Pengelolaan Benturan Kepentingan Direksi

Benturan kepentingan maupun yang berpotensi menjadi benturan kepentingan atau segala sesuatu yang dapat menghambat Direksi untuk bertindak independen harus diungkapkan oleh Direksi. Benturan kepentingan merupakan suatu kondisi adanya konflik antara kepentingan ekonomis perusahaan dan kepentingan ekonomi individu. Dalam hal terdapat benturan kepentingan dalam pengambilan keputusan, Direksi harus mengutamakan kepentingan Perseroan.

Dalam hal terjadi benturan kepentingan, anggota Direksi dilarang mengambil tindakan yang dapat merugikan Perseroan atau merugikan keuntungan Perseroan dan wajib mengungkapkan benturan kepentingan dimaksud dalam setiap keputusan. Pengungkapan benturan kepentingan dicantumkan dalam setiap risalah rapat Direksi, paling kurang mencakup nama Direksi yang memiliki benturan kepentingan, masalah benturan kepentingan dan dasar pertimbangan pengambilan keputusan.

Terkait dengan pengambilan keputusan dalam rapat Direksi, Direksi yang memiliki benturan kepentingan diperkenankan untuk mengungkapkan ide dan pendapat, akan tetapi tidak disertakan dalam pengambilan keputusan, baik dalam musyawarah maupun pengambilan suara terbanyak. Hal tersebut harus dicatat dalam risalah rapat Direksi.

Management of Conflicts of Interest In The Directors

Conflicts of interests as well as those that have the potential to become a conflict of interest or anything that can prevent the Directors from acting independently must be disclosed by the Directors. Conflict of interest is a condition of conflict between the economic interests of the company and individual economic interests. In the event of a conflict of interest in decision making, the Directors must prioritize the interests of the Company.

In the event of a conflict of interest, members of the Directors are prohibited from taking actions that could harm the Company or harm the Company's profit and must disclose the conflict of interest referred to in each decision. Disclosure of conflicts of interest is included in each minutes of the Directors' meeting, at least covering the names of Directors who have a conflict of interest, conflict of interest issues and the basis for decision making.

Related to decision making in Directors' meetings, Directors who have a conflict of interest are allowed to express their ideas and opinions, but they are not included in decision making, both in deliberations and the majority of votes. This must be noted in the minutes of the Directors' meeting.

Dalam hal Perseroan mempunyai benturan kepentingan dengan kepentingan pribadi seorang anggota Direksi, maka Perseroan akan diwakili oleh anggota Direksi lainnya dan dalam hal Perseroan mempunyai kepentingan yang bertentangan dengan kepentingan seluruh anggota Direksi, maka dalam hal ini Perseroan diwakili oleh Dewan Komisaris dan Pemegang Saham Pengendali.

If the Company has a conflict of interest with the personal interests of a member of the Directors, then the Company will be represented by other members of the Directors and in the event that the Company has an interest that conflicts with the interests of all members of the Directors, then in this case the Company is represented by the Board of Commissioners and Controlling Shareholders.

Independensi Direksi

Board of Directors' Independence

Direksi senantiasa bertindak independen, dalam arti tidak mempunyai benturan kepentingan yang dapat mengganggu kemampuannya untuk melaksanakan tugas secara mandiri dan kritis, baik dalam hubungan satu sama lain maupun hubungan terhadap Dewan Komisaris.

The Board of Directors always acts independently, in the sense that it does not have a conflict of interest that could interfere with its ability to carry out its duties independently and critically, both in relation to each other and to the Board of Commissioners.

Pembidangan Tugas Pengawasan Dewan Komisaris

Untuk mengefektifkan peran Dewan Komisaris, dilakukan pembagian tugas di antara anggota Dewan Komisaris. Pembagian tugas di antara anggota Dewan Komisaris ditujukan agar pelaksanaan tugas masing-masing anggota Dewan Komisaris secara teknis pada aspek yang dibidangi dapat berjalan lancar, efektif dan efisien, sesuai tanggung jawab dan wewenang masing-masing sehingga terdapat kejelasan tentang peran anggota Dewan Komisaris, baik secara kolektif maupun individual.

Pada awal tahun 2022 Pembidangan Tugas Dewan Komisaris didasarkan kepada Surat Keputusan Dewan Komisaris bank **bjb** Nomor 01/SK/DKO/2021 tanggal 7 April 2021 tentang Pembagian Tugas dan Pelaksanaan Kegiatan Dewan Komisaris serta Komite-Komite, dengan pembidangan tugas pengawasan Dewan Komisaris adalah sebagai berikut:

The Supervision of the Board of Commissioners' Supervisory Duties

To streamline the role of the Board of Commissioners, division of duties was carried out among members of the Board of Commissioners. The division of duties among the members of the Board of Commissioners was intended so that the implementation of the duties of each member of the Board of Commissioners could technically run smoothly, effectively and efficiently, according to their respective responsibilities and authorities so that there was clarity on the role of members of the Board of Commissioners, both collectively and individually.

At the beginning of 2022, the Division of Duties of the Board of Commissioners is based on the Decree of the Board of Commissioners of bank **bjb** Number 01/SK/DKO/2021 dated April 7, 2021 concerning the Distribution of Duties and Implementation of Activities for the Board of Commissioners and Committees, with the division of supervisory duties for the Board of Commissioners as follows:

Pelatihan dan/atau Peningkatan Kompetensi Anggota Dewan Komisaris

Kebijakan di seluruh level organisasi bank **bjb**, setiap pegawai memiliki kesempatan yang setara dalam proses pengembangan karir sesuai dengan kinerja, kompetensi, pengalaman dan kriteria lainnya yang ditetapkan serta kesempatan dalam mendapatkan pendidikan dan pelatihan. Hal ini sesuai dengan kebijakan terkait pengembangan kompetensi karyawan yang tertuang dalam Surat Keputusan Direksi No. 0001/SK-DIR/ET/2017 tanggal 09 Februari 2017 tentang Pedoman Pengelolaan Pendidikan. Adapun ketentuan pengelolaan Sertifikasi Manajemen Risiko tertuang dalam Surat Edaran Nomor 007/SE/DIR-ET/2017 tanggal 10 Februari 2017 perihal Sertifikasi Manajemen Risiko.

Adapun pelatihan dan/atau peningkatan kompetensi Dewan Komisaris selama tahun 2022 adalah sebagai berikut.

Training and/or Increasing the Competence of Members of the Board of Commissioners

The policy at all levels of the bank **bjb** organization was that every employee had equal opportunities in the career development process in accordance with performance, competence, experience and other established criteria as well as opportunities to receive education and training. This was in accordance with the policies related to employee competency development as stated in the Decree of the Directors No. 0001/SK-DIR/ET/2017 dated February 09, 2017 concerning Guidelines for Education Management. The provisions for the management of Risk Management Certification were contained in Circular Letter Number 007/SE/DIR-ET/2017 dated February 10, 2017 regarding Risk Management Certification.

Program Kerja dan Pelaksanaan Tugas Komite Nominasi dan Remunerasi Tahun 2022

Komite Nominasi dan Remunerasi telah melaksanakan tugas dan tanggung jawab terkait dengan fungsi nominasi dan remunerasi, di antaranya:

1. Melakukan proses nominasi untuk jabatan Pengurus yang akan habis pada RUPS Tahunan Tahun Buku 2022.
2. Memberikan rekomendasi kepada Dewan Komisaris terkait Pengangkatan dan perpanjangan perjanjian kerja anggota Komite dari pihak independen.
3. Mengevaluasi dan memberikan rekomendasi kepada Dewan Komisaris mengenai kebijakan remunerasi Pengurus dan Pegawai.

Seluruh rapat Komite Nominasi dan Remunerasi telah didokumentasikan dengan baik dalam notula rapat dengan memperhatikan jumlah kuorum kehadiran. Anggota Komite Nominasi dan Remunerasi senantiasa diberikan kesempatan untuk mengikuti seminar maupun program pelatihan untuk meningkatkan wawasan dan pengetahuan terkait dengan tugas dan tanggungjawabnya.

Work Program and Implementation of The Duties of The Nomination and Remuneration Committee of 2022

The Nomination and Remuneration Committee has carried out duties and responsibilities related to the nomination and remuneration function, including:

1. Carry out the nomination process for the positions of Management that will end at GMS for the 2022 Fiscal Year.
2. Provide recommendations to the Board of Commissioners regarding the extension of work agreements for Committee members from independent parties.
3. Evaluate and provide recommendations to the Board of Commissioners regarding the remuneration policy of Management and Employees.

All Remuneration and Nomination Committee meetings have been well documented in the minutes of the meeting by taking into account the number of quorum attendance. Members of the Remuneration and Nomination Committee are always given the opportunity to attend seminars and training programs to increase their insight and knowledge related to their duties and responsibilities.

Kebijakan Suksesi Direksi

Dalam rangka melanjutkan kepemimpinan yang berkelanjutan, bank **bjb** memiliki mekanisme suksesi untuk posisi Direksi. Pada periode yang telah ditentukan, Dewan Komisaris melalui Komite Nominasi dan Remunerasi menyelenggarakan perekrutan untuk menjadi kandidat Direksi, yang berasal dari internal bank **bjb** maupun dari luar bank **bjb**. Dalam melakukan penilaian terhadap para kandidat Direksi, Dewan Komisaris melalui Komite Nominasi dan remunerasi dapat dibantu oleh tim *assessment* independen yang telah ditunjuk bank **bjb**. Penyaringan terhadap para kandidat dilakukan berdasarkan kriteria-kriteria yang relevan dengan jabatan dan kondisi bank **bjb**, sesuai dengan ketentuan yang berlaku. Hasil penyaringan tersebut kemudian direkomendasikan oleh kepada RUPS untuk kemudian diajukan kepada OJK guna melaksanakan *fit and proper test* sesuai dengan jabatan yang dituju. Kandidat dinyatakan efektif menjabat sebagai Direksi apabila dinyatakan lulus *fit and proper test* oleh OJK.

Komite Pemantau Risiko

Sesuai Peraturan Otoritas Jasa Keuangan (POJK) Nomor 55/POJK.03/2016 tentang Penerapan Tata Kelola bagi Bank Umum, Komite Pemantau Risiko merupakan alat kelengkapan Dewan Komisaris yang berfungsi memonitor risiko dan menilai toleransi risiko yang dapat diambil oleh Bank, mengevaluasi perbaikan yang dilakukan atas kebijakan, prosedur dan praktik manajemen risiko Bank guna memastikan telah dilakukannya pengelolaan risiko dengan baik, terutama pada pengelolaan risiko kredit, risiko pasar, risiko likuiditas, risiko operasional, dan risiko bank lainnya.

Dasar Pembentukan Komite Pemantau Risiko

Komite Pemantau Risiko bank **bjb** dibentuk berdasarkan:

1. Peraturan OJK Nomor 55/POJK.03/2016 tanggal 9 Desember 2016 tentang Penerapan Tata Kelola bagi Bank Umum.
2. Surat Keputusan Dewan Komisaris PT Bank Jabar Nomor 04A/SK/DK/2007 tanggal 28 Juni 2007 tentang Pembentukan Komite-Komite dan Pedoman Kerja Komite.
3. Peraturan Otoritas Jasa Keuangan Nomor 17/POJK.04/2014 tentang Penerapan Manajemen Risiko Terintegrasi Bagi Konglomerasi Keuangan.
4. Peraturan Otoritas Jasa Keuangan Nomor 18/POJK.03/2016 tentang Penerapan Manajemen Risiko Bagi Bank Umum.
5. Surat Keputusan Dewan Komisaris PT Bank Pembangunan Daerah Jawa Barat dan Banten, Tbk. Nomor 01/SK/DKO/2021 tanggal 7 April 2021 tentang Pembagian Tugas dan pelaksanaan Kegiatan Dewan Komisaris serta Komite-Komite sebagaimana telah diubah terakhir dengan surat Keputusan Dewan Komisaris PT Bank Pembangunan Daerah Jawa Barat dan Banten, Tbk. Nomor 06/SK/DKO/2022 tanggal 4 November 2022 tentang Pembagian Tugas dan pelaksanaan Kegiatan Dewan Komisaris serta Komite-Komite.

