Java, and Central Java through bank **bjb** Branch Office Cooperation with the local government. Pesat also sent Digital bulletins to debtors. Also in this Pillar, activities were initiated to provide export curation opportunities for MSME debtors who had sufficient potential and production capacity. This export curation collaborates with Indonesia in your hand as an export intermediary institution and owner of storage or warehouse for Indonesian products in Australia and Europe. In addition, it also collaborated with the REDEF Foundation and the Business Indonesia Singapore Association (BISA).

c. **Pilar Program PESAT *GO DIGITAL***

Satu dari tiga pilar program PESAT mengalami perubahan, yaitu Pilar Pesat Sehat Sejahtera menjadi Pilar *Go Digital*. Perubahan ini didasarkan bahwa program pada pilar sebelumnya dapat diakomodir dalam kegiatan Pilar PESAT Kapasitas Usaha, melalui media buletin berupa artikel kesehatan popular. Untuk meningkatkan

c. **PESAT GO DIGITAL Program Pillars**

One of the three pillars of the PESAT program changed, namely the Healthy and Prosperous Pesat Pillar to the Go Digital Pillar. This change was based on the fact that the programs in the previous pillar could be accommodated in the PESAT Business Capacity Pillar activities, through the bulletin media in the form of popular health articles.

keberhasilan Pilar Program maka telah dilahirkan Aplikasi **bjb** DISENTRA (Digital Sistem Informasi dan Interaksi) dan Aplikasi Catatan Akuntansi Lengkap (CAKAP).

2. **bjb Laku**
   bjb Laku merupakan aplikasi berbasis android yang dapat memberikan kemudahan untuk para calon debitur dalam mendapatkan akses pembiayaan perbankan dari seluruh Segmen Kredit UMKM bank **bjb**. Aplikasi ini diperuntukan bagi masyarakat khususnya para pelaku UMKM yang membutuhkan fasilitas pembiayaan kredit yang dapat digunakan untuk meningkatkan kapasitas usaha dengan cepat, murah dan terjangkau. Melalui aplikasi **bjb** Laku ini, diharapkan bank **bjb** khususnya segmen Kredit UMKM dapat menjangkau masyarakat dan para pelaku UMKM secara luas dan cepat.
3. ***Digital* Sistem Informasi dan Interaksi (DISENTRA)**
   Aplikasi DISENTRA adalah salah satu inovasi Divisi Kredit UMKM diawali dengan rintisan pada bulan Juli, di tahun 2020, pada tahun 2021 aplikasi DISENTRA telah dilakukan *switching* dengan semula berbasis web menjadi berbasis android. Aplikasi DISENTRA adalah sebuah Aplikasi yang dibuat oleh Divisi Kredit UMKM untuk menjadikan "ruang" aktivitas bagi pelaku UMKM baik debitur maupun non debitur. DISENTRA adalah singkatan dari Digital Sistem Edukasi dan Interaksi. Penamaan SENTRA diambil juga dari nama aktivitas Kantor Fungsional Non Operasional (KFNO) yang dimiliki oleh Divisi kredit UMKM untuk menjalankan Program (PESAT). Nama aplikasi DISENTRA dipilih untuk memudahkan pelaku UMKM/masyarakat umum bisa mencerna dan mengingat karena ter asosiasi dengan nama tempat untuk pusat segala informasi dan interaksi, hanya saja dalam *platform digital*. **bjb** DISENTRA memiliki fitur-fitur yang sangat mendukung pemasyarakatan pengetahuan kewirausahaan dan percepatan pelaku UMKM untuk naik kelas, baik secara pengetahuan, jejaring maupun dukungan perluasan pemasaran.
4. **Catatan Akuntansi Lengkap (CAKAP)**
   Aplikasi CAKAP adalah aplikasi pembukuan/pencatatan keuangan secara *digital* yang diperuntukan untuk para pelaku UMKM baik debitur maupun non debitur. Manfaat aplikasi ini bagi para pelaku UMKM di antaranya yaitu para pelaku UMKM dapat memiliki kasir *digital* untuk penjualan, memiliki pencatatan pengeluaran, memiliki *stock/inventory management*, dan memiliki aplikasi laporan keuangan standar akuntansi (PSAK).
   Saat ini *user* pelaku UMKM pada aplikasi CAKAP sebanyak 1.534 *user*. Dengan adanya aplikasi ini bank **bjb** terus berupaya untuk terus melakukan pemberdayaan pada para pelaku UMKM tentang pentingnya pencatatan keuangan usaha guna menjunjang peningkatan kapasaitas usaha para pelaku UMKM.
5. ***Cash Pick Up***
   Selain memberikan fasilitas pembiayaan dengan tujuan modal kerja dan investasi untuk seluruh pelaku usaha UMKM sesuai kriteria yang ingin mengembangkan usahanya, produk dan

to increase the success of the Pillar Program, the **bjb** DISENTRA Application (Digital Information and Interaction System) and CAKAP Application (Complete Accounting Records) had been created.

2. **bjb Laku**
   bjb LAKU was an android-based application that can provide convenience for prospective debtors in getting access to banking financing from all of bank **bjb** MSME Loan Segments. This application was intended for the community, especially MSME actors who needed loan financing facilities that could be used to increase business capacity quickly, cheaply and affordable. Through the **bjb** Laku application, it was hoped that bank **bjb**, especially the MSME Loan segment, could reach the community and MSME actors widely and quickly.

3. **Digital Information and Interaction System (DISENTRA)**
   The DISENTRA application (Digital Information and Interaction System) was one of the innovations of the MSME Credit Division starting with a pilot in July, in 2020, in 2021 the DISENTRA application had been switched from being webbased to android-based. The DISENTRA application was an application created by the MSME Credit Division to make a "space" of activity for MSME actors, both debtors and non-debtors. DISENTRA stood for Digital Education and Interaction System. The name SENTRA was also taken from the name of the Non-Operational Functional Office (KFNO) activity owned by the MSME Credit Division to run the PESAT (Pemberdayaan Ekonomi Masyarakat Terpadu) program. The name DISENTRA application was chosen to make it easier for MSME actors/general public to digest and remember because it was associated with the name of the place for the center of all information and interactions, only on a digital platform. **bjb** DISENTRA had features that strongly support the dissemination of entrepreneurial knowledge and accelerate MSME actors to advance to class, in terms of knowledge, networking and support for marketing expansion.
4. **Complete Accounting Records (CAKAP)**
   The CAKAP application was a digital financial bookkeeping/recording application intended for MSME actors, both debtors and non-debtors. The benefits of this application for MSME actors included MSME actors that had a digital cashier for sales, expense records, stock/inventory management, and accounting standard financial reporting applications (PSAK).

   Currently there were 1,534 MSME users in the CAKAP application. With this application, bank **bjb** continued to strive to continue empowering MSME actors regarding the importance of recording business finances to support increasing the business capacity of MSME actors.
5. **Cash Pick Up**
   In addition to providing financing facilities with the aim of working capital and investment for all MSME business actors according to the criteria who wanted to develop their

Selama tahun 2022 total *outstanding* Kredit UMKM mengalami kenaikan dibandingkan tahun sebelumnya sebesar 28,36% dari Rp3,10 triliun di tahun 2021 menjadi sebesar Rp3,98 triliun di tahun 2022 dengan *nett growth* sebesar Rp879,12 miliar. Hal ini dikarenakan sudah lebih baiknya kualitas portofolio kredit UMKM sehingga jumlah pencairan lebih tinggi daripada *runoff* yang dilakukan untuk perbaikan kualitas kredit kelolaan Divisi Kredit UMKM yang terjadi peningkatan kualitas kredit yang sangat baik terlihat pada komponen kualitas *non performing loan* dan *repayment rate* semakin membaik.

During 2022 the total outstanding MSME loans increased compared to the previous year by 28.36% from IDR3.10 trillion in 2021 to IDR3.98 trillion in 2022 with a net growth of IDR879.12 billion. This was because the quality of the MSME loan portfolio improved so that the number of disbursements was higher than the runoff made to improve the quality of loans managed by the MSME Credit Division, which has seen a very good increase in loan quality, as seen in the quality component of non-performing loans and the repayment rate is getting better.

Dalam kurun waktu 5 (lima) tahun terakhir secara persentase pertumbuhan (yoy) tahun 2022 merupakan pertumbuhan tertinggi dibanding tahun-tahun sebelumnya yaitu sebesar 28,36%. Dari keseluruhan produk kredit UMKM bank **bjb**, Kredit Mikro Utama dan Kredit Cinta Rakyat mengalami penurunan jumlah *outstanding*. Hal tersebut dilakukan sebagai upaya perbaikan kualitas kredit UMKM. Debitur dengan kategori kolektabilitas 3 (tiga) sampai 5 (lima) pada periode sebelum tahun 2017 memang didorong untuk dilakukan pelunasan atau penyelesaian kredit, sehingga konsekuensinya adalah terjadi koreksi pada angka *outstanding* kredit UMKM. Sedangkan untuk produk yang mengalami peningkatan cukup baik adalah Kredit Usaha Rakyat dengan jumlah *outstanding* tahun 2022 sebesar Rp2,74 triliun dengan pertumbuhan sebesar 43,21% dibandingkan tahun sebelumnya dikarenakan telah dibukanya semua sektor ekonomi dan adanya subsidi dan stimulus dari pemerintah. Dari segi kualitas kredit tahun 2022 Divisi Kredit UMKM berhasil memperbaiki kualitas kredit dengan NPL sebesar 2,55%

Of all bank **bjb** MSME loan products, Kredit Mikro Utama, Kredit Cinta Rakyat and Kredit Program experienced a decrease in the number of outstanding. This was carried out as an effort to improve the quality of MSME loan. Debtors with the collectability category of 3 (three) to 5 (five) in the period prior to 2017 it was encouraged to make loan repayments or settlements, so the consequence was that there was a correction to the outstanding MSME loan figures. Meanwhile, the product that experienced a fairly good increase was Kredit Usaha Rakyat with an the outstanding amount in 2022 was IDR2.74 trillion with a growth of 43.21% compared to the previous year due to the opening of all economic sectors and the existence of subsidies and stimulus from the Government. In terms of loan quality in 2020, the MSME Credit Division managed to improve loan quality with an NPL of 2.55%.

Faktor Pendukung dan Penghambat Bisnis Dana Pihak Ketiga Institusi (Kelembagaan)

Faktor pendukung kegiatan Divisi Hubungan Kelembagaan adalah komunikasi yang intensif dengan lintas Divisi, Kantor Wilayah dan Kantor Cabang bank **bjb** sehingga terjadi *collaboration marketing* dalam menggarap nasabah institusi, nasabah mendapatkan layanan-layanan perbankan yang ada di bank **bjb** dalam satu paket/bundel. Dengan begitu, tentu membantu pelaksanaan strategi dan pencapaian target Divisi Hubungan Kelembagaan khususnya dan target bank **bjb** secara keseluruhan. Hal tersebut sejalan dengan fungsi dari optimalisasi *product holding* bagi nasabah-nasabah institusi yang melekat pada Divisi Hubungan Kelembagaan.

Faktor penghambatnya yakni lebih kepada kondisi likuiditas menjelang akhir tahun 2022 cukup ketat, beberapa kali tingkat suku bunga acuan mengalami kenaikan yang menyebabkan bank harus menyesuaikan dengan menaikan tingkat suku bunga. Selain isu likuiditas, isu digitalisasi baik untuk sektor ritel maupun pemerintah daerah menjadi salah satu fokus utama dalam proses pengembangan produk dan layanan.

Strategi Dana Pihak Ketiga Institusi (Kelembagaan) Tahun 2023

Untuk tahun 2023, Divisi Hubungan Kelembagaan akan melakukan beberapa strategi utama dalam rangka meningkatkan pencapaian dan melebihi pencapaian tahun 2022 sesuai dengan ASDT 2023 sebagai berikut:

1. Gerbang Utama Bisnis
   a. Menjadi gerbang utama bisnis dengan nasabah institusi bank **bjb** melalui transaksional layanan perbankan serta optimalisasi *product holding*.
   b. Melalui Grup *Account Solution* diharapkan dapat mengoptimalkan kolaborasi *marketing* dengan unit kerja lain dalam menggarap nasabah institusi.
2. *Sustainable Finance*, peningkatan DPK terutama CASA melalui kerjasama dengan sektor Pemerintah, BUMN, BUMD, Swasta Nasional dan sektor usaha lainnya. Peningkatan CASA Ratio, melalui:
   a. Optimalisasi *biller* pajak dan *cash flow* SP2D *Online*
      - Daftar pembayar pajak daerah non PBB dan BPHTB (Institusi) yang datanya dapat diperoleh dari dinas pendapatan daerah masing-masing daerah untuk dijadikan jalan masuk.
      - Transaksi penyaluran SP2D *Online*.

Supporting and Inhibiting Factors for Institutional Third Parties Fund Business

Factors supporting the activities of the Institutional Relations Division are intensive communication with cross-Divisions, Regional Offices and bank **bjb** Branch Offices so that collaboration marketing occurs in working on institutional customers, customers get banking services at bank **bjb** in one package/bundle. That way, it certainly helps implement the strategy and achieve the targets of the Institutional Relations Division in particular and bank **bjb** targets as a whole. This is in line with the function of optimizing product holding for institutional customers attached to the Institutional Relations Division.

The inhibiting factor is that the liquidity conditions towards the end of 2022 were quite tight, several times the benchmark interest rate increased which caused banks to have to adjust by raising interest rates. In addition to liquidity issues, digitalization issues for both the retail sector and local government became one of the main focuses in the product and service development process.

Strategy for Institutional Third Parties Funds for 2023

For 2023, the Institutional Relations Division will carry out several main strategies in order to increase achievements and exceed achievements in 2022 in accordance with ASDT 2023 as follows:

1. Business Main Gate
   a. Become the main gateway for business with bank **bjb** institutional customers through transactional banking services and optimization of product holding.
   b. Through the Account Solution Group, it is hoped that it can optimize marketing collaboration with other work units in working on institutional customers.
2. Sustainable Finance, Increasing TPF especially CASA through collaboration with the Government sector, SOEs, ROEs, National Private and other business sectors. Increasing CASA Ratio, through:
   a. Optimization of SP2D Online's tax biller and cash flow
      - List of non-Land and Building tax local tax payers and BPHTB (Institutions) whose data can be obtained from the regional revenue service for each region to be used as entry points.
      - SP2D Online distribution transaction.

b. Elektronifikasi layanan Pemerintah Daerah (Implementasi *Internet Banking Corporate*, *Aggregator* Pajak Daerah, SP2D *Online*, Integrasi Belanja Daerah melalui pengguna *Corporate Debit Card* dan aplikasi lainnya).
c. Berkoordinasi dengan Divisi *International and Transactional Banking* dalam hal optimalisasi penggunaan fitur *cash management service* untuk menumbuhkan *transactional banking* di bank **bjb** seperti:
   - **bjb** Edupay
   - **bjb** *Waterbills Payment*
   - **bjb** HOPE
   - **bjb** *Internet Banking Corporate*
   - **bjb** *Virtual Account*
d. Peningkatan NoA dan Optimalisasi Kerjasama
   - Perluasan kerjasama melalui MoU/PKS dengan nasabah institusi.
   - Optimalisasi produk *holding* bank **bjb.**
   - Fokus pada penigkatan kelolaan nasabah baru.
   - bagi nasabah institusi dengan utilisasi produk dan jasa **bjb** teroptimal.
e. Peningkatan *fee based income*
   - Peningkatan utilisasi dari produk *cash management* seperti **bjb** Edupay, *Internet Banking Corporate*, **bjb** *Waterbills*, **bjb** *Virtual Account*.
   - Kerjasama dengan kementerian untuk perluasan transaksi Penerimaan Negara Bukan Pajak (PNBP).

3. *Platform Go Smart City*, **bjb** *Go Smart City* dikembangkam untuk mendukung elektronifikasi layanan Pemerintah Daerah dan memaksimalkan potensi CASA, *fee based income*, NoA baru dari transaksi mitra Pemerintah Daerah dan optimalisasi digitalisasi layanan Desa.

Realisasi kinerja *International and Transaction Banking* secara keseluruhan pada tahun 2022 adalah Rp113,51 miliar yang terdiri dari *fee based income* sebesar Rp22,3 miliar dan *interest income* sebesar Rp91,2 miliar. Pendapatan tersebut naik sebesar 58,71% (Rp41,99 miliar) dari pendapatan tahun lalu periode 31 Desember 2021. Di sisi lain volume transaksi yang dikelola juga mengalami peningkatan sebesar 47,91% dari Rp3,73 triliun di tahun 2021 menjadi Rp5,51 triliun di tahun 2022.

Realization of International and Transaction Banking performance as a whole in 2022 was IDR113.51 billion consisting of fee-based income of IDR22.3 billion and interest income of IDR91.2 billion. This revenue increased by 58.71% (IDR41.99 billion) from last year's revenue for the period December 31, 2021. On the other hand, the volume of transactions managed also increased by 47.91% from IDR3.73 trillion in 2021 to IDR5.51 trillion in 2022.

Kinerja transaksi *financial institution* mengalami peningkatan sangat signifikan, hal ini ditunjukkan oleh perolehan pendapatan di tahun 2022 yang cukup signifikan. Pendapatan meningkat sebesar 94,98% secara yoy dari tahun 2021, perolehan pendapatan tahun 2022 ini merupakan perolehan pendapatan terbesar selama 5 (lima) tahun terakhir yaitu Rp57,8 miliar, yang didominasi oleh pendapatan dari produk *Term Loan* dan *Counterparty Bank Trade Financing* (CBTF)

The performance of bank transactions increased very significantly, this was indicated by the significant revenue earned in 2022. Revenue increased by 94.98% on a yoy basis from 2021, this 2022 revenue acquisition was the largest revenue acquisition for the last 5 (five) years, namely IDR57.8 billion, which was dominated by income from Term Loan and Counterparty Bank Trade Financing (CBTF) products.

Perkembangan transaksi bisnis *trade* semakin meningkat dan bervariasi, sehingga bank **bjb** harus terus melakukan pengembangan produk serta menggali potensi *value chain* dari nasabah eksisting maupun calon nasabah dengan melakukan *cross selling* berbagai produk yang dimiliki. Adapun kegiatan pemasaran lebih difokuskan pada sektor-sektor usaha yang mendukung program pemerintah dan pengembangan sektor rill, di antaranya sektor konstruksi, infrastruktur, *consumer goods,* sektor kesehatan.

The development of trade business transactions increased and varied, so bank **bjb** had to continue to develop products and explore the potential for cooperation with existing and prospective customers by cross-selling various products they have. Meanwhile, marketing activities were more focused on business sectors that supported government programs and the development of the real sector, including the construction, infrastructure, consumer goods and health sectors.

Melalui kegiatan pemasaran dan promosi yang efektif, pengembangan produk dan infrastruktur penunjang yang dilakukan secara berkelanjutan, pada tahun 2022 transaksi remitansi bank **bjb** membukukan *feebased income* sebesar ±Rp16,1 miliar atau naik 233,17% dari tahun 2021. Pencapaian *feebased income* transaksi remitansi diharapkan dapat menunjukkan perkembangan kinerja yang positif setiap tahunnya dan berkontribusi terhadap pencapaian *feebased income* bank **bjb**.

Through effective marketing and promotion activities, sustainable product development and supporting infrastructure, as well as the development of cooperation with remittance agents in Taiwan, in 2021 bank **bjb** remittance transactions recorded fee based income of ±IDR16.1 billion, up 233.17% from 2021. The achievement of fee based income on remittance transactions was expected to show positive performance developments every year and contribute to the achievement of bank **bjb** fee based income.

Kinerja realisasi pendapatan grup *cash management* pada tahun 2022 meliputi perolehan *fee based income* dari transaksi SKN dan RTGS melalui Aplikasi *Internet Banking Corporate* (IBC) dan *fee based income* dari transaksi *waterbill payment* yaitu Rp1,37 miliar mengalami peningkatan sebesar 11,5% dari tahun sebelumnya.

Transaksi *education payment* (*host to host*) yang dilakukan melalui *delivery channel* bank **bjb** tahun 2022 sebanyak 183.459 transaksi mengalami penurunan sebesar 3,3% dari tahun sebelumnya diakibatkan beberapa Universitas telah melakukan migrasi sistem pembayaran menggunakan *Virtual Account* (VA). Transaksi *virtual account* bank **bjb** tahun 2022 sebanyak 212.522 transaksi mengalami peningkatan sebesar 285,3% dari tahun sebelumnya.

Faktor Pendukung dan Penghambat Bisnis *International and Transaction Banking*

Terdapat beberapa faktor pendukung dan penghambat bisnis atas produk dan jasa layanan yang dikelola Divisi *International and Transaction Banking*, antara lain:

1. **Faktor Pendukung**
   a. Untuk mendukung strategi dalam menghadapi semakin ketatnya tantangan dan persaingan produk yang menawarkan transaksi *trade finance* antar bank serta *loan* kepada bank maupun sekuritas, bank **bjb** terus berusaha meningkatkan pelayanan dan melakukan pengembangan produk yang mampu memenuhi ekspektasi *counterparty* dan membina hubungan baik dengan *counterparty* sehingga menghasilkan kerjasama transaksi dalam bebagai produk.
   b. Produk *trade finance and services* dapat diakses di seluruh cabang bank **bjb** (65 kantor cabang) yang tersebar di seluruh Indonesia dengan penanganan operasional transaksi secara sentralisasi (ISO 9001: 2015) dan produk serta layanan yang senantiasa *up to date* seiring perkembangan pasar serta kebutuhan nasabah dengan tarif yang kompetitif.
   c. Selama pandemi Covid-19 terdapat bisnis yang mengalami peningkatan salah satunya bisnis alat-alat pendukung kesehatan, tidak sedikit pelaku usaha alat-alat pendukung kesehatan yang melakukan ekspor keluar negeri sehingga terdapat peluang bisnis remitansi dari Indonesia ke luar negeri.
   d. Selain meningkatkan kiriman uang valuta asing dari dan/atau ke luar negeri, bank **bjb** meningkatkan kiriman uang secara domestik di antaranya untuk menyalurkan dana bantuan dan pencairan pemerintah, penyaluran dana BPJS dan sekolah, serta kiriman uang antar bank.

The actual performance of the cash management group's income in 2022 included obtaining fee-based income from SKN and RTGS transactions through the Internet Banking Corporate Application (IBC) and fee-based income from waterbill payment transactions of IDR1.37 billion, an increase of 11.5% from the previous year.

Customers who actively transacted using the bank **bjb** Internet Banking Application (IBC) in 2022 totaled 11,580 transactions, an increase of 15.3% from the previous year. Waterbill payment transactions made through the bank **bjb** delivery channel in 2022 totaled 166,679 transactions, an increase of 71.5% from the previous year.

Education payment transactions (host to host) made through the bank **bjb** delivery channel in 2022 totaling 183,459 transactions decreased by 3.3% from the previous year due to several Universities having migrated payment systems using Virtual Accounts (VA). bank **bjb** virtual account transactions in 2022 totaled 212,522 transactions, an increase of 285.3% from the previous year.

Supporting and Inhibiting Factors for International and Transaction Banking Business

There were several factors that support and hinder the business of products and services managed by the International and Transaction Banking Division, including:

1. **Supporting Factors**
   a. To support the strategy in facing increasingly fierce challenges and product competition that offers interbank trade finance transactions as well as loans to banks and securities, bank **bjb** continues to strive to improve services and develop products that are able to meet counterparty expectations and foster good relations with counterparties so as to result in transaction cooperation. in various products.
   b. Trade Finance and Services products can be accessed in all bank **bjb** branches (65 branch offices) spread throughout Indonesia with centralized handling of transaction operations (ISO 9001:2015) and products and services that are always up to date in line with market developments and customer needs at high rates. competitive ones.
   c. During the Covid-19 pandemic, there were businesses that experienced an increase, one of which was the health support equipment business, not a few business actors for health support equipment exported abroad so that there were business opportunities for remittances from Indonesia abroad.
   d. In addition to increasing foreign currency remittances from and/or abroad, bank **bjb** also increases domestic remittances, including channeling aid funds and government disbursements, distribution of BPJS and school funds, and interbank remittances.

e. Untuk mendukung strategi dalam menghadapi semakin ketatnya tantangan dan persaingan produk yang menawarkan produk dan layanan serupa, grup *cash management* terus berusaha meningkatkan pelayanan dengan melakukan pengembangan produk yang mampu memenuhi ekspektasi dan kebutuhan nasabah sehingga menghasilkan kerjasama transaksi dalam berbagai produk.
f. Edukasi dan sosialisasi kepada seluruh kantor cabang terus menerus dilakukan untuk menjadikan *talent/implementor* yang unggul sehingga dapat meningkatkan utilisasi dan implementasi produk dan layanan *cash management*.
g. Sinergitas antara bank **bjb** dengan Nasabah khususnya Pemerintah Daerah dalam menciptakan ekosistem keuangan. Sehingga mampu menghadirkan inovasi-inovasi baru dengan melakukan integrasi sistem bank **bjb** dengan sistem keuangan milik nasabah.

2. **Faktor Penghambat**
a. Kendala yang dihadapi selama tahun 2021 sampai dengan tahun 2022 adalah pandemi Covid-19. Salah satu kelompok yang terdampak pandemi global Covid-19 ini adalah Pekerja Migran Indonesia (PMI). PMI di beberapa negara terpaksa harus dipulangkan ke Indonesia, terdapat beberapa negara juga yang melarang PMI untuk keluar rumah serta dampak lain yang juga dirasakan oleh Pekerja Migran Indonesia khususnya mereka yang sedang menjalani masa pra penempatan (persiapan keberangkatan) adalah tertundanya keberangkatan pekerja migran Indonesia tersebut ke beberapa negara penempatan akibat kebijakan pengetatan lalu lintas keimigrasian di banyak negara. Hal tersebut mengakibatkan kiriman uang PMI dari luar negeri ke Indonesia semakin berkurang.
b. Selain itu pemberlakuan Pembatasan Sosial Berskala Besar (PSBB) atau saat ini menjadi Pemberlakuan Pembatasan Kegiatan Masyarakat (PPKM) dari pemerintah yang mengharuskan beberapa jaringan kantor cabang harus dilakukan pembatasan operasional serta pemberlakuan *Work From Home* (WFH) merupakan salah satu penghambat bisnis perbankan salah satunya remitansi.
c. Belum pulihnya perekonomian akibat pandemi Covid-19 menyebabkan implementasi produk dan layanan *cash management* kepada nasabah pada tahun 2022 belum optimal dikarenakan beberapa Institusi masih menerapkan PPKM sehingga kantor cabang kesulitan untuk menggali potensi-potensi kerjasama lain khususnya produk dan layanan *cash management* secara langsung.
d. Cepatnya pergantian jabatan pimpinan maupun bendahara pada instansi nasabah mengakibatkan adanya kendala operasional dalam layanan *Internet Banking Corporate* (IBC) sehingga kantor cabang berkoordinasi dengan grup *cash management* berupaya untuk melakukan perubahan data dan melakukan *refreshment* produk kepada nasabah.

e. To support the strategy in facing increasingly intense challenges and product competition that offers similar products and services, the cash management group continued to strive to improve services by developing products that were able to meet customer expectations and needs resulting in collaborative transactions in various products.
f. Education and outreach to all branch offices was continuously carried out to develop superior talent/implementors so as to increase the utilization and implementation of cash management products and services.
g. Synergy between bank **bjb** and customers, especially local governments in creating a financial ecosystem to present new innovations by integrating the bank **bjb** system with the customer's financial system.

2. **Inhibiting Factor**
a. The obstacle faced from 2021 to 2022 was the Covid-19 pandemic. One of the groups affected by the global Covid-19 pandemic was Indonesian Migrant Workers. Indonesian Migrant Workers in several countries were forced to return to Indonesia; there were several countries that also prohibited Indonesian Migrant Workers from leaving the house. Another impact also felt by Indonesian Migrant Workers, especially those who were undergoing the pre-departure (departure preparation) period, was the delay in the departure of these Indonesian Migrant Workers to several placement countries due to tightening immigration traffic policies in many countries. This resulted in a decrease in Indonesian Migrant Worker's remittances from abroad to Indonesia.
b. In addition, the implementation of Large-Scale Social Restrictions (PSBB) or currently the Implementation of Community Activity Restrictions (PPKM) from the government which required several branch office networks to be subject to operational restrictions and the implementation of Work From Home (WFH) was one of the obstacles to the banking business, one of which was remittances..
c. The economy had not recovered due to the Covid-19 pandemic, causing the implementation of cash management products and services to customers in 2022 to be not optimal because several institutions still implemented Restriction on Community Activities, making it difficult for branch offices to explore other collaboration potentials, especially cash management products and services directly.
d. The rapid change of leadership and treasurer positions at customer agencies resulted in operational constraints in Corporate Internet Banking (IBC) services so that branch offices in coordination with the cash management group attempted to make changes to data and carry out product refreshments for customers.