Succession Policy of Directors

In order to continue the sustainable leadership, bank **bjb** owned a succession mechanism for the position of the Directors. In a predetermined period, the Board of Commissioners through the Nomination and Remuneration Committee conducted recruitment to become candidates for the Directors, either from internal bank **bjb** or from outside bank **bjb**. In assessing candidates for the Directors, the Board of Commissioners through the Nomination and Remuneration Committee could be assisted by an independent assessment team appointed by bank **bjb**. Candidates were screened based on criteria relevant to the position and condition of bank **bjb**, in accordance with applicable regulations. The results of the screening were then recommended by the GMS to be submitted to the FSA in order to carry out a fit and pass test in accordance with the intended position. Candidates were declared to be effective as Directors if they were declared to have passed the fit and proper test by the FSA.

Risk Monitoring Committee

In accordance to regulation of Financial Services Authority (POJK) number 55/POJK.03/2016 regarding the implementation of governance for commercial banks, the Risk Monitoring Committee is a board of Commissioners fittings that serves to monitor risk and assess the risk tolerance that can be taken by the Bank, evaluate the improvements made to the Bank's risk management policies, procedures and practices to ensure good risk management is done, especially on the management of credit risk, market risk, liquidity risk, and risk of other banks.

Foundation of Risk Monitoring Committee

The bank **bjb** Risk Monitoring Committee is formed based on:

1. OJK Regulation No. 55/POJK.03/2016 dated December 9, 2016 concerning the implementation of governance for commercial banks.
2. The Decree of Board of Commissioners of PT Bank Jabar number 04A/SK/DK/2007 dated June 28, 2007 concerning the establishment of committees and work guidelines committee.

2. Other Work Programs
   a. In 2022, SKAI maximized the functionality of data analysis software in the implementation of data analysis in the form of an Irregularities Report. In addition, SKAI conducts periodic development and maintenance as well as the development of the Internal Audit Information System in the following applications:
      - Audit Management Information System (SIMA)
      - Whistle Blowing System (WBS)
   b. External Audit Assistance
      SKAI has the task of assisting the audit carried out by External Auditors. The assistance is within the scope of providing audit data needed by external auditors.
   c. Auditor Quantity and Quality Development
      - Quantity Development
        The Internal Audit Work Unit added employees in accordance with the 2022 capacity planning. In addition, SKAI conducts internal rotations between groups so that all auditors get different/new insights, knowledge, and understanding.

- Pengembangan Kualitas
  Kualitas auditor merupakan salah satu faktor penting dalam pelaksanaan audit internal. Atas hal tersebut, SKAI melakukan pengembangan kemampuan, kompetensi, pengetahuan dan profesionalisme dengan mengikutsertakan auditor pada pelatihan, *workshop*, sertifikasi auditor berskala nasional maupun internasional sesuai dengan kebutuhan yang disesuaikan dengan kegiatan pemeriksaan serta pengajuannya dikordinasikan dengan **bjb** university.

d. Penyediaan Fasilitas Penunjang Kegiatan SKAI
   Salah satu program SKAI dalam rangka mendukung aktivitas audit baik pemeriksaan dan kegiatan SKAI lainnya adalah dengan melakukan pemenuhan terhadap fasilitas penunjang di antaranya seperti Laptop, *Printer Portable* dan perangkat lainnya.

PELAKSANAAN AUDIT INTERNAL TAHUN 2022

1. Pemeriksaan
   Pemeriksaan terhadap Kantor Cabang, Kantor Pusat, Sistem Aplikasi Teknologi Informasi dan Konglomerasi Keuangan berdasarkan hasil perhitungan *audit rating* terhadap *audit universe* dan *judgment management*. Satuan Kerja Audit Internal (SKAI) setiap tahun menyusun Rencana Kerja dan Anggaran Tahunan sebagai panduan dalam melaksanakan kegiatan pemeriksaan tahunan secara efektif. Adapun jumlah rencana dan realisasi pemeriksaan oleh SKAI di Tahun 2022 sebagai berikut:

- Quality Development
  Auditor quality is one of the essential factors in internal audit implementation. For this reason, SKAI developed the auditors' capabilities, competencies, knowledge, and professionalism by registering them in training, workshops, and national and international auditor certifications according to the needs adjusted to audit activities, and the submissions were coordinated with **bjb** university.

d. Provision of Supporting Facilities for SKAI Activities
   One of the SKAI programs to support audit activities, both inspections and other SKAI activities, is to fulfill supporting facilities such as Laptops, Portable Printers, and other devices.

INTERNAL AUDIT IMPLEMENTATION IN 2022

1. Audit
   The audit of Branch Offices, the Head Office, Information Technology Application Systems, and the Financial Conglomerate was based on the results of the audit rating calculation of the audit universe and judgment management. The Internal Audit Work Unit (SKAI) annually prepares an Annual Work Plan and Budget as a guide in effectively carrying out annual audit activities. The number of planned and realized audits by SKAI in 2022 was as follows:

Jenis Pemeriksaan Type of Audit	Rencana Planned	Realisasi Realized
Audit Umum Kantor Pusat Head Office General Audit	5	5
Audit Umum Kantor Cabang Branch Office General Audit	25	26
Audit Teknologi Informasi Information Technology Audit	6	13
Audit Internal Terintegrasi Integrated Internal Audit	10	10
Audit Investigasi Investigation Audit	-	18
Pemeriksaan Kontrol Internal Wilayah Regional Internal Control Check	20	20

2. Non Pemeriksaan
   a. Pengembangan Sistem Informasi Audit Internal yaitu Sistem Informasi Manajemen Audit (SIMA).
   b. Sosialisasi *Refreshment* Fungsi SKAI.
   c. *Forum Group Discussion* (FGD) Kontrol Internal Wilayah.
   d. Pendampingan Pemeriksaan oleh Pihak Eksternal.
   e. Pengembangan Kuantitas dan Kualitas Auditor melalui program sertifikasi nasional dan internasional.

2. Non-Audit
   a. Development of the Internal Audit Information System, namely the Audit Management Information System (SIMA).
   b. SKAI Function Refreshment Socialization.
   c. Forum Group Discussion (FGD) of Regional Internal Control.
   d. Audit Assistance by External Parties.
   e. Auditor Quantity and Quality Development through national and international certification programs.

STRATEGI KERJA DI TAHUN 2023

1. Berperan aktif membantu perusahaan dalam mencapai tujuan, melalui pendekatan yang sistematis dan konsisten melalui evaluasi dan meningkatkan efektivitas proses governansi, manajemen risiko, dan kepatuhan (GRC).
2. Menjadi katalisator dalam menciptakan budaya bisnis yang berkualitas melalui fungsi pengawasan yang *agile* dan responsif terhadap dinamika bisnis.
3. Peningkatan pengembangan Sistem Informasi Manajemen Audit dan *software data analysis*.

WORK STRATEGY IN 2023

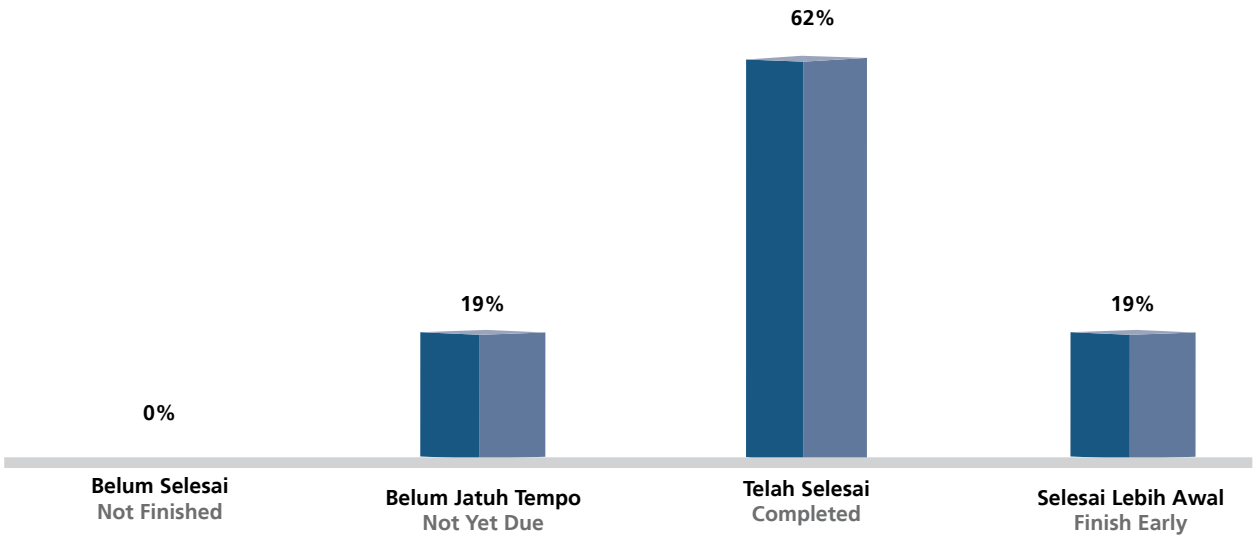
1. Playing an active role in assisting the Company towards its objectives through a systematic and consistent approach to evaluating and improving the effectiveness of governance, risk management, and compliance (GRC) processes.
2. Being a catalyst in creating a quality business culture through an agile and responsive supervisory function to business dynamics.
3. Enhancing the Audit Management Information System and data analysis software.

Temuan dan Tindak Lanjut Hasil Audit

SKAI melakukan *monitoring* tindak lanjut/komitmen yang disampaikan oleh Objek Audit pada saat audit, termasuk tindak lanjut atas temuan periode sebelumnya yang pada umumnya telah dilakukan perbaikan-perbaikan sesuai dengan rekomendasi yang diberikan.

Persentase tindak lanjut temuan Audit Umum, Audit TI dan Audit Terintegrasi periode Tahun 2022 sebagian besar telah sesuai dengan komitmen dan sebagian lainnya masih dalam batas waktu komitmen. Terhadap temuan-temuan yang masih dalam batas waktu komitmen, telah dilakukan pemantauan secara efektif baik formal maupun informal yang dilakukan oleh masing-masing PIC (*Person in Charge*) Tim Auditor.

Adapun matriks tindak lanjut objek audit terhadap temuan pemeriksaan per akhir Triwulan IV Tahun 2022 adalah sebagai berikut:



Findings and Follow-Up on Audit Results

SKAI monitors the follow-up/commitments submitted by the Audit Object at the time of the audit, including follow-up on the findings of the previous period, which in general, have been corrected in accordance with the recommendations given.

The percentage of follow-up on the findings of the General Audit, IT Audit, and Integrated Audit for 2022 mostly complies with the commitment, and some are still within the commitment deadline. For findings that remain within the commitment deadline, effective monitoring has been carried out both formally and informally by each PIC (Person in Charge) of the Auditor Team.

The matrix of the audit object follow-up on the audit findings as of the end of the fourth quarter of 2022 was as follows:

***Monitoring* Tindak Lanjut Temuan Per Triwulan 4 Tahun 2022**
Follow-up Monitoring of Findings Quarterly 4 2022

Evaluasi Kinerja Satuan Kerja Audit Internal

Untuk memastikan kualitas Audit Internal yang sesuai dengan Standar Fungsi Audit, SKAI melakukan metode internal *assessment* dan eksternal *assessment*.

1. Penilaian Internal
   Penilaian Internal (*internal assessment*) merupakan salah satu bagian dari upaya pengendalian mutu dan peningkatan kualitas atau disebut dengan *Quality Assurance and Improvement Program* (QAIP). Untuk tetap menjaga mutu dari proses kegiatan audit, SKAI menyelenggarakan evaluasi yang dilakukan oleh pihak internal Perseroan terhadap pelaksanaan Audit Internal. Pelaksanaan evaluasi internal dilakukan melalui:
   a. Pengawasan Berkelanjutan (*Ongoing Supervision*)
      Karakteristik utama dari kegiatan supervisi yaitu dilakukan secara berkelanjutan. Supervisi bertujuan untuk mengevaluasi kesesuaian pelaksanaan audit dengan ketentuan yang berlaku. Supervisi dilakukan oleh pihak di internal SKAI dalam rutinitas kerja Audit Internal. Supervisi dilaksanakan untuk memastikan kesesuaian antara pelaksanaan dengan standar audit, kebijakan, prosedur dan audit program. Supervisi yang memadai merupakan dasar dari program pengendalian mutu dan pelaksanaan *review* internal dan eksternal. Laporan hasil pelaksanaan *ongoing supervision* disampaikan kepada Direktur Utama dan Dewan Komisaris sekurang – kurangnya satu tahun sekali;
   b. Penilaian Sendiri secara Periodik (*Periodic Self – Assessment*)
      Penilaian sendiri secara periodik merupakan kegiatan mengevaluasi pelaksanaan audit dalam suatu periode tertentu, Hasil *Periodic Self – Assessment* digunakan untuk menjadi dasar pertimbangan perlunya perubahan atau penyempurnaan dalam kebijakan dan pedoman Audit Internal untuk meningkatkan kualitas Audit Internal secara keseluruhan.

   Auditor perlu melakukan *review* secara berkesinambungan atas kualitas hasil audit untuk memastikan, tercapainya tugas dan sasaran audit sesuai dengan norma – norma audit yang telah ditetapkan. Selain itu dari *review* internal diharapkan akan muncul rekomendasi-rekomendasi yang dapat menyempurnakan kualitas hasil audit secara keseluruhan. Setiap hasil pelaksanaan periodik *self assessment* dilaporkan kepada Direktur Utama dan Dewan Komisaris.
2. Penilaian Eksternal
   Evaluasi eksternal (*external assessment*) terhadap pelaksanaan fungsi Audit Internal dilaksanakan dengan maksud untuk menilai kinerja SKAI dan dilaksanakan oleh pihak di luar organisasi Perseroan, yaitu Lembaga eksternal. Evaluasi eksternal bertujuan untuk menilai mutu hasil audit yang dilakukan oleh SKAI. Evaluasi eskternal dilakukan sekurang – kurangnya satu kali dalam tiga tahun. *Review* ini dilaksanakan oleh lembaga eksternal yang memiliki kompetensi dan independensi dan tidak mempunyai pertentangan kepentingan. Setiap hasil pelaksanaan *external assessment* dilaporkan kepada Direktur Utama dan Dewan Komisaris.

Performance Evaluation of The Internal Audit Work Unit

To ensure the quality of Internal Audit is in accordance with the Audit Function Standards, Internal Audit Work Unit conducted internal assessment and external assessment methods.

1. Internal Assessment
   Internal assessment became a part of quality control and quality improvement efforts, known as the Quality Assurance and Improvement Program (QAIP). To maintain the quality of the audit activity process, Internal Audit Work Unit organized an evaluation conducted by the Company's internal parties on the implementation of Internal Audit. Internal evaluation was carried out through:
   a. Ongoing Supervision
      The main characteristic of supervision activities was that they were carried out on an ongoing basis. Supervision aimed to evaluate the suitability of the audit implementation with the applicable regulations. Supervision was carried out by internal Internal Audit Work Unit in the Internal Audit work routine. Supervision was carried out to ensure conformity between implementation and audit standards, policies, procedures and audit programs. Adequate supervision was the basis of the quality control program and the conduct of internal and external reviews. Reports on the results of ongoing supervision were submitted to the President Director and the Board of Commissioners at least once a year;
   b. Periodic Self-Assessment
      Periodic self-assessment was an activity to evaluate the implementation of audits within a certain period. The results of the Periodic Self-Assessment were used as a basis for considering the need for changes or improvements in Internal Audit policies and guidelines to improve the quality of Internal Audit as a whole.

   The auditor needed to continuously review the quality of audit results to ensure that the audit tasks and objectives were achieved in accordance with established audit norms. Apart from that, from the internal review, it was expected that recommendations would emerge and improve the overall quality of the audit results. Each result of periodic self-assessment was reported to the President Director and the Board of Commissioners.
2. External Assessment
   External evaluation (external assessment) of the implementation of the Internal Audit function was carried out with the aim of assessing the performance of Internal Audit Work Unit and was carried out by parties outside the Company organization, namely external agencies. External evaluation aimed to assess the quality of audit results conducted by Internal Audit Work Unit. External evaluation was carried out at least once in three years. This review was carried out by an external institution that had competence and independence and did not have a conflict of interest. Every result of the implementation of the external assessment was reported to the Main Director and the Board of Commissioners.

Proses Penyusunan Kebijakan Remunerasi

Proses penyusunan kebijakan remunerasi yang meliputi:

1. Tinjauan mengenai latar belakang dan tujuan kebijakan remunerasi.

   Kebijakan remunerasi disusun dan ditetapkan dengan tujuan mengembangkan kualitas jajaran manajemen dengan tetap memperhatikan ketahanan dan keberlangsungan usaha bank **bjb**.

   Kebijakan sistem remunerasi dengan berpedoman pada konsep *Merit System* dan Kinerja Pegawai baik dari sisi penyesuaian remunerasi yang bersifat tetap maupun variabel.

Remuneration Policy Development Process

Remuneration policy formulation process which includes:

1. Review of the background and objectives of the Remuneration policy.

   The remuneration policy is formulated and determined with the aim of developing the quality of the management while taking into account the resilience and sustainability of bank **bjb**'s business.

   The remuneration system policy is guided by the concept of the Merit System and Employee Performance, both in terms of fixed and variable remuneration adjustments.

Di sisi remunerasi yang bersifat tetap, strategi dilakukan dengan tetap memperhatikan kemampuan dan skala usaha, *effective best practice* di industri perbankan yang dibandingkan terhadap *market*. Perseroan telah rutin mengikuti setiap tahun survei mengenai Total *Reward Survey* perbankan melalui konsultan independen yang memang profesional dan telah diikuti oleh mayoritas perbankan di Indonesia. Hal ini dilakukan sebagai bahan referensi dan masukan bagi penyesuaian remunerasi di bank **bjb** agar tetap menarik dan kompetitif. Selain itu, Perseroan juga selalu memastikan telah memenuhi ketentuan yang berlaku dan berada di atas standar Upah Minimum yang berlaku di wilayah operasional bank **bjb**. Untuk remunerasi yang bersifat variabel, pemberian remunerasi juga memperhatikan faktor risiko dalam kegiatan usaha dan dampak terhadap pendapatan Perseroan.

2. Pelaksanaan kaji ulang atas kebijakan remunerasi pada tahun sebelumnya, beserta perbaikannya.
   Perseroan melakukan kaji ulang atas kebijakan remunerasi secara berkala dengan menyesuaikan pada ketentuan serta *best practice* maupun evaluasi sesuai ketentuan kebijakan dan prosedur yang berlaku. Kaji ulang kebijakan remunerasi dilakukan terhadap Surat Keputusan Direksi No. 1500/SK/DIR-CS/2018 tanggal 14 Desember 2018 tentang Pedoman Penghasilan, Tunjangan dan Fasilitas bagi Dewan Komisaris dan Direksi PT Bank Pembangunan Daerah Jawa Barat dan Banten, Tbk.

3. Mekanisme untuk memastikan bahwa remunerasi bagi pegawai di unit kontrol bersifat independen dari unit kerja yang diawasinya.
   Untuk memastikan independensi penerapan remunerasi bagi pegawai di unit kontrol, penilaian kinerja di unit kontrol tidak dikaitkan dengan pencapaian target kinerja dari unit kerja yang diawasinya, hal ini dipastikan melalui pemisahan struktur organisasi unit kontrol agar independen, termasuk mengenai persetujuan penetapan *goal setting* kinerja unit kerja maupun pegawai.

Cakupan Kebijakan Remunerasi dan Implementasinya

Kebijakan remunerasi pegawai pada Surat Keputusan Direksi Nomor 0500/SK/DIR-HCA/2021 tentang Perubahan Surat Keputusan Direksi PT Bank Pembangunan Daerah Jawa Barat dan Banten, Tbk. Nomor 0303/SK/DIR-HCA/2021 tentang Standar Operasional Prosedur Pengelolaan Penghasilan dan Fasilitas Kepegawaian mencakup bagi pegawai pada seluruh unit kerja, pada perusahaan anak dan pada Badan Hukum yang terafiliasi dengan Perseroan. Khusus untuk remunerasi pada Perusahaan Anak diatur lebih lanjut pada Pedoman Penugasan Pegawai pada *investee* SK Dir No 0261/SK/DIR-HCA/2021 tanggal 29 Maret 2021.

In terms of fixed remuneration, the strategy is carried out by taking into account the capabilities and business scale, effective best practice in the banking industry compared to the market. The Company regularly participates in a survey on the Total Reward Survey of banking through an independent consultant who is professional and has been followed by the majority of banks in Indonesia. This is done as reference material and input for remuneration adjustments at bank **bjb** so that it remains attractive and competitive. In addition, Company also always ensures that it has complied with applicable regulations and is above the applicable Minimum Wage standard in the operational area of bank **bjb**. For variable remuneration, remuneration also pays attention to risk factors in business activities and the impact on Company pendapatan income.

2. The implementation of a review of the Remuneration policy in the previous year, along with its improvements.
   Company conducts periodic reviews of remuneration policies by adjusting to the provisions and best practices as well as evaluations in accordance with applicable policies and procedures. A review of the remuneration policy was carried out on the Decree of the Directors No. 1500/SK/DIR-CS/2018 dated December 14, 2018 regarding Guidelines for Income, Allowances and Facilities for the Board of Commissioners and Directors of PT Bank Pembangunan Daerah Jawa Barat dan Banten, Tbk.

3. A mechanism to ensure that the remuneration for employees in the control unit is independent from the work units they supervise.
   To ensure the independence of remuneration implementation for employees in the control unit, performance appraisal in the control unit is not linked to the achievement of performance targets of the work units it supervises, this is ensured through the separation of the organizational structure of the control unit so that it is independent, including the approval of setting goals for the performance of the work unit and employee.

Scope of Remuneration Policy and Its Implementation

The employee remuneration policy in the Decree of the Board of Directors Number 0500/SK/DIR-HCA/2021 concerning Amendments to the Decree of the Board of Directors of PT Bank Pembangunan Daerah Jawa Barat Dan Banten, Tbk. Number 0303/SK/DIR-HCA/2021 concerning Standard Operating Procedures for Management of Income and Personnel Facilities applies to employees in all work units, subsidiaries and Legal Entities affiliated with the Company. Regarding remuneration in subsidiaries, it is further stipulated in the Guidelines for Employee Assignment in investee SK Dir No 0261/SK/DIR-HCA/2021 dated March 29, 2021.