Pengembangan Produk dan Layanan *International and Transaction Banking*

Dengan semakin bertambahnya persaingan produk dan layanan perbankan khususnya pada transaksi *International Banking*, telah dilakukan pengembangan produk dan peningkatan layanan yang mampu memenuhi ekspektasi nasabah bank **bjb**.

1. Mengembangkan produk dan layanan untuk meningkatkan kerja sama transaksi kepada pihak *counterparty*, baik itu kepada lembaga keuangan bank berupa produk *term loan* ataupun kepada lembaga keuangan non bank berupa produk *money market* dan surat referensi untuk perusahaan sekuritas.

Treasury Business Development In 2022

The Treasury business is one of the pillars of bank **bjb** profit growth supported by professional and reliable staff. bank **bjb** continues to develop and improve Treasury Business activities in order to optimize liquidity and increase bank profit.

The global economy in 2022 experienced a slowdown and was filled with uncertainty, which was caused by high inflationary pressures, monetary policy tightening responses, Covid-19 control policies in China, and geopolitical tensions in Russia and Ukraine. The geopolitical crisis had a significant impact on the global commodity supply chain and caused an increase in commodity prices. In the first quarter of 2022 inflation was driven by stronger

menguatnya permintaan seiring pertumbuhan upah dan semakin naiknya harga komoditas di sektor energi dan pangan. Terjadinya kenaikan permintaan yang disebabkan oleh naiknya tingkat tenaga kerja merupakan suatu kondisi yang diusahakan oleh berbagai pihak, baik Pemerintah maupun Bank Sentral.

Kenaikan inflasi yang cukup cepat dari perkiraan direspon dengan pengetatan kebijakan moneter secara agresif oleh beberapa negara. *The Federal Reserve* (the Fed), *European Central Bank* (ECB), dan *Bank of England* (BoE) berupaya meredam tingginya tekanan inflasi dengan menaikkan suku bunga kebijakan dengan besaran yang lebih tinggi dari perkiraan. Sejak awal tahun sampai dengan Desember 2022, The Fed telah menaikkan suku bunga kebijakan sebanyak 425 bps menjadi 4,25%-4,50%, ECB sebesar 250 bps menjadi 2,50%, dan BoE sebesar 350 bps menjadi 3,50%. Respon moneter yang agresif menyebabkan ketatnya pasar keuangan global dan mendorong penguatan mata uang dolar AS, sehingga berdampak pada penurunan aliran modal asing ke negara berkembang.

Indonesia memasuki kuartal pertama 2022 dengan optimisme yang lebih baik, masyarakat telah dapat mengatasi gelombang Covid-19 dengan tingkat vaksinasi yang tinggi dan kesadaran masyarakat terhadap protokol kesehatan. Namun kenaikan suku bunga agresif The Fed yang dimulai pada bulan Maret 2022, peluang The Fed menaikkan suku bunga acuan 6 (enam)-7 (tujuh) kali tahun 2022, kondisi kekhawatiran ekonomi global serta kenaikan inflasi yang cukup cepat di beberapa negara maju tentu mempengaruhi perekonomian Indonesia.

Tahun 2022 Indonesia juga mengalami tekanan inflasi yang cukup kuat, terjadi kenaikan dari rata–rata inflasi 3,8% dikuartal dua menjadi rata–rata inflasi 5,2% dikuartal tiga. Hal tersebut disebabkan oleh penyesuaian harga Bahan Bakar Minyak (BBM) yang dilakukan Pemerintah karena beban anggaran yang terus meningkat. Penyesuaian tersebut dapat diterima oleh pelaku pasar secara keseluruhan karena Pemerintah mengalihfungsikan dana subsidi ke masyarakat yang lebih membutuhkan dibandingkan sebelumnya kepada masyarakat umum yang tidak tepat sasaran.

Pada tahun 2022 Bank Indonesia telah menaikkan suku bunga kebijakan *BI 7-Day Reverse Repo Rate* (BI7DRR) sebanyak 200 bps yaitu sebesar 75 bps pada kuartal ketiga dan sebesar 125 bps pada kuartal keempat, sehingga *BI 7-Day Reverse Repo Rate* (BI7DRR) pada posisi akhir tahun 2022 adalah sebesar 5,5%. Keputusan kenaikan suku bunga tersebut sebagai langkah *front loaded, pre-emptive*, dan *forward looking* untuk menurunkan ekspektasi inflasi yang terlalu tinggi (*overshooting*) dan memastikan inflasi inti ke depan kembali ke dalam sasaran 3,0±1%, serta memperkuat kebijakan stabilisasi nilai tukar rupiah agar sejalan dengan nilai fundamentalnya akibat semakin kuatnya mata uang dolar AS dan tingginya ketidakpastian pasar keuangan global di

demand along with wage growth and rising commodity prices in the energy and food sectors. The occurrence of an increase in demand caused by an increase in the level of labor was a condition that is sought by various parties, both the Government and the Central Bank.

The increase in inflation which was quite faster than expected was responded by aggressive monetary policy tightening by several countries. The Federal Reserve (the Fed), the European Central Bank (ECB), and the Bank of England (BoE) were trying to reduce high inflationary pressures by raising policy interest rates with a higher amount than expected. Since the beginning of the year until December 2022, the Fed had raised its policy rate by 425 bps to 4.25%-4.50%, the ECB by 250 bps to 2.50%, and the BoE by 350 bps to 3.50%. The aggressive monetary response caused tightness in global financial markets and encouraged the strengthening of the US dollar, thus reducing the flow of foreign capital to developing countries.

Indonesia entered the first quarter of 2022 with greater optimism, the public was able to overcome the Covid-19 wave with a high vaccination rate and public awareness of health protocols. However, the Fed's aggressive interest rate hiked that began in March 2022, the opportunity for the Fed to raise benchmark interest rates 6 (six)-7 (seven) times in 2022, the condition of global economic concerns and the fairly rapid increase in inflation in several developed countries certainly affected the Indonesian economy.

In 2022 Indonesia also experienced quite strong inflationary pressures, an increase from an average inflation of 3.8% in the second quarter to an average inflation of 5.2% in the third quarter. This was due to adjustments to the price of fuel oil (BBM) by the Government due to the ever-increasing budget burden. This adjustment could be accepted by market players as a whole because the Government has transferred subsidy funds to people who needed it more than before to the general public who were not on target.

In 2022 Bank Indonesia raised the BI 7-Day Reverse Repo Rate (BI7DRR) policy rate by 200 bps, namely 75 bps in the third quarter and 125 bps in the fourth quarter, so that the BI 7-Day Reverse Repo Rate (BI7DRR) in position at the end of 2022 was 5.5%. The decision to increase interest rates was a front-loaded, pre-emptive and forward-looking step to reduce overshooting inflation expectations and ensure that future core inflation returned to within the target of 3.0 ± 1%, as well as strengthen exchange rate stabilization policies. tengah peningkatan permintaan ekonomi domestik yang tetap kuat. Sepanjang tahun 2022 nilai tukar rupiah bergerak pada kisaran Rp14.200-15.800 dan imbal hasil surat berharga 10Y (seri *benchmark*) untuk surat berharga pemerintah pada akhir tahun 2022 ditutup pada level 6,915%.

exchange rate moved in the range of IDR14,200-15,800 and the 10Y yield (benchmark series) for government securities at the end of 2022 closed at 6.915%.

Sepanjang tahun 2022 Divisi *Treasury* mampu membukukan pendapatan total sebesar Rp1,645 triliun (per Desember 2022) yang diperoleh dari transaksi jual beli valas, surat berharga, penempatan dana pada instrumen pasar uang serta aktivitas kustodi dan wali amanat. Divisi *Treasury* juga terus meningkatkan aktivitas *sales* khususnya untuk nasabah ritel baik transaksi *forex* maupun surat berharga dengan memperbanyak *customer based*, memberikan harga yang kompetitif serta terus mengembangkan sistem **bjb** *Treasury Interactive Pricing* (**bjb** TIP) yang merupakan *electronic trading system* yang mempermudah transaksi *Treasury* untuk nasabah di kantor cabang bank **bjb**.

Throughout 2022 the Treasury Division was able to record a total revenue of IDR1.645 trillion (as of December 2022) obtained from buying and selling foreign exchange transactions, securities, placement of funds in money market instruments as well as custodial and trustee activities. The Treasury Division also continued to increase sales activities, especially for retail customers, both forex and securities transactions by increasing customer base, providing competitive prices and continuing to develop the **bjb** Treasury Interactive Pricing (**bjb** TIP) system, which was an electronic trading system that facilitated Treasury transactions for customers in bank **bjb** branch office

Produktivitas *Treasury*

Uraian produktivitas *Treasury* meliputi transaksi *money market*, *fixed income* dan *forex* yang disajikan sebagai berikut.

Treasury Productivity

Treasury productivity descriptions include money market, fixed income and forex transactions which are presented as follows.

Transaksi *Money Market*

Salah satu aktivitas Divisi *Treasury* merupakan pengelolaan dan optimalisasi ekses likuiditas melalui transaksi pasar uang (*money market*). Sepanjang tahun 2022 pendapatan yang diperoleh melalui transaksi *money market* adalah sebesar Rp405,52 miliar.

Money Market Transaction

One of the activities of the Treasury Division is the management and optimization of excess liquidity through money market transactions. Throughout 2022, revenue obtained through money market transactions amounted to IDR405.52 billion.

Aktivitas *money market* yang dilakukan antara lain penempatan melalui instrumen moneter Bank Indonesia dan penempatan antar bank untuk optimalisasi likuiditas. Saat ini bank **bjb** merupakan salah satu bank kontributor *Jakarta Interbank Offered Rate* (JIBOR) yang ditunjuk Bank Indonesia untuk memberikan kuotasi suku bunga penawaran transaksi pasar uang antar bank di Indonesia. bank **bjb** sebagai kontributor JIBOR senantiasa mendukung terciptanya suku bunga acuan pasar uang yang kredibel dan dapat mendorong perkembangan transaksi pasar uang khususnya transaksi antar bank.

Money market activities include placements through Bank Indonesia monetary instruments, interbank placements and optimization through gapping. bank **bjb** is currently one of the contributors to the JIBOR (Jakarta Interbank Offered Rate) appointed by Bank Indonesia to provide interest rates on interbank money market transaction offerings in Indonesia. Company as a contributor to JIBOR always supports the creation of credible and money market benchmark interest rates the development of interbank money market transactions.

Sejalan dengan program Bank Indonesia dalam rangka pendalaman transaksi pasar uang, bank **bjb** juga aktif dalam melakukan transaksi repo dan *reverse repo* antar bank, mengingat transaksi *repo* merupakan alternatif pendanaan yang memiliki risiko lebih rendah karena bersifat "*collateralized*".

In line with Bank Indonesia's program in the context of deepening money market transactions, bank **bjb** is also active in conducting inter-bank repo and reverse repo transactions, considering that repo transactions are a funding alternative that has a lower risk because they are "collateralized".

Posisi *outstanding money market* per akhir tahun 2022 mengalami peningkatan dibandingkan dengan tahun sebelumnya seiring dengan tingginya kondisi likuiditas bank **bjb** menjelang akhir tahun. *Outstanding money market* tahun 2022 mencapai Rp11,87 triliun, meningkat 14,92% dibandingkan dengan tahun 2021 yang sebesar Rp10,33 triliun. Untuk kondisi likuiditas perbankan sendiri secara keseluruhan sepanjang tahun 2022 cukup likuid, dan pengelolaan likuditas perbankan secara umum masih melakukan penempatan pada instrument jangka pendek seperti penempatan pada Operasi Pasar Terbuka Bank Indonesia maupun transaksi *Interbank Call Money* (ICM).

The outstanding money market position at the end of 2022 increased compared to the previous year in line with the high liquidity conditions of bank **bjb** towards the end of the year. The outstanding money market in 2022 reached IDR11.87 trillion, an increase of 14.92% compared to 2021 which reached IDR10.33 trillion. As for the condition of banking liquidity as a whole throughout 2022, it was quite liquid, and banking liquidity management in general was still making placements in short-term instruments such as placements in Bank Indonesia Open Market Operations and Interbank Call Money (ICM) transactions.

Transaksi *Fixed Income*

Pada tahun 2022, kondisi pasar surat berharga Indonesia cenderung tertekan apabila dibandingkan dengan tahun 2021. Posisi *yield* obligasi pemerintah 10Y awal tahun 2022 berada pada level 6,40%, jauh lebih tinggi apabila dibandingkan dengan posisi awal tahun 2021 yang berada pada level 5,89%.

Dampak dari pandemi Covid-19 dan kenaikan tingkat suku bunga acuan Bank Indonesia (*BI 7 Day Reverse Repo Rate*) sepanjang tahun 2022 dari 3,50% pada bulan Januari menjadi 5,5% pada bulan Desember menjadi faktor penyebab melemahnya pasar obligasi di Indonesia. Selain dari pada itu, krisis geopolitik Rusia-Ukraina juga membuat para pelaku pasar mengambil sikap *risk off* dan cenderung memilih aset *safe haven.* Hal ini dibuktikan dengan sepanjang tahun 2022 investor asing mencatatkan penjualan obligasi sebesar Rp128,66 triliun, kepemilikan asing terhadap obligasi Indonesia pernah mencapai titik terendahnya di 13,9%.

Pada akhir kuartal IV pasar obligasi Indonesia bergerak bervariasi, *yield* obligasi 10Y (seri *benchmark*) ditutup pada level 6,91%. Pernyataan *The Fed* diawal pekan Bulan Desember untuk melonggarkan kebijakan kenaikan tingkat suku bunga dan menurunnya tingkat inflasi AS ke level 7,1% memberikan dampak positif pada pergerakan pasar. Kenaikan suku bunga *The Fed* dan suku bunga acuan Bank Indonesia yang sesuai dengan ekspektasi pun direspon positif oleh pelaku pasar. Direktorat Jenderal Pengelolaan Pembiayaan dan Risiko (DJPPR) Kementerian Keuangan RI mencatatkan adanya *capital inflow* sebesar hampir Rp50 triliun di pasar SBN dibandingkan tanggal 31 Oktober 2022, dan diperkirakan masih akan terus bertambah mengingat kenaikan suku bunga bank-bank sentral dunia sudah mulai melandai.

Fixed Income Transaction

In 2022, the condition of the Indonesian securities market was likely to be depressed when compared to 2021. The yield position for the 10Y government bonds in early 2022 was at the level of 6.40%, much higher when compared to the initial position in 2021 which was at the level of 5.89 %.

The impact of the Covid-19 pandemic and the increase in Bank Indonesia's benchmark interest rate (BI 7 Day Reverse Repo Rate) throughout 2022 from 3.50% in January to 5.5% in December were factors causing the weakening of the bond market in Indonesia. Apart from that, the Russia-Ukraine geopolitical crisis also made market players take a risk-off attitude and tend to choose safe haven assets. This was evidenced by the fact that throughout 2022 foreign investors recorded bond sales of IDR128.66 trillion, foreign ownership of Indonesian bonds reached its lowest point at 13.9%.

At the end of the fourth quarter, the Indonesian bond market moved mixed, the 10Y bond yielded (benchmark series) closed at 6.91%. The Fed's statement at the beginning of the week in December to ease its policy of raising interest rates and reducing the US inflation rate to a level of 7.1% had a positive impact on market movements. The increase in The Fed's interest rate and Bank Indonesia's benchmark interest rate which were in line with expectations also received a positive response from market players. The Directorate General of Financing and Risk Management (DJPPR) of the Ministry of Finance of the Republic of Indonesia recorded a capital inflow of nearly IDR50 trillion in the SBN market compared to October 31, 2022, and it was estimated that this continued to increase considering that the increase in interest rates for world central banks began to slow down.

Pengelolaan likuiditas dan optimalisasi pendapatan melalui instrumen *fixed income* dilakukan dengan penempatan dana pada surat berharga, baik obligasi pemerintah maupun obligasi korporasi di pasar perdana dan pasar sekunder serta melakukan *trading* (jual/beli) surat berharga. Selain pada obligasi, penempatan dana juga dilakukan pada instrumen reksa dana, baik reksa dana pasar uang, reksa dana pendapatan tetap, reksa dana terproteksi dan reksa dana syariah penyertaan terbatas. Total pendapatan yang diperoleh dari transaksi *fixed income* sepanjang tahun 2022 mencapai Rp1,20 triliun (per Desember 2022).

Liquidity management and revenue optimization through fixed income instruments were carried out by placing funds in securities, both government bonds and corporate bonds in the primary and secondary markets as well as trading (buy/sell) securities. In addition to bonds, fund placements were also made in mutual fund instruments, both money market mutual funds, fixed income mutual funds, protected mutual funds and limited investment Sharia mutual funds. The total income obtained from fixed income transactions throughout 2022 reached IDR1.20 trillion (as of December 2022).

Transaksi surat berharga telah aktif dilakukan untuk pemasaran SBN Ritel di pasar perdana sebagai Sub Mitra Distribusi SBN Ritel dan transaksi surat berharga di pasar sekunder, dengan pencapaian *volume* selama tahun 2022 sebesar Rp1,11 triliun dan membukukan keuntungan sebesar Rp3,38 miliar.

Securities transactions had been actively carried out for retail SBN marketing on the primary market as Retail SBN Distribution Sub Partners and securities transactions on the secondary market, with a volume achievement of IDR1.11 trillion in 2022 and a profit of IDR3.38 billion.

Volume transaksi *trading fixed income* sepanjang tahun 2022 mengalami penurunan yang cukup signifikan apabila dibandingkan dengan tahun 2021. Volume transaksi *trading fixed income* tahun 2022 sebesar Rp18,60 triliun, menurun 48,81% dibandingkan tahun 2021 yang sebesar Rp36,32 triliun. Hal ini disebabkan adanya kenaikan suku bunga *The Fed* yang agresif dan diikuti kenaikan *BI 7 Day Reverse Repo Rate* sehingga berdampak pada tertekannya pasar keuangan surat berharga.

The volume of fixed income trading transactions throughout 2022 decreased significantly when compared to 2021. The volume of fixed income trading transactions in 2022 was IDR18.60 trillion, a decrease of 48.81% compared to 2021 which reached IDR36.32 trillion. This was due to an aggressive increase in the Fed's interest rate followed by an increase in the BI 7 Day Reverse Repo Rate, which put pressure on the securities financial market.

Transaksi *Foreign Exchange*

Upaya terus meningkatkan aktivitas *sales* kepada nasabah *existing* dan nasabah terus dilakukan termasuk berperan aktif dalam transaksi *forex and swap interbank*. Selama tahun 2022, *volume* transaksi *forex and swap* mencapai USD8,70 miliar. Keuntungan transaksi *forex and swap* yang dibukukan selama tahun 2022 mencapai Rp17,3 miliar. Sementara *volume* untuk transaksi *forex* kepada nasabah selama tahun 2022 mencapai USD86,63 juta, dengan membukukan keuntungan sebesar Rp3,30 miliar.

Foreign Exchange Transaction

Efforts to continue to increase sales activities for existing customers continued to be carried out, including playing an active role in forex transactions and interbank swaps. During 2022, the volume of forex and swap transactions reached USD 8.70 billion. Profits from forex and swap transactions recorded in 2022 reached IDR17.3 billion. Meanwhile, the volume of forex transactions for customers in 2022 reached USD 86.63 million, recording a profit of IDR3.30 billion.

Telah dilakukan sosialisasi mengenai *hedging instruments* kepada Cabang Devisa yang diharapkan dapat membantu nasabah dalam mengelola risiko nilai tukar dan juga suku bunga seperti *FX Forward, FX Swaps, Interest Rate Swaps* dan *Cross Currency Swaps* mengingat potensi permintaan untuk melakukan transaksi lindung nilai (*hedging*), khususnya dari nasabah korporasi dan BUMN masih cukup tinggi di pasar. Pada tahun 2022, terdapat Kantor Cabang bank **bjb** yang membuka layanan Kantor Cabang Devisa baru, yaitu Kantor Cabang Banjar, Kantor Cabang Ciamis, Kantor Cabang Rangkasbitung dan Kantor Cabang Sumbersari, sehingga total Cabang Devisa di bank **bjb** berjumlah sebanyak 60 dari total 65 Kantor Cabang bank **bjb**.

Socialization was carried out regarding Hedging instruments to the Foreign Exchange Branch which is expected to assist customers in managing exchange rate risk as well as interest rates such as FX Forwards, FX Swaps, Interest Rate Swaps and Cross Currency Swaps given the potential demand for hedging transactions, especially from corporate and SOEs customers was still quite high in the market. In 2022, there were bank **bjb** Branch Offices that opened new Foreign Exchange Branch Office services, namely the Banjar Branch Office, Ciamis Branch Office, Rangkasbitung Branch Office and Sumbersari Branch Office, so that the total Foreign Exchange Branches at bank **bjb** amount to 60 out of a total of 65 bank Branch Offices **bjb**.

Selain itu, Divisi *Treasury* juga aktif dalam melakukan transaksi derivatif DNDF untuk melakukan *hedging* atas posisi terbuka bank sehingga pendapatan bank menjadi lebih optimal. Hal ini juga dilakukan untuk meningkatkan likuiditas dan aktivitas pasar uang di Indonesia.

In addition, the Treasury Division was also active in conducting DNDF derivative transactions to hedge bank open positions so that bank income could be optimized. This was also done to increase liquidity and money market activity in Indonesia.

Volume transaksi *forex* bank **bjb** pada tahun 2022 masih terjaga di level USD6,09 miliar, sedikit mengalami penurunan 8,22% dibandingkan tahun 2021 yang sebesar Rp6,64 miliar. Kondisi pasar tahun 2022 dipengaruhi oleh konflik geopolitik yang terjadi dan adanya *hyper-inflation* di berbagai negara maju yang disertai kenaikan tingkat suku bunga acuan dari negara-negara di dunia, yang berpengaruh pada pergerakan harga menjadi sangat *volatile* dan memberikan peluang bagi *trader* untuk melakukan transaksi dari pergerakan harga tersebut.

The forex transaction volume of the bank **bjb** in 2022 was still maintained at the level of USD 6.09 billion, a slight decrease of 8.22% compared to 2021 which reached IDR6.64 billion. Market conditions in 2022 were affected by geopolitical conflicts that occurred and hyper-inflation in various developed countries accompanied by increases in benchmark interest rates from countries in the world, which affected price movements to become very volatile and provided opportunities for traders to make transactions from the price movement.

Transaksi SBN Ritel

bank **bjb** pada tahun 2022 bertindak sebagai Sub Mitra Distribusi SBN Ritel yang bekerja sama dengan salah satu Mitra Distribusi, yaitu PT Trimegah Sekuritas. Penjualan SBN Ritel di pasar perdana selama tahun 2022 mencapai Rp377,17 miliar dengan total

Retail SBN Transactions

bank **bjb** in 2022 acted as a Retail SBN Distribution Sub Partner in collaboration with one of the Distribution Partners, namely PT Trimegah Sekuritas. Retail SBN sales on the primary market during 2022 reached IDR377.17 billion with a total of 615 retail

nasabah ritel yang melakukan pembelian di pasar perdana melalui bank **bjb** sebanyak 615 nasabah. Transaksi di pasar perdana tersebut meliputi 6 (enam) kali penerbitan, yaitu Obligasi Negara Ritel (ORI) seri ORI021 dan ORI022, Sukuk Negara Ritel (SR) seri SR016 dan SR017, *Saving Bond Ritel* (SBR) seri SBR011, serta Sukuk Tabungan (ST) seri ST008. Pencapaian *fee based* atas transaksi surat berharga di pasar perdana selama tahun 2022 sebesar Rp579,29 juta.

Faktor Pendukung dan Penghambat Bisnis *Treasury*

Pada tahun 2022 kenaikan inflasi inti Indonesia secara umum masih terjaga dalam kisaran 3,0±1%, *core inflation* paling tinggi terjadi pada bulan Desember 2022 yaitu sebesar 3,36%. Langkah-langkah stabilisasi yang dilakukan Bank Indonesia melalui kebijakan moneter dengan menaikkan tingkat suku bunga acuan *BI 7-Day Reverse Repo Rate* selama tahun 2022 sebesar 200 bps menjadi 5,5% cukup efektif menahan laju inflasi dan menjaga stabilitasi nilai tukar Rupiah agar sejalan nilai fundamentalnya. Peranan Indonesia dalam perbaikan ekonomi global terus dilakukan, G20 yang berlangsung di Indonesia tanggal 15-16 November 2022 dengan mengusung tema Presidensi "*Recover Together and Recover Stronger*", sebagai bukti bahwa Indonesia menekankan urgensi kerja sama antar negara untuk saling mendukung agar dapat pulih bersama dan tumbuh lebih kuat. Dalam mengatasi dampak pandemi Covid-19, forum G20 menekankan pada penguatan arsitektur kesehatan global terutama dalam menangani dampak pandemi Covid-19 terhadap perekonomian.

Prospek pertumbuhan ekonomi global 2023 diperkirakan masih mengalami perlambatan. IMF dalam *World Economic Outlook* (WEO) Oktober 2022 kembali merevisi ke bawah *outlook* PDB global 2023 menjadi 2,7%, lebih rendah 0,2% dari perkiraan Juli sebesar 2,9%, serta di bawah level pertumbuhan 2022 yang diperkirakan sebesar 3,2%. Perlambatan ekonomi terutama dipengaruhi oleh krisis biaya hidup karena inflasi tinggi, pengetatan kondisi keuangan di sebagian besar negara, serta implikasi konflik Rusia-Ukraina dan pandemi yang belum sepenuhnya usai. Selain itu, The Fed diperkirakan tetap akan menaikkan *Fed Fund Rate* hingga awal 2023 dengan siklus pengetatan kebijakan moneter yang panjang, hal ini mendorong tetap kuatnya mata uang dolar AS dan masih tingginya ketidakpastian pasar keuangan global yang kemudian berdampak pada belum kuatnya aliran modal asing masuk ke negara berkembang termasuk Indonesia.

Sementara itu untuk transaksi valuta asing nasabah, Divisi *Treasury* memfasilitasinya dalam sistem **bjb** TIP. Hal itu dilakukan untuk memenuhi kebutuhan *pricing* bagi nasabah secara *real time*.

Strategi Bisnis *Treasury* Tahun 2023

Prospek pertumbuhan ekonomi global pada 2023 belum menggembirakan, diprediksi masih mengalami perlambatan dan menuntut kehati-hatian dengan risiko resesi yang tinggi di beberapa negara termasuk Amerika Serikat (AS) dan Eropa. Sejumlah risiko yang membayangi kinerja perekonomian ke depan antara lain inflasi yang berpotensi masih di level tinggi, kondisi pengetatan moneter yang

customers making purchases on the primary market through bank **bjb**. Transactions on the primary market included 6 (six) issuances, namely Retail State Bonds (ORI) ORI021 and ORI022 series, Retail State Sukuk (SR) SR016 and SR017 series, Retail Saving Bonds (SBR) SBR011 series, and Savings Sukuk ST008 series. The fee-based achievement for securities transactions on the primary market during 2022 reached IDR579.29 million.

Supporting and Inhibiting Factors of Treasury Business

In 2022, the increase in Indonesia's core inflation could generally be maintained within the range of 3.0 ± 1%, the highest core inflation occurred in December 2022, namely 3.36%. Stabilization measures taken by Bank Indonesia through monetary policy by increasing the BI 7-Day Reverse Repo Rate reference rate for 2022 by 200 bps to 5.5% were quite effective in holding back the inflation rate and maintaining stability in the Rupiah exchange rate so that it was in line with its fundamental value. Indonesia's role in improving the global economy continued to be carried out, the G20 which took place in Indonesia on November 15-16, 2022 with the theme of the Presidency "Recover Together and Recover Stronger", as proof that Indonesia emphasized the urgency of cooperation between countries to support each other so that the world could recover together and grow stronger. In dealing with the impact of the Covid-19 pandemic, the G20 forum emphasized strengthening the global health architecture, especially in dealing with the impact of the Covid-19 pandemic on the economy.

The prospect of global economic growth in 2023 is estimated to still experience a slowdown. The IMF in the October 2022 World Economic Outlook (WEO) again revised down the global GDP outlook for 2023 to 2.7%, 0.2% lower than the July estimate of 2.9%, and below the estimated 2022 growth level of 3. 2%. The economic slowdown is mainly affected by the cost of living crisis due to high inflation, tightening financial conditions in most countries, as well as the implications of the Russia-Ukraine conflict and the pandemic that has not been completely over. In addition, the Fed is expected to continue to raise the Fed Funds Rate until early 2023 with a long cycle of monetary policy tightening, this has encouraged the continued strength of the US dollar and high uncertainty on global financial markets which has resulted in weak foreign capital inflows into developing countries including Indonesia.

Meanwhile for customer foreign exchange transactions, the Treasury Division facilitates it in the **bjb** TIP system. This was done to meet the pricing needs of customers in real time.

Treasury Business Strategy for 2023

The prospects for global economic growth in 2023 are not encouraging, it is predicted to still experience a slowdown and demands caution with a high risk of recession in several countries including the United States (US) and Europe. A number of risks that overshadow the performance of the economy going forward include potentially high inflation, ongoing monetary tightening

masih berlanjut, tensi geopolitik, serta krisis kesehatan yang dapat kembali terjadi. The Fed diperkirakan tetap akan menaikkan *Fed Funds Rate* hingga awal 2023, meskipun dengan besaran yang lebih rendah.

Menghadapi tantangan pasar uang tahun 2023, bank **bjb** senantiasa melakukan analisis dan menerapkan strategi agar sejalan dengan perkembangan pasar dengan tetap menjaga likuiditas bank dan optimalisasi pendapatan *interest income* maupun *fee based income* melalui transaksi *Treasury*. bank **bjb** akan terus mengembangkan produk dan layanan untuk mengakomodir kebutuhan nasabah dengan lebih baik. Strategi utama di tahun 2023 yaitu terus mengembangankan retail bisnis khususnya penjualan *bonds retail* dan valuta asing kepada nasabah, mendorong peningkatan pendapatan melalui jasa layanan kustodian dan wali amanat, dan *enhancement yield instrument Treasury* dengan tetap memperhatikan risiko pasar.

conditions, geopolitical tensions, and a health crisis that could reoccur. The Fed is expected to continue to raise the Fed Funds Rate until early 2023, although at a lower rate.

Facing the challenges of the money market in 2023, bank **bjb** always analyzes and implements strategies to be in line with market developments while maintaining bank liquidity and optimizing interest income and fee-based income through Treasury transactions. bank **bjb** will continue to develop products and services to better accommodate customer needs. The main strategy in 2023 is to continue to develop the retail business, especially selling retail bonds and foreign exchange to customers, encouraging increased revenue through custodial and trustee services, and enhancing yield Treasury instruments while taking into account market risks.

Faktor Pendukung dan Penghambat Bisnis DPLK

Pada akhir tahun 2022 perekonomian Indonesia bisa mendapat angin segar, hal ini dikarenakan Presiden Joko Widodo mengumumkan dihapuskannya PPKM. Pemberlakuan tersebut tertuang pada Inmendagri No. 53/2022 yang disahkan tepat pada hari Jumat 30 Desember 2022 yang ditandatangani oleh Menteri Dalam Negeri (Mendagri) M. Tito Karnavian.

Hal itu mempertimbangkan situasi pandemi Covid-19 yang terkendali, tingkat imunitas yang tinggi di tengah masyarakat, kesiapan kapasitas kesehatan lebih baik, pemulihan ekonomi berjalan cepat, dan menindaklanjuti arahan Presiden Republik Indonesia untuk menghentikan PPKM di seluruh wilayah Indonesia.

Seiring dengan semakin terkendalinya kasus Covid-19, perekonomian nasional untuk tahun 2022 mampu mencatatkan kinerja solid dengan pertumbuhan di atas 5% (yoy) hingga kuartal ketiga. Pada Q3-2022, pertumbuhan ekonomi nasional mampu menyentuh angka 5,72% (yoy) atau 1,81% (qtq) dengan tetap memiliki prospek untuk bertengger pada 5,2% (yoy) pada akhir tahun 2022.

Begitu pula untuk industri DPLK di Q3-2022 menunjukkan nilai yang positif yaitu tumbuh pada angka 7,52 (yoy). Hal tersebut menggambarkan pasar DPLK yang tetap bisa meningkat walau masa pandemi ini belum berakhir.

Adapun tantangan di tahun ini adalah banyaknya pelaku program sejenis yang menawarkan program hari tua dengan manfaat tambahan (proteksi). Tingkat literasi yang rendah di industri DPLK sehingga masih kurangnya pemahaman masyarakat terkait pentingnya perencanaan pensiun. Pesatnya perkembangan *market place* dan *e-commerce* menjadikan masyarakat cenderung konsumtif, disisi lain pelaku industri dana pensiun belum sepenuhnya memanfaatkan teknologi dan media sosial sebagai sarana pemasaran dan transaksi.

Supporting and Inhibiting Factors of DPLK Business

At the end of 2022 the Indonesian economy got a breath of fresh air, this was because President Joko Widodo announced the abolition of Restrictions on Community Activities. The enactment was stated in Inmendagri No. 53/2022 which was ratified on Friday, December 30, 2022 which was signed by the Minister of Home Affairs (Mendagri) M. Tito Karnavian.

This showed the controlled Covid-19 pandemic situation, high level of immunity in the community, better health capacity readiness, fast economic recovery, and following up on the direction of the President of the Republic of Indonesia to stop Restrictions on Community Activities in all regions of Indonesia.

Along with the increasingly controlled cases of Covid-19, the national economy for 2022 was able to record solid performance with growth above 5% (yoy) until the third quarter. In Q3-2022, national economic growth was able to reach 5.72% (yoy) or 1.81% (qtq) while still having prospects of perching at 5.2% (yoy) at the end of 2022.

Likewise for the Financial Institution Pension Fund industry in Q3-2022 showed a positive value, namely growing at 7.52 (yoy). This illustrated that the Financial Institution Pension Fund market still increased even though this pandemic period had not ended.

The challenge this year was that there were many similar program actors offering old-age programs with additional benefits (protection). The literacy rate was low in the Financial Institution Pension Fund industry so there was still a lack of public understanding regarding the importance of retirement planning. The rapid development of market place and e-commerce made people tend to be consumptive. On the other hand, pension fund industry players did not fully utilize technology and social media as a means of marketing and transactions.

Umumnya pemberi kerja di Indonesia hanya menyelenggarakan satu skema kesejahteraan pensiun yang diwajibkan oleh pemerintah (BPJS Ketenagakerjaan) dan pengelolaan program imbalan pascakerja dengan skema *pay as you go*. DPLK sebagai program sukarela sehingga DPLK tidak menjadi program wajib yang diselenggarakan oleh pemberi kerja dan/atau instansi.

In general, employers in Indonesia only carried out one pension welfare scheme required by the government (BPJS Ketenagakerjaan) and management of post-employment benefit programs with a pay as you go scheme. Financial Institution Pension Fund as a voluntary program so that Financial Institution Pension Fund did not become a mandatory program organized by employers and/or agencies.

Adanya ketidakpastian dan ketidakstabilan kondisi ekonomi dalam negeri maupun luar negeri yang menyebabkan tingginya risiko penurunan nilai investasi yang akan mempengaruhi pengembangan dana para peserta DPLK serta adanya kecenderungan penurunan *return* di pasar uang. Kondisi likuiditas pemberi kerja dampak dari pandemi mempengaruhi berkurangnya iuran peserta. Selain itu perubahan regulasi (UU P2SK), yang memperluas cakupan pengelolaan program manfaat pensiun tidak hanya oleh perbankan dan asuransi jiwa. Tetapi lembaga keuangan lain pun bisa membentuk DPLK sehingga memperketat persaingan kedepannya dalam memperebutkan peserta.

There was uncertainty and instability in domestic and foreign economic conditions which caused a high risk of decline in investment value which affected the development of funds for Financial Institution Pension Fund participants as well as a tendency to decrease returns on the money market. The liquidity conditions for employers due to the impact of the pandemic affected the reduction in participant contributions. In addition, changes in regulations (UU P2SK) which broadened the scope of management of pension benefit programs not only by banking as well as life insurance but also by other financial institutions can also form Financial Institution Pension Funds to tighten competition in the future in finding any participants.

Digital Banking

Dalam rangka mendorong transaksi non tunai dan memudahkan minat masyarakat berkegiatan sosial, bank **bjb** telah meningkatkan fitur *e-channel* pembayaran shadaqah/donasi. Terdapat 11 (sebelas) lembaga donasi dalam fitur pembayaran Digi *Mobile* sehingga memudahkan nasabah bank **bjb** untuk melakukan donasi.Selain me-*launching* fitur donasi, bank **bjb** juga melakukan program aktivasi dan utilisasi QRIS Rumah Ibadah di bawah kelolaan Dewan Mesjid Indonesia (DMI) dan Nahdlatul Ulama (NU).

Penggunaan transaksi non tunai dan *contactless* sebagai alat pemenuhan kebutuhan transaksi yang tepat di era sekarang, metode pembayaran ini dianggap lebih sesuai di masa *after pandemic* seperti sekarang yang mewajibkan kita untuk tetap mengurangi kontak langsung. Oleh karena itu, untuk meningkatkan pelayanan kepada nasabah serta mendukung program *cashless society* dan *contactless payment*.

Pada tahun 2022, ini bank **bjb** membukukan pendapatan *fee based income* dari layanan *e-channel* sebesar Rp453,04 miliar atau naik 4,56% secara yoy. Kenaikan pendapatan ini didominasi oleh peningkatan jumlah pengguna kartu ATM/Debit bank **bjb**, serta peningkatan jumlah pengguna transaksi *e-channel* bank **bjb**.

Digital Banking

In order to encourage non-cash transactions and facilitate public interest in social activities, bank **bjb** enhanced the e-channel feature for *shadaqah*/donation payments. There were 11 (eleven) donation institutions in the Digi Mobile payment feature to make it easier for bank **bjb** customers to make donations. Apart from launching the donation feature, bank **bjb** also conducted QRIS activation and utilization programs for Houses of Worship under the management of the Indonesian Mosque Council (DMI) and Nahdlatul Ulama (NU).

The use of non-cash and contactless transactions as a means of meeting the needs of appropriate transactions in the current era, this payment method was considered more appropriate in the post-pandemic era, which required us to continue to reduce direct contact and to improve service to customers and support cashless society and contactless payment programs.

In 2022, bank **bjb** posted fee-based income from e-channel services of IDR453.04 billion, up 4.56% yoy. The increase in revenue was dominated by an increase in the number of bank **bjb** ATM/Debit card users, as well as an increase in the number of bank **bjb** e-channel transaction users.

Surat berharga - pihak ketiga tahun 2022 sebesar Rp27.382.318 juta, meningkat 61,33% dari tahun 2021 yang sebesar Rp16.978.899 juta. Peningkatan tersebut disebabkan oleh kondisi likuiditas perbankan yang *ample* dan tren pergerakan *yield* yang cenderung meningkat seiring dengan kebijakan kenaikan BI-7 *Day Reverse Repo Rate*, dimana tercermin dari *yield* Obligasi Pemerintah tenor 10Y yang mengalami kenaikan dari 6.382% pada akhir Desember 2021 menjadi 6.940% pada akhir Desember 2022, sehingga menimbulkan strategi investasi melalui penempatan surat berharga yang dapat memberikan imbal hasil yang cukup tinggi atau *yield enhancement* dan juga instrumen investasi di pasar keuangan dengan tingkat risiko yang lebih rendah melalui transaksi jual beli Surat Berharga Negara.

Kemampuan Membayar Utang dan Kolektibilitas Piutang

Kemampuan Membayar Utang

Kemampuan membayar utang tercermin dari likuiditas dan solvabilitas Bank. Berkenaan dengan obligasi yang diterbitkan, kemampuan membayar utang tercermin dari lancarnya pembayaran bunga dan pemeringkatan obligasi.

Kemampuan Membayar Utang Jangka Pendek (Likuiditas Bank)

Pada tahun 2022, rasio kredit terhadap dana pihak ketiga atau *Loan to Deposit Ratio* (LDR) sebesar 85,03 (*bank only*) mengalami peningkatan sebesar 3,35% dibandingkan dengan LDR pada tahun 2021 yang sebesar 81,68 (*bank only*). Meskipun LDR mengalami peningkatan, namun tingkat likuiditas bank masih terjaga. LDR bank **bjb** tersebut masih di bawah rata-rata industri perbankan nasional atau dengan kata lain, likuiditas bank **bjb** di atas rata-rata industri perbankan dengan LDR yang tercatat sebesar 79,73%.

Ability to Pay Debt and Collectibility in Receivables

Ability To Pay Debt

The ability to pay debt is reflected in the Bank's liquidity and solvency. With regard to bonds issued, the ability to pay debts is reflected in the smooth payment of interest and the ranking of bonds

Ability To Pay Short Term Debt (Liquidity Bank)

In 2022, the loan to deposit ratio (LDR) of 85,03 (bank only) increase by 3.35% compared to the LDR in 2021 which was 81.68 (bank only). Even though the LDR increased, the level of bank liquidity was still maintained. bank **bjb** LDR was still below the national banking industry average or in other words, bank **bjb** liquidity was above the banking industry average with an LDR recorded at 79.73%.

Kemampuan Membayar Utang Jangka Panjang (Solvabilitas Bank)

bank **bjb** mengukur solvabilitas melalui rasio permodalan bank. bank **bjb** memastikan kecukupan modal bank untuk dapat memenuhi risiko kredit, risiko pasar dan risiko operasional yang tercermin dari Rasio Kecukupan Modal (*Capital Adequacy Ratio*/CAR). CAR adalah rasio modal terhadap aset tertimbang menurut risiko (*Risk Weighted Assets*/RWA).

Pada tahun 2022, CAR Bank mencapai 19,19% (*bank only*), mengalami peningkatan jika dibandingkan dengan CAR tahun 2021 sebesar 17,89% (*bank only*), Sesuai dengan Peraturan Bank Indonesia (BI) berdasarkan POJK Nomor 11/POJK.03/2016 tanggal 29 Januari 2016 perihal Kewajiban Penyediaan Modal Minimum Bank Umum CAR minimum yang ditetapkan BI adalah sebesar 14%.

Dengan rasio CAR berada pada tingkat 19,19%, struktur permodalan bank **bjb** memiliki kapabilitas untuk mengimbangi risiko pasar, risiko kredit, dan risiko operasional di mana rasio tersebut lebih tinggi dari rasio kecukupan minimum BI dan struktur modal bank **bjb** sudah memenuhi Peraturan BI. Hal ini berarti bahwa bank **bjb** telah mengelola dengan baik modal Bank dan memiliki kecukupan modal untuk melindungi dari risiko solvabilitas.

Rasio Keuangan Lain

Rasio keuangan bank **bjb** di tahun 2022 tidak mengalami perubahan yang signifikan dibandingkan dengan tahun 2021. Rasio keuangan bank **bjb** disajikan pada tabel berikut. Adapun beberapa rasio yang terlihat membaik seperti NPL yang lebih rendah dari tahun lalu maupun ROA dan ROE yang mengalami peningkatan.

Ability To Pay Long-Term Debt (Bank Solvability)

bank **bjb** measures solvency through bank capital ratios. bank **bjb** ensures the bank's capital adequacy to meet credit risk, market risk and operational risk which is reflected in the Capital Adequacy Ratio (CAR). CAR is the ratio of capital to Risk Weighted Assets (RWA).

In 2022, CAR Bank reached 19.19% (bank only), experienced an increase when compared to CAR in 2021 of 17.89% (bank only), In accordance with Bank Indonesia (BI) Regulation based on POJK Number 11/POJK.03/2016 dated January 29, 2016 concerning Minimum Capital Adequacy Requirement for Commercial Banks minimum CAR set by BI was 14%.

With the CAR ratio at the level of 19.19%, bank **bjb** capital structure had the capability to balance market risk, credit risk and operational risk where the ratio was higher than BI's minimum adequacy ratio and bank **bjb** capital structure had complied with BI regulations. This meant that bank **bjb** had managed well the bank's capital and had sufficient capital to protect it from solvency risk.

Other Financial Ratios

bank **bjb** financial ratios in 2022 did not experience a significant change compared to 2021. bank **bjb** financial ratios are presented in the following table. There were several ratios that improved, such as lower NPL than last year as well as increasing ROA and ROE.

Kemampuan Membayar Utang Dari Efek-Efek yang Diterbitkan

Kemampuan membayar utang juga dapat tercermin berdasarkan peringkat dari efek-efek yang diterbitkan Bank yaitu obligasi. Efek-efek yang diterbitkan secara rutin dinilai oleh lembaga pemeringkatan guna mendukung kelayakan efek. Kualitas efek sangat ditentukan oleh kemampuan perusahaan penerbit efek dalam membayar efek nya pada saat jatuh tempo dan kemampuannya membayar bunga atau kupon selama jangka waktu penerbitan efek tersebut.

Ability To Pay Debt From Published Securities

The ability to pay debts can also be reflected based on the ranking of securities issued by the Bank, namely Bonds. Securities issued are routinely assessed by rating agencies to support the feasibility of securities. The quality of securities is largely determined by the ability of the securities issuer to pay for its securities when they are due and their ability to pay interest or coupons during the period of issuance of the securities.

Lembaga Pemeringkat Rating Agency	Peringkat Rating	Arti Peringkat Meaning
Pefindo *Rating* Pefindo Rating	idAA	Obligor dengan peringkat idA memiliki kapasitas yang kuat untuk memenuhi komitmen keuangan jangka panjangnya dibandingkan dengan obligor Indonesia lainnya. An obligor rated IdA has a stronger capacity to meet its long-term financial commitments compared to other Indonesian obligors.
Fitch Rating	idAA	Obligor dengan peringkat idAA menunjukkan ekspektasi tingkat risiko gagal bayar yang sangat rendah dibandingkan dengan emiten atau obligasi lain di negara atau serikat moneter yang sama. Risiko gagal bayar yang melekat hanya sedikit berbeda dari emiten atau obligasi dengan peringkat tertinggi di negara tersebut. Obligors rated IdAA demonstrate expectations of a very low level of default risk compared to other issuers or bonds in the same country or monetary union. The inherent default risk differs little from that of the country's highest-rated issuers or bonds
	idA	Obligor dengan peringkat idA memiliki kapasitas yang kuat untuk membayar kewajiban/utang jangka panjang dibandingkan dengan obligor Indonesia yang lain. Obligor dalam *rating* ini lebih rentan terhadap perubahan kondisi ekonomi dibanding obligor dengan *rating* idAAA dan idAA Obligors rated IdA have a strong capacity to pay long-term obligations/debt compared to other Indonesian obligors. Obligors with this rating are more vulnerable to changes in economic conditions than obligors with idAAA and idAA ratings

Suku Bunga Dasar Kredit

Suku Bunga Dasar Kredit (SBDK) digunakan sebagai dasar penetapan suku bunga kredit yang akan dikenakan oleh Bank kepada nasabah. SBDK belum memperhitungkan komponen estimasi premi risiko yang besarnya tergantung dari penilaian Bank terhadap risiko masing-masing debitur atau kelompok debitur. Dengan demikian, besarnya suku bunga kredit yang dikenakan kepada debitur belum tentu sama dengan SBDK. Dalam Kredit konsumsi non KPR tidak termasuk penyaluran dana melalui kartu kredit dan kredit tanpa agunan (KTA).

Prime Lending Rate

The Prime Lending Rate (SBDK) was used as the basis for determining the loan interest rate that the Bank will charge to customers. Prime Lending Rate did not take into account the risk premium estimation component, the amount of which depends on the Bank's assessment of the risk of each debtor or group of debtors. Thus, the amount of loan interest rates charged to borrowers was not necessarily the same as the prime lending rate. In non-KPR consumption loan, it did not include disbursement of funds through credit cards and non collateral loan (KTA)

Struktur Permodalan

Kebijakan Manajemen dan Dasar Pemilihan Kebijakan Manajemen Atas Struktur Modal

Kebijakan terhadap struktur modal yaitu cadangan dari laba yaitu sebesar 55% dan direncanakan melalui *right issue*, penerbitan obligasi subordinasi dan penyisihan laba tahun lalu. Beberapa perkembangan peraturan yang signifikan mempengaruhi kondisi operasional dan bisnis bank **bjb** ke depan antara lain tercermin dari terbitnya Peraturan Otoritas Jasa Keuangan Nomor 12/POJK.03/2021 tentang Bank Umum. Berdasarkan POJK tersebut bank **bjb** yang sebelumnya dalam ketegori Bank Umum berdasarkan Kegiatan Usaha (BUKU) III menjadi Kelompok Bank Berdasarkan Modal Inti (KBMI) 2 (Bank dengan Modal Inti lebih dari Rp6 triliun sampai dengan Rp14 triliun). Masuknya modal inti bank **bjb** dalam kategori KBMI 2 membuat kegiatan usaha yang dapat dilakukan oleh bank **bjb** menjadi lebih luas, serta dapat meningkatkan kepercayaan nasabah dalam melakukan aktivitas kegiatan perbankannya melalui bank **bjb**.

Per akhir Desember 2022, modal inti bank **bjb** (*audited*) mencapai Rp12,81 triliun (individu) Rp14,15 triliun (konsolidasi) dan berada pada kategori KBMI 2. Strategi permodalan yang efektif, kuat dan efisien telah menjadi fokus manajemen seiring dengan terus bertumbuhnya bank **bjb** menjadi bank yang semakin besar dan semakin kuat. Komponen permodalan bank didominasi oleh komponen permodalan yang bersifat permanen, komponen modal inti merupakan komponen terbesar dalam struktur permodalan bank.

Capital Structure

Management Policy and the Basis of Management Policy For Capital Structure

Policies on capital structure, namely reserves from profits amounting to 55% planned through a rights issue, issuance of subordinated bonds and provision for last year's profit. Several regulatory developments that significantly affected the operational and business conditions of bank **bjb** in the future are reflected in the issuance of the Financial Services Authority Regulation Number 12/POJK.03/2021 concerning Commercial Banks. Based on the POJK, bank **bjb**, which was previously in the category of Commercial Banks based on Business Activities (BUKU) III, became a Group of Banks Based on Core Capital (KBMI) 2 (Banks with a Core Capital of more than IDR6 trillion to IDR14 trillion). The inclusion of bank **bjb** core capital in the KBMI 2 category made business activities that could be carried out by bank **bjb** wider, and can increase customer confidence in carrying out banking activities through bank **bjb**.

As of the end of December 2022, bank **bjb** core capital (audited) reached IDR12.81 trillion (individuals) IDR14.15 trillion (consolidated) and was in the KBMI 2 category. An effective, strong and efficient capital strategy became the focus of management as bank **bjb** continued to grow to become a bigger and stronger bank. The bank's capital component was dominated by the permanent capital component, the core capital component was the largest component in the bank's capital structure.

Pada posisi bulan Desember 2022, rasio modal inti bank **bjb** baik secara individual dan konsolidasi terhadap total ATMR bank mencapai 19,19% dan 19,40%. Rasio tersebut berada di atas ketentuan yang ditetapkan oleh Bank Indonesia dengan batasan minimum yaitu 6% baik secara individual maupun konsolidasi. Perhitungan rasio modal inti utama (*Common Equity Tier 1 Ratio*) terhadap total ATMR bank baik secara individual dan konsolidasi di bulan Desember 2022 mencapai 14,49% dan 14,95% yang berada di atas ketentuan yang telah ditetapkan Bank Indonesia dengan batasan minimum yaitu 4,50%.

As of December 2022, the ratio of bank **bjb** core capital both individually and consolidated to the bank's total RWA reached 19.19% and 19.40%. This ratio was above the provisions stipulated by Bank Indonesia with a minimum limit of 6% both individually and consolidated. The calculation of the main core capital ratio (Common Equity Tier 1 Ratio) to the bank's total RWA both individually and consolidated in December 2022 reached 14.49% and 14.95% which were above the provisions set by Bank Indonesia with a minimum limit of 4.50%.

Rincian Struktur Modal

Sesuai dengan Peraturan OJK, struktur permodalan Bank terdiri dari Modal Inti (*Tier* 1) dan Modal Pelengkap (*Tier* 2).

Prospek Usaha dan Strategi Ke Depan Tahun 2023

Ancaman resesi mulai mengintai pertumbuhan ekonomi sejumlah negara di dunia memang terus didengungkan deberapa pihak. Banyak faktor yang mempengaruhi, mulai dari dampak perang Rusia-Ukraina, melonjaknya inflasi global, hingga kenaikan suku bunga The Fed. Bahkan Bank Dunia dalam Laporan Juni 2022 memangkas perkiraan pertumbuhan ekonomi global, dan memperingatkan banyak negara jika ekonominya akan terkoreksi. Dilansir dari Laporan Bank Dunia bertajuk *Global Economic Prospect* pada Juni 2022, ekonomi global diperkirakan akan berada di sekitar level 3% pada tahun 2023 hingga 2024 mendatang serta memprediksi untuk pertumbuhan ekonomi Indonesia yaitu sebesar 5,1% lebih tinggi dibandingkan proyeksi tahun lalu yang sebesar 3,7%.

Kondisi perekonomian nasional masih dihadapkan pada tantangan ketidakpastian yang tinggi di tahun 2023, sehingga menuntut Pemerintah untuk dapat memperkuat instrumen bauran kebijakan agar stabilitas moneter dapat tetap terjaga dalam mendukung pemulihan ekonomi. Eskalasi risiko global yang dipicu khususnya oleh percepatan normalisasi kebijakan moneter Amerika Serikat dan konflik geopolitik Rusia dengan Ukraina. Perpaduan faktor tersebut menimbulkan kenaikan harga komoditas global khususnya sektor pangan dan energi, serta kenaikan inflasi di beberapa negara maju di Eropa dan Amerika. Tingginya tingkat inflasi tersebut meningkatkan volatilitas arus modal, nilai tukar, sektor keuangan dan mendorong percepatan normalisasi kebijakan moneter bagi negara berkembang seperti Indonesia.

Business Prospects and Future Strategies For 2023

The threat of a recession started to lurk the economic growth of a number of countries in the world echoed by several parties. Many factors contributed, starting from the impact of the Russia-Ukraine war, soaring global inflation, to the increase in The Fed's interest rate. Even the World Bank in its June 2022 Report cut its forecast for global economic growth, and warned many countries that their economy would correct itself. Reporting from the World Bank report entitled Global Economic Prospects in June 2022, the global economy is expected to be around the level of 3% in the coming 2023 to 2024 and predictions for Indonesia's economic growth which is 5.1% higher than last year's projection which amounted to 3.7%.

The condition of the national economy will still be faced with challenges of high uncertainty in 2023, thus demanding the Government to be able to strengthen the policy mix instruments so that monetary stability can be maintained in support of economic recovery. The global risk escalation was triggered in particular by the accelerated normalization of US monetary policy and Russia's geopolitical conflict with Ukraine. The combination of these factors led to an increase in global commodity prices, particularly in the food and energy sectors, as well as an increase in inflation in several developed countries in Europe and America. The high inflation rate increased the volatility of capital flows, exchange rates, the financial sector and accelerated the normalization of monetary policy for developing countries such as Indonesia.

- Global Economic Prospect (World Bank June, 2022)

Bank Indonesia memprakirakan pertumbuhan ekonomi nasional berada di kisaran 4,7%-5,5% pada tahun 2023. Proyeksi ini lebih rendah dari asumsi Pemerintah sebesar 5,3%. Bila memperhatikan ke belakang pertumbuhan ekonomi nasional pernah menyentuh angka 5,1% dan 5,2% pada tahun 2017-2018. Pada periode itu, seluruh sektor lapangan usaha mampu tumbuh positif. Laju inflasipun relatif rendah. Kemudian terjadi perang dagang AS-Tiongkok pada tahun 2019 dan proses pemilu di Indonesia sehingga ekonomi tumbuh melambat menjadi 5% pada 2019. Memasuki tahun 2020 pandemi Covid-19 mengakibatkan pertumbuhan ekonomi makin melambat bahkan mengalami kontraksi 2,1%. Kontraksi ini merupakan pertama kali sejak krisis ekonomi 1997-1998, tetapi tahun 2021 pertumbuhan ekonomi Indonesia *rebound* dengan tumbuh menjadi 3,7%. Bukan angka tertinggi tetapi ini menunjukkan pertumbuhan ekonomi secara perlahan mulai kembali ke jalur awal.

Di tahun 2023, risiko stagflasi membayangi perekonomian Indonesia dengan ditandai naiknya inflasi sementara pertumbuhan ekonomi berjalan stagnan. Namun demikian, postur APBN 2023 telah dirancang untuk mengantisipasi risiko stagflasi dengan optimalisasi peran APBN sebagai *shock absorber* atau penyerap gejolak, baik akibat tekanan harga komoditas maupun naiknya *cost of fund* dari segi pembiayaan karena normalisasi kebijakan moneter Amerika Serikat (AS). Hal ini sama dengan saat tahun 2020 dan 2021, APBN yang disusun sangat efektif memulihkan ekonomi maka APBN 2023 diharapkan kembali menjadi andalan dalam memitigasi potensi efek rambat dari dinamika global yang berlangsung.