Saat ini bank **bjb** belum memiliki perwakilan kantor maupun perusahaan anak yang berlokasi di luar negeri, sehingga kebijakan remunerasi tidak mencakup hal tersebut.

Remunerasi Dikaitkan Dengan Kinerja

Remunerasi dikaitkan dengan risiko yang meliputi:

1. Jenis risiko utama (*key risk*) yang digunakan dalam menerapkan Remunerasi.
   Risiko utama Perseroan di saat ini adalah Risiko Kredit.
2. Kriteria untuk menentukan jenis risiko utama, termasuk untuk risiko yang sulit diukur.
   Jenis transaksi dan bisnis yang paling signifikan dalam menghasilkan profit dan keputusan yang diambil diberikan untuk suatu keputusan bisnis yang berdampak besar pada bisnis Perseroan.
3. Dampak penetapan risiko utama terhadap kebijakan Remunerasi yang Bersifat Variabel.
   Dengan adanya penetapan jenis risiko utama akan berdampak ke penentuan KPI dan berdampak pada pemberian remunerasi yang bersifat variabel.
4. Perubahan penentuan jenis risiko utama dibandingkan dengan tahun lalu.
   Belum terdapat perubahan jika dibandingkan tahun lalu.

Pengukuran Kinerja Dikaitkan Dengan Remunerasi

Pengukuran kinerja dikaitkan dengan remunerasi yang meliputi:

1. Tinjauan mengenai kebijakan remunerasi yang dikaitkan dengan penilaian kinerja
   a. Prestasi kerja masing-masing individu.
   b. Kinerja keuangan Perseroan.
   c. *Benchmark* industri.
   d. Risiko yang mungkin timbul di kemudian hari sehingga menyebabkan kerugian bagi Perseroan.
2. Metode dalam mengaitkan remunerasi individu dengan kinerja Perseroan, kinerja unit kerja dan kinerja individu

   Kinerja Perseroan akan memengaruhi penentuan besarnya remunerasi khususnya yang bersifat variabel, serta kinerja individu dan kinerja unit kerja dilakukan *review* setiap 3 (tiga) bulan sekali maupun 1 (satu) tahun sekali. Hasil penilaian kinerja individu dan unit kerja tersebut menjadi dasar bagi perusahaan memberikan apresiasi dalam bentuk bonus, promosi *grade*/jabatan, dan kenaikan gaji tahunan.

3. Metode yang digunakan Perseroan untuk menyatakan bahwa kinerja yang disepakati tidak dapat tercapai sehingga perlu dilakukan penyesuaian atas remunerasi serta besarnya penyesuaian remunerasi jika kondisi tersebut terjadi.

   Pengukuran kinerja berdasarkan kinerja yang disepakati di awal tahun. Pemberian bonus berdasarkan penilaian kinerja individu yang penentuannya sudah ditetapkan berdasarkan Surat Keputusan dan Surat Edaran.

Currently, bank **bjb** does not have representative offices or subsidiaries located abroad, so the remuneration policy does not include this.

Remuneration Associated With Performance

Remuneration is associated with risks that include:

1. The type of main risk (key risk) used in implementing the Remuneration.
   The Company's main risk at this time is Credit Risk.
2. Criteria for determining the main types of risk, including those that are difficult to measure. The types of transactions and businesses that are most significant in generating profits and the decisions taken are given to a business decision that has a major impact on the Company's business.

3. The impact of determining the main risk on the Variable Remuneration policy. The determination of the main types of risk will have an impact on the determination of KPIs and have an impact on the provision of variable remuneration.

4. Changes in the determination of the main risk types compared to last year.
   There has been no change compared to last year.

Performance Measurement Associated With Remuneration

   a. The work performance of each individual.
   b. Company's financial performance.
   c. Industry benchmarks.
   d. Risks that may arise in the future causing losses to the Company.
2. Methods in linking individual Remuneration with Company performance, work unit performance and individual performance

   The Company's performance will affect the determination of remuneration, especially those that are variable, as well as individual performance and work unit performance, which is reviewed every 3 (three) months or once a year. The results of the individual and work unit performance assessments become the basis for the company to give appreciation in the form of bonuses, grade promotions/positions, and annual salary increases.
3. A description of the method used by the Bank to state that the agreed performance cannot be achieved so that it is necessary to make adjustments to the remuneration and the amount of remuneration adjustment if such conditions occur

   Performance measurement based on agreed performance at the beginning of the year. The awarding of bonuses is based on individual performance assessments where the determination has been determined based on Decrees and Circulars.

Penyesuaian Remunerasi Dikaitkan Dengan Kinerja dan Risiko

Remunerasi yang bersifat variabel sebagaimana diatur pada POJK Nomor 45/POJK.03/2015 tentang Penerapan Tata Kelola dalam Pemberian Remunerasi bagi Bank Umum, dapat diberikan dalam bentuk Tunai dan/atau Saham. Selain hal tersebut, Perseroan wajib menetapkan pihak yang menjadi *Material Risk Takers (MRT),* sebagaimana yang telah diatur dalam ketentuan internal Perseroan pada Surat Keputusan Direksi Nomor 0380/SK/DIR-CSE/2022 tanggal 22 Juli 2022 tentang Standar Operasional Prosedur Pengelolaan Penghasilan, Tunjangan dan Fasilitas bagi Dewan Komisaris dan Direksi. Selanjutnya kepada pihak yang menjadi MRT, pemberian remunerasi variabelnya wajib ditangguhkan Perseroan sebesar persentase tertentu.

1. Perseroan telah menetapkan yang menjadi MRT adalah seluruh Direksi. Tantiem untuk MRT diberikan dengan proporsi sebagai berikut:
   a. 90% tunai dan diberikan secara langsung;
   b. 10% ditangguhkan sebagai *Long Term Incentive (LTI),* terdiri dari:
      - 5% dalam bentuk tunai; dan
      - 5% dalam bentuk saham.
2. Tantiem bagi Dewan Komisaris diberikan sebagai berikut:
   a. Komisaris Utama Independen dan Komisaris Independen diberikan seluruhnya secara langsung dalam bentuk tunai.
   b. Komisaris diberikan 3% dalam bentuk saham dan sisanya diberikan tunai secara langsung.
3. Penundaan pembayaran remunerasi yang bersifat variabel
   Malus diterapkan terhadap remunerasi yang bersifat variabel yang masih ditangguhkan dengan jangka waktu penangguhan selama 3 (tiga) tahun. Malus terjadi apabila MRT terindikasi melakukan *fraud*.

Kebijakan pembayaran (*vesting*) atas penangguhan yang dilakukan antara lain jangka waktu pembayaran.

Jangka waktu penangguhan yaitu 3 (tiga) tahun sejak pertama kali remunerasi yang bersifat variabel dibayarkan.

Pengungkapan faktor yang menentukan perbedaan remunerasi yang bersifat variabel yang ditangguhkan di antara Pegawai atau Kelompok Pegawai.

Belum ada remunerasi dikaitkan dengan kinerja dan risiko yang diberlakukan untuk pegawai.

Remuneration Adjustment Associated With Performance and Risk

Variable remuneration stipulated in POJK Number 45/POJK.03/2015 concerning the Implementation of Governance in the Provision of Remuneration for Commercial Banks can be given in the form of Cash and/or Share. In addition to this, the Company is obliged to determine the parties who become Material Risk Takers (MRT), as regulated in the Company's internal provisions in the Decree of Board of Directors Number 0380/SK/DIR-CSE/2022 dated July 22, 2022, concerning Standard Operating Procedures for the Management of Income, Allowances and Facilities for the Board of Commissioners and Directors. Furthermore, to the parties who become MRTs, the variable remuneration must be deferred by the Bank by a certain percentage.

1. The Bank has determined that the MRTs are all Directors. Tantiem for MRTs is given in the following proportion:
   a. 90% cash and given directly;
   b. 10% deferred as Long Term Incentive (LTI), consisting of:
      - 5% cash; and
      - 5% share.
2. Tantiem for the Board of Commissioners is given as follows:
   a. Cash is entirely given to Independent President Commissioner and Independent Commissioner.
   b. 3% of shares are given to Commissioners and the rest is given directly in cash.
3. Delay in payment of variable remuneration
   Malus is applied to variable Remuneration which is still suspended with a suspension period of 3 (three) years. Shame occurs when MRT is indicated to be committing fraud.

The payment policy (vesting) for suspensions made includes the term of payment.

The period of suspension is 3 (three) years from the first time that variable remuneration is paid.

Disclosure of factors that determine the difference in deferred variable remuneration between employees or groups of employees.

There is no remuneration associated with performance and risk applied to employees.

Sistem Pengendalian Internal

Sistem Pengendalian Internal (SPI) merupakan suatu mekanisme proses pengawasan yang ditetapkan oleh manajemen Perseroan scara berkesinambungan yang kualitas desain dan pelaksanaannya dipengaruhi oleh Dewan Komisaris, Direksi serta seluruh pejabat dan pegawai Perseroan. SPI dirancang untuk dapat memberikan yang memadai guna menjaga dan mengamankan harta kekayaan Perseroan, menjamin tersedianya laporan yang akurat, meningkatkan kepatuhan terhadap ketentuan yang berlaku, mengurangi dampak kerugian keuangan, penyimpangan termasuk kecurangan (*fraud*) dan pelanggaran aspek kehati-hatian, serta meningkatkan efektivitas organisasi dan meningkatkan efisiensi biaya.

Tujuan Pengendalian

Sistem Pengendalian Internal bank **bjb** mengacu pada SEOJK 35/SEOJK.03/2017 tentang Pedoman Sistem Pengendalian Intern Bagi Bank Umum. Pengendalian intern diselenggarakan secara berkesinambungan (*on going basis*) untuk mencapai 3 (tiga) sasaran, yaitu:

1. Mencapai efektivitas dan efisiensi pada setiap aktivitas yang dijalankan oleh Perseroan, mencakup kinerja operasional dan keuangan, serta menjaga dan mengamankan harta kekayaan Perseroan.
2. Menciptakan laporan finansial dan non-finansial bagi pihak internal dan eksternal yang terpercaya, tepat waktu, dan transparan, serta sesuai dengan regulasi dan standar yang berlaku.
3. Menjaga kepatuhan terhadap hukum dan regulasi dalam seluruh aspek aktivitas Perseroan.

Sistem Pengendalian Internal (SPI) yang efektif merupakan komponen penting dalam manajemen bank **bjb** dan menjadi dasar bagi kegiatan operasional Perseroan yang sehat dan aman. SPI yang efektif dapat membantu Direksi dan Dewan Komisaris menjaga aset bank, menjamin tersedianya pelaporan keuangan dan manajerial yang dapat dipercaya, meningkatkan kepatuhan Perseroan terhadap ketentuan dan peraturan perundang-undangan, serta mengurangi risiko terjadinya kerugian, penyimpangan, dan pelanggaran aspek kehati-hatian.

Sistem Pengendalian Internal Perseroan

Ruang lingkup pengendalian internal bank **bjb** mengacu pada Lampiran Surat Edaran Otoritas Jasa Keuangan No. 35/SEOJK.03/2017 tentang Pedoman Standar Pengendalian Intern Bagi Bank Umum. Komponen utama sistem pengendalian internal adalah sebagai berikut.

Other Services Provided by Accountants

During 2022, there will be no other services provided by accountants.

Internal Control System

An effective internal control system requires the Company to identify and assess risks that may affect the achievement of targets. Risk assessment is carried out by the risk management unit. Internal Audit also provides data related to risk profile adjustments based on the audit findings. The assessment can identify the types of risks faced, determine risk limits and risk control techniques. The risk assessment methodology serves as a benchmark for creating a risk profile in the form of data documentation, which can be updated periodically. Risk assessment also includes an assessment of measurable (quantitative) and non-measurable (qualitative) risks as well as controllable and uncontrollable risks, taking into account costs and benefits. Furthermore, the Company decides to take this risk or not by reducing certain business activities.