Memasuki tahun 2023, Indonesia dihadapkan terhadap pekerjaan rumah yang harus segera disesuaikan yaitu transisi dari masa pandemi menjadi endemi dan kemampuan mengambil peluang dari tantangan konflik Rusia-Ukraina yang berdampak pada rantai pasokan komoditas. Peluang ekspor komoditas yang mengalami pelarangan oleh negara-negara barat terhadap Rusia dapat menciptakan peluang kenaikan ekspor komoditas seperti gas dan batu bara. Kenaikan tersebut mulai terlihat pada kuartal II tahun 2022 dengan ekspor mampu tumbuh 19,74% (yoy), faktor ini harus mampu dijaga secara *sustain* selama tahun 2023.

Bank Indonesia predicts that the country's economic growth will be in the range of 4.7%-5.5% in 2023. This projection is lower than the Government's assumption of 5.3%. Looking back, national economic growth touched 5.1% and 5.2% in 2017-2018. During that period, all business sectors were able to grow positively. The inflation rate was relatively low. Then there was the US-China trade war in 2019 and the election process in Indonesia so that the economy grew to slow down to 5% in 2019. Entering 2020 the Covid-19 pandemic resulted in slower economic growth and even experienced a 2.1% contraction. This contraction was the first time since the 1997-1998 economic crisis, but in 2021 Indonesia's economic growth rebounded by growing to 3.7%. Not the highest number but it showed economic growth is slowly starting to return to its initial track.

In 2023, the risk of stagflation overshadows the Indonesian economy marked by rising inflation while economic growth is stagnant. However, the posture of the 2023 State Budget has been designed to anticipate the risk of stagflation by optimizing the role of the State Budget as a shock absorber, both due to commodity price pressures and rising cost of funds in terms of financing due to the normalization of the United States (US) monetary policy. This is the same as in 2020 and 2021, the prepared National Income Expenditure Plan was very effective in restoring the economy, so the 2023 National Income Expenditure Plan was expected to become a mainstay in mitigating the potential creeping effects of ongoing global dynamics.

Entering 2023, Indonesia is faced with homework that must be adjusted immediately, namely the transition from a pandemic to an endemic and the ability to seize opportunities from the challenges of the Russia-Ukraine conflict which has an impact on the commodity supply chain. Opportunities for commodity exports that have been banned by western countries against Russia can create opportunities for increased exports of commodities such as gas and coal. This increase began to be seen in the second quarter of 2022 with exports able to grow 19.74% (yoy), this factor must be able to be maintained sustainably throughout 2023.

Meskipun dibayangi inflasi domestik yang naik secara *rapid* di kuartal II tahun 2022 ini mencapai 4,94% (yoy), namun bauran kebijakan akomodatif untuk dapat meredam inflasi telah diantisipasi dengan segera di antaranya menjaga suku bunga acuan Bank Indonesia *7 Days Reverse Repo Rate* sebesar 3,5%, selain itu untuk menjaga lonjakan inflasi di tahun 2023, maka kebijakan Pemerintah untuk proyeksi defisit anggaran menjadi sebesar 2,85% PDB, sehingga diharapkan inflasi dapat terjaga di level 3,3% pada tahun 2023. Di sisi lain, Bank Indonesia memprakirakan inflasi di kisaran 3,00% ± 1 di tahun 2023 dan nilai tukar rupiah akan melemah di kisaran Rp14.400-14.800 per dolar AS.

Even though it was overshadowed by domestic inflation which rose rapidly in the second quarter of 2022 reaching 4.94% (yoy), the accommodative policy mix to be able to reduce inflation has been anticipated immediately including maintaining the Bank Indonesia 7 Days Reverse Repo Rate rate of 3, 5%, in addition to controlling inflation spikes in 2023, the Government's policy is to project a budget deficit of 2.85% of GDP, so that inflation is expected to be maintained at 3.3% in 2023. On the other hand, Bank Indonesia predicts inflation is around 3.00% ± 1 in 2023 and the IDR exchange rate will weaken in the range of IDR14,400-14,800 per US dollar.

Tahun 2023 merupakan tahun yang penuh tantangan bagi industri perbankan. Tidak seragamnya laju pemulihan ekonomi global dan rencana normalisasi kebijakan The Fed memicu isu *tapering* yang menyebabkan potensi kenaikan suku bunga acuan di masa mendatang. Akselerasi pemulihan ekonomi global diikuti juga dengan melonjaknya inflasi di beberapa negara maju serta diperparah dengan ancaman resesi di beberapa negara, telah mendorong bank sentral di beberapa negara mengeluarkan kebijakan yang berpotensi membuat kesalahan dengan penerapan pengetatan moneter terlalu agresif untuk mengendalikan gejolak inflasi. Namun berbeda dengan Indonesia, berbagai bauran kebijakan makro prudensial antara Bank Indonesia dan Pemerintah dalam menahan laju inflasi sampai dengan kuartal II tahun 2022 ini cukup berhasil. Perekonomian nasional yang berangsur-angsur pulih dan *sustain* tersebut memberikan optimisme ekspektasi bagi pelaku ekonomi yang berimbas kepada tren pertumbuhan ekonomi dan tren pertumbuhan kinerja perbankan. Intermediasi perbankan di tahun 2023 akan semakin membaik, Otoritas Jasa Keuangan memproyeksikan pertumbuhan kredit sebesar 8,50% dan pertumbuhan dana pihak ketiga sebesar 7,50%.

2023 is a year full of challenges for the banking industry. The uneven pace of global economic recovery and the Fed's policy normalization plans have sparked the issue of tapering, which raises the potential for future benchmark interest rate hikes. Accelerated global economic recovery followed by soaring inflation in several developed countries and exacerbated by the threat of recession in several countries, has prompted central banks in several countries to issue policies that have the potential to make mistakes by implementing too aggressive monetary tightening to control inflationary shocks. However, in contrast to Indonesia, the various macroprudential policy mixes between the central bank and the government in containing the inflation rate until the second quarter of 2022 have been quite successful. The national economy, which is gradually recovering and is sustainable, provides optimism for expectations for economic actors which impact on trends in economic growth and growth trends in banking performance. Banking intermediation in 2023 will get better, the Financial Services Authority projects loan growth of 8.50% and growth of third parties funds of 7.50%.

Meskipun kondisi perekonomian global masih mengalami ketidakpastian, namun perekonomian nasional berangsur-angsur pulih dan *sustain*. Intermediasi perbankan juga diprediksi akan semakin membaik di tahun 2023. Dengan kondisi tersebut bank **bjb** yakin memiliki prospek yang baik serta peluang untuk terus tumbuh secara berkelanjutan. Peluang yang dimiliki bank **bjb** antara lain sebagai berikut:

1. Berdasarkan skala pasar, sebagian besar Kantor Cabang bank **bjb** masih menjadi *market nichers* di wilayah operasionalnya sehingga masih memiliki peluang yang cukup besar untuk meningkatkan pangsa pasarnya dari sisi aset, baik DPK maupun kredit.

Even though global economic conditions still experienced uncertainty, the national economy gradually recovered and was sustainable. Banking intermediation was also predicted to improve in 2023. Under these conditions, bank **bjb** believed that the bank had good prospects and opportunities to continue to grow in a sustainable manner. Opportunities owned by bank **bjb** included the following:

1. Based on market scale, most of bank **bjb** branch offices were still market nichers in their operational areas, so they still had considerable opportunities to increase their market share in terms of assets, both TPF and loans.

2. Semakin meningkatnya literasi keuangan masyarakat melalui program yang dicanangkan oleh Bank Indonesia dan Otoritas Jasa Keuangan dalam rangka menerapkan kebijakan keuangan inklusif sebagai suatu bentuk pendalaman layanan keuangan (*financial service deepening*) yang ditujukan kepada masyarakat *in the bottom of the pyramid* untuk memanfaatkan produk dan jasa keuangan formal seperti sarana menyimpan uang yang aman (*keeping*), *transfer*, menabung maupun pinjaman dan asuransi.
3. Kegiatan pelaku ekonomi yang cukup tinggi di Provinsi Jawa Barat, Banten dan DKI Jakarta merupakan potensi pengembangan perkreditan dan pendanaan.
4. Berbagai proyek pembangunan infrastruktur, termasuk Proyek Strategis Nasional berada di wilayah kerja Jawa Barat dan Banten, sehingga bank **bjb** memiliki kesempatan untuk memaksimalkan penyaluran kredit dan mampu mendorong pertumbuhan ekonomi daerah secara optimal.
5. Dukungan dari Pemerintah Daerah secara konsisten dan berkesinambungan dalam mengembangkan bank **bjb** sebagai penggerak dan pendorong laju perekonomian di daerah.
6. Potensi yang masih besar dalam pengembangan produk *digital* untuk menyasar segmen ritel dan membangun eksositem bisnis bank **bjb**.

Berdasarkan hal yang telah dijabarkan di atas, bank **bjb** optimis untuk dapat senantiasa meningkatkan kinerja dalam jangka pendek maupun jangka panjang secara berkelanjutan. Hal ini didasarkan pada kekuatan yang dimiliki oleh bank **bjb** yaitu:

1. Berada di Provinsi Jawa Barat dan Banten yang mempunyai sumber daya alam yang luas, sumber daya manusia, dan kawasan industri besar serta kegiatan ekonomi yang terus berkembang.
2. Sebagai institusi pengelola keuangan kas daerah, bank **bjb** memiliki akses yang luas dalam menghimpun dan menyalurkan dana masyarakat serta telah tercatat sebagai perusahaan publik di Bursa Efek Indonesia (BEI).
3. Memiliki basis nasabah yang loyal dalam jumlah sangat besar yaitu Aparatur Sipil Negara (ASN), para Pensiunan dan masyarakat lokal, terutama di wilayah Jawa Barat dan Banten, sehingga memudahkan dalam pembangunan ekosistem transaksi.
4. Memiliki jaringan kantor yang relatif menyebar di lingkungan kegiatan ekonomi yang cukup tinggi di Provinsi Jawa Barat, Banten dan DKI Jakarta yang merupakan pusat serta penopang laju perekonomian di Indonesia. Selain itu juga di dukung juga oleh jaringan kantor lainnya yang sudah tersebar di 14 Provinsi di Indonesia.
5. Telah ditunjuknya bank **bjb** sebagai *partner* dari Pemerintah Pusat yang melaksanakan penyaluran gaji Pemerintahaan Pusat yang ditempatkan di Daerah.
6. Transformasi *digital* bank **bjb** melalui pengembangan layanan berbasis *digital* seperti transaksi dengan **bjb** Digi menjadi lebih mudah, karena fitur layanan terintegrasi melalui *mobile banking system* bank **bjb**.
7. Memiliki program Pemberdayaan Ekonomi Masyarakat Terpadu (PESAT) yang mencakup Program Pesat Sehat dan Produkif, Program Pesat Kapasitas Usaha dan Program

2. Increasing public financial literacy through programs launched by Bank Indonesia and the Financial Services Authority in the framework of implementing financial inclusion policies as a form of financial service deepening aimed at the public at the bottom of the pyramid to utilize products and services formal finance such as means of keeping money safe (keeping), transfers, savings as well as loans and insurance.
3. The relatively high activity of economic actors in the provinces of West Java, Banten and DKI Jakarta was a potential for developing loan and funding.
4. Various infrastructure development projects, including the National Strategic Project were in the working areas of West Java and Banten, so that bank **bjb** had the opportunity to maximize loan distribution and be able to optimally promote regional economic growth.
5. Support from the Regional Government consistently and continuously in developing bank **bjb** as the driver of the economy in the region.
6. There was still great potential in developing digital products to target the retail segment and build a bank **bjb** business ecosystem.

Based on the things described above, bank **bjb** was optimistic to be able to continuously improve performance in the short and long term in a sustainable manner. This was based on the strengths possessed by bank **bjb**, namely:

1. Located in the Provinces of West Java and Banten which had extensive natural resources, human resources, and large industrial areas as well as growing economic activities.
2. As a regional Treasury financial management institution, bank **bjb** had broad access in collecting and distributing public funds and had been registered as a public company on the Indonesia Stock Exchange (IDX).
3. Having a very large number of loyal customer base, namely the State Civil Apparatus (ASN), retirees and local communities, especially in the West Java and Banten regions, making it easier to build a transaction ecosystem.
4. Having a relatively spread-out office network in a fairly high economic activity environment in the provinces of West Java, Banten and DKI Jakarta which are the centers and pillars of the economy in Indonesia. In addition, it was also supported by a network of other offices that had spread across 14 provinces in Indonesia.
5. bank **bjb** had been appointed as a partner of the Central Government to carry out the distribution of Central Government salaries placed in the Regions.
6. bank **bjb** digital transformation through the development of digital-based services such as transactions with **bjb** Digi was made easier, because the service features were integrated through the bank **bjb** mobile banking system.
7. Having an Integrated Community Economic Empowerment Program (PESAT) which included the Healthy and Productive Rapid Program, the Rapid Business Capacity Program and the

Pesat Wirausaha Baru dalam rangka untuk meningkatkan kompetensi dan kapasitas pelaku Usaha Mikro, Kecil dan Menengah (UMKM).

8. Berbagai penghargaan yang telah diperoleh bank **bjb** selama beberapa periode, baik untuk kategori daerah, nasional maupun internasional dari berbagai lembaga Swasta, BUMD/ BUMD maupun Pemerintah serta lembaga-lembaga lainnya.

Di tengah kondisi perekonomian yang dihadapkan pada meningkatnya risiko stagflasi dan tingginya ketidakpastian pasar keuangan serta persaingan industri perbankan yang semakin kompetitif, bank **bjb** tetap menegaskan komitmen untuk terus berkontribusi nyata terhadap perekonomian Indonesia. Semua gejolak ekonomi tersebut mendorong bank **bjb** untuk beradaptasi dengan cepat menghadapi perubahan industri perbankan modern dengan semangat meningkatkan persaingan dan pengembangan usaha.

Untuk menjaga kinerja, bank **bjb** melakukan percepatan pertumbuhan operasional dan keuangan melalui pemanfaatan ekosistem perbankan *digital*. Kita menyadari di era disrupsi teknologi informasi ini, bank **bjb** telah menjadi salah satu bank yang memiliki keunggulan berbasis teknologi *digital*. Sesuai dengan visi dan misi, bank **bjb** terus memberikan memberikan kontribusi yang terbaik untuk mendorong pertumbuhan perekonomian dan pembangunan untuk mewujudkan masyarakat yang sejahtera. Selain itu bank **bjb** juga tetap berupaya untuk meningkatkan eksistensinya dengan berusaha menjadi salah satu perbankan nasional yang mampu memberikan layanan keuangan secara meyeluruh sehingga dapat memberikan nilai tambah terhadap bagi seluruh *stakeholder*.

Untuk dapat menangkap berbagai peluang yang dimiliki bank **bjb**, maka arahan strategi yang tertuang dalam bentuk Arahan Strategi Direksi Tahunan (ASDT) tahun 2023 adalah sebagai berikut:

	1. Regulatory approach to the product and/or service life cycle. With this approach, PUJK is increasingly optimizing efforts to protect consumers and society from product and/or service design to handling and resolving disputes. 2. Adjustment of consumer and public protection principles. One of them is the addition of the principle of "adequate education" in order to encourage FSI to play an active role in educating or increasing financial literacy so as to increase the ability of consumers and the public to make decisions and manage finances to achieve financial prosperity. 3. Strengthening the application of the principle of information disclosure and transparency through setting forms, procedures and exceptions for submitting a summary of information on products and/or services. 4. Strengthening support for consumers and/or people with disabilities and the elderly, increasing efforts to protect consumer data/information. 5. The obligation to provide sufficient time for consumers to understand the agreement before signing or a pause after signing the agreement for products and/services that have a long term and/or are complex in nature. 6. Obligation to record if product and/or service offerings are made through personal means of communication by voice and/or video. 7. Affirmation of FSA authority in carrying out consumer protection including monitoring market conduct as a form of implementation of articles 28 to 30 of the FSA Law. 8. Obligation to establish consumer and public protection units or functions.	PUJK harus memenuhi prinsip-prinsip perlindungan konsumen dan masyarakat yaitu edukasi yang memadai, keterbukaan dan transparansi informasi, perlakuan yang adil dan perilaku bisnis yang bertanggung jawab, perlindungan aset, privasi, dan data Konsumen, serta penanganan pengaduan dan penyelesaian sengketa yang efektif dan efisien. Pemenuhan prinsip-prinsip tersebut dilakukan dalam kegiatan desain, penyediaan dan penyampaian informasi, pemasaran, penyusunan perjanjian, pemberian layanan atas penggunaan produk dan/atau layanan, serta penanganan dan penyelesaian pengaduan dan sengketa Konsumen. Untuk mendukung hal tersebut, OJK melakukan transformasi pengaturan yang diharapkan dapat lebih memperkuat perlindungan konsumen melalui penerbitan Peraturan Otoritas Jasa Keuangan (POJK) tentang Perlindungan Konsumen dan Masyarakat di Sektor Jasa Keuangan. PUJKs had to comply with the principles of consumer and public protection, namely adequate education, information disclosure and transparency, fair treatment and responsible business behavior, protection of consumer assets, privacy and data, as well as effective and efficient handling of complaints and dispute resolution. Fulfillment of these principles was carried out in design activities, providing and delivering information, marketing, drafting agreements, providing services for the use of products and/or services, as well as handling and resolving consumer complaints and disputes. To support this, FSA carried out a regulatory transformation expected to further strengthen consumer protection through the issuance of the Financial Services Authority Regulation (POJK) concerning Consumer and Public Protection in the Financial Services Sector.

Tingkat Kesehatan Bank

Mengacu pada Surat Edaran Otoritas Jasa Keuangan (SEOJK) Nomor 14/SEOJK.03/2017 tanggal 17 Maret 2017 tentang Penilaian Tingkat Kesehatan Bank Umum. Tingkat Kesehatan Bank adalah hasil penilaian kondisi Bank yang dilakukan terhadap Risiko dan kinerja Bank.

Bank wajib melakukan penilaian Tingkat Kesehatan Bank secara *self assessment* untuk posisi akhir bulan Juni dan Desember. Penilaian Tingkat Kesehatan dengan pendekatan Risiko *(Risk-Based Bank Rating)* tersebut dilakukan dengan cakupan penilaian terhadap faktor-faktor:

a. Profil Risiko
b. Tata Kelola
c. Rentabilitas
d. Permodalan

Peringkat Komposit Tingkat Kesehatan Bank ditetapkan berdasarkan analisis yang komprehensif dan terstruktur dengan memperhatikan materialitas dan signifikansi masing-masing faktor penilaian.

Peringkat Komposi Tingkat Kesehatan Bank dikategorikan sebagai berikut:

a. Peringkat Komposit 1 (PK-1) mencerminkan kondisi Bank yang secara umum Sangat Sehat.
b. Peringkat Komposit 2 (PK-2) mencerminkan kondisi Bank yang secara umum Sehat.
c. Peringkat Komposit 3 (PK-3) mencerminkan kondisi Bank yang secara umum Cukup Sehat.
d. Peringkat Komposit 4 (PK-4) mencerminkan kondisi Bank yang secara umum Kurang Sehat.
e. Peringkat Komposit 5 (PK-5) mencerminkan kondisi Bank yang secara umum Tidak Sehat.

Hasil penilaian secara *self assessment* Peringkat Komposit Tingkat Kesehatan bank **bjb** per 31 Desember 2022 dan 31 Desember 2021 adalah sebagai berikut:

Bank Soundness Level

Referring to the Financial Services Authority (SEOJK) Circular Letter Number 14/SEOJK.03/2017 dated March 17, 2017 concerning Assessment of the Soundness of Commercial Banks. Bank Soundness Level was the result of an assessment of the condition of the Bank which was carried out on the Risk and performance of the Bank.

Banks are required to carry out a thorough assessment of the Bank Soundness Level self-assessment for positions at the end of June and December. Bank Soundness Level Assessment with a Risk approach (Risk-Based Bank Rating) is carried out with the scope of the assessment to factors:

a. Risk Profile
b. Governance
c. Profitability
d. Capital

The Bank Soundness Composite Rating is determined based on a comprehensive and structured analysis by taking into account the materiality and significance of each assessment factor.

The Bank Soundness Composition Rating is categorized as follows:

a. Composite Rating 1 (CR-1), reflects Bank's condition that is in general extremely sound.
b. Composite Rating 2 (CR-2), reflects Bank's condition that is in general sound.
c. Composite Rating 3 (CR-3), reflects Bank's condition that is in general adequately sound.
d. Composite Rating 4 (CR-4), reflects Bank's condition that is in general less sound.
e. Composite Rating 5 (CR-5), reflects Bank's condition that is in general unsound.

The results of the self-assessment of bank **bjb** Composite Soundness Rating as of December 31, 2022 and December 31, 2021 are as follows:

Tabel Tingkat Kesehatan Bank
Table of Bank Soundness Level

Faktor Penilaian Rating Factor	Peringkat Komposit / Composite Rating	
	31 Desember 2022 December 31, 2022	31 Desember 2021 December 31, 2021
Profil Risiko / Risk Profile	2	2
Tata Kelola / Governance	2	2
Rentabilitas / Profitability	1	2
Permodalan / Capital	2	2
Peringkat komposit / Composite rating	**2**	**2**

Peringkat Komposit Tingkat Kesehatan bank **bjb** posisi 31 Desember 2022 berada pada PK 2 (Sehat). Kondisi bank **bjb** secara umum sehat, sehingga dinilai mampu menghadapi pengaruh negatif yang signifikan dari perubahan kondisi bisnis dan faktor eksternal lainnya. Hal ini tercermin dari peringkat faktor penilaian antara lain profil risiko, penerapan tata kelola, rentabilitas, dan permodalan yang secara umum baik. Dalam hal terdapat kelemahan, maka secara umum kelemahan tersebut kurang signifikan.

The Composite Rating of bank **bjb** Soundness Level on December 31, 2022 is at PK 2 (Sound). The condition of bank **bjb** is generally healthy, so it is considered capable of facing significant negative effects from changes in business conditions and other external factors. This is reflected in the ratings of the assessment factors, including risk profile, implementation of good governance, profitability, and generally good capital. In the event that there are weaknesses, in general these weaknesses are less significant.

Struktur Permodalan
Capital Structure

Beberapa perkembangan peraturan yang signifikan mempengaruhi kondisi operasional dan bisnis bank **bjb** ke depan antara lain tercermin dari terbitnya Peraturan Otoritas Jasa Keuangan Nomor 12/POJK.03/2021 tentang Bank Umum. Berdasarkan POJK tersebut bank **bjb** yang sebelumnya dalam ketegori Bank Umum berdasarkan Kegiatan Usaha (BUKU) III menjadi Kelompok Bank Berdasarkan Modal Inti (KBMI) 2 (Bank dengan Modal Inti lebih dari Rp6 triliun sampai dengan Rp14 triliun). Masuknya modal inti bank **bjb** dalam kategori KBMI 2 membuat kegiatan usaha yang dapat dilakukan oleh bank **bjb** menjadi lebih luas, serta dapat meningkatkan kepercayaan nasabah dalam melakukan aktivitas kegiatan perbankannya melalui bank **bjb**. Per akhir Desember 2022, modal inti bank **bjb** (*audited*) mencapai Rp12,81 triliun (individu) Rp14,15 triliun (konsolidasi) dan berada pada kategori KBMI 2. Strategi permodalan yang efektif, kuat dan efisien telah menjadi fokus manajemen seiring dengan terus bertumbuhnya bank **bjb** menjadi bank yang semakin besar dan semakin kuat.

Komponen permodalan bank **bjb** didominasi oleh komponen permodalan yang bersifat permanen, dimana komponen modal inti merupakan komponen terbesar dalam struktur permodalan bank. Pada posisi bulan Desember 2022, rasio modal inti bank **bjb** baik secara individual dan konsolidasi terhadap total ATMR bank mencapai 19,19% dan 19,40%. Rasio tersebut berada di atas ketentuan yang ditetapkan oleh Bank Indonesia dengan batasan minimum yaitu 6% baik secara individual maupun konsolidasi. Perhitungan rasio modal inti utama (*Common Equity Tier 1 Ratio*) terhadap total ATMR bank baik secara individual dan konsolidasi di bulan Desember 2022 mencapai 14,49% dan 14,95% yang berada di atas ketentuan yang telah ditetapkan Bank Indonesia dengan batasan minimum yaitu 4,50%.

Kecukupan Permodalan

Sebagai salah satu pengungkapan Basel II Pilar III, Otoritas Jasa Keuangan telah menerbitkan Surat Edaran Otoritas Jasa Keuangan Nomor 26/SEOJK.03/2016 tanggal 14 Juli 2016 perihal Kewajiban Penyediaan Modal Minimum sesuai Profil Risiko dan Pemenuhan *Capital Equivalency Maintained Assets* (CEMA). Sehubungan hal tersebut, bank **bjb** telah mengembangkan dan menerapkan metodologi untuk penerapan *Internal Capital Adequacy Assessment Process* (ICAAP) dimana metodologi tersebut telah dibahas dan disetujui dalam Komite Manajemen Risiko bank **bjb**. Laporan rasio kecukupan penyediaan modal minimum sesuai Profil Risiko dilaporkan secara berkala kepada Dewan Komisaris dan Direksi sebagai salah satu bentuk kepatuhan terhadap ketentuan Surat Edaran Otoritas Jasa Keuangan tersebut.

Several regulatory developments that significantly affect the operational and business conditions of bank **bjb** going forward are reflected in the issuance of Financial Services Authority Regulation Number 12/POJK.03/2021 concerning Commercial Banks. Based on the POJK, bank **bjb**, which was previously in the category of Commercial Banks based on Business Activities (BUKU) III, becomes Bank Group Based on Core Capital (KBMI) 2 (Banks with Core Capital of more than IDR6 trillion to IDR14 trillion). The inclusion of bank **bjb** core capital in the KBMI 2 category makes the business activities that can be carried out by bank **bjb** become wider, and can increase customer confidence in carrying out banking activities through bank **bjb**. As of the end of December 2022, bank **bjb** core capital (audited) reached IDR12.81 trillion (individual) IDR14.15 trillion (consolidated) and was in the KBMI 2 category. An effective, strong and efficient capital strategy has become the focus of management in line with continued growth bank **bjb** is becoming a bigger and stronger bank.

The capital component of bank **bjb** was dominated by a permanent capital component, in which the core capital component was the largest component in the bank's capital structure. In the position in December 2022, the ratio of bank **bjb** core capital both individually and consolidated to the bank's total RWA reached 19.19% and 19.40%, respectively. This ratio was above the provisions set by Bank Indonesia with a minimum limit of 6%, both individually and on a consolidated basis. The calculation of the main core capital ratio (Common Equity Tier 1 Ratio) to the total RWA of banks both individually and consolidated in December 2022 reached 14.49% and 14.95%, above the provisions set by Bank Indonesia with a minimum limit of 4,50%.

Adequacy of Capital

As one of the Basel II Pillar III disclosures, the Financial Services Authority (OJK) has issued a Financial Services Authority Circular Letter Number 26/ SEOJK.03/2016 dated July 14, 2016 concerning Minimum Capital Requirements in accordance with Risk Profile and Fulfillment of Capital Equivalency Maintained Assets (CEMA). In this regard, bank **bjb** has developed and implemented a methodology for implementing the Internal Capital Adequacy Assessment Process (ICAAP) where the methodology has been discussed and approved in bank **bjb** Risk Management Committee. The report on the minimum capital adequacy ratio in accordance with the Risk Profile is reported regularly to the Board of Commissioners and Directors as a form of compliance with the provisions of the Financial Services Authority Circular Letter.

Pengukuran internal yang dilakukan bank **bjb** telah memperhitungkan Pilar I dan Pilar II yaitu rasio kecukupan modal bank minimum sesuai profil risiko baik secara individual maupun konsolidasi di bulan Desember 2022 mencapai 9,24%. Hasil pengukuran profil risiko bank pada periode tersebut berada pada level peringkat komposit *Low to Moderate*. Pada posisi bulan Desember 2022, rasio kecukupan modal minimum bank baik secara individual sebesar 19,19% serta konsolidasi sebesar 19,40%.

Internal measurements carried out by bank **bjb** considered Pillar I and Pillar II, namely the minimum bank capital adequacy ratio according to the risk profile both individually and consolidated in December 2022 reaching 9.24%. The results of the measurement of the bank's risk profile for that period were at the composite Low to Moderate rating level. In the position in December 2022, the minimum capital adequacy ratio for banks both individually was 19.19%, and consolidated was 19.40%.

Sejalan telah diterbitkannya POJK Nomor 11/POJK.03/2016 tanggal 29 Januari 2016 perihal Kewajiban Penyediaan Modal Minimum Bank Umum, saat ini bank **bjb** telah mempersiapkan infrastruktur yang baik dan efektif dalam rangka memastikan implementasi POJK tersebut tidak mengganggu ekspansi bisnis dan aktivitas operasional bank **bjb**. Sesuai POJK tersebut, bank harus menyediakan rasio kecukupan modal minimum sesuai profil risiko bank ditambah dengan *Capital Conservation Buffer, Countercyclical Buffer* dan *Capital Surcharge* untuk *Domestic Systemically Important* Bank (D-SIB). *Capital Conservation Buffer* tersebut diperlukan oleh bank sebagai upaya penyangga (*buffer*) dalam menghadapi kerugian akibat kondisi krisis, sedangkan *Countercyclical Buffer* dibutuhkan bank sebagai tambahan modal penyangga untuk mengantisipasi kerugian apabila terjadi pertumbuhan kredit perbankan yang berlebihan sehingga berpotensi mengganggu stabilitas sistem keuangan.

In line with the issuance of POJK Number 11/POJK.03/2016 dated January 29, 2016 concerning the Minimum Capital Requirement for Commercial Banks, currently bank **bjb** has prepared a good and effective infrastructure in order to ensure the implementation of the POJK does not disrupt the business expansion and operational activities of bank **bjb**. In accordance with the POJK, banks must provide a minimum capital adequacy ratio according to bank **bjb** risk profile plus a Capital Conservation Buffer, Countercylical Buffer and Capital Surcharge for D-SIB (Domestic Systemically Important Bank). The Capital Conservation Buffer is needed by banks as a buffering effort in dealing with losses due to crisis conditions, while the Countercylical Buffer is needed by banks as additional buffer capital to anticipate losses in the event of excessive bank loan growth that has the potential to disrupt financial system stability.

bank **bjb** selalu melakukan perbaikan dan pengembangan baik dari segi produk dan jasa serta peningkatan infrastruktur manajemen risiko bank **bjb** melalui analisis yang komprehensif disertai dengan riset yang memadai sehingga dapat menjaga agar aktivitas bisnis dan operasional bank **bjb** tetap *prudent* dan berada dalam batas toleransi risiko bank **bjb**. Selain itu pula, bank **bjb** telah menetapkan *risk appetite* dan *risk tolerance* agar kecukupan permodalan yang dimiliki bank **bjb** masih memadai dan mampu meng*cover* kerugian ataupun potensi risiko kerugian yang timbul dari aktivitas operasional bank **bjb**.

bank **bjb** always makes improvements and developments both in terms of products and services as well as improving bank **bjb** risk management infrastructure through comprehensive analysis accompanied by adequate research so that it can maintain activities bank **bjb** business and operations remain prudent and are within the limits of bank risk tolerance. In addition, bank **bjb** has determined risk appetite and risk tolerance so that the capital adequacy of bank **bjb** is still sufficient and able to cover losses or potential risk of losses arising from bank **bjb** operational activities.

Pengelolaan modal risiko kredit bank **bjb** berpedoman pada Surat Edaran Otoritas Jasa Keuangan Nomor 42/SEOJK.03/2016 tanggal 28 September 2016 perihal Pedoman Perhitungan Aset Tertimbang Menurut Risiko untuk Risiko Kredit dengan Menggunakan Pendekatan Standar. Penetapan bobot risiko pada perhitungan ATMR mengacu kepada bobot risiko sesuai ketentuan Otoritas Jasa Keuangan dimaksud.

The management of bank **bjb** credit risk is guided by the Financial Services Authority Circular Letter Number 42/SEOJK.03/2016 dated September 28, 2016 concerning Guidelines for Calculating Risk Weighted Assets for Risk for Credit Risk by Using a Standardized Approach. The determination of risk weight in the calculation of RWA refers to the risk weight in accordance with the provisions of the Financial Services Authority in question.

Dalam mengukur ATMR Risiko Pasar, bank mempergunakan format *standardized method* yang meliputi perhitungan risiko suku bunga dan risiko nilai tukar dengan berpedoman pada Surat Edaran Otoritas Jasa Keuangan nomor 38/SEOJK.03/2016 tanggal 8 September 2016 tentang Pedoman Penggunaan Metode Standar dalam Perhitungan Kewajiban Penyediaan Modal Minimum Bank Umum dengan Memperhitungkan Risiko Pasar. Sesuai dengan pedoman yang ditetapkan oleh bank Indonesia, risiko pasar yang wajib dihitung oleh bank adalah risiko suku bunga di *trading book* dan risiko nilai tukar di *trading book* dan *banking book*. Sebagai upaya ke tahap pengembangan internal model, bank telah memiliki sistem informasi OPICS *Risk* yang berfungsi dalam mengukur *Value at Risk*, dan sensitivitas risiko dari *portfolio dealing room* untuk setiap efek yang dikategorikan ke dalam *trading book*.

In measuring Market Risk RWA, banks still use the standardized method format which includes the calculation of interest rate risk and exchange rate risk. with reference to the Financial Services Authority Circular Letter number 38/SEOJK.03/2016 dated September 8, 2016 concerning Guidelines for Using the Standard Method in Calculating the Minimum Capital Adequacy Requirement for Commercial Banks by Taking Market Risk into Account. In accordance with the guidelines set by Bank Indonesia, market risks that must be calculated by bank are interest rate risk in the trading book and exchange rate risk in the trading book and banking book. As an effort to develop the internal model, bank has an OPICS Risk information system that functions in measuring Value at Risk, and risk sensitivity from dealing room portfolio for each securities categorized in the Trading Book.

Perhitungan kecukupan modal risiko operasional masih menggunakan metode *Basic Indicator Approach* (BIA) yang dilakukan sesuai dengan Surat Edaran Otoritas Jasa Keuangan nomor 24/SEOJK.03/2016 tanggal 14 Juli 2016 tentang Perhitungan Aset Tertimbang Menurut Risiko Untuk Risiko Operasional dengan Menggunakan Pendekatan Indikator Dasar. Berdasarkan metode tersebut, Perusahaan mengalokasikan modal minimum untuk risiko operasional berdasarkan *historical data* yaitu sebesar rata-rata dari penjumlahan pendapatan bruto (*gross income*) tahunan selama 3 tahun terakhir (yang positif) dikali tarif yang berlaku yaitu 15%. Perhitungan kecukupan modal risiko operasional tersebut menjadi dasar dalam perhitungan ATMR Risiko Operasional.

Calculation of capital adequacy for operational risk still uses the Basic Indicator Approach (BIA) method which is carried out in accordance with Financial Services Authority Circular Letter number 24/SEOJK.03/2016 dated July 14, 2016 concerning Calculation of Risk-Weighted Assets for Operational Risk Using the Basic Indicator Approach. Based on this method, company allocates a minimum capital for operational risk based on historical data, which is the average of the total annual gross income for the last 3 (three) years (positive) times the applicable tariff of 15%. The calculation of operational risk capital adequacy is the basis for calculation of Operational Risk RWA.

Pengungkapan Eksposur Risiko dan Penerapan Manajemen Risiko

Risiko Kredit

bank **bjb** menerapkan proses yang ketat pada setiap penyusunan maupun perubahan ketentuan internal bank. Penyusunan maupun perubahan KPB, SOP, Pedoman, maupun Petunjuk Teknis perkreditan dilakukan melalui tahapan berjenjang dimulai dari pembahasan pada level teknis hingga melalui persetujuan Direksi. bank **bjb** juga telah memiliki standar baku dalam alur penyusunan ketentuan sehingga dapat menghasilkan kualitas yang baik. Setiap penyusunan maupun perubahan atas Kebijakan, SOP, Pedoman dan Petunjuk Teknis perkreditan senantiasa melalui pembahasan bersama Divisi yang terkait sehingga memenuhi kecukupan identifikasi dan mitigasi risiko serta ketentuan yang berlaku.

bank **bjb** saat ini telah memiliki *Portofolio Guideline* serta menetapkan (*risk appetite*) dan toleransi risiko (*risk tolerance*) berdasarkan pertimbangan kekuatan permodalan serta target pendapatan kredit. Tingkat Risiko yang akan diambil (*risk appetite*) merupakan tingkat dan jenis Risiko yang bersedia diambil oleh bank dalam rangka mencapai sasaran bank. Toleransi Risiko (*risk tolerance*) merupakan tingkat dan jenis Risiko yang dapat ditolerir secara maksimum oleh bank. Toleransi Risiko menjadi penjabaran dari tingkat Risiko yang akan diambil.

Selain itu, bank **bjb** menetapkan batas maksimum *exposure*/ portofolio per sektor ekonomi/industri per debitur dan per *group* debitur dengan mempertimbangkan tingkat kemampuan bank, kecukupan modal dan tingkat risiko. Penetapan batas maksimum *exposure*/portofolio diatur dalam ketentuan dan dilakukan review secara periodik. Penetapan *Portfolio Guideline* mencakup panduan pemilihan sektor industri yang prospektif, serta pengaturan batas maksimal eksposur dan arah pertumbuhan bisnis.

Adapun terkait dengan limit kewenangan memutus kredit saat ini bank **bjb** telah menerapkan mekanisme keputusan kredit secara berjenjang sesuai dengan tingkat risiko yang tercermin dari plafond fasilitas kredit.

Kecukupan Proses Identifikasi, Pengukuran, Pemantauan, dan Pengendalian Risiko, serta Sistem Informasi Manajemen Risiko

Dalam analisis kredit, bank **bjb** telah menerapkan proses identifikasi atas potensi risiko yang melekat. Proses identifikasi tersebut menjadi lebih optimal dengan dibentuknya Divisi *Credit Risk* yang khusus melaksanakan *review* dan analisis lanjutan atas proses pengajuan fasilitas kredit yang telah disusun oleh bagian bisnis.

Disclosure of Risk Exposures and Application of Risk Management

Credit Risk

bank **bjb** applies a strict process for each preparation and amendment to each bank's internal regulations. The preparation and amendment to the KPB, SOP, Guidelines and Credit Technical Instructions are carried out through a tiered phase which starts from discussion at the technical level to through the approval of the Directors. bank **bjb** also owned a standard in the flow of provisions so that it could produce good quality. Every preparation or amendment to Policies, SOPs, Guidelines and Credit Technical Instructions was always discussed with the relevant divisions so as to meet the adequacy of risk identification and mitigation as well as applicable regulations.

bank **bjb** currently has a Guideline Portfolio and establishes (risk appetite) and risk tolerance (risk tolerance) based on consideration of capital strength and credit income targets. The level of risk to be taken (risk appetite) is the level and type of risk that is willing to be taken by bank **bjb** in order to achieve bank **bjb** goals. Risk tolerance is the level and type of risk that is maximally determined by bank **bjb**. Risk Tolerance is the translation of the level of risk to be taken.

In addition, bank **bjb** sets maximum exposure/portfolio limits per economic/industrial sector per debtor and per group of debtors taking into account the level of bank capability, capital adequacy and level of risk. Determination of the maximum exposure/ portfolio limit is regulated in the provisions and is reviewed periodically. Determination of the Portfolio Guideline includes guidelines for selecting prospective industrial sectors, as well as setting maximum exposure limits and business growth directions.

As for the credit limit, bank **bjb** has implemented a tiered credit decision mechanism in accordance with the level of risk that is reflected in the credit facility ceiling.

Adequacy of the Risk Identification, Measurement, Monitoring and Control Process, and the Risk Management Information System

In the credit analysis, bank **bjb** has implemented a process of identifying potential inherent risks. The identification process has become more optimal with the formation of a Credit Risk Division that specializes in carrying out further reviews and analysis of the credit facility application process prepared by the business department.

Sebagai bentuk identifikasi atas risiko kredit, bank **bjb** telah mengembangkan adanya kajian independen yang berisi analisis atas perkembangan portofolio kredit, *Non Performing Loan* (NPL), *Root Cause Credit* serta prediksi perkembangan kualitas kredit dengan mempertimbangkan kesiapan infrastruktur pendukungnya.

Dalam melakukan pengukuran risiko, bank **bjb** mengembangkan model risiko kredit melalui penggunaan *Internal Credit Risk Rating* (ICRR) dan *Internal Credit Risk Scoring* (ICRS) pada setiap pengajuan kredit. Penyusunan ICRR dan ICRS menggunakan faktor kualitatif dan faktor kuantitatif yang dapat mengindikasikan risiko gagal bayar calon debitur

Adapun *rating* dan *scoring* yang dimiliki oleh bank **bjb** meliputi:
1. Segmen Korporasi dan Komersial

ICRR adalah suatu alat bantu dalam mengukur risiko kredit dalam bentuk suatu model yang digunakan untuk memprediksi tingkat kemungkinan kegagalan pembayaran oleh debitur atas fasilitas kredit yang diberikan. ICRR mengklasifikasikan entitas perusahaan/korporasi secara sistematis ke dalam suatu kelas risiko (*grading* atau peringkat). Penggunaan ICRR bertujuan untuk menentukan peringkat bagi debitur yang mencerminkan besaran *Probability of Default* (PD). Debitur dengan *rating* terbaik memiliki *Probability of Default* yang mendekati nol. Adapun untuk kredit dengan *rating* lebih rendah, akan memiliki *Probability of Default* yang meningkat. bank **bjb** menggunakan model statistik dalam analisis data untuk menghasilkan perkiraan *Probability of Default*.

Tingkatan *rating* debitur dinyatakan dengan huruf yang meliputi 20 (dua puluh) peringkat berbeda yaitu:

As a form of identification of credit risk, bank **bjb** has developed an independent study that contains an analysis of the development of credit portfolios, Non-Performing Loans (NPLs), Root Cause Credit and predictions of credit quality development by considering the readiness of supporting infrastructure

In measuring risk, bank **bjb** develops a credit risk model through the use of the Internal Credit Risk Rating (ICRR) and Internal Credit Risk Scoring (ICRS) for each credit application. The preparation of ICRR and ICRS uses qualitative factors and quantitative factors that can indicate the risk of default on prospective borrowers

The rating and scoring owned by bank **bjb** include:
1. Corporate and Commercial Segments
2. Consumer Segment
3. MSME Segment
4. KPR Segment
5. KPR and KKB segment
6. BPR and Corporate Segment
7. International Segment

ICRR is a tool in measuring credit risk in the form of a model used to predict the likelihood of payment defaults by debtors on credit facilities provided. ICRR Classifies systematic corporate/corporate entities into a risk class (grading or rating). The use of ICRR aims to determine the rating for debtors that reflects the amount of Probability of Default (PD). Debtors with the best rating have a Probability of Default that is close to zero. As for credit with a lower rating, it will have an increased Probability of Default. bank **bjb** uses statistical models in data analysis to generate Probability of Default estimates.

Debtor rating levels are stated in letters covering 20 (twenty) different ratings, namely:

No	Rating Rating	Keterangan Description
1	AAA	*Outstanding*
2	AA+	*Strong*
3	AA	*Strong*
4	AA-	*Strong*
5	A+	*Good*
6	A	*Good*
7	A-	*Good*
8	BBB+	*Average*
9	BBB	*Average*
10	BBB-	*Average*

No	Rating Rating	Keterangan Description
11	BB+	*Acceptable*
12	BB	*Acceptable*
13	BB-	*High Risk*
14	B+	*High Risk*
15	B	*Watch List*
16	B-	*Watch List*
17	CCC+	*Special Mention*
18	CCC	*Special Mention*
19	CCC-	*Substandard*
20	D	*Doubtful*

Adapun penerapan ICRS menjadi suatu alat bantu rekomendasi terhadap keputusan persetujuan atau penolakan atas pengajuan fasilitas kredit. Dengan menggunakan ICRS, maka bank dapat memproses kredit dengan lebih baik, obyektif dan standar, serta dengan waktu proses relatif lebih cepat.

The application of ICRS becomes a decision of approval or rejection of credit facility applications. By using ICRS, bank **bjb** can process credit better, objectively and standards, and with a relatively faster processing time.

Sebagai bentuk lain dari pengukuran risiko kredit, bank **bjb** telah melakukan estimasi kerugian yang telah diperkirakan (*Expected Loss*) serta besar kerugian yang tidak diperkirakan (*Unexpected Loss*). *Expected Loss* (EL) adalah besaran kerugian secara statistik yang diperkirakan timbul secara rata-rata dari perkiraan kerugian yang secara umum terjadi. EL didapatkan dari perhitungan Eksposur pada saat *default* (EAD), kerugian pada saat default (LGD) dan probabilitas terjadinya default (PD), yang diestimasi dari data probabilitas *default* secara historis.

As another form of credit risk measurement, bank **bjb** has estimated the estimated loss (Expected Loss) as well as the amount of an unexpected loss (Unexpected Loss). Expected Loss (EL) is the amount of a statistically estimated loss arising on average from the estimated losses that generally occur. EL is obtained from the calculation of Exposure at the time of default (EAD), losses at the time of default (LGD) and probability of occurrence of default (PD), which is estimated from historical default probability data.

Sementara itu *Unexpected Loss* (UL) merupakan deviasi dari rata-rata kerugian. Perhitungan UL diperoleh dari data volatilitas secara historis (*historical volatility*) atas data default.

Meanwhile Unexpected Loss (UL) is the deviation from the average loss. UL calculations are obtained from historical volatility data on default data.

bank **bjb** juga telah mengembangkan proses pemantauan risiko yang dilakukan secara berkala melalui penerbitan laporan *Root Cause of Credit Risk* (RCCR) yang disampaikan kepada Direksi dan seluruh Divisi terkait. Laporan *Root Cause of Credit Risk* (RCCR) berisi analisis perkembangan portofolio beserta kualitas kreditnya, Analisa *Loan at Risk* (LAR), serta tingkat konsentrasi kredit baik berdasarkan sektor ekonomi, maupun debitur inti. Melalui laporan ini bank mengembangkan mekanisme identifikasi berkala atas potensi penurunan kualitas suatu portofolio kredit sehingga menjadi masukan dalam penyusunan strategi Manajemen Risiko. Dengan demikian maka penanganan atas kemungkinan penurunan kualitas portofolio kredit dapat segera ditindaklanjuti sehingga menjadi *Early Warning Signal* (EWS). EWS dapat meminimalkan risiko terjadinya kerugian dan mengoptimalkan modal untuk memperoleh pendapatan.

bank **bjb** has also developed a risk monitoring process that is carried out periodically through the issuance of the Root Cause of Credit Risk (RCCR) report submitted to the Directors and all relevant Divisions. The Root Cause of Credit Risk (RCCR) report contains an analysis of the development of the portfolio and its credit quality, Loan at Risk (LAR) analysis, as well as the level of credit concentration based on the economic sector and core debtors. Through this report bank develops a periodic identification mechanism for the potential deterioration in the quality of a credit portfolio so that it becomes input in the preparation of a Risk Management strategy. Thus, the handling of the possibility of decreasing the quality of the loan portfolio can be immediately followed up so that it becomes an Early Warning Signal (EWS). EWS can minimize the risk of loss and optimize capital to earn income.

Disamping itu bank **bjb** secara berkala melakukan analisis *stress test* yang meliputi beberapa skenario utama yaitu:

1. ***Portfolio Concentration Stress Test* (*Specific Market Crisis*)**
   Perhitungan *stress test* dengan pendekatan *portfolio concentration* bertujuan untuk menghitung perubahan *Probability of Default* (PD) yang diakibatkan memburuknya kolektibilitas seluruh kredit.

2. ***Macro Economy Stress Test* (*General Market Crisis*)**
   Perhitungan *stress test* dengan menggunakan analisis makro ekonomi bertujuan untuk mengetahui perubahan *Probability of Default* (PD) yang disebabkan oleh adanya pergerakan Kurs USD/IDR, perubahan suku bunga acuan, serta perubahan tingkat inflasi dan *Gross Domestic Product* (GDP).

3. ***Reverse Stress Test***
   Apabila pada pelaksanaan *stress test* pada umumnya bertujuan untuk menghitung dampak perubahan makro ekonomi yang telah ditentukan sebelumnya terhadap perubahan nilai NPL, *profit and loss* serta CAR, dan Aktiva Tertimbang Menurut

Besides this, bank **bjb** regularly conducts stress test analysis which covers several main scenarios, namely:

1. **Portfolio Concentration Stress Test (Specific Market Crisis)**
   Calculation of stress tests using the portfolio concentration approach aims to calculate changes in Probability of Default (PD) resulting from the deteriorating collectibility of all loans.

2. ***M*acro Economy Stress Test (General Market Crisis)**
   Calculation of stress tests using macroeconomic analysis aims to determine changes in Probability of Default (PD) caused by movements in the USD/IDR exchange rate, changes in reference interest rates, as well as changes in the Inflation Rate and Gross Domestic Product (GDP).

3. **Reverse Stress Test**
   If the implementation of stress tests generally aims to calculate the impact of predetermined macroeconomic changes on changes in the value of NPLs, Profit and Loss and CAR, and Risk Weighted Assets (RWA), the calculation of stress tests

Risiko (ATMR) maka perhitungan *stress test* dengan skenario *reverse* bertujuan untuk mengetahui perubahan kondisi makro ekonomi yang berdampak pada penurunan nilai CAR hingga berada di bawah ketentuan.

4. ***Bottom Up Stress Test***
   bank **bjb** secara berkala melakukan *stress test* ketahanan permodalan bank dimana pada tahun 2022 bank terlibat dalam penyusunan *Bottom Up Stress Test* (BUST). Pelaksanaan *stress test* dilakukan dengan pendekatan kategori *portfolio* level dan bertujuan untuk menghitung pengaruh kondisi *shock* makro ekonomi terhadap peningkatan PD (*Probability of Default*) secara *bankwide* serta pencapaian laba dan permodalan bank. Pelaksanaan perhitungan menggunakan *satellite model* yang meliputi baik kredit produktif maupun kredit non-produktif pada seluruh sektor ekonomi. *Satellite model* tersebut merupakan perhitungan regresi *multiple* yang menghubungkan kondisi makro ekonomi sebagai *independent variable* dan PD sebagai *dependent variable*.

Disamping itu, dengan memperhatikan perkembangan penyebaran Covid-19 secara global yang berdampak mengganggu kinerja perbankan, bank telah melaksakanan uji ketahanan (*stress test*) dengan beberapa skenario *stress test* yang berdampak kepada kinerja bank, di antaranya pengaruh melemahnya nilai tukar Rupiah akibat Covid-19, penurunan kolektibilitas debitur Korporasi dan Komersial yang terdampak Covid-19 serta beberapa debitur yang akan direstrukturisasi terkait stimulus Covid-19.

Adapun berdasarkan hasil perhitungan *stress test* diketahui bahwa perubahan aspek eksternal tersebut tidak berdampak secara signifikan terhadap penurunan *Capital Adequacy Ratio* (CAR) sehingga dapat dikatakan bahwa permodalan cukup memadai dalam menghadapi gejolak perubahan faktor eksternal.

Sistem Pengendalian Intern yang Menyeluruh

bank **bjb** telah memiliki sistem pengendalian intern untuk manajemen risiko kredit dengan berpedoman pada SE OJK Nomor 34/SEOJK.03/2016 tanggal 1 September 2016 Tentang Penerapan Manajemen Risiko bagi bank Umum.

Dalam pelaksanaannya, sistem pengendalian intern untuk risiko kredit mencakup penerapan atas hal-hal sebagai berikut:
1. Dipenuhinya kecukupan Kebijakan, Pedoman dan Prosedur bidang perkreditan.
2. Dilakukannya *review* oleh unit kerja independen atas rancangan Kebijakan, Pedoman dan Prosedur bidang perkreditan.
3. Dilakukannya *review*/kaji ulang atas metode pengukuran risiko oleh Divisi Manajemen Risiko yang mencakup penilaian kesesuaian metode, dan asumsi yang digunakan untuk mengukur risiko.
4. Kaji ulang atas kepatuhan bank terhadap ketentuan internal dan eksternal bidang perkreditan.

with a reverse scenario aims to determine changes in macro economics conditions that have an impact on the decline in the value of the CAR to be below the provisions.

4. **Bottom Up Stress Test**
   bank **bjb** periodically conducted stress tests on the resilience of bank capital where in 2022, bank was involved in the preparation of the Bottom Up Stress Test (BUST). The stress test was carried out using a portfolio level category approach and aimed to calculate the effect of macroeconomic shock conditions on the increase in PD (Probability of Default) bankwide and the achievement of bank profits and capital. The calculation was carried out using a satellite model including both productive and non-productive loans in all economic sectors. The satellite model was a multiple regression calculation that related macroeconomic conditions as the independent variable and PD as the dependent variable.

In addition, considering the development of the spread of Covid-19 globally which brought an impact on disrupting banking performance, bank **bjb** carried out a stress test with several stress test scenarios that had an impact on bank performance, including the effect of the weakening of the Rupiah exchange rate due to Covid-19, a decrease in the collectibility of Corporate and Commercial debtors affected by Covid-19 as well as several debtors that was restructured due to the Covid-19 stimulus.

Meanwhile, based on the results of the stress test calculation, it is known that changes in external aspects did not have a significant impact on the decrease in the Capital Adequacy Ratio (CAR) so that the capital was adequate in dealing with changes in external factors.

Comprehensive Internal Control System

bank **bjb** already has an internal control system for credit risk management based on SE OJK Number 34/SEOJK.03/2016 dated September 1, 2016 concerning Application of Risk Management for Commercial Banks.

In its implementation, the internal control system for credit risk includes the application of the following matters:
1. Fulfillment of the adequacy of Credit Policy, Guidelines and Procedures in the field of credit;
2. Conducting a review by an independent work unit on the draft Credit Policy, Guidelines and Procedures;
3. Conducting a review/review of the risk measurement method by the Risk Management Division which includes an assessment of the suitability of the method, and the assumptions used to measure risk
4. Review bank compliance with internal and external provisions in the credit sector.

Dalam rangka optimalisasi pengendalian intern, maka bank **bjb** juga telah melakukan pemisahan fungsi yang jelas antara unit bisnis dan unit yang melaksanakan pengendalian sehingga bank telah menerapkan *segregation of duty* dan *dual control* dalam melakukan keputusan kredit. Pengendalian intern untuk manajemen risiko kredit juga mencakup pengawasan oleh Dewan Komisaris dan Direksi secara berkala melalui pelaporan yang disampaikan oleh Divisi Manajemen Risiko maupun pelaksanaan *Risk Management Committee* (RMC) yang beranggotakan Direksi serta pejabat eksekutif terkait. Adapun pelaksanaan rapat Komite Pemantau Risiko (KPR) telah dilaksanakan secara berkala yang ditujukan untuk memantau perkembangan eksposur risiko kredit sesuai dengan perkembangan terkini.

In the context of optimizing internal control, bank **bjb** has also performed a clear separation of functions between business units and units that carry out control so that bank has implemented segregation of duty and dual control in making credit decisions. Internal control for credit risk management also includes supervision by the Board of Commissioners and the Directors on a regular basis through reporting submitted by the Risk Management Division and the implementation of the Risk Management Committee (RMC) consisting of Directors and related executive officers. The implementation of Risk Monitoring Committee (KPR) meetings has been held periodically aimed at monitoring the development of credit risk exposures in accordance with the latest developments

Risiko Pasar

Risiko pasar adalah risiko yang timbul atas portfolio pada posisi neraca dan rekening administratif termasuk transaksi derivatif, akibat perubahan secara keseluruhan dari kondisi pasar, termasuk Risiko perubahan harga option.

Komponen risiko pasar meliputi:

- Risiko suku bunga adalah risiko akibat perubahan harga instrumen keuangan dari posisi *trading book* yang disebabkan oleh pergerakan sensitivitas risiko (*risk factor*) pada setiap instrumen atau akibat perubahan nilai ekonomis modal (*Economic Value of Equity*) bank dari aktivitas banking Book yang disebabkan oleh perubahan suku bunga.
- Klasifikasi risiko suku bunga mencakup pula risiko suku bunga dari posisi *banking book* yang antara lain meliputi *repricing risk, yield curve risk, basis risk*, dan *optionality risk*.
- Risiko Nilai tukar adalah risiko akibat perubahan nilai posisi terbuka valuta asing klasifikasi *trading book* atau akibat perubahan posisi devisa neto bank (*banking book*) yang disebabkan oleh perubahan nilai tukar valuta asing.