Control Objectives

Internal control system of bank **bjb** refers to SEOJK 35/SEOJK.03/2017 about Internal Control System Guidelines for Commercial Banks. Internal control is held continuously (on going basis) to achieve 3 (three) objectives, namely:

1. Achieving effectiveness and efficiency in every activity carried out by the company, covering operational and financial performance, as well as safeguarding and securing the company's wealth.
2. Create financial and non-financial reports for trusted, timely and transparent internal and external parties, and in accordance with applicable regulations and standards.
3. Maintain compliance with laws and regulations in all aspects of the company's activities.

Effective Internal control System (SPI) is an important component in bank **bjb** management and is the basis for the company's healthy and safe operational activities. The effective SPI helps the directors and the Board of Commissioners maintain bank assets, ensuring the availability of trustworthy financial and managerial reporting, improving the bank's compliance with the laws and regulations, and reducing Risk of loss, irregularities, and violations of caution.

Risk Management System

The Bank implemented a risk management system based on 4 (four) pillars as follows:

Active supervision of the Board of Directors and Board of Commissioners

The Board of Directors and Board of Commissioners were responsible for the effectiveness of the Company's Risk Management implementation. For this reason, the Board of Directors and Board of Commissioners had to understand the risks faced by the Bank and provide clear directions, carry out active monitoring and mitigation as well as develop a culture of risk management within the Company's organization. In order to support the implementation of effective Risk Management, the Board of Directors was actively involved in the Risk Management Committee (RMC), Integrated Risk Management Committee (KMRT) and the establishment of Committees within the Board of Commissioners structure such as the Risk Monitoring Committee (KPR), Audit Committee and Governance Committee (summit).

Adequacy of policies, procedures and setting limits as guidelines for the implementation of risk management

In order to control Risk effectively, the Bank's policies and procedures were based on the risk management strategy complemented by risk tolerance and Risk limits. Determination of Risk tolerance and risk limits was carried out by taking into account the level of Risk to be taken and the overall strategy of the Bank. Effective implementation of risk management was

efektif telah didukung dengan kerangka yang mencakup kebijakan dan prosedur manajemen risiko serta limit risiko yang ditetapkan secara jelas sejalan dengan visi, misi, dan strategi bisnis Perseroan. Penyusunan kebijakan dan prosedur manajemen risiko tersebut dilakukan dengan memperhatikan antara lain: jenis, kompleksitas kegiatan usaha, profil risiko, *risk appetite* dan *risk tolerance*, keterkaitan antar risiko, serta peraturan yang ditetapkan otoritas dan/atau praktik perbankan yang sehat. Selain itu, penerapan kebijakan dan prosedur manajemen risiko yang dimiliki Perseroan harus didukung oleh kecukupan permodalan dan kualitas SDM. Hal-hal yang perlu diperhatikan dalam penetapan kerangka manajemen risiko termasuk kebijakan, prosedur dan limit, antara lain:

1. Strategi Manajemen Risiko
   Strategi manajemen risiko merupakan acuan terhadap pendekatan mengenai cara pencapaian tujuan manajemen risiko. Perseroan merumuskan strategi manajemen risiko sesuai strategi bisnis secara keseluruhan dengan memperhatikan *risk appetite*, *risk tolerance* dan *risk limit*. Strategi manajemen risiko disusun untuk memastikan bahwa eksposur risiko Perseroan berada pada atau di bawah tingkat eksposur risiko yang ditetapkan sesuai dengan kebijakan, prosedur internal Perseroan, peraturan perundang-undangan dan ketentuan lain yang berlaku. Strategi manajemen risiko disusun berdasarkan prinsip-prinsip umum berikut:
   a. Strategi manajemen risiko harus berorientasi jangka panjang untuk memastikan kelangsungan usaha Perseroan dengan mempertimbangkan kondisi atau siklus ekonomi;
   b. Strategi manajemen risiko secara komprehensif dapat mengendalikan dan mengelola risiko Perseroan dan Perusahaan Anak; dan
   c. Mencapai kecukupan permodalan yang diharapkan disertai alokasi sumber daya yang memadai.

   Strategi manajemen risiko disusun dengan mempertimbangkan faktor-faktor berikut:
   a. Kondisi ekonomi serta dampaknya pada risiko Perseroan;
   b. Organisasi Perseroan, termasuk kecukupan sumber daya manusia dan infrastruktur pendukung;
   c. Kondisi keuangan Perseroan, organisasi Perseroan, kemampuan untuk menghasilkan laba dan kemampuan mengidentifikasi, memantau, dan mengendalikan risiko yang timbul sebagai akibat perubahan faktor internal dan eksternal;
   d. Diversifikasi portofolio Perseroan.
      Strategi manajemen risiko di *review* secara berkala dan dikomunikasikan secara efektif kepada seluruh jenjang organisasi agar memahami secara jelas pendekatan yang telah ditetapkan serta mematuhi seluruh aspek yang terkait.

2. Tingkat Risiko yang akan diambil (*Risk Appetite*), Toleransi Risiko (*Risk Tolerance*) dan Limit (*Risk Limit*)
   Risk Appetite merupakan tingkat risiko yang bersedia diambil oleh Perseroan dalam rangka mencapai sasaran atau tingkat laba yang diharapkan. *Risk Appetite* tercermin dalam strategi dan

supported by a framework that included risk management policies and procedures as well as Risk limits that were clearly defined in line with the Company's vision, mission and business strategy. The preparation of risk management policies and procedures was carried out by taking into account type, complexity of business activities, risk profile, risk appetite and risk tolerance, interrelationships between risks, as well as regulations stipulated by the authorities and/or sound banking practices. In addition, the implementation of risk management policies and procedures owned by the Bank had to be supported by adequate capital and quality human resources. Things that needed to be considered in determining the Risk Management framework including policies, procedures and limits were:

1. Risk Management Strategy
   The risk management strategy was a reference to the approach regarding how to achieve the objectives of risk management. The Bank formulated a risk management strategy according to the overall business strategy by taking into account risk appetite, risk tolerance and risk limits. The risk management strategy was structured to ensure that the Bank's risk exposure was at or below the risk exposure level set in accordance with the Company's policies, internal procedures, laws and regulations and other applicable provisions. The risk management strategy was prepared based on the following general principles:
   a. The risk management strategy had to be long-term oriented to ensure the continuity of the Company's business by taking into account conditions or economic cycles;
   b. Comprehensive risk management strategy could control and manage the risks of the Company and Subsidiaries; and
   c. Achieve the expected capital adequacy accompanied by adequate allocation of resources.

   The risk management strategy was prepared by considering the following factors:
   a. Economic conditions and their impact on Company risk;
   b. Company organization, including the adequacy of human resources and supporting infrastructure;
   c. The financial condition of the Company, the organization of the Company, the ability to generate profits and the ability to identify, monitor and control risks that arise as a result of changes in internal and external factors;

   d. Company portfolio diversification.
      The risk management Strategy was regularly reviewed and communicated effectively to all levels of the organization in order to clearly understand the established approach and comply with all related aspects.

2. Risk Appetite, Risk Tolerance and Risk Limit

Risk Appetite is the level of risk that is willing to be taken by the Company in order to achieve the target or expected profit level. Risk Appetite is reflected in the Company's

sasaran bisnis Perseroan serta mencerminkan harapan Pemangku Kepentingan. Toleransi Risiko (*risk tolerance*) merupakan tingkat dan jenis Risiko yang secara maksimum ditetapkan oleh Perseroan. *Risk tolerance* merupakan penjabaran dari *risk appetite*. Direksi memberikan arahan yang jelas mengenai *risk appetite*, *risk tolerance* dan *risk limit* Perseroan.

Perseroan telah menetapkan *risk appetitte statement* dan *risk tolerance* terhadap 8 (delapan) risiko melalui SK Direksi nomor 0828/SK/DIR-MRI/2020 tanggal 17 Desember 2020 perihal *Risk Appetitte Statement* dan *Risk Tolerance* PT Bank Pembangunan Daerah Jawa Barat dan Banten, Tbk.

Penetapan *risk appetite*, *risk tolerance* dan *risk limit* harus dapat mengakomodir tujuan seluruh *stakeholder* Perseroan yang meliputi Regulator, Pemegang Saham, Investor, Direksi, Karyawan maupun Nasabah. Adapun tujuan dari *stakeholder* meliputi pemenuhan atas aspek kepatuhan, risiko, permodalan, *return*, maupun pertumbuhan yang berkelanjutan. Mengingat sifatnya yang menyeluruh, maka penetapan dan pengelolaan *risk appetite*, *risk tolerance* dan *risk limit* memerlukan komitmen bersama seluruh lini bank. *Risk appetite*, *risk tolerance* dan *risk limit* yang telah ditetapkan oleh Perseroan bertujuan untuk menunjang pencapaian strategi bisnis Perseroan dengan tingkat risiko yang dapat diterima.

Dalam implementasinya, akan dilakukan pemantauan secara berkala atas tingkat eksposur risiko aktual terhadap posisi pencapaian strategi bisnis bank. Adapun aspek tata kelola (*governance*) terdiri dari tiga aspek, antara lain:

a. *Strategic Level*
   Strategic Level merupakan jenjang kewenangan yang melekat pada Direksi melalui Komite Manajemen Risiko. Direksi berwenang menentukan selera risiko yang diinginkan (*Risk Appetite*) selaras dengan strategi bisnis bank. Di samping itu, Direksi juga berwenang untuk memberikan persetujuan atas besaran nilai *risk tolerance* dan nilai *risk limit* dengan merujuk pada *risk appetite* yang telah ditentukan.
b. *Tactical Level*
   Pengelolaan *risk appetite, risk tolerance* dan *risk limit* pada jenjang *tactical level* merupakan kewenangan Divisi Manajemen Risiko dalam hal mengembangkan metodologi *risk tolerance* untuk setiap jenis risiko secara *bankwide*.
c. *Operational Level*
   Operational level merupakan kewenangan dan dibentuk oleh setiap *risk taking* unit yang perannya adalah dalam menentukan besaran *risk limit* yang dapat diterima dan hasilnya dikoordinasikan dengan Divisi Manajemen Risiko. Besaran *risk limit* yang diusulkan, selanjutnya disampaikan kepada Divisi Manajemen Risiko untuk dilakukan *review* terkait metode perhitungan serta dalam rangka melakukan sinkronisasi dengan hasil perhitungan *risk tolerance* maupun *risk appetite*.

business strategy and objectives and reflects the expectations of Stakeholders. Risk tolerance is the maximum level and type of risk determined by the Company. Risk tolerance is a description of risk appetite. The Board of Directors provided clear directions regarding the Company's risk appetite, risk tolerance and risk limits.

The Bank established a risk appetite statement and risk tolerance for 8 (eight) risks through Directors Decree number 0828/SK/DIR-MRI/2020 dated December 17, 2020 concerning Risk Appetitte Statement and Risk Tolerance of PT Bank Pembangunan Daerah Jawa Barat dan Banten, Tbk.

Determination of risk appetite, risk tolerance and risk limit had to be able to accommodate the objectives of all bank stakeholders which included Regulators, Shareholders, Investors, Directors, Employees and Customers. The objectives of stakeholders included compliance with aspects of compliance, risk, capital, return, and sustainable growth. Given its comprehensive nature, the determination and management of risk appetite, Risk tolerance and risk limit required a joint commitment from all lines of the bank. Risk Appetite, Risk Tolerance and Risk Limits that had been set by the bank aimed to support the achievement of the bank's business strategy with an acceptable level of risk.