Risiko pasar timbul dari pergerakan/perubahan tingkat suku bunga dan/atau nilai tukar yang mempengaruhi posisi keuangan bank khususnya terhadap rasio permodalan. Secara garis besar,

Market Risk

Market Risk is the risk arising from the portfolio in the balance sheet and administrative account positions including derivative transactions, due to overall changes in market conditions, including the risk of changes in option prices.

Components of market risk include :

- Interest Rate Risk is the risk due to changes in financial instrument prices from Trading Book positions caused by risk factor movements on each instrument or due to changes in the Economic Value Of Equity of bank from Banking Book activities caused by changes in interest rates.

- Classification of interest rate risk also includes interest rate risk from the banking book position, which includes repricing risk, yield curve risk, basis risk, and optionality risk.
- Exchange Rate Risk is the risk due to changes in the value of open positions in the Trading Book classification or due to changes in the position of bank Net Open Exchange (Banking Book) caused by changes in foreign exchange rates.

Market risk arises from movements/changes in interest rates and/or exchange rates that affect the financial position of banks, especially towards capital ratios. Broadly speaking, market risk

manajemen risiko pasar terbagi menjadi 2 (dua) yaitu manajamen risiko pasar *trading book* dan manajemen risiko pasar *banking book*. Sumber risiko pasar *trading book* timbul dari aktivitas *Dealing Room* Divisi Treasuri akibat posisi terbuka bank yang terekspos pergerakan suku bunga atau nilai tukar valuta asing.

Sumber risiko pasar *banking book* timbul antara lain disebabkan oleh perubahan stuktur portofolio neraca dan rekening adminstratif bank yang sensitif terhadap pergerakan suku bunga sehingga berdampak terhadap pendapatan bunga bersih dan yang yang disebabkan pula karena perubahan struktur portofolio neraca dan rekening adminstratif bank yang sensitif terhadap pergerakan nilaii tukar yang tercermin dari posisi devisa neto bank.

Pengawasan Aktif Dewan Komisaris dan Direksi

Dewan Komisaris dan Direksi bertanggungjawab atas efektivitas penerapan manajemen risiko pasar di bank. Terkait wewenang dan tanggung jawab pengawasan aktif Dewan Komisaris dan Direksi bank **bjb**, Dewan Komisaris dan Direksi selalu memperoleh informasi yang jelas mengenai evaluasi dan penerapan manajemen risiko eksposur risiko pasar, pemantauan limit secara harian serta langkah-langkah yang diambil oleh *Risk Taking Unit* khususnya terkait adanya pelampauan limit.

Dalam pelaksanaan pengawasannya, Dewan Komisaris dibantu oleh Komite Pemantau Risiko (KPR) bank secara berkala melakukan pengawasan melalui koordinasi dengan Satuan Kerja Manajemen Risiko. Media koordinasi yang digunakan dapat berupa laporan pemantauan risiko oleh SKMR yang disampaikan kepada Komite Pemantau Risiko ataupun melalui media rapat antara kedua belah pihak. Pada implementasinya, pelaksanaan rapat yang diadakan umumnya membahas penerapan manajemen risiko di bank **bjb** menyangkut di antaranya penerapan pengukuran *risk tolerance* risiko pasar, pembahasan profil risiko yang bersifat material, serta kecukupan dan evaluasi metodologi dan/atau *tools* pengukuran risiko pasar yang dipergunakan Satuan Kerja Manajemen Risiko.

Pengawasan yang dilakukan oleh Direksi adalah melalui pemantauan penerapan limit *treasury* secara berkala baik terjadi pelampauan limit (*breach limit*) maupun tidak terjadi pelampauan limit, dan melakukan persetujuan atas limit yang bersifat baru ataupun setelah dilakukan perubahan. Sedangkan pembahasan eksposur risiko pasar dibahas dalam rapat Komite Manajemen Risiko/*Risk Management Committee* (RMC). Sejalan dengan kebijakan manajemen risiko pasar mengenai tahapan eskalasi pelampauan limit, setiap pelampauan limit akan diinformasikan dan disetujui apabila terjadi kondisi abnormal dalam Komite Manajemen Risiko (RMC). Pengelolaan risiko pasar tersebut disusun ke dalam bentuk kebijakan, prosedur, limit risiko dan hasil keputusan lainnya terkait dengan pengelolaan risiko pasar. Limit risiko pasar dan risk appetite bank dievaluasi secara periodik atau sewaktu-waktu diperlukan untuk dilakukan evaluasi sesuai dengan perubahan lingkungan bisnis bank.

management is divided into 2 (two), namely trading book market risk management and banking book market risk management. The source of trading book market risk arises from the Dealing Room of the Treasury Division due to bank open position exposed to movements in interest rates or foreign exchange rates.

Sources of banking book market risk arise, among others, due to changes in the structure of bank balance sheet and administrative accounts which are sensitive to interest rate movements so that it has an impact on net interest income and which is also caused by changes in the structure of bank balance sheet and administrative accounts which are sensitive to exchange rate movements reflected by bank Net Open Position.

Active Supervision of the Board of Commissioners and Directors

The Board of Commissioners and Directors are responsible for the effectiveness of the application of Market Risk Management in bank **bjb**. Related to the authority and responsibility of active supervision of bank **bjb** Board of Commissioners and Directors, the Board of Commissioners and Directors always obtain clear information regarding the evaluation and application of risk management for market risk exposure, daily monitoring of limits and steps taken by the Risk Taking Unit, especially related to the existence of limit exceeding.

In carrying out its supervision, the Board of Commissioners is assisted by bank Risk Monitoring Committee (KPR) periodically conducts supervision in coordination with the Risk Management Work Unit. The coordination media used can be in the form of risk monitoring reports by SKMR submitted to the Risk Monitoring Committee or through media meetings between the two parties. In its implementation, the meeting held generally discusses the application of risk management in bank **bjb** involving among others the application of market risk risk tolerance measurement, discussion of material risk profiles, as well as the adequacy and evaluation of methodologies and/or market risk measurement tools used by the Risk Management Work Unit.

Supervision conducted by the Directors is through periodic monitoring of the application of Treasury limits, both breach limits and no exceeding limits, and approval of new limits or after changes are made. While the discussion of market risk exposures was discussed in a Risk Management Committee meeting. In line with market risk management policies regarding the escalation stages of limit exceeding, every limit exceeding will be informed and approved if abnormal conditions occur in the Risk Management Committee (RMC) Market risk management is arranged in the form of policies, procedures, risk limits and other decision results related to market risk management. Market risk limits and bank risk appetite are evaluated periodically or at any time needed to be evaluated in accordance with changes in bank business environment.

Kecukupan Kebijakan, Prosedur dan Penetapan Limit

Sebagai penerapan manajemen risiko pasar yang bersifat dinamis, Satuan Kerja Manajemen Risiko bank melakukan pembaharuan dan evaluasi atas kebijakan dan pedoman manajemen risiko bank secara berkala. Evaluasi pedoman pengukuran limit risiko pasar oleh Satuan Kerja Manajemen Risiko secara berkala dan dilakukan pembahasan dengan *Risk Taking Unit* (Divisi Treasury) dan selanjutnya akan diajukan kepada Direksi untuk persetujuan atas pedoman dimaksud.

Terkait dengan evaluasi penetapan limit *Dealing Room Treasury* dan ALM yang diajukan oleh Divisi Treasury, Satuan Kerja Manajemen Risiko melakukan evaluasi terhadap limit tersebut dengan metodologi yang telah disahkan dalam pedoman manajemen risiko bank. Limit untuk level portofolio *treasury* dievaluasi minimal satu tahun sekali atau dapat dilakukan lebih sering jika terdapat pergerakan volatilitas harga pasar atau perubahan business plan *Risk Taking Unit*. Evaluasi analisis tersebut sekurang-kurangnya memuat informasi mengenai latar belakang perubahan limit, kondisi saat ini, dasar perhitungan dalam melakukan perubahan limit, kepatuhan terhadap regulasi dan dampak terhadap modal.

Kecukupan Proses Identifikasi, Pengukuran, Pemantauan, dan Pengendalian Risiko, serta Sistem Informasi Manajemen Risiko

Dalam melakukan penerapan manajemen risiko melalui proses identifikasi, pengukuran, pemantauan, dan pengendalian risiko, serta sistem informasi manajemen risiko untuk risiko pasar sebagaimana Surat Edaran Otoritas Jasa Keuangan Nomor 34/SEOJK.03/2016 tanggal 1 September 2016, bank melakukan penerapan manajemen risiko yaitu:

1. **Identifikasi Risiko Pasar**
   Proses identifikasi risiko pasar meliputi identifikasi dari karakteristik produk baru, identifikasi sumber risiko pasar yang dapat berdampak kepada transaksi yang akan dilakukan oleh *Dealing Room Treasury*. Proses identifikasi Risiko yang disesuaikan dengan Risiko Pasar melekat pada aktivitas bisnis bank yang meliputi risiko suku bunga antara lain *repricing risk, yield curve risk, basis risk, optionality risk,* dan untuk risiko nilai tukar antara lain tercermin dari besarnya eksposur transaksional. Satuan Kerja Manajemen Risiko juga melakukan *review* atau evaluasi atas produk maupun aktivitas yang terekspos pengaruh pergerakan variabel pasar.

2. **Pengukuran Risiko Pasar**
   Pengelolaan portofolio Divisi Treasuri tanpa adanya dasar pertimbangan dan penilaian risiko akan mengakibatkan kerugian di atas toleransi bank **bjb** dalam menyerap kerugian. Salah satu cara dalam menanggulangi kejadian risiko yang dapat menyebabkan kerugian di atas toleransi risiko bank adalah penggunaan toleransi risiko atau limit transaksi yang diperkenankan manajemen bank. Pengajuan limit oleh Divisi

Adequacy of Policies, Procedures and Limit Determination

As a dynamic application of market risk management, bank Risk Management Work Unit regularly updates and evaluates bank risk management policies and guidelines. Evaluate guidelines for measuring market risk limits by the Risk Management Work Unit on a regular basis and discuss with the risk taking unit (Treasury Division) and subsequently will be submitted to the Directors for approval of the guidelines referred to.

In connection with the evaluation of the determination of the Dealing Room Treasury and ALM limits proposed by the Treasury Division, the Risk Management Work Unit evaluates these limits using the methodology that has been approved in bank risk management guidelines. Limit for treasury portfolio level is evaluated at least once a year or can be done more frequently if there is a movement in market price volatility or changes in business plan risk taking units. Evaluation of the analysis contains at least information on the background of changes in limits, current conditions, the basis for calculating changes in limits, compliance with regulations and the impact on capital.

Adequacy of the Risk Identification, Measurement, Monitoring and Control Process, As Well As Risk Management Information System

In implementing Risk Management through the process of identifying, measuring, monitoring and controlling Risk, as well as the Risk Management information system for Market Risks as stated in Bank Indonesia Circular Letter Number 34/DPNP.03/2016 dated September 1, 2016 bank implements risk management, namely:

1. **Market Risk Identification**
   The process of identifying market risk includes identification of the characteristics of new products, identification of sources of market risk that can have an impact on transactions that will be carried out by the Dealing Room Treasury. The risk identification process that is adjusted to Market Risk is inherent in bank business activities which includes interest rate risk including repricing risk, yield curve risk, basis risk, and optionality risk and for exchange rate risk, among others, reflected in the magnitude of transactional exposure. The Risk Management Work Unit also reviews or evaluates products and activities that are exposed to the influence of market variable movements.

2. **Market Risk Measurement**
   Management of the Treasury Division's portfolio without a basis for consideration and risk assessment will result in losses above bank **bjb** tolerance in absorbing losses. One way to overcome risk events that can cause losses above bank risk tolerance is to use risk tolerance or transaction limits that are allowed by bank management. Submission of limits by the Treasury Division as a risk-taking unit must obtain a

Treasuri sebagai *Risk Taking Unit* harus mendapatkan kajian risiko secara terukur oleh Divisi Manajemen Risiko. Pengajuan limit ini bertujuan untuk mempermudah Manajemen bank **bjb** dalam memahami risiko yang dihadapi serta pengelolaan risikonya.

Pengajuan limit harus meliputi kriteria-kriteria sebagai berikut:
Divisi Treasuri sebagai *Risk Taking Unit* menerapkan "*trading*" dan "*hedging*" secara berkala sebagai bagian dari proses pengelolaan bisnis *Treasury* khususnya bidang *Treasury Trading*. Pada konteks limit berbasis risiko ini, yang ditentukan adalah limit yang berkaitan dengan aktivitas *Treasury*. Dalam proses penerapan limit dilakukan usaha pendekatan dimana terdapat komponen-komponen yang mendukung di antaranya:

1. **Rencana Bisnis**
   a. Rencana bisnis harus secara luas mencantumkan tujuan dari limit yang diminta, target pasar, pendapatan yang diharapkan dan kebutuhan akan modal. Rencana tersebut harus mengkualifikasikan cara bagaimana limit tersebut akan dipergunakan, contoh "*trading*" atau "*hedging*".
   b. Aplikasi limit harus mengidentifikasi mata uang dan pasar spesifik yang menjadi eksposur terhadap tujuan unit bisnis.

2. **Persyaratan Modal dan Proyeksi Pendapatan**
   a. Divisi Treasuri meminta masukan dari Divisi Manajemen Risiko dalam mengukur alokasi modal yang harus disediakan dalam memitigasi potensi kerugian yang akan timbul.
   b. Divisi Treasuri harus memberikan proyeksi pendapatan yang berhubungan dengan aplikasi limit. Proyeksi tersebut akan memudahkan Direksi dalam proses pengambilan keputusan persetujuan limit.

3. **Penggunaan historis**
   Divisi Treasuri dapat memberikan analisis *trend market outlook* dengan penggunaan historis yang ada atas eksposur risiko atau limit yang akan diterapkan. Prosedur kerja pengukuran limit unit bisnis Treasuri mempertimbangkan beberapa aspek yang dinilai cukup berpotensial dalam menimbulkan kejadian risiko. Komponen yang mendasari dalam pengukuran limit memuat yaitu:
   a. Faktor sensitivitas risiko pasar
      Setiap aktivitas Treasuri terdapat risiko yang melekat (*risk inherent*) dimana proses dalam pengukuran risiko harus didasarkan pada sensitivitas risiko yang melekat pada aktivitas transaksi Treasuri. Faktor sensitivitas risiko pasar meliputi yaitu PV01, *duration* dan volatilitas transaksi.
   b. Kecukupan Data
      Kecukupan data diperlukan sebagai kecukupan prosedur analisis statistik dan agar analisis pengukuran terhadap risiko menghasilkan output yang memadai dan sesuai dengan eksposur risiko yang dihadapi oleh bank. Data yang diperlukan adalah data historis yang dibutuhkan guna memperkuat suatu analisis pengukuran limit risiko.

measurable risk assessment by the Risk Management Division. Submission of this limit aims to facilitate management bank **bjb** in understanding the risks faced and managing the risks.

Submission of limits must include the following criteria:
Treasury Division as a risk taking unit implements "trading" and "hedging" regularly as part of the Treasury business management process, especially in the field of Treasury Trading. In the context of this risk-based limit, what is determined is the limit relating to Treasury activities. In the process of applying limits, an attempt is made to approach where there are supporting components including:

1. **Business Plan**
   a. The business plan must broadly state the objectives of the requested limit, target market, expected income and capital requirements. The plan must qualify the way the limit will be used, for example "trading" or "hedging".
   b. The limit application must identify specific currencies and markets that are exposure to the objectives of the business unit.

2. **Capital Requirements and Projection of Income**
   a. The Treasury Division requests input from the Risk Management Division in measuring capital allocation that must be provided in mitigating potential losses that will arise
   b. The Treasury Division must provide income projections related to limit applications. This projection will facilitate the Directors in the decision process for approval of limits.

3. **Historical Use**
   The Treasury Division can provide an analysis of market outlook trends with existing historical use of risk exposures or limits to be applied. The work procedure for measuring Treasury business unit limits considers several aspects that are considered to be quite potential in causing risk events. The underlying component in the measurement limit loading namely:
   a. Market Risk Sensitivity Factor
      Each Treasury activity has risk inherent where the process of measuring risk must be based on the risk sensitivity inherent in Treasury transaction activities. Market risk sensitivity factors include PV01, Duration and transaction volatility.
   b. Data Adequacy
      Adequacy of data is needed as an adequate statistical analysis procedure and so that the measurement of risk analysis produces adequate output and is in accordance with the risk exposures faced by bank. The data needed is historical data needed to strengthen an analysis of risk limit measurements.

c. Pengukuran *Value at Risk*
Model *Value at Risk* tersebut dipergunakan dalam mengukur dan menganalisis risiko transaksi Treasuri secara komprehensif dan terukur. Misalnya, penggunaan VaR (*value at risk*) untuk mengukur kerugian/ *budget loss* atas aktivitas transaksi *treasury trading* selain itu kegunaan model ini juga dapat mengukur perkiraan kerugian terburuk yang dapat dialami bank dalam selang waktu tertentu pada kondisi pasar yang normal dan tingkat kepercayaan tertentu.

Beberapa strategi pengelolaan risiko pasar yang dilakukan bank **bjb** adalah mencakup sistem dan prosedur dengan menggunakan teknik *mark to market, mark to model, Value at Risk* (VaR), *stress testing, repricing gap and duration gap model* atau metoda lain yang sesuai untuk mendapatkan nilai wajar eksposur secara berkala, sekaligus merupakan *platform* yang tepat untuk menilai posisi risiko.

Pada saat ini bank **bjb** menerapkan metode yang mampu mengukur risiko terhadap nilai tukar yaitu dengan menggunakan model nilai tukar Var EWMA (*Exponential Weighted Moving Average*) yang dilengkapi dengan *fundamental analysis* dan *historical simulation* untuk menangkap tingkat risiko nilai tukar yang tercermin dalam posisi devisa netto. bank **bjb** juga telah membangun model pengukuran risiko tingkat suku bunga dengan menggunakan metodologi yang dapat menangkap risiko suku bunga dari portofolio aset dan kewajiban yang sensitif terhadap perubahan suku bunga serta menentukan besaran risiko terhadap bank melalui pengukuran *interest rate risk in the banking book* yang meliputi *repricing profile, duration GAP, Economic Value of Equity* (EVE), dan sensitivitas *Net Interest Income* (NII). Dalam proses pengukuran potensi kerugian baik itu suku bunga dan nilai tukar dari transaksi-transaksi *treasury* diukur melalui VaR simulasi historis baik secara sistem (OPICS *Risk*) maupun manual. Pengujian kelayakan internal VaR simulasi historis melalui *back testing* VaR vs *profit/loss treasury* dan dilakukan secara berkala.

Pemantauan Risiko Pasar

Aktivitas manajemen risiko dalam melakukan proses pemantauan aktivitas bisnis antara lain melalui:

1. Adanya RMA (*Risk Management Agency*) yang berfungsi untuk melakukan proses manajemen risiko pasar *trading book* melalui pemantauan limit Treasuri secara harian, misalnya ketentuan GWM, *open position, budget loss, risk sensitivity limit*, dan lain-lain. Sebagai upaya proses pemantauan yang efektif dan akurat, bank telah memiliki sistem OPICS *Risk* yang berfungsi dalam mengukur eksposur risiko *trading book* yang dilakukan oleh *dealing room Treasury*.
2. Pemantauan risiko nilai tukar *banking book* dilakukan melalui pemantauan Posisi Devisa Neto per 30 menit serta secara harian agar berada dalam toleransi limit internal bank dan regulasi Bank Indonesia.
3. Pemantauan risiko suku bunga *banking book* dilakukan melalui pengukuran *Repricing GAP, Duration GAP,* dan *Economic Value of Equity* (EVE) untuk melihat sensitivitas

c. Measurement of Value Risk
The Value at Risk model is used in measuring and analyzing Treasury transaction risk in a comprehensive and measurable manner. For example, the use of VaR (value at risk) to measure losses/budget loss on Treasury trading transaction activities. In addition, the use of this model can also measure the estimated worst losses that can be experienced by bank in certain intervals under normal market conditions and a certain level of confidence.

Some of the market risk management strategies undertaken by bank **bjb** include systems and procedures using Mark To Market, Mark to Model, Value at Risk (VaR), Stress Testing, Repricing Gap and Duration Gap Models or other appropriate methods to obtain fair value of periodic exposures, as well as being the right platform for assessing risk positions.

At this time bank **bjb** applies a method that is able to measure risk to the exchange rate, namely by using the EWMA Var (Exponential Weighted Moving Average) Exchange Rate Model which is equipped with fundamental analysis and historical simulation to capture the exchange rate risk level reflected in the Net Open Position. bank **bjb** has also developed a model for measuring interest rate risk using a methodology that can capture interest rate risk from portfolio assets and liabilities that are sensitive to changes in interest rates and determine the amount of risk to banks through Repricing Profile, Duration GAP, Economic Value of Equity (EVE) and Net Interest Income sensitivity (NII). In the process of measuring potential losses both interest rates and exchange rates of Treasury transactions are measured through historical VaR simulation both systemically (OPICS Risk) and manually. Testing the internal feasibility of historical VaR simulations through back testing VaR vs Profit/Loss Treasury and is conducted regularly.

Market Risk Monitoring

Risk management activities in carrying out the process of monitoring business activities include:

1. The existence of an RMA (Risk Management Agency) that functions to carry out the trading book market risk management process through daily monitoring of Treasury limits, for example the statutory reserve requirement, open positions, budget loss, risk sensitivity limits, etc. As an effort to monitor the process effectively and accurately, bank has an OPICS Risk system that functions in measuring trading book risk exposure by the Treasury dealing room.
2. Banking book exchange risk monitoring is carried out through monitoring the Net Open Position per 30 minutes and on a daily basis to be within the tolerance limits of bank internal limits and Bank Indonesia regulations.
3. Banking book interest rate risk monitoring is carried out through measurement of Repricing GAP, Duration GAP, and Economic Value of Equity (EVE) to see the sensitivity of bank

porotfolio aktiva dan pasiva bank dalam menghadapi perubahan suku bunga di masa datang.
4. Melakukan evaluasi terhadap eksposur risiko yang dimiliki oleh bank.
5. Apabila terjadi pelampauan limit, Divisi Manajemen Risiko segera melakukan pelampauan tersebut kepada Direksi.

Pengendalian Risiko Pasar

Strategi yang diambil oleh bank dalam proses pengendalian risiko pasar, antara lain melalui *hedging, squaring position, back-to-back* dan cara lain yang bertujuan untuk meng-*offset* suatu transaksi/posisi yang mengalami kerugian serta *stress testing* guna melihat ketahanan posisi keuangan bank dalam menghadapi kondisi krisis. Selain itu pula dapat digunakan untuk men-*transfer* risiko yang dimiliki *dealing room Treasury* bank sepanjang transfer risiko tersebut masih berada dalam *risk limit* bank. bank juga membatasi atau melarang jenis transaksi atau instrumen tertentu untuk ditransaksikan oleh bisnis unit, serta mengurangi risiko dengan cara memberikan batas maksimum transaksi atau portofolio sesuai dengan *risk appetite* bank.

Sistem Pengendalian Intern yang Menyeluruh

Dalam rangka pengembangan penerapan manajemen risiko yang dinamis, Satuan Kerja Manajemen Risiko selalu melakukan evaluasi atas kebijakan, prosedur dan limit risiko pasar secara berkala. Sebagai upaya pengendalian risiko pasar berupa kecukupan kebijakan dan prosedur Satuan Kerja Manajemen Risiko, kaji ulang atas kebijakan dan prosedur dilakukan oleh unit independen baik di internal ataupun pihak eksternal.

Pelaksanaan kaji ulang dan evaluasi terhadap pengukuran risiko yang dilakukan oleh Divisi Manajemen Risiko meliputi:
a. Kesesuaian kebijakan, desain proses manajemen risiko, sistem informasi, dan pelaporan manajemen risiko bank dengan kebutuhan bisnis bank, serta perkembangan peraturan dan praktek terbaik (*best practice*) terkait manajemen risiko.
b. Metode, asumsi, dan variabel yang digunakan untuk mengukur risiko dan menetapkan limit risiko pasar.
c. Perbandingan antara asumsi yang digunakan dalam metode pengukuran risiko yang dipergunakan dengan kondisi yang sebenarnya/aktual.
d. Perbandingan antara limit yang ditetapkan dengan eksposur yang sebenarnya/aktual.

Hasil kaji ulang Satuan Kerja Manajemen Risiko (Divisi Manajemen Risiko) yang telah dikaji ulang oleh Satuan Kerja Audit Intern (SKAI) akan disampaikan dalam Komite Manajemen Risiko (RMC) untuk kemudian diminta persetujuannya kepada Direksi. Pembahasan tersebut dilakukan pula dengan Dewan Komisaris yang dibantu oleh Komite Pemantau Risiko. Kaji ulang yang dilakukan oleh Satuan Kerja Audit Intern (SKAI) meliputi:
a. Keandalan kerangka manajemen risiko, yang mencakup kebijakan, struktur organisasi, alokasi sumber daya, desain proses manajemen risiko, sistem informasi, dan pelaporan risiko bank.

assets and liabilities portfolio in the face of changes in interest rates in the future.
4. Evaluate the risk exposures held by banks.

5. In the event of exceeding the limit, the Risk Management Division immediately conducts exceeding this to the Directors.

Market Risk Control

Strategies taken by banks in the process of controlling market risk include hedging, squaring positions, back-to-back and other means aimed at offsetting a transaction/position that has a loss and stress testing in order to see the resilience of bank financial position in facing crisis conditions. In addition, it can also be used to transfer risks owned by the Treasury bank's dealing room as long as the risk transfer is still within bank risk limit. Bank also limits or prohibits certain types of transactions or instruments to be transacted by business units, and reduces risk by providing a maximum limit of transactions or portfolios in accordance with bank risk appetite.

Comprehensive Internal Control System

In the context of developing a dynamic application of risk management, the Risk Management Unit always evaluates market risk policies, procedures and limits on a regular basis. As an effort to control market risk in the form of adequacy of policies and procedures of the Risk Management Work Unit, reviews of policies and procedures are carried out by independent units, both internal and external parties.

The review and evaluation of risk measurements carried out by the Risk Management Division include:
a. Conformity of policies, design of Risk Management processes, information systems, and reporting of bank risk management with bank business needs, as well as the development of regulations and best practices related to Risk Management;
b. The methods, assumptions and variables used to measure risk and determine market risk limits;
c. Comparison between assumptions used in the risk measurement method used and actual/actual conditions;

d. Comparison between specified limits and actual/actual exposures;

The results of the Risk Management Work Unit (Risk Management Division) which have been reviewed by the Internal Audit Work Unit (SKAI) will be submitted to the Risk Management Committee (RMC) for approval from the Directors. The discussion was also conducted with the Board of Commissioners, assisted by the Risk Monitoring Committee. The review conducted by the Internal Audit Work Unit (SKAI) includes:
a. Reliability of the Risk Management framework, which includes policies, organizational structure, resource allocation, design of the Risk Management process, information systems, and Bank Risk reporting;

b. Proses pemantauan yang dilakukan oleh Satuan Kerja Manajemen Risiko.
c. Evaluasi atas metodologi pengukuran Satuan Kerja Manajemen Risiko.

b. The monitoring process carried out by the Risk Management Work Unit;
c. Evaluation of the measurement methodology of the Risk Management Work Unit;.

Risiko Likuiditas

Risiko likuiditas adalah risiko akibat ketidakmampuan bank untuk memenuhi kewajiban yang timbul atau kewajiban yang telah jatuh tempo. Risiko ini terjadi akibat kegagalan pengelolaan sumber dana dan penanaman dana (*mismatch*) atau kekurangan likuiditas (*shortage*) yang mengakibatkan bank tidak mampu memenuhi kewajiban keuangannya pada waktu yang telah ditetapkan. Risiko likuiditas dapat dikategorikan sebagai berikut:

a. Risiko Likuiditas Pasar, yaitu risiko yang timbul karena bank tidak mampu melakukan *offsetting* posisi tertentu dengan harga pasar karena kondisi likuiditas pasar yang tidak memadai atau terjadi gangguan di pasar (*market disruption*).
b. Risiko Likuiditas Pendanaan, yaitu risiko yang timbul karena bank tidak mampu mencairkan asetnya atau memperoleh pendanaan dari sumber dana lain.

Liquidity Risk

Liquidity Risk is the risk due to the inability of banks to meet obligations that arise or obligations that are due. This risk occurs due to the failure of the management of the source of funds and investment of funds (mismatch) or lack of liquidity (shortage) which results in bank not being able to meet its financial obligations at the specified time. Liquidity risk can be categorized as follows :

a. Market Liquidity Risk, the risk arising because banks are unable to offsetting certain positions at market prices due to inadequate market liquidity conditions or market disruption;

b. Funding Liquidity Risk, the risk arising because banks are unable to disburse their assets or obtain funding from other funding sources.

Pengawasan Aktif Dewan Komisaris dan Direksi

Dewan Komisaris dan Direksi bertanggungjawab atas efektivitas penerapan Manajemen Risiko Likuiditas di bank. Terkait wewenang dan tanggung jawab pengawasan aktif Dewan Komisaris dan Direksi bank **bjb**, Dewan Komisaris dan Direksi selalu memperoleh

Active Supervision of the Board of Commissioners and Directors

The Board of Commissioners and the Directors were responsible for the effectiveness of the implementation of Liquidity Risk Management in bank. Regarding the powers and responsibilities of active supervision of the Board of Commissioners and Directors of

informasi yang jelas mengenai evaluasi dan penerapan manajemen risiko eksposur risiko likuiditas, pemantauan limit secara harian serta langkah-langkah yang diambil oleh *Risk Taking Unit* khususnya terkait adanya pelampauan limit. Dalam pelaksanaan pengawasannya, Dewan Komisaris dibantu oleh Komite Pemantau Risiko (KPR) bank yang secara berkala melakukan pengawasan melalui koordinasi dengan Satuan Kerja Manajemen Risiko. Media koordinasi yang digunakan dapat berupa laporan pemantauan risiko oleh SKMR yang disampaikan kepada Komite Pemantau Risiko maupun melalui media rapat antara kedua belah pihak. Adapun rapat yang diadakan tersebut pada umumnya membahas penerapan manajemen risiko di bank **bjb** menyangkut di antaranya penerapan pengukuran *risk tolerance* risiko likuiditas, *stress testing* likuiditas, pembahasan profil risiko likuiditas yang bersifat material, dan kecukupan metodologi pengukuran yang dipergunakan Satuan Kerja Manajemen Risiko. Pengawasan yang dilakukan oleh Direksi yaitu memantau penerapan limit *treasury* secara berkala baik terjadi pelampauan limit (*breach limit*) maupun tidak terjadi pelampauan limit, melakukan persetujuan atas limit yang bersifat baru ataupun perubahannya. Pembahasan tentang pengelolaan risiko likuiditas seperti komposisi deposan inti, maturity profile bank dilakukan dalam Rapat ALCO (*Asset Liability Committee*) sedangkan pembahasan eksposur risiko likuiditas seperti profil risiko likuiditas yang bersifat material, *liquidity stress testing*, dan eksposur risiko likuiditas lainnya dibahas dalam rapat Komite Manajemen Risiko (RMC).

Kecukupan Kebijakan, Prosedur dan Penetapan Limit

Sebagai upaya menghadapi permasalahan likuiditas mendasar, bank telah memiliki kebijakan dan pedoman terkait penerapan manajemen risiko likuiditas. Kebijakan dan pedoman tersebut memuat di antaranya prosedur pengukuran risiko likuiditas, *stress testing* likuiditas yang memuat skenario *general market crisis* dan *bank specific crisis* dan Pedoman Rencana Pendanaan Darurat/*Contingency Funding Plan* (CFP). Penetapan limit likuiditas yang berjalan di bank yaitu penetapan *limit primary reserve, secondary reserve,* dan *excess reserve* GWM, *excess to total funding ratio* dan limit harian *Liquidity Coverage Ratio* sedangkan untuk penetapan pagu kas di Cabang Operasional dilakukan oleh Divisi Operasi.

Satuan Kerja Manajemen Risiko selalu melakukan evaluasi atas kebijakan, prosedur dan analisis kinerja bank terhadap limit yang diterapkan. Adapun perubahan limit dilakukan oleh *Risk Taking Unit* untuk kemudian dilakukan evaluasi melalui pengukuran yang telah distandardisasi oleh Satuan Kerja Manajemen Risiko.

Kecukupan Proses Identifikasi, Pengukuran, Pemantauan, dan Pengendalian Risiko, serta Sistem Informasi Manajemen Risiko

Kebijakan risiko likuiditas mencakup risiko yang menyebabkan bank menderita kerugian akibat meningkatnya biaya dana atau adanya hambatan/ keterbatasan dalam memenuhi kewajiban yang jatuh tempo. Sebagian besar transaksi finansial atau komitmen

bank **bjb**, the Board of Commissioners and Directors always obtained clear information regarding the evaluation and implementation of risk management for liquidity risk exposure, daily limit monitoring as well as steps taken by the risk taking unit, especially in relation to the existence of exceedance of limit. In implementing its supervision, the Board of Commissioners was assisted by bank Risk Monitoring Committee (KPR), which regularly performed supervision through coordination with the risk management work unit. The coordination media used could be in the form of risk monitoring reports by SKMR which were submitted to the Risk Monitoring Committee or through media meetings between the two parties. The meetings held generally discuss the application of risk management at bank **bjb**, including the application of risk tolerance measurement for liquidity risk, stress testing of liquidity, discussion of material liquidity risk profiles, and the adequacy of the measurement methodology used by the Risk Management Work Unit. Supervision was carried out by the Directors, namely monitoring the implementation of treasury limits on a regular basis whether there was a breach limit or there was no exceeding the limit, approving new limits or changes. Discussions on liquidity risk management such as the composition of core depositors, bank maturity profiles were conducted at the Asset Liability Committee (ALCO) meeting, while discussions on liquidity risk exposures such as material liquidity risk profiles, liquidity stress testing, and other liquidity risk exposures were discussed in the Risk Management Committee (RMC) meeting.

Adequacy of Policies, Procedures and Limit Determination

As an effort to deal with fundamental liquidity problems, bank had policies and guidelines related to the implementation of liquidity risk management. The policies and guidelines included procedures for measuring liquidity risk, liquidity stress testing including scenarios of general market crisis and bank specific crisis and Guidelines for Contingency Funding Plan (CFP). The determination of the current liquidity limit at bank was the determination of the limit of primary reserve, secondary reserve, and excess reserve GWM, excess to total funding ratio and daily limit of Liquidity coverage ratio while the determination of the cash ceiling in Operational Branch was carried out by the Operations Division.

The risk management work unit always evaluates the policies, procedures and performance analysis of bank against the applied limits. The limit changes are carried out by the risk taking unit and then evaluated through standardized measurements by the Risk Management Work Unit.

Adequacy of the Risk Identification, Measurement, Monitoring and Control Process, As Well As the Risk Management Information System

Liquidity risk policies include risks that cause banks to suffer losses due to increased funding costs or the presence of obstacles/ limitations in meeting obligations that are due. Most financial transactions or commitments have an impact on bank liquidity.

mempunyai dampak terhadap likuiditas bank. Oleh karena itu, bank sangat rentan terhadap masalah likuiditas, baik bagi bank itu sendiri maupun pengaruhnya terhadap industri perbankan secara keseluruhan. bank berkewajiban memenuhi kewajiban keuangannya secara tepat waktu sehingga bank harus mampu memelihara suatu tingkat likuiditas yang memadai setiap waktu.

Therefore, banks are very vulnerable to liquidity problems, both for bank themselves and their effects on bank industry as a whole. Banks are required to meet their financial obligations in a timely manner so that banks must be able to maintain an adequate level of liquidity at all times

Dalam menentukan limit risiko likuiditas, bank memperhatikan kondisi likuiditas dari aktiva- pasiva bank. Likuiditas yang cukup besar perlu dikelola secara baik dan dijadikan indikator dalam menerapkan limit risiko likuiditas untuk mendukung upaya peningkatan profitabilitas bank, karena likuiditas yang cukup besar justru akan meningkatkan *idle fund* dan akan merugikan bagi bank terutama bank yang didanai nasabah korporasi. Gap likuiditas secara historis dapat dijadikan patokan dalam menentukan limit risiko likuiditas bagi bank. Penerapan limit likuiditas yang berjalan di bank yaitu penetapan limit *primary reserve, secondary reserve* dan *ekses reserve* GWM, *excess to total funding ratio* dan limit harian *Liquidity Coverage Ratio* (LCR) sedangkan untuk penetapan pagu kas di Cabang Operasional dilakukan oleh Divisi Operasi.

In determining the liquidity risk limit, bank considered the liquidity condition of bank assets and liabilities. Large liquidity needed to be managed properly and used as an indicator in implementing liquidity risk limits to support efforts to increase bank profitability, because sufficiently large liquidity would actually increase idle funds and would be detrimental to banks, especially banks funded by corporate customers. The liquidity gap had historically been used as a benchmark in determining the liquidity risk limit fora bank. The implementation of the current liquidity limit at the bank became the determination of the limit of primary reserve, secondary reserve, excess reserve requirement, excess to total funding ratio and daily limit of Liquidity coverage ratio (LCR), while the determination of cash ceiling in Operational Branch was carried out by the Operations Division.

Saat ini bank sedang mengembangkan sistem informasi pengukuran risiko likuiditas seperti *maturity profile* yang terintegrasi. Satuan Kerja Manajemen Risiko bersama *Risk Taking Unit* dalam tahapan integrasi sistem informasi *maturity profile* tersebut selalu diadakan rapat sebagai upaya mengetahui utilisasi progres yang telah dilakukan. Sistem pelaporan maturity profile valas telah terintegrasi dan tervalidasi dengan memadai sehingga pelaporannya tidak memerlukan proses manual lagi.

Currently, bank is developing a liquidity risk measurement information system, such as an integrated maturity profile. The risk management work unit together with the Risk Taking Unit in the integration stage of the maturity profile information system were always held in meetings as an effort to determine the utilization of progress that has been made. The foreign currency maturity profile reporting system had been adequately integrated and validated so that reporting did not require manual processing anymore.

Sebagai langkah koordinasi manajemen bank dalam menghadapi kejadian krisis likuiditas dikemudian hari, bank menyusun Tim Manajemen Krisis Likuiditas (*Liquidity Crisis Management Team*) sebagai langkah antisipatif dalam menyikapi krisis likuiditas dengan menjalankan prosedur rencana pendanaan darurat sesuai dengan kerangka kerja *Contingency Funding Plan Scenario*.

As a coordinating step for bank management in facing future liquidity crisis, bank is preparing a Liquidity Crisis Management Team as an anticipatory step in responding to the liquidity crisis by carrying out emergency funding plan procedures in accordance with the Contingency Funding Plan Scenario framework.

Dalam proses pemantauan limit *Risk Taking Unit*, Satuan Kerja Manajemen Risiko selalu melakukan pemantauan limit secara harian dan dilaporkan kepada Direksi secara berkala. Adapun apabila terjadi eskalasi pelampauan limit maka akan segera dilaporkan kepada Direksi termasuk upaya *contingency plan* yang akan dilakukan oleh *Risk Taking Unit*. Terkait menuju implementasi Basel III yang terfokus kepada permasalahan likuiditas, Satuan Kerja Manajemen Risiko bekerja sama dengan Unit Bisnis dan *Supporting Unit* melakukan pengukuran dampak Basel III terhadap bank dengan melakukan simulasi perhitungan rasio *Liquidity Coverage Ratio* (LCR) dan NSFR (*Net Stable Funding Ratio*) yang dibutuhkan oleh bank agar terhindari dari dampak risiko likuiditas dan kepatuhan internal maupun eksternal.

In the process of monitoring the Risk Taking Unit limit, the Risk Management Unit always monitors the limits on a daily basis and is reported to the Directors periodically. Meanwhile, in the event of an escalation in excess of the limit, it will be immediately reported to the Directors, including a contingency plan that will be carried out by the Risk Taking Unit. Related to the implementation of Basel III which is focused on liquidity issues, the Risk Management Work Unit in collaboration with the Business Unit and Supporting Unit measures the impact of Basel III on banks by simulating the calculation of the LCR ratio (Liquidity Coverage Ratio) and NSFR (Net Stable Funding Ratio) which needed by banks to avoid the effects of liquidity risk and internal and external compliance..

Sistem Pengendalian Intern yang Menyeluruh

Comprehensive Internal Control System

Dalam rangka pengembangan penerapan manajemen risiko yang dinamis, Satuan Kerja Manajemen Risiko selalu melakukan evaluasi atas kebijakan, prosedur dan limit risiko likuiditas

Sebagai upaya pengendalian risiko pasar berupa kecukupan kebijakan dan prosedur Satuan Kerja Manajemen Risiko, kaji ulang atas kebijakan dan prosedur dilakukan oleh unit independen baik di internal ataupun pihak eksternal. Satuan Kerja Manajemen Risiko pun melakukan stress testing likuiditas bank **bjb** dan memberikan informasi kondisi kecukupan aset likuid yang dipandang memadai untuk meng-*cover* penarikan dana oleh nasabah secara tiba-tiba dan dalam jumlah besar. Laporan tersebut diinformasikan kepada Direksi dan *Risk Taking Unit* agar mendapatkan *feedback* dan menciptakan *risk awareness*.

an effort to control market risk in the form of adequacy of policies and procedures of the Risk Management Work Unit, reviews of policies and procedures are carried out by independent units, both internal and external parties. The Risk Management Work Unit conducts stress testing of bank **bjb** liquidity and provides information on the adequacy of liquid assets that are deemed adequate to cover sudden and large withdrawals of funds by customers. The report is informed to the Directors and risk taking units in order to get feed back and create risk awareness.

Risiko Operasional

Risiko operasional adalah risiko akibat ketidakcukupan dan/atau tidak berfungsinya proses internal, kesalahan manusia, kegagalan sistem, dan atau adanya kejadian-kejadian eksternal yang mempengaruhi operasional bank. Risiko operasional melekat kepada seluruh aktivitas bank, oleh karena itu risiko operasional tidak dapat dihilangkan namun dapat dikendalikan melalui mitigasi risiko yang memadai. Dampak kerugian dari risiko operasional dapat berupa kerugian keuangan atau kerugian non keuangan. bank **bjb** melakukan tata kelola mengenai pengelolaan risiko operasional yang dilakukan melalui *three line of defense* yaitu *Risk Taking Unit* sebagai lini pertahanan pertama, unit kerja Manajemen Risiko Operasional sebagai lini pertahanan kedua, serta Internal Audit sebagai lini pertahanan ketiga.

Lini pertahanan pertama memiliki tanggung jawab untuk memastikan bahwa seluruh proses operasional yang dilakukan telah sesuai dengan kebijakan dan prosedur yang berlaku, melakukan identifikasi risiko operasional serta melakukan mitigasi atas peristiwa kejadian risiko operasional. Lini pertahanan kedua yang berfungsi untuk mendukung dan memastikan unit kerja pada lini pertahanan pertama telah melakukan pengelolaan risiko secara efektif. Lini pertahanan ketiga memiliki peran untuk memastikan proses pengelolaan risiko operasional yang dilakukan oleh lini pertahanan pertama dan kedua telah berlangsung secara efektif dalam memitigasi kejadian risiko yang sudah terjadi maupun yang bersifat potensial agar tidak menimbulkan potensi kerugian bagi bank.

Pengawasan Aktif Dewan Komisaris dan Direksi

Dewan Komisaris dan Direksi melakukan pengawasan aktif atas manajemen risiko operasional, antara lain melalui Komite Risiko baik yang berada pada level komisaris maupun direksi. Dalam pelaksanaan pengawasan aktif yang dilakukan Dewan Komisaris, dilakukan melalui Komite Pemantau Risiko. Sementara pada tingkat Direksi dilakukan melalui Komite Manajemen Risiko yang anatara lain membahas mengenai kebijakan manajemen risiko bank. Dalam rangka meminimalisir kejadian fraud, Direksi melakukan sosialisasi kepada seluruh karyawan mengenai pencegahan terkait fraud sebagai langkah untuk meningkatkan *awareness* karyawan mengenai kejadian fraud. Selain itu, sebagai upaya dalam peningkatan *awareness* terhadap risiko operasional bank menerbitkan *comic strip* "Kang Risman" secara rutin yang berisi mengenai penerapan manajemen risiko operasional pada setiap aktivitas bank.

bank **bjb** memiliki unit kerja independen yang melaksanakan pengelolaan manajemen risiko operasional secara *bankwide* yaitu Grup Manajemen Risiko Operasional yang berada dibawah Divisi Manajemen Risiko. Unit ini memiliki peran dalam menetapkan standard dan kebijakan pengelolaan risiko operasional, dan berhubungan serta berkoordnasi dengan seluruh unit bisnis dan *supporting unit* untuk memastikan langkah mitigasi yang dilakukan telah cukup dan memadai untuk mencegah potensi risiko operasional.

Operational Risk

Operational risk was the risk due to inadequate and/or malfunctioning internal processes, human error, system failure, and/or external events that affected bank operations. Operational risk was inherent in all bank activities, therefore operational risk could not be eliminated but could be controlled through adequate risk mitigation. The impact of losses from operational risk could be in the form of financial losses or non-financial losses. bank **bjb** implemented governance regarding operational risk management through three lines of defense, namely the Risk Taking Unit as the first line of defense, Operational Risk Management work unit as the second line of defense, and Internal Audit as the third line of defense.

The first line of defense has the responsibility to ensure that all operational processes carried out are in accordance with applicable policies and procedures, identify operational risks and mitigate operational risk events. The second line of defense, which functions to support and ensure that work units on the first line of defense have effectively carried out risk management. The third line of defense has the role to ensure the operational risk management process carried out by the first and second line of defense has been carried out effectively in mitigating risk events that have already occurred and that are potential in nature so as not to cause potential losses to bank.

Active Supervision of the Board of Commissioners and Directors

The Board of Commissioners and the Directors carry out active oversight of operational risk management, including through the Risk Committee both at the level of commissioners and directors. In the implementation of active supervision carried out by the Board of Commissioners, conducted through the Risk Monitoring Committee. While at the Directors level, it is carried out through the Risk Management Committee while discussing bank risk management policies. In order to minimize the incidence of fraud, the Directors conducts socialization to all employees regarding fraud prevention as a step to increase employee awareness regarding fraud events. In addition, as an effort to increase awareness of operational risk, the bank regularly published the comic strip "Kang Risman" containing the implementation of operational risk management in every bank activity.

bank **bjb** owned an independent work unit that carried out bankwide operational risk management, namely the Operational Risk Group, which was under the Risk Management Division. This unit had a role in setting standards and policies for operational risk management, and in liaising and coordinating with all business units and supporting units to ensure adequate and adequate mitigation measures were taken to prevent potential operational risks.

bank **bjb** melakukan pengelolaan risiko operasional pada seluruh aktivitas, dimana seluruh karyawan wajib berperan serta dalam mengelola risiko operasional pada unit kerja masing-masing serta memperhatikan kontrol yang efektif untuk mengantisipasi kemungkinan terjadinya risiko yang dapat merugikan bank.

3. Program Komunikasi Pegawai

Program yang dilaksanakan dalam rangka meningkatkan pengetahuan dan *Awareness* budaya perusahaan, melalui media Komunikasi yang dimiliki Bank seperti HC Cares Menyapa, HCS News, IG; @bjbgreatpeople, HC Forum, HC Cares Walk In.

Implementasi penerapan budaya perusahaan kepada seluruh pegawai bank **bjb** dengan tahapan sebagai berikut:

1. Penetapan Nilai-Nilai Budaya Perusahaan dan Perilaku Utama
   Perumusan Nilai-Nilai Budaya (*Corporate Value*) dan Perilaku Utama Perusahaan dilakukan oleh manajemen dengan menggali nilai-nilai yang tumbuh dan berkembang di dalam perusahaan. Budaya perusahaan bank **bjb** harus selaras dengan visi dan misi bank **bjb** dan adaptif terhadap perubahan dunia perbankan. Oleh karena itu, apabila budaya yang telah ada sudah tidak sejalan dengan visi, misi, dan perkembangan dunia perbankan, maka perlu dilakukan perubahan budaya dengan menggali nilai-nilai baru yang muncul.
2. Sosialisasi
   Budaya perusahaan bank **bjb** disosialisasikan kepada seluruh jajaran perusahaan untuk membangun *awareness* serta pemahaman terhadap budaya perusahaan bank **bjb**. Proses sosialisasi ini dilakukan melalui berbagai media seperti buku pedoman, buku saku, arahan pemimpin, *sign wall, standing banner, training, pin,* dan lainnya.

3. Employee Communication Program

Programs implemented in order to increase knowledge and awareness of corporate culture, through communication media owned by the Bank such as HC Cares Menyapa, HCS News, IG; @bjbgreatpeople, HC Forum, HC Information Center

Implementation of the application of corporate culture to all bank **bjb** employees with the following stages:

1. Implementation of Corporate Cultural Values and Core Behavior
   Corporate Values and the Bank's Code of Conduct are established by management by exploring the values that grow and develop within the Bank. The bank **bjb** corporate culture must align with the vision and mission of bank **bjb** and be adaptive to changes in the banking business. Therefore if the existing culture is in alignment with the vision, mission, and development of the banking industry, it is necessary to perform cultural change by exploring new values that emerge.
2. Socialization
   The bank **bjb** corporate culture has been socialized to all levels of the Bank to build awareness and understanding of the bank **bjb** corporate culture. This socialization process is conducted through various media such as guidelines, pocket books, leader's direction, sign wall, standing banner, training, pins, etc.

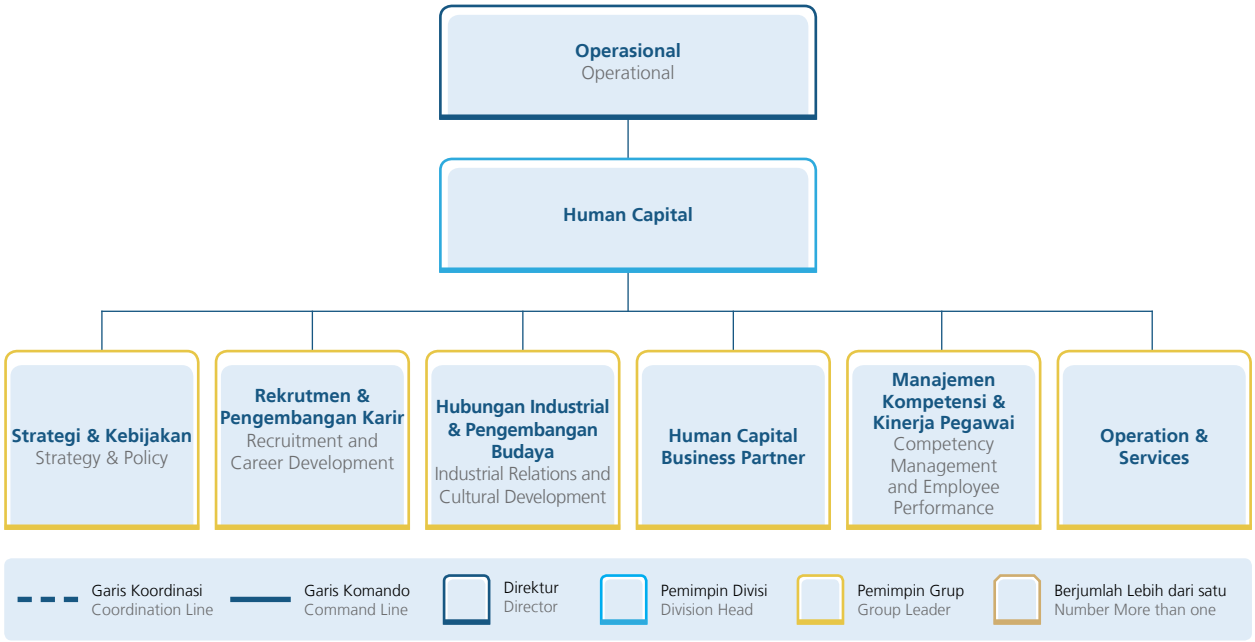
3. Internalisasi
   Merupakan tahapan budaya perusahaan bank **bjb** diterapkan oleh seluruh jajaran perusahaan dalam setiap aktifitas sehari-hari. Dalam proses internalisasi, dibutuhkan peran seluruh jajaran pimpinan dan pegawai yang berperan sebagai Tim Internalisasi Budaya (TIB) yang terdiri dari *Change Leader, Change Coordinator* dan *Change Agents*.
4. Eksternalisasi
   Pada tahapan ini, dampak dari implementasi budaya perusahaan dirasakan oleh lingkungan eksternal (nasabah, masyarakat, *shareholders*). Seluruh jajaran perusahaan telah mengimplementasikan nilai-nilai budaya perusahaan dengan baik sehingga lingkungan eksternal turut merasakan dampak yang positif dari perubahan budaya tersebut. Untuk mengoptimalkan manfaat yang diperoleh dari perubahan budaya, maka perubahan ini disampaikan pula kepada pihak eksternal melalui program-program budaya yang berkaitan dengan pihak eksternal.
5. *Monitoring* dan Evaluasi
   Monitoring implementasi perubahan budaya dilakukan di setiap Unit Kerja oleh oleh Tim Internalisasi Budaya. Tim internalisasi budaya yang terdiri dari *Change Leader, Change Coordinator* dan *Change Agent* memonitor dan mengevaluasi secara berkala penerapan budaya pada unit kerjanya masing-masing kemudian disampaikan laporannya kepada koordinator Tim Internalisasi Budaya di Kantor Pusat. Adapun kegiatan monitoring dan evaluasi perubahan budaya terdiri dari:

   - Penyampaian laporan implementasi program budaya perusahaan secara periodik kepada koordinator Tim Internalisasi Budaya di kantor pusat.
   - Kunjungan kerja ke Kantor Cabang oleh Tim Internalisasi Budaya.
   - Memantau pemahaman budaya perusahaan melalui kuesioner.
   - Menyelenggarakan pertemuan berkala bagi para *Change Leader*, *Change Coordinator* dan *Change Agent* untuk *sharing* terkait program budaya.
   - Menyampaikan pengaduan tentang pelanggaran budaya perusahaan pada unit kerjanya masing-masing untuk selanjutnya akan diproses secara wajar. Terhadap individu yang telah melaporkan pengaduan pelanggaran tersebut dan terbukti kebenarannya, akan diberi perlindungan

Dalam implementasi budaya perusahaan bank **bjb** ini diterapkan *reward* dan *punishment* bagi Unit Kerja, Tim Internalisasi Budaya ataupun pegawai sesuai dengan ketentuan yang berlaku.

3. Internalisation
   It is a stage of bank **bjb** corporate culture implemented by all levels of the company in every daily activity. In the internalization process, it takes the role of all levels of leadership and employees who act as the Cultural Internalization Team (TIB) consisting of Change Leaders, Change Coordinators and Change Agents.
4. Externalization
   At this stage, the impact of the implementation of corporate culture is felt by the external environment (customers, community and shareholders). All levels of the company have implemented the values of corporate culture well so that the external environment also feels the positive impact of this cultural change. To optimize the benefits derived from cultural change, this change is also conveyed to external parties through cultural programs related to external parties.

5. Monitoring and Evaluation
   Monitoring the implementation of cultural change is carried out in each Work Unit by the Cultural Internalization Team. The culture internalization team consisting of Change Leaders, Change Coordinators and Change Agents monitors and evaluates periodically the implementation of culture in their respective work units and then submits the report to the coordinator of the Culture Internalization Team at the head office. The monitoring and evaluation activities of cultural change consist of:
   - Submission of reports on the implementation of the corporate culture program periodically to the coordinator of the Cultural Internalization Team at the Head Office.
   - Working visit to the Branch Office by the Cultural Internalization Team.
   - Monitor understanding of corporate culture through questionnaires.
   - Organizing regular meetings for Change Leaders, Change Coordinators and Change Agents to share related cultural programs.
   - Submitting complaints about violations of corporate culture in their respective work units for further processing in a reasonable manner. Individuals who have reported complaints of violations and proven true, will be given protection



In implementing bank **bjb** corporate culture, rewards and punishments are applied for the Unit of Work, Culture Internalization Team or employees in accordance with applicable regulations.

Strategi Manajemen Teknologi Informasi

Information Technology Management Strategy

Perubahan *marketplace* dan *society*, ekspektasi *customer*, perubahan regulasi, pengaruh globalisasi dan efisiensi menuntut perbankan untuk lebih berfokus kepada layanan yang didukung dengan Teknologi Informasi (TI). Oleh karena itu, arah pengembangan *Information Technologi* (IT) ke depan akan lebih berfokus kepada peningkatan infrastruktur *hardware* maupun *software* sebagai *key enabler* pengembangan bisnis secara terpadu dan komprehensif untuk:

1. Meningkatkan Efisiensi proses pekerjaan dengan menerapkan otomatisasi dan simplifikasi terhadap aktivitas bisnis yang bersifat *repetitive* dan *manual*;
2. Meningkatkan Efektifitas dan ketepatan pengambilan keputusan bisnis bank yang berlandaskan *corporate data driven*;
3. Peningkatan kemampuan dan kehandalan infrastruktur IT guna memberikan *service excellence* dalam mendukung ekspansi bisnis bank **bjb** yang berdaya saing dan setara dengan bank besar nasional;
4. Peningkatan IT *security* dan IT *cyber defense* dalam implementasi transformasi digital yang selaras dengan arah *corporate plan* bank **bjb**.