In its implementation, regular monitoring was carried out on the level of actual risk exposure to the position of achieving the bank's business strategy. The governance aspect consisted of three aspects, including:

a. Strategic Level
   Strategic Level was a level of authority attached to the Board of Directors through the Risk Management Committee. The Board of Directors had the authority to determine the desired risk appetite (Risk Appetite) in line with the bank's business strategy. In addition, the Board of Directors was also authorized to give approval on the amount of risk tolerance and risk limit values by referring to the predetermined risk appetite.
b. Tactical Level
   Management of risk appetite, risk tolerance and risk limit at the tactical level level was the authority of the Risk Management Division in terms of developing a risk tolerance methodology for each type of risk bankwide.
c. Operational Level
   The operational level was the authority and was formed by each risk taking Unit where its role is in determining the amount of acceptable risk limit and the results were coordinated with the Risk Management Division. The amount of the proposed risk limit was then submitted to the Risk Management Division for review regarding the calculation method and in order to synchronize with the calculation results of risk tolerance and risk appetite.

Kecukupan proses identifikasi, pengukuran, pemantauan dan pengendalian risiko serta sistem informasi manajemen.

Identifikasi, pengukuran, pemantauan dan pengendalian risiko merupakan bagian utama dari proses penerapan manajemen risiko. Identifikasi risiko bersifat proaktif, mencakup seluruh produk dan aktivitas bisnis Perseroan dan dilakukan dalam rangka menganalisis sumber dan kemungkinan timbulnya Risiko serta dampaknya terhadap kelangsungan bisnis Perseroan. Selanjutnya perlu dilakukan pengukuran risiko yang telah diidentifikasi sesuai dengan karakteristik dan kompleksitas kegiatan usaha Perseroan. Atas hasil pengukuran tersebut perlu dilakukan pemantauan yang dilakukan oleh *Risk Taking Unit* (RTU) yang berkoordinasi dengan Satuan Kerja Manajemen Risiko (SKMR) selaku pihak yang independen. Selain itu, guna mendukung efektivitas penerapan manajemen risiko perlu didukung pula oleh pengendalian risiko dan sistem informasi manajemen risiko yang memadai.

Sistem informasi manajemen risiko merupakan bagian dari sistem informasi manajemen yang dimiliki dan dikembangkan sesuai dengan kebutuhan Perseroan, mencakup laporan atau informasi paling sedikit mengenai:

1. Eksposur Risiko;
2. Kepatuhan terhadap kebijakan dan prosedur Manajemen Risiko serta penetapan Limit Risiko; dan
3. Realisasi pelaksanaan Manajemen Risiko dibandingkan dengan target yang ditetapkan.

Sistem informasi manajemen risiko digunakan untuk mendukung pelaksanaan proses identifikasi, pengukuran, pemantauan dan pengendalian risiko sebagai bagian dari proses penerapan manajemen risiko yang efektif. Beberapa hal yang harus diperhatikan agar penerapan sistem informasi manajemen risiko berjalan efektif maka diperlukan kemampuan untuk menghasilkan informasi yang tepat waktu, akurat, konsisten, komprehensif, relevan dan informatif sehingga dapat digunakan oleh Direksi, Dewan Komisaris dan satuan kerja terkait dalam penerapan manajemen risiko untuk menilai, memantau dan memitigasi risiko yang dihadapi Perseroan dalam proses pengambilan keputusan. Selain itu, sistem informasi manajemen risiko harus dapat mendukung pelaksanaan pelaporan kepada regulator.

Sistem pengendalian internal yang menyeluruh.

Proses penerapan manajemen risiko yang efektif harus dilengkapi dengan sistem pengendalian internal yang andal. Penerapan sistem pengendalian internal secara efektif dapat membantu pengurus Perseroan menjaga aset Perseroan, menjamin tersedianya pelaporan keuangan dan manajerial yang dapat dipercaya, meningkatkan kepatuhan Perseroan terhadap ketentuan dan peraturan perundang-undangan serta mengurangi Risiko terjadinya kerugian, penyimpangan dan pelanggaran aspek kehati-hatian. Terselenggaranya sistem pengendalian internal Perseroan yang andal dan efektif menjadi tanggung jawab dari seluruh *Risk Taking Unit* dan satuan kerja pendukung serta Satuan Kerja Audit Internal. Hal-hal yang perlu diperhatikan dalam pelaksanaan sistem pengendalian internal antara lain:

Adequacy of risk identification, measurement, monitoring and control processes as well as management information systems.

Risk identification, measurement, monitoring and control are the main parts of the process of implementing risk management. Risk identification is proactive in nature, covers all products and business activities of the Company and is carried out in order to analyze the sources and likelihood of Risks occurring and their impact on the continuity of the Company's business. Furthermore, it is necessary to measure the risks that have been identified in accordance with the characteristics and complexity of the Company's business activities. The results of these measurements need to be monitored by the Risk Taking Unit (RTU) in coordination with the Risk Management Work Unit (SKMR) as an independent party. In addition, in order to support the effectiveness of the implementation of risk management, it is also necessary to be supported by adequate risk control and risk management information systems.

The risk management information system is part of the management information system owned and developed according to the needs of the Company, including reports or information at least on:

1. Risk Exposures;
2. Compliance with Risk Management policies and procedures, as well as the determination of Risk Limits; and
3. Realization of the Risk Management implementation in comparison with the set target.

The risk management Information system is used to assist in the process of identifying, measuring, monitoring, and controlling risks as part of the implementation of effective risk management, which requires the ability to produce timely, accurate, consistent, comprehensive, relevant, and useful information. It can be used afterward by the Board of Directors, Board of Commissioners, and related work units in carrying out risk management to assess, monitor, and mitigate the risks faced by the Bank in the decision-making process. In addition, the risk management Information system must be able to support the implementation of reporting to regulators.

Comprehensive internal control system.

The implementation of effective risk management must be supported by a reliable internal control system. An effective internal control system can facilitate the Company's management to safeguard the Company's assets, ensure the availability of reliable financial and managerial reporting, improve the Bank's compliance with laws and regulations, and reduce the risk of losses, irregularities, and violations of prudential aspects. The implementation of a reliable and effective Bank internal control system is the responsibility of all Risk Taking Units, and supporting work units, including the Internal Audit Work Unit. The aspects to consider in the implementation of the internal control system are:

1. Pelaksanaan sistem pengendalian internal secara efektif dalam penerapan Manajemen Risiko mengacu pada kebijakan dan prosedur yang telah ditetapkan;
2. Pelaksanaan sistem pengendalian internal dilakukan secara efektif terhadap pelaksanaan kegiatan usaha dan operasional pada seluruh jenjang organisasi Bank, paling sedikit mampu secara tepat waktu mendeteksi kelemahan dan penyimpangan yang terjadi serta wajib memastikan:
   a. Kepatuhan terhadap peraturan dan perundang-undangan serta kebijakan atau ketentuan internal Bank;
   b. Tersedianya informasi keuangan dan manajemen yang lengkap, akurat, tepat guna, dan tepat waktu;
   c. Efektivitas dan efisiensi dalam kegiatan operasional; dan
   d. Efektivitas budaya Risiko (*risk culture*) pada organisasi Perseroan secara menyeluruh.
3. Sistem pengendalian internal dalam penerapan Manajemen Risiko paling sedikit mencakup:
   a. Kesesuaian antara sistem pengendalian internal dengan jenis dan tingkat Risiko yang melekat pada kegiatan usaha Bank;
   b. Penetapan wewenang dan tanggung jawab untuk pemantauan kepatuhan kebijakan dan prosedur Manajemen Risiko serta penetapan Limit Risiko;
   c. Penetapan jalur pelaporan dan pemisahan fungsi yang jelas dari *Risk Taking Unit* kepada satuan kerja yang melaksanakan fungsi pengendalian;
   d. Struktur organisasi yang menggambarkan secara jelas tugas dan tanggung jawab masing-masing unit dan individu;
   e. Pelaporan keuangan dan kegiatan operasional yang akurat dan tepat waktu;
   f. Kecukupan prosedur untuk memastikan kepatuhan Perseroan terhadap ketentuan dan peraturan perundang-undangan;
   g. Kaji ulang yang efektif, independen dan obyektif terhadap kebijakan, kerangka dan prosedur operasional Bank;
   h. Pengujian dan kaji ulang yang memadai terhadap sistem informasi manajemen;
   i. Dokumentasi secara lengkap dan memadai terhadap cakupan, prosedur operasional, temuan audit serta tanggapan pengurus Bank berdasarkan hasil audit; dan
   j. Verifikasi dan kaji ulang secara berkala dan berkesinambungan terhadap penanganan kelemahan Bank yang bersifat material dan tindakan pengurus Bank untuk memperbaiki penyimpangan yang terjadi.
4. Pelaksanaan kaji ulang terhadap penerapan Manajemen Risiko paling sedikit sebagai berikut:
   a. Kaji ulang dan Evaluasi dilakukan secara berkala, paling sedikit setiap tahun oleh Satuan Kerja Manajemen Risiko dan Satuan Kerja Audit Internal;
   b. Cakupan kaji ulang dan Evaluasi dapat ditingkatkan frekuensi atau intensitasnya, berdasarkan perkembangan Eksposur Risiko Bank, perubahan pasar, metode pengukuran dan pengelolaan risiko;
   c. Khusus untuk kaji ulang dan Evaluasi terhadap pengukuran Risiko oleh Satuan Kerja Manajemen Risiko, paling sedikit mencakup:

1. Effective implementation of the internal control system in the implementation of Risk Management refers to the established policies and procedures;
2. The internal control system is performed effectively in carrying out business and operational activities at all levels of the Bank's organization and at least able to timely detect weaknesses and irregularities that occur and must ensure:
   a. Compliance with laws and regulations as well as the Bank's internal policies or provisions;
   b. The availability of complete, accurate, appropriate, and timely financial and management information;
   c. Effectiveness and efficiency in operational activities; and
   d. Effectiveness of risk culture in the Bank's organization as a whole.
3. The internal control system in the implementation of Risk Management at least includes:
   a. The conformity between the internal control system and the type and level of risk inherent in the Bank's business activities;
   b. The determination of authority and responsibility for monitoring compliance with Risk Management policies and procedures and the establishment of Risk Limits;
   c. The establishment of reporting lines and clear separation of functions from the Risk Taking Unit to the work unit carrying out the control function;
   d. A clear description of an organizational structure on the duties and responsibilities of each unit and individual;
   e. Accurate and timely reporting of financial and operational activities;
   f. Sufficient procedures to ensure the Bank's compliance with laws and regulations;
   g. Effective, independent, and objective review of the Bank's operational policies, frameworks, and procedures;
   h. Adequate testing and review of management information systems;
   i. Complete and adequate documentation of the scope, operational procedures, audit findings, and responses of the Bank's management based on the audit results; and
   j. Regular and continuous verification and review of the handling of material weaknesses of the Bank and the actions of the Bank's management to resolve irregularities that occur.
4. The implementation of a Risk Management review at least includes:
   a. Reviews and evaluations are conducted regularly, at least once a year by the Risk Management Work Unit and Internal Audit Work Unit;
   b. The frequency or intensity of the scope of reviews and evaluations may be increased based on the development of the Bank's Risk Exposures, market changes, measurement methods, and risk management;
   c. Particularly for the review and evaluation of risk measurement by the Risk Management Work Unit, it should at least include:

1) Kesesuaian kerangka manajemen risiko yang meliputi kebijakan, struktur organisasi, alokasi sumber daya, desain proses Manajemen Risiko, sistem informasi dan pelaporan Risiko Bank dengan kebutuhan bisnis Bank, serta perkembangan peraturan dan *best practice* terkait Manajemen Risiko;

2) Metode, asumsi dan variabel yang digunakan untuk mengukur Risiko dan menetapkan Limit Eksposur Risiko;
3) Perbandingan antara hasil dari metode pengukuran Risiko yang menggunakan simulasi atau proyeksi pada masa datang dengan hasil aktual;
4) Perbandingan antara asumsi yang digunakan dalam metode dimaksud dengan kondisi yang sebenarnya atau aktual;
5) Perbandingan antara Limit yang ditetapkan dengan eksposur yang sebenarnya atau aktual; dan
6) Penentuan kesesuaian antara pengukuran dan Limit Eksposur Risiko dengan kinerja pada masa lalu dan posisi permodalan Bank saat ini.

5. Pelaksanaan kaji ulang oleh pihak independen yang ditunjuk oleh Perseroan atau Satuan Kerja Audit Internal Bank antara lain mencakup:
   a. Keandalan kerangka Manajemen Risiko yang mencakup kebijakan, struktur organisasi, alokasi sumber daya, desain proses Manajemen Risiko, sistem informasi dan pelaporan Risiko Bank; dan
   b. Penerapan Manajemen Risiko oleh unit bisnis atau aktivitas pendukung, termasuk kaji ulang terhadap pelaksanaan pemantauan oleh Satuan Kerja Manajemen Risiko.
6. Penyampaian hasil penilaian kaji ulang Satuan Kerja Manajemen Risiko kepada Dewan Komisaris, Satuan Kerja Audit Internal, Direktur yang membawahkan fungsi Kepatuhan dan Direksi terkait lainnya sebagai masukan dalam rangka penyempurnaan kerangka dan proses Manajemen Risiko;
7. Pemantauan oleh Satuan Kerja Audit Internal terhadap perbaikan atas hasil temuan audit internal maupun eksternal. Temuan audit yang belum ditindaklanjuti harus diinformasikan oleh Satuan Kerja Audit Internal kepada Direksi untuk diambil langkah-langkah yang diperlukan; dan
8. Tingkat responsif Perseroan terhadap kelemahan dan/atau penyimpangan yang terjadi terhadap ketentuan internal dan eksternal yang berlaku.

Profil Risiko dan Pengelolaannya

Terdapat 8 (delapan) jenis risiko yang dihadapi Perseroan dan harus dikelola dengan baik. Kedelapan jenis risiko tersebut disebut *inheren risk* yang meliputi: risiko kredit, risiko likuiditas, risiko pasar, risiko operasional, risiko stratejik, risiko kepatuhan, risiko hukum dan risiko reputasi. Adapun penjelasan mengenai risiko-risiko tersebut dan upaya pengelolaannya adalah sebagai berikut:

1) The suitability of the Risk Management framework that includes policies, organizational structure, resource allocation, Risk Management process design, information systems, and reporting of the Bank's Risk with the Bank's business needs, as well as the development of regulations and best practices related to Risk Management;
2) Methods, assumptions, and variables currently in place to measure Risk and establish the Risk Exposure Limits;
3) Comparison between the results of Risk measurement methods using simulations or future projections and the actual results;
4) Comparison between the assumptions used in the method and the actual conditions;

5) Comparison between the set limits and the actual exposures; and
6) Determination of the appropriateness of the measurement and the Risk Exposure Limits with the Bank's past performance and the Bank's current capital position.

5. The implementation of a review by an independent party appointed by the Bank or the Bank's Internal Audit Unit includes:
   a. The reliability of the Risk Management framework that includes policies, organizational structure, resource allocation, Risk Management process design, information systems, and reporting of the Bank's risk; and
   b. The implementation of Risk Management by business units or supporting activities, including a review of the implementation of monitoring by the Risk Management Work Unit.
6. Submission of the Risk Management Working Unit review assessment results to the Board of Commissioners, Internal Audit Working Unit, Director in charge of the Compliance function, and other relevant Directors as input to improve the Risk Management framework and process;
7. Monitoring the improvement of internal and external audit findings by the Internal Audit Working Unit. Audit findings that have not been followed up must be informed by the Internal Audit Working Unit to the Board of Directors so that necessary steps can be taken; and
8. The Bank's level of responsiveness to weaknesses and/or irregularities that occur against applicable internal and external regulations.

Risk Profile and Management

There are 8 (eight) types of risks faced by the Company and must be managed properly. These eight types of risks are called inherently risk which include credit risk, liquidity risk, market risk, operational risk, strategic risk, compliance risk, legal risk and reputational risk. The explanations of these risks and management efforts are as follows:

1. Risiko Kredit

Terkait proses identifikasi, pengukuran, pemantauan, dan pengendalian risiko kredit, bank **bjb** telah melakukan hal-hal sebagai berikut:

a. Bank secara berkala melakukan analisis menyeluruh atas aspek internal dan eksternal bank melalui *Root Cause of Credit Risk* (RCCR) yang berisi analisis penyebab penurunan kolektibilitas debitur yang berdampak pada timbulnya *Non Performing Loan* (NPL).

b. Bank melakukan perhitungan *Stress Test* Risiko Kredit yang disampaikan kepada Direksi dan Dewan Komisaris. Pelaksanaan *stress test* dilakukan dengan pendekatan portfolio level dan bertujuan untuk menghitung pengaruh kondisi *shock* makro ekonomi terhadap peningkatan NPL secara *bankwide*. Pelaksanaan perhitungan menggunakan *satellite model* yang meliputi baik kredit produktif maupun kredit non-produktif pada seluruh sektor ekonomi. *Satellite model* tersebut merupakan perhitungan regresi *multiple* yang menghubungkan kondisi makro ekonomi sebagai *independent variable* dan NPL sebagai *dependent variable*.

c. Selanjutnya secara berkala disusun laporan perkembangan eksposur risiko kredit yang disusun dalam rangka mitigasi risiko dan sebagai upaya perbaikan segera sesuai perkembangan tingkat risiko. Pemantauan atas kualitas portofolio kredit yang dilaporkan secara berkala kepada Direksi melalui hal-hal sebagai berikut:

   1) *Review* dan evaluasi berkala melalui pelaksanaan *business review* termasuk di antaranya pembahasan mengenai posisi serta kualitas portofolio kredit.

   2) Kaji ulang atas potensi risiko dalam aktivitas perkreditan yang dilaporkan secara independen oleh Satuan Kerja Manajemen Risiko.

2. Risiko Pasar

Adapun upaya pengelolaan Risiko Pasar yang telah dilakukan bank **bjb** adalah sebagai berikut:

a. Bank telah memiliki prosedur dan identifikasi risiko suku bunga *banking book* yang didukung oleh sistem informasi yang sangat memadai dan adanya pelaporan secara harian mengenai pergerakan nilai tukar, suku bunga, dan informasi pasar lainnya ke Direksi termasuk *over limit* (pelampauan limit).

b. Bank telah memiliki *risk appetite, risk tolerance* dan risk *limit* untuk parameter risiko pasar yang ditetapkan oleh Dewan Komisaris dan Direksi.

c. Bank melakukan proses *review* atau validasi model pengukuran risiko pasar yang dilakukan secara berkala melalui *back testing* dimana model pengukurannya masih valid sesuai hasil *back testing*. Adapun mengenai validasi dan *back testing* tersebut disusun dalam bentuk laporan VaR (*Value at Risk*) dan validasi model.

d. Bank memiliki prosedur pemantauan limit secara harian sebagai standardisasi pemantauan Divisi Manajemen Risiko terhadap aktivitas *Dealing Room Treasury* termasuk tindak lanjut yang akan dilakukan oleh *risk taking unit* apabila terjadi pelampauan dan dilaporkan kepada Direksi.

1. Credit Risk

Regarding the process of identifying, measuring, monitoring, and controlling credit risk, bank **bjb** has carried out the following:

a. The bank periodically conducts a thorough analysis of internal and external aspects of the bank through the Root Cause of Credit Risk (RCCR) which contains the analysis of the cause of the borrower's collectibility decrease in the occurrence of Non Performing Loan (NPL).

b. The Bank calculates the Credit Risk Stress Test which is submitted to the Directors and the Board of Commissioners. The implementation of stress tests is carried out using a portfolio level approach and aims to calculate the effect of macroeconomic shock conditions on bank-wide NPL increases. The calculation uses a satellite model covering both productive and non-productive loans in all economic sectors. The satellite model is a multiple regression calculation that connects macroeconomic conditions as the independent variable and NPL as the dependent variable.

c. Further compiled reports on the progress of credit risk exposure that are arranged in order to mitigate risk and as an effort to repair immediately according to the development of risk level. Monitoring of the quality of credit portfolio reported periodically to the directors through the following matters:

   1) Periodic Review and evaluation through the implementation of the business Review including the discussion on the position and quality of the credit portfolio.

   2) Review of the potential risks in the crediting activity that is reported independently by the risk management Unit.

2. Market Risk

The Market Risk management efforts that have been carried out by bank **bjb** are as follows:

a. The Bank has had procedures and identification of interest rate banking book which is supported by a very adequate information system and the daily reporting of exchange rate movements, interest rates, and other market information to the Directors including over limit.

b. The Bank has had risk appetite, risk tolerance and risk limit for the market risk parameters established by the Board of Commissioners and Directors.

c. The Bank performs a review or validation of the market risk measurement model conducted periodically through the back testing with the size of the model is still valid according to the results of back testing. As for the validation and back testing is compiled in the form of VaR (Value at Risk) and model validation.

d. The Bank has daily limit monitoring procedures as a standardized monitoring of the risk management division of the Dealing Room Treasury activities including followup to the risk taking unit in the event of a disappearance and reported to the directors.

e. Bank melakukan pengendalian risiko pasar melalui *monitoring* terhadap kontrak transaksi dan penilaian kembali kredibilitas *counterparty* secara harian dan dipantau oleh *dedicated person* yang berpengalaman kemudian dalam penetapan *limit counterparty* dilakukan oleh unit kerja lain yang independen dari unit kerja bisnis sehingga proses penetapan limitnya melibatkan *four eyes principle*.
f. Sebagai upaya meningkatkan informasi atas eksposur risiko pasar yang dihadapi bank, unit kerja terkait telah melaporkan eksposur risiko pasar baik secara harian (utilisasi *treasury*), mingguan (*treasury utilization report*), bulanan (analisis pengukuran risiko pasar dan likuiditas), semesteran (*market risk stress test*), kepada Direksi dan pejabat eksekutif sehingga diharapkan adanya tindak lanjut perbaikan dan proses mitigasi untuk meminimalisir potensi risiko yang akan datang.
g. Bank telah memiliki Komite ALCO sebagai perangkat organisasi dalam mendukung manajemen risiko pasar yang efektif.
h. Dalam proses pengukuran, pemantauan yang dilakukan satuan kerja manajemen risiko melalui pelaporan atas aktivitas unit kerja *treasury* masih dilakukan secara manual dan belum tersistem namun demikian mempertimbangkan eksposur transaksi bank yang belum kompleks, potensi risiko yang dihadapi bank masih dapat termitigasi dengan baik.
i. Terdapat proses *mark to market* secara harian bagi istrumen yang aktif serta pengembangan model bagi instrumen yang kurang aktif dan tidak aktif di pasar dengan menggunakan *mark to model* terhadap transaksi trading bank untuk mengetahui kerugian/keuntungan bank dan bank pun memiliki metode dalam proses *mark to market*-nya termasuk perhitungan valuasi model internal serta prosedur *contingency plan* dalam proses *mark to market*-nya apabila terjadi kondisi di luar normal yang dilakukan oleh unit kerja terkait.