Rencana Strategis Teknologi Informasi (*Information Technology Strategic Plan*–ITSP) menggambarkan visi dan misi Teknologi Informasi Bank, dan prinsip-prinsip utama yang menjadi acuan dalam penggunaan Teknologi Informasi untuk memenuhi kebutuhan bisnis serta mendukung rencana strategis jangka panjang. Dalam pelaksanaannya, turut diawasi dan diarahkan melalui Komite Pengarah Teknologi Informasi (*Information Technology Steering Committee* – ITSC) yang dilakukan minimal 1 (satu) kali dalam 1 (satu) tahun dan dapat dilakukan sewaktu-waktu menyesuaikan kondisi dan kebutuhan Teknologi Informasi. ITSP bank **bjb** berpanduan kepada visi dan misi teknologi informasi yang diharapkan dapat berujung pada implikasi TI.

VISI

Mendukung pencapaian visi bank **bjb** dengan kinerja terbaik.

MISI

1. Menciptakan dan memberdayakan sumber daya Teknologi Informasi (manusia, proses, teknologi) yang mumpuni untuk memberikan layanan perbankan dan keuangan terkini.
2. Melaksanakan tata kelola Teknologi Informasi yang selaras dengan prinsip-prinsip *Good Corporate Governance* dan *prudent*.

IT *Strategic Plan (7 Digitally Enabled Capability Themes)*

1. *Agile Planning & Development*
2. *Process Automation & System Integration*

Market and society changes, customer expectations, regulatory changes, the effects of globalization and efficiency require banks to focus more on services supported by Information Technology (IT). Therefore, the direction of Information Technology (IT) development in the future will focus more on improving hardware and software infrastructure as a key enabler of integrated and comprehensive business development to:

1. Improve work process efficiency by implementing automation and simplification of repetitive and manual business activities;
2. Improve the effectiveness and accuracy of bank business decision making based on corporate data driven;
3. Increase the capability and reliability of IT infrastructure to provide service excellence in supporting bank **bjb** business expansion which is competitive and on par with major national banks;
4. Increasing IT security and IT cyber defense in implementing digital transformation in line with the direction of bank **bjb** corporate plan.

The Information Technology Strategic Plan (ITSP) illustrates the vision and mission of the Bank's Information Technology, and the main principles that serve as a reference in the use of Information Technology to meet business needs and support long-term strategic plans. In its implementation, it was also supervised and directed through the Information Technology Steering Committee (ITSC) carried out at least 1 (one) time in 1 (one) year and could be carried out at any time according to the conditions and needs of Information Technology. ITSP bank **bjb** was guided by the vision and mission of information technology which was expected to lead to IT implications.

VISION

Supporting the achievement of bank **bjb** vision with the best performance.

MISSION

1. Creating and empowering qualified Information Technology resources (human, process, technology) to provide the latest banking and financial services.
2. Implementing prudent Information Technology governance in line with the principles of Good Corporate Governance and Prudent.

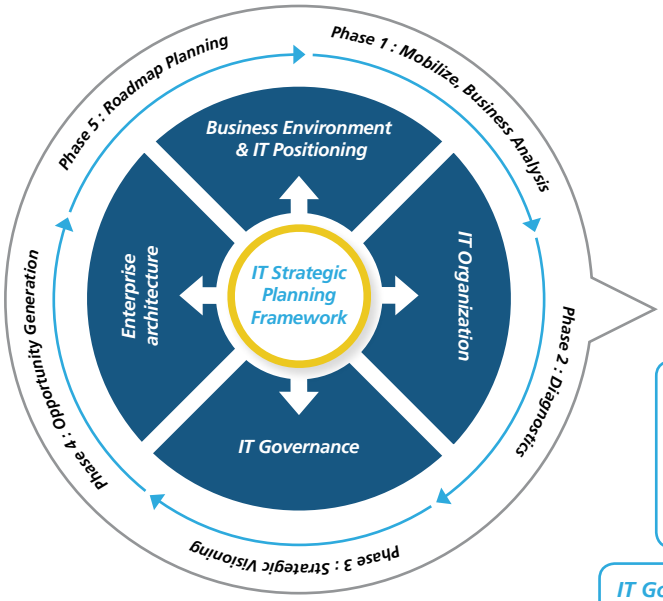
IT Strategic Plan (7 Digitally Enabled Capability Themes)

1. Agile Planning & Development
2. Process Automation & System Integration

3. *Lean & Sustainable Operations*
4. *Robust Security & Control*
5. *Organizational Excellence*
6. *Flexible Distribution*
7. *Actionable Data Analytics*

Implikasi TI

1. IT *Enterprise Architecture* yang kuat untuk mendukung kebutuhan bisnis.
2. Otomasi pada aplikasi dan proses untuk meningkatkan produktivitas dan efisiensi.
3. Data yang terintegrasi, jelas, dan dapat dipercaya untuk membantu pengambilan keputusan bisnis.
4. Infrastruktur dan konektivitas yang handal dan aman.
5. Tata kelola, kebijakan, dan proses TI yang tepat yang mendukung visi dan misi TI.
6. *Delivery channel* yang memberikan "*customer experience*" yang menyeluruh dan konsisten pada seluruh *channel*.
7. Sumber daya TI yang andal serta fokus terhadap *customer (customer-centric*).



ITSP memastikan bahwa *enterprise* IT memberikan hasil dan layanan optimal yang secara langsung mendukung visi, misi, strategi, dan prioritas organisasi. ITSP disusun menggunakan pendekatan yang terstruktur dengan kerangka kerja sebagai berikut:

3. Lean & Sustainable Operations
4. Robust Security & Control
5. Organizational Excellence
6. Flexible Distribution
7. Actionable Data Analytics

IT Implications

1. Strong IT Enterprise Architecture to support business needs.

3. Increase the level of service availability and reduce the level of service disruption.

bank **bjb** became the first Regional Development Bank (BPD) in Indonesia to obtain ISO 20000 and ISO 27001 certification simultaneously with the scope of Digital Banking Technology Operation. During 2022 the Information Technology Division carried out several system developments in several aspects including:

1. Pengembangan dan implementasi *Big Data*
   Big Data tidak hanya berupa sekumpulan data yang diolah namun merupakan peluang bisnis yang sangat bernilai. *Big Data* membantu bank **bjb** dalam hal antara lain:
   a. Melihat data nasabah dengan cara yang berbeda secara keseluruhan termasuk *customer's loyalti* dan *customer's behave (customer experience);*
   b. Berdasarkan *customer experience* dapat diperoleh peluang bisnis (*business opportunity*);
   c. Mendeteksi risiko kredit eksisting (*Risk*);
   d. Mendeteksi potensi *fraud (internal fraud detection);* dan
   e. Memprediksi atau mengkalkulasi waktu rencana pengisian ATM (*Operation*).
2. Pengembangan Open API
   Open Application Programming Interface (API) merupakan antarmuka untuk menghubungkan antara satu aplikasi dengan aplikasi yang lain. Open API mengintegrasikan sistem perbankan kepada sistem perusahaan *e-commerce/ fintech* untuk memperoleh manfaat dari API seperti *transfer*, pembayaran, dan sebagainya yang mendorong akselerasi transformasi digital industri perbankan sebagaimana tercantum dalam BSPI (*Blueprint* Sistem Pembayaran Indonesia).
3. Pengembangan **bjb** Digi Loan;
   bjb Digi Loan merupakan *platform* yang mengintegrasikan seluruh produk kredit bank **bjb** yang dapat diakses melalui **bjb** Digi, sehingga nasabah dapat secara *mobile* melakukan pengajuan kredit.

Implementasi Proyek Divisi Information Technology Sepanjang Tahun 2022

Proyek Divisi Information Technology telah disampaikan dalam Rencana Bisnis Bank (RBB) pada awal tahun dan merupakan Implementasi dari Rencana Strategis Teknologi Informasi yang senantiasa selaras dengan Strategi Bisnis bank **bjb** sehingga tujuan bisnis dapat tercapai. Untuk menjawab ketersediaan sistem Teknologi Informasi yang aman, cepat handal dan selaras dengan kebutuhan bisnis, bank **bjb** memperkuat infrastruktur, jaringan komunikasi dan pengamanan informasi dengan melakukan penambahan dan/atau perubahan di dalamnya. Untuk memastikan kelancaran operasional secara berkelanjutan, Divisi Information Technology turut melakukan penyempurnaan pada kebijakan dan prosedur bidang Teknologi Informasi yang sejalan dengan strategi, hukum, regulasi dan bisnis bank **bjb**.

Terdapat 283 proyek aplikasi yang telah diimplementasikan sepanjang tahun 2022, baik aplikasi baru maupun pengembangan dan perubahan aplikasi yang telah ada. Beberapa contoh proyek yang telah diimplementasikan selama 1 (satu) tahun terakhir antara lain:

1. Pengembangan dan implementasi Big Data;
2. Pengembangan Aplikasi Profil Maturitas;
3. Pengembangan *Static and Dynamic Asset Liability Management System* (ALMA);

1. Development and implementation of Big Data
   Big Data was not only a collection of processed data but was a very valuable business opportunity. Big Data helped bank **bjb** in terms of:
   a. Determining customer data in different ways as a whole including customer's loyalty and customer's behavior (customer experience);
   b. Based on customer experience, business opportunities can be obtained;
   c. Detecting existing credit risk (Risk);
   d. Detecting potential fraud (internal fraud detection); And
   e. Predicting or calculating the timing of the ATM filling plan (Operation).
2. Development of Open Application Programming Interface (API).
   The Open Application Programming Interface (API) was an interface for connecting one application to another. Open API integrated banking systems with e-commerce/fintech company systems to benefit from APIs such as transfers, payments, and so on which encouraged acceleration of the digital transformation of the banking industry as stated in the BSPI (Indonesian Payment System Blueprint).

3. Development of **bjb** Digi Loans;
   bjb Digi Loan became a platform that integrated all bank **bjb** credit products that could be accessed through **bjb** Digi, so customers could make mobile loan applications.

15. **bjb** HITS Contact Center Service Desk Application;
16. Liquidity Gap Application;
17. **bjb** Digi Loan Application;
18. New Consumer LMS Application;
19. bank **bjb** Auction Web Application;
20. My First Step Application;
21. LCR - NSFR Application;
22. Contact Center Service Desk **bjb** HITS Application;
23. Dashboard Digital Cockpit Application;
24. **bjb** Virtual Office - Fase 2 Application;
25. **bjb** HCS - Fase 3 Application;
26. LMS Integration with TAPERA Application.

Based on the Bank's 2022 Business Plan Budget, the Information Technology Division allocated IDR815.5 billion to be channeled as Information Technology expansion funds, especially in the infrastructure sector, an allocation of IDR371.1 billion. The allocation of funds that had been absorbed for development and improvement in the Information Technology sector reached IDR334.1 billion.

Infrastruktur Teknologi Informasi

Infrastructure of Information Tecnology

bank **bjb** telah memiliki infrastruktur yang dapat bersaing pada era modern salah satunya perangkat *storage network* dan *security*. Upaya penguatan infrastruktur IT diimplementasikan dalam:
1. Peningkatan kapasitas dan kapabilitas *Data Center*; dan
2. Peningkatan kapasitas dan kapabilitas Infrastruktur.

Salah satu peningkatan infrastruktur diakomodir melalui penyediaan *dual data center* yang telah dimiliki guna melakukan pengamanan infrastruktur data bank **bjb**. bank **bjb** senantiasa melakukan pemeliharaan secara berkala terhadap infrastruktur yang dimiliki.

bank **bjb** already had infrastructure that could compete in the modern era, one of which was storage network and security devices. Efforts to strengthen IT infrastructure were implemented in:
1. Increasing the capacity and capability of the Data Center; And
2. Infrastructure capacity and capability improvement.

One of the infrastructure improvements was accommodated through the provision of dual data centers that are owned to secure bank **bjb** data infrastructure. bank **bjb** always performed periodic maintenance of its infrastructure.

Tata Kelola Teknologi Informasi

Information Technology Governance

Framework Divisi Information Technology berdasar kepada standar COBIT 5 dan *The Open Group Architecture Framework* (TOGAF) untuk *Enterprise Architecture* yang tercantum pada IT Strategic Plan. COBIT 5 merupakan sebuah kerangka kerja yang disusun dengan mempertimbangkan keselarasan kerja dan standar internasional lainnya seperti *Information Technology Infrastructure Library* (ITIL) V3 untuk *Service Management Framework*, ISO 27001 untuk *Information Security Standard*, ISO 31000 untuk IT *Governance Standard*, TOGAF untuk *Enterprise Architecture Framework* serta berbagai kerangka kerja publikasi *Information Systems Audit and Control Association* (ISACA) seperti Val IT, Risk IT, dan sebagianya. Hal ini membuat COBIT 5 menjadi sebuah kerangka kerja tata kelola dan manajemen TI yang terintegrasi dan mencakup seluruh proses yang terdapat dalam perusahaan secara menyeluruh.

The Information Technology Division framework was based on the COBIT 5 standard and The Open Group Architecture Framework (TOGAF) for Enterprise Architecture listed in the IT Strategic Plan. COBIT 5 was a framework developed by considering work harmony and other international standards such as Information Technology Infrastructure Library (ITIL) V3 for Service Management Framework, ISO 27001 for Information Security Standard, ISO 31000 for IT Governance Standard, TOGAF for Enterprise Architecture Framework and various publication frameworks of the Information Systems Audit and Control Association (ISACA) such as Val IT, Risk IT, and so on. This made COBIT 5 an integrated IT governance and management framework that covered all processes within the company as a whole.

Kebijakan Teknologi Informasi

Kebijakan Teknologi Informasi berdasar kepada Peraturan Otoritas Jasa Keuangan (POJK) nomor 38/POJK.03/2016 tentang Penerapan Manajemen Risiko dalam Penggunaan Teknologi Informasi oleh Bank Umum yang telah dilakukan pembaharuan melalui POJK nomor 11/POJK.03/2022. Langkah-Langkah Pengendalian Risiko Operasional yang Dilakukan oleh Divisi Information Technology Sepanjang Tahun 2022

Pengendalian risiko operasional di bank **bjb** termasuk risiko penggunaan Teknologi Informasi di dalamnya, dilakukan secara komprehensif dan berkelanjutan. Selain itu, untuk fungsi tertentu seperti fungsi pengamanan informasi dan fungsi *Business Continuity Plan* (BCP) dilaksanakan dan dipantau semaksimal mungkin dalam rangka mencegah, mendeteksi dan melakukan *corrective action* atas potensi risiko yang teridentifikasi.

Sosialisasi *security assessment* dan *penetration testing* terhadap beberapa aplikasi kritikal telah dilaksanakan sebagai bagian mitigasi risiko yang dilakukan oleh Divisi Information Technology serta penguatan *security* di seluruh lini untuk mendukung transformasi digital.

Steps to Control Operational Risk Performed by The Information Technology Division Throughout 2022

Operational risk control in the bank **bjb** including the risk of using Information Technology therein, the process is carried out comprehensively and continuously. In addition, certain functions such as the information security function and Business Continuity Plan (BCP) function are carried out and monitored as much as possible in order to prevent, detect and carry out corrective actions on identified potential risks.

Socialization of security assessment and penetration testing of several critical applications was carried out as part of risk mitigation carried out by the Information Technology Division as well as strengthening security across all lines to support digital transformation.

Cyber Security

Seiring dengan perkembangan digitalisasi bank **bjb**, di tahun 2022 bank **bjb** berkomitmen dalam penguatan keamanan siber di sisi organisasi yaitu dengan dibentuknya Grup IT Security di bawah Pemimpin Divisi Information Technology yang secara khusus menangani keamanan Informasi. Selain penguatan di sisi organisasi, dilakukan penguatan keamanan siber di sisi regulasi, infrastruktur dan operasional guna mengantisipasi tren serangan siber. Penguatan keamanan siber ini telah tercantum dalam Strategi Teknologi Informasi bank **bjb**. Di dalam Strategi Teknologi Informasi, bank **bjb** telah memiliki *Enterprise Architecture Security* menggunakan acuan SABSA *(Sherwood Applied Business Security Architecture)*. Penguatan dari sisi organisasi, regulasi, infrastruktur dan operasional keamanan Informasi diharapkan meningkatkan penilaian kematangan *cyber security* bank **bjb** dan sebagai komitmen bank **bjb** dalam meminimalisir risiko insiden keamanan dan menghindari kerugian dari serangan siber.

Cyber Security

Along with the development of bank **bjb** digitalization, in 2022 bank **bjb** is committed to strengthening cyber security within the organization, by establishing an IT Security Group under the Head of the Information Technology Division which specifically handles information security. In addition to strengthening within the organization, cyber security is being strengthened in terms of regulations, infrastructure and operations to anticipate trends in cyber attacks. Strengthening cyber security has been written in bank **bjb** Information Technology Strategy. In the Information Technology Strategy, bank **bjb** already has Enterprise Architecture Security refers to SABSA (Sherwood Applied Business Security Architecture) reference. Strengthening in terms of organization, regulation, infrastructure and information security operations is expected to increase the maturity assessment of bank **bjb** cyber security and as bank **bjb** commitment to minimizing the risk of security incidents and avoiding losses from cyber attacks.

7 (tujuh) tema kapabilitas untuk mendukung strategi Teknologi Informasi bank **bjb** di antaranya:

1. *Process and Workforce Optimization*
   Peningkatan efektifitas dan efisiensi proses melalui pembaharuan dan digitalisasi proses, serta harmonisasi dan sinergi antara fungsi dengan mengimplementasikan tata kelola yang terintegrasi dan otomatisasi. Contoh tren teknologi: *Robotic Process Automation* (RPA).
2. *Infrastructure and Digital Culture Strengthening*
   Peningkatan infrastruktur TI secara fungsi maupun kapasitas serta pengimplementasian teknologi dan aplikasi terbaru untuk mendukung perkembangan bisnis. Contoh tren teknologi: *Cloud platform* dan *Blockchain*.
3. *Data-Driven Monitoring and Decisioning*
   Pembentukan *data management*, pemanfaatan teknologi untuk digitalisasi proses *reporting*, serta peningkatan penggunaan data dalam proses analisis di tiap lini bisnis bank **bjb**. Contoh tren teknologi: *Business Driven Analytics*.
4. *Market Digitalization and Penetration*
   Pembentukan data management, pemanfaatan teknologi untuk digitalisasi proses reporting, serta peningkatan penggunaan data dalam proses analisis di tiap lini bisnis bank **bjb**. Contoh tren teknologi: *Business Driven Analytics*.
5. *Customer-centric and Customer-driven Organization*
   Solusi terintegrasi yang dapat melayani kebutuhan customer, memberikan *feedback*, serta kemampuan untuk melakukan personalisasi kepada tiap nasabah berdasarkan *customer behavior*. Contoh tren teknologi: *Customer Experience Management*.
6. *Cyber Security and Data Privacy*
   Menciptakan kemampuan untuk melihat potensi ancaman dan *vulnerability* yang ada, serta standardisasi prosedur dan teknologi pengelolaan. Contoh pendekatan: *Cyber Security Champions*, *Trust* dan *Secure Experience*, *Simplifying environment*.
7. *Sustainable Financial Ecosystem*
   Mengembangkan produk-produk perbankan yang dapat mencapai metrik-metrik ESG, serta menjadikan ESG sebagai bagian dari manajemen risiko dan pengembangan perusahaan ke depannya.

7 (seven) capability themes to support bank **bjb** Information Technology strategy include:

1. Process and Workforce Optimization
   Increasing the effectiveness and efficiency of processes through updating and digitizing processes, as well as harmonization and synergy between functions by implementing integrated governance and automation. Example of a technology trend: Robotic Process Automation (RPA).
2. Infrastructure and Digital Culture Strengthening
   Increasing IT infrastructure in terms of function and capacity as well as implementing the latest technology and applications to support business development. Examples of technology trends: Cloud platforms and Blockchain.
3. Data-Driven Monitoring and Decisioning
   Formation of data management, use of technology to digitize the reporting process, and increase the use of data in the analysis process in each bank **bjb** business line. Example of a technology trend: Business Driven Analytics.
4. Market Digitalization and Penetration
   Formation of data management, use of technology to digitize the reporting process, and increase the use of data in the analysis process in each bank **bjb** business line. Example of a technology trend: Business Driven Analytics.
5. Customer-centric and Customer-driven Organization
   Integrated solutions that can serve customer needs, provide feedback, as well as the ability to personalize each customer based on customer behavior. Example of a technology trend: Customer Experience Management.
6. Cyber Security and Data Privacy
   Creating the ability to see potential threats and existing vulnerabilities, as well as standardize management procedures and technologies. Examples of approaches: Cyber Security Champions, Trust and Secure Experience, Simplifying environment.
7. Sustainable Financial Ecosystem

*Good Corporate Governance (*GCG*)* atau Tata Kelola Perusahaan yang Baik merupakan paradigma yang terus berkembang di Indonesia saat ini. Perusahaan-perusahaan semakin menyadari akan pentingnya mengimplementasikan GCG secara baik dan konsisten dalam upaya peningkatan kualitas perusahaan. GCG adalah suatu konsep yang menyangkut struktur perusahaan, pembagian tugas, dan pembagian beban tanggung jawab dari masing–masing unsur yang membentuk unsur perusahaan, dan mekanisme yang harus ditempuh oleh masing–masing unsur tersebut. Selain itu juga GCG merupakan prinsip–prinsip yang diterapkan oleh perusahaan untuk memaksimalkan nilai perusahaan, meningkatkan kinerja dan kontribusi perusahaan, serta menjaga keberlanjutan perusahaan secara jangka panjang.

GCG merupakan suatu sistem peraturan yang mengatur hubungan dari berbagai pihak yang bersangkutan dengan Pemegang Saham, Dewan Komisaris, Direksi, dan Komite–komite. Dengan kata lain, GCG mencakup hubungan antara para pemangku kepentingan (*stakeholder*) yang terlibat serta tujuan pengelolaan perusahaan. Selain itu, penerapan GCG tidak hanya menjadi suatu keharusan, tetapi juga merupakan fondasi utama dalam menjalankan usaha untuk memaksimalkan manfaat dan nilai tambah bagi para pemangku kepentingan serta menjaga keberlangsungan usaha. Penerapan GCG kian menjadi faktor penentu strategis bagi perbankan agar dapat meningkatkan nilai dan memelihara proses pertumbuhan yang berkelanjutan. Setiap perbankan perlu terus meningkatkan kinerja agar dapat mengambil manfaat dari

Good Corporate Governance (GCG) is a paradigm that continues to develop in Indonesia today. Companies are increasingly aware of the importance of GCG in efforts to improve the quality of the company, and improving the quality of the company will be realized if the company implements good and consistent GCG. GCG is a concept that concerns the structure of the company, the division of tasks, and the distribution of responsibilities of each element that forms the element of the company, and the mechanisms that must be followed by each of these elements. In addition, GCG is the principles applied by the company to maximize the value of the company, improve the performance and contribution of the company, and maintain the long-term sustainability of the company.

GCG is a regulatory system that regulates the relationship of various parties concerned with Shareholders, Board of Commissioners, Board of Directors and Committees. In other words, GCG includes the relationship between the stakeholders involved and the objectives of managing the company. In addition, the implementation of GCG is not only a must, but also the main foundation in running a business to maximize benefits and added value for stakeholders and maintain business continuity. The implementation of GCG is increasingly becoming a strategic determining factor for banks in order to increase value and maintain a process of sustainable growth. Every bank needs to continue to improve its performance so that it can benefit from the implementation of GCG. The purpose of implementing GCG

penerapan GCG. Tujuan penerapan GCG yaitu menciptakan nilai tambah bagi semua pihak yang berkepentingan, pihak – pihak tersebut adalah pihak internal yang meliputi Dewan Komisaris, Direksi, Karyawan, dan pihak eksternal yang meliputi investor, kreditur, pemerintah, masyarakat dan pihak berkepentingan lainnya.

is to create added value for all interested parties; these parties are internal parties which include the Board of Commissioners, Directors, Employees and external parties which include investors, creditors, government, communities and other interested parties.

Sebagai lembaga intermediasi dan lembaga kepercayaan, Perseroan dalam melaksanakan kegiatan usahanya harus berpedoman terhadap prinsip keterbukaan (*transparancy*), memiliki ukuran kinerja dari semua jajaran berdasarkan ukuran yang konsisten dengan *corporate values*, sasaran usaha dan strategi Perseroan sebagai cerminan akuntabilitas (*accountability*), menjamin dilaksanakannya ketentuan yang berlaku sebagai wujud tanggung jawab (*responsibility*), objektif dan bebas dari tekanan pihak manapun dalam pengambilan keputusan (*independency*), serta senantiasa memperhatikan kepentingan seluruh *stakeholders* (Pemangku Kepentingan) berdasarkan asas kesetaraan dan kewajaran (*fairness*).

As an intermediary and trust institution, the Company in carrying out its business activities must be guided by the principle of transparency, have performance measures from all levels based on measures that are consistent with corporate values, business objectives and Company strategies as a reflection of accountability, guarantee the implementation of provisions which acts as a form of responsibility, is objective and free from pressure from any party in making decisions (independence), and always pays attention to the interests of all stakeholders based on the principles of equality and fairness.

Salah satu kunci keberhasilan dan kesinambungan penerapan GCG adalah berfungsinya organ–organ Perseroan yaitu Rapat Umum Pemegang Saham (RUPS), Dewan Komisaris, Direksi dan Komite–komite secara efektif. Efektivitas penerapan *governance* dapat dilihat dari adanya keselarasan pada tiga aspek *governance system* yaitu *governance structure*, *governance process* dan *governance outcome*. Aspek *governance structure* berkaitan dengan kecukupan struktur dan infrastruktur tata kelola agar proses penerapan prinsip GCG menghasilkan *outcome* yang sesuai dengan harapan *stakeholders*.

One of the keys to the success and continuity of GCG implementation is the effective functioning of the Company's organs, namely the General Meeting of Shareholders (GMS), the Board of Commissioners, the Board of Directors and Committees. The effectiveness of governance implementation can be seen from the alignment of the three governance system aspects, namely governance structure, governance process and governance outcome. The aspect of governance structure relates to the adequacy of governance structures and infrastructure so that the process of implementing GCG principles produces outcomes that are in line with stakeholder expectations.

Adapun yang termasuk dalam *governance structure* Perseroan adalah Direksi, Dewan Komisaris, komite-komite dan satuan kerja, sedangkan yang termasuk infrastruktur tata kelola antara lain kebijakan dan prosedur Perseroan, sistem informasi manajemen serta tugas pokok dan fungsi masing-masing struktur organisasi. *Governance process* terkait dengan proses penerapan prinsip GCG yang didukung oleh kecukupan struktur dan infrastruktur tata kelola sehingga menghasilkan *outcome* yang sesuai dengan harapan Pemangku Kepentingan. Dengan demikian, *governance outcome* mencerminkan sejauh mana penerapan *governance process* serta dukungan yang memadai dari *governance structure*. Sebaliknya, permasalahan pada *governance structure* dapat mengakibatkan timbulnya kelemahan pada *governance process* sehingga memberikan dampak terhadap *governance outcome*.

The governance structure of the Company includes the Board of Directors, Board of Commissioners, committees and work units, while governance infrastructure includes Company policies and procedures, management information systems and the main tasks and functions of each organizational structure. Governance process is related to the process of implementing GCG principles supported by adequate governance structures and infrastructure so as to produce outcomes that are in line with Stakeholder expectations. Thus, governance outcomes reflect the extent to which governance processes are implemented and adequate support from governance structures. On the other hand, problems in the governance structure can lead to weaknesses in the governance process, thereby impacting governance outcomes.

Komitmen Perseroan dalam menerapkan *corporate governance* terlihat dari dimilikinya *governance structure* dan *governance process* yang efektif, sehingga mampu menghasilkan *governance outcome* yang sesuai dengan harapan seluruh Pemangku Kepentingan. Perseroan menyadari bahwa melalui pelaksanaan GCG, Perseroan tidak hanya mendapatkan hasil kinerja keuangan yang baik, akan tetapi juga mampu menghasilkan reputasi yang baik dimata Pemangku Kepentingan. Keberlangsungan

The Company's commitment to implementing corporate governance can be seen from having an effective governance structure and governance process to produce governance outcomes that meet the expectations of all Stakeholders. The Company realizes that through the implementation of GCG, the Company does not only get good financial performance results, but is also able to generate a good reputation in the eyes of Stakeholders. The sustainability of the Company with Stakeholders'