3. Rasio Likuiditas

Adapun upaya pengelolaan Risiko Likuiditas yang telah dilakukan bank **bjb** adalah sebagai berikut:

a. Bank melakukan analisis terhadap seluruh sumber risiko likuiditas baik dari sisi internal maupun eksternal seperti produk dan aktivitas perbankan yang mempengaruhi sumber penggunaan dana secara komprehensif, kecukupan pendanaan melalui pasar, serta analisis risiko didukung dengan sistem informasi dan kecukupan data yang memadai.
b. Bank telah memiliki *risk appetite, risk tolerance,* dan *risk limit* untuk parameter risiko pasar yang ditetapkan oleh Dewan Komisaris dan Direksi.
c. Bank telah memiliki alat pengukuran yang dapat mengkuantifikasi dan mengidentifikasi risiko likuiditas secara tepat waktu dan komprehensif berdasarkan indikator internal dan eksternal dalam *early warning indicator* berupa pengukuran untuk mengukur risiko inheren mengenai komposisi pendanaan, rasio likuiditas, proyeksi arus kas, *liquidity gap, scenario analysis,* dan *stress testing*.

e. The Bank conducts the control of market risk through monitoring of transaction contracts and revaluation of counterparty credibility on a daily basis and monitored by experienced dedicated person later in the determination of counterparty limit Other work units that are independent of the business work unit so that the limitation of the determination process involves 4 (four) Eyes principle utilization).
f. As an effort to increase information on exposure market risks faced by banks, related work units have report good market risk exposure on a daily basis (treasury utilization report), weekly (treasury utilization report), monthly (market and liquidity risk measurement analysis), semiannually (market risk stress test), to the Board of Directors and executive officials so that action is expected continue the improvement and mitigation processes to minimize future potential risks.
g. The Bank has had the ALCO committee as an organizational device in support of effective market risk management.
h. In the process of measuring, monitoring conducted by the Risk Management unit through reporting on the activity of Trisuri work units is still done manually and not yet been installed but consider the exposure of uncomplicated bank transactions, the potential risk faced by banks can still be mitigated properly.
i. There is a daily mark to market process of bank trading transactions to determine the loss/ profit of banks and banks also have methods in its mark to market process including the calculation of internal model valuation and contingency plan procedures in its mark to market process in case of normal outside conditions carried out by the working unit.

3. Liquidity Risk

The Liquidity Risk management efforts that have been carried out by bank **bjb** are as follows:

a. The Bank conducts analysis of all sources of liquidity risk both from internal and external side such as products and banking activities that affect the source of the comprehensiveuse of funds, adequacy of funding through the market, and others and risk analysis is supported by adequate information systems and adequacy of data.
b. The Bank has had risk appetite, risk tolerance and risk limit for the market risk parameters established by the Board of Commissioners and Directors.
c. The Bank has a measurement tool that can quantify and identify the liquidity risk in a timely and comprehensive manner based on internal and external indicators in the form of an early warning indicator measurement to measure the risk is inherently aboutfunding composition, liquidity ratio, cash flow projection, liquidity gap, scenario analysis, and stress testing.

d. Bank telah mengembangkan *Early Warning Indicator* risiko likuiditas yang merupakan indikator yang digunakan untuk memprediksi potensi krisis likuiditas di masa datang sebagai bentuk identifikasi, pengukuran, dan pemantauan risiko likuiditas secara harian yang bertujuan untuk memitigasi sejak dini apabila ada potensi krisis likuiditas di kemudian hari.

e. Bank melakukan pemantauan limit secara harian seperti limit (AL+NAB)/NCD, Ekses Likuiditas, LDR, Pinjaman *Overnight,* Ekses *Reserve* GWM Primer, Ekses *Reserve* GWM Sekunder, excess reserve GWM Primer, PLM, ETFR (*Excess to Total Funding Ratio*), LCR dan (AL+NAB)/NCD terhadap *threshold* yang telah ditetapkan oleh regulator termasuk tindak lanjut yang akan dilakukan oleh *risk taking unit* apabila terjadi pelampauan dan dilaporkan kepada Direksi.

f. Bank telah memiliki prosedur dalam hal rencana pendanaan darurat ketika bank menghadapi kondisi krisis likuiditas (*Contingency Funding Plan*/CFP) serta bank telah melakukan skenario uji coba CFP-*Framework* apabila terjadi krisis likuiditas dikemudian hari.

g. Bank telah melakukan perhitungan Basel III terkait risiko likuiditas yaitu perhitungan *Net Stable Funding Ratio* (NSFR) dan *Liquidity Coverage Ratio* (LCR).

4. Risiko Operasional

Adapun upaya pengelolaan risiko operasional yang telah dilakukan bank **bjb** adalah sebagai berikut:

a. Bank melakukan proses pengukuran risiko operasional dilakukan secara berkala melalui perangkat pengukuran risiko operasional di antaranya *risk control self assessment, key risk indicator*, laporan data kerugian risiko operasional pada masing-masing unit kerja serta pengukuran profil risiko operasional *bankwide* yang dilakukan secara periodik. Adapun hasil analisis atas penilaian risiko operasional tersebut dilaporkan kepada pihak manajemen yang dilakukan secara berkala seperti pelaporan *monthly report*.

b. *Risk taking unit* senantiasa melakukan *risk assessment* atas pengembangan produk dan aktivitas Baru dalam rangka melakukan penerapan manajemen risiko di dalamnya.

c. Bank berupaya untuk melakukan penyempurnaan *bussiness process* terutama untuk aktivitas perkreditan. Hal tersebut terlihat dari penerapan model bisnis dengan melibatkan beberapa fungsi seperti *Relationship Manager, Relationship Officer* dan *Account Officer* dan telah diakomodir dalam Struktur Organisasi serta terdapat beberapa *review* atas prosedur kerja serta penggunaan sistem dalam rangka mendukung proses manajemen risiko yang handal.

d. Bank senantiasa melakukan peningkatan kualitas SDM khususnya pada aktivitas bisnis utama bank yaitu perkreditan dengan memberikan pendidikan dan pelatihan kepada pegawai.

e. Dalam menjaga kepentingan bank dan penegakan disiplin, Bank telah melaksanakan pedoman sanksi disiplin dengan cukup efektif termasuk dalam pengenaan sistem sanksi kepegawaian.

d. Bank has developed an Early Warning Indicator liquidity risk which is an indicator used to predict potential future liquidity crisis as a form of identification, measurement, and monitoring of liquidity risk on a daily basis that aims to mitigate early when there is potential liquidity crisis in the future.

e. The Bank monitors limits on a daily basis such as (AL+NAB)/NCD limits, Excess Liquidity, LDR, Overnight Loans, Excess Primary Statutory Reserve Requirement, Excess Secondary Statutory Reserve Requirement, excess Primary Statutory Reserve Requirement, PLM, ETFR (Excess to Total Funding Ratio), LCR and (AL+NAB)/NCD against the threshold set by the regulator including the follow-up that will be carried out by the risk taking unit in the event of an excess and reported to the Board of Directors.

f. The bank has had procedures in regards to emergency financing plans when the bank faces the liquidity crisis (contingency funding plan) as well as the bank has conducted a CFPframework test scenario in case of the later liquidity crisis.

g. Bank has done the calculation of Basel III related to liquidity risk, namely the calculation of Net Stable Funding Ratio (NSFR) and Liquidity Coverage Ratio (LCR).

4. Operational Risk

The Operational Risk management efforts that have been carried out by bank **bjb** are as follows:

a. The Bank performed the process of measuring operational risk carried out periodically through operational risk measurement tools including risk control self-assessments, key risk indicators, operational risk loss data reports for each work unit as well as periodic bankwide operational risk profile measurements. The results of the analysis on the operational risk assessment were reported to management carried out periodically, such as a monthly report.

b. The risk taking unit always carried out a risk assessment on the development of new products and activities in order to implement risk management in it.

c. The Bank strived to make improvements to the business process, especially for lending activities. This could be seen from the application of a business model that involved several functions such as Relationship Managers, Relationship Officers and Account Officers and had been accommodated in the Organizational Structure and there were several reviews of work procedures and use of systems in order to support a reliable risk management process.

d. The Bank continued to improve the quality of human resources, especially in the main business activity of the bank, namely credit by providing education and training to employees.

e. In safeguarding the interests of the bank and enforcing discipline, the Bank implemented guidelines for disciplinary sanctions quite effectively including the imposition of a system of employment sanctions.

5. Risiko Hukum

Bank melalui Divisi Hukum senantiasa melakukan penanganan atas kasus yang terjadi, baik yang dilakukan oleh bank secara langsung maupun menggunakan jasa konsultan hukum atas permintaan *risk taking unit*. Upaya yang dilakukan Perseroan dalam mengelola risiko hukum yaitu:

a. Divisi hukum melakukan pembinaan dalam bidang hukum secara berkala melalui proses pendampingan perkara hukum, *legal session* kepada *risk taking unit* dengan pembahasan permasalahan-permasalahan hukum yang dihadapi pada kantor cabang, serta melaksanakan *review* terhadap perjanjian-perjanjian kerjasama yang akan dilaksanakan guna melindungi kepentingan bank. Namun masih terdapat kelemahan terkait proses *review* perjanjian yang hanya berdasarkan atas permintaaan dari *risk taking unit*.
b. Bank melakukan identifikasi dan pengendalian risiko hukum terhadap produk dan aktivitas baru melalui pengkajian terkait aspek hukum serta menyampaikan informasi dan pelaporan yang berkaitan dengan mitigasi risiko hukum kepada Direksi yang membidangi unit kerja hukum.
c. Terkait dengan pelaksanaan sistem informasi manajemen risiko hukum telah dilaksanakan dengan baik salah satunya adanya laporan secara berkala terkait dengan pemantauan dan pencatatan atas pelaksanaan pendampingan perkara hukum serta penanganan hukum, *update* perkara hukum yang ditangani oleh Divisi Hukum serta laporan setiap triwulan disajikan dalam bentuk profil risiko hukum.

6. Risiko Stratejik

Pengelolaan risiko stratejik yang dilakukan Perseroan adalah sebagai berikut:

a. Bank secara berkala melakukan pengukuran risiko stratejik melalui pemantauan atas *progress report* pencapaian rencana bisnis bank serta melakukan *business review* atas perkembangan bisnis bank.
b. Pencapaian atas bisnis bank tersebut dibahas dan dilaporkan kepada pihak manajemen yang dilakukan secara berkala termasuk kepada komite yang berada di bawah Dewan Komisaris.
c. Bank senantiasa melakukan *monitoring* atas kinerja kantor cabang.
d. Bank melakukan beberapa upaya dan strategi yaitu optimalisasi dalam upaya penyelesaian kredit bermasalah dengan melakukan penagihan, klaim asuransi dan eksekusi agunan, melakukan peningkatan dana CASA.

Tinjauan Atas Efektivitas Sistem Manajemen Risiko

Sistem pengukuran risiko yang dipergunakan untuk mengukur eksposur risiko Bank sebagai pedoman untuk melakukan pengendalian dan dilakukan secara berkala. Sistem tersebut paling kurang harus dapat mengukur:

1. Sensitivitas produk/aktivitas terhadap perubahan faktor-faktor yang mempengaruhinya, bank dalam keadaan normal maupun tidak normal.
2. Kecenderungan perubahan faktor-faktor dimaksud berdasarkan fluktuasi yang terjadi dimasa lalu dan korelasinya.
3. Faktor risiko (*Risk Factor*) secara individual.
4. Eksposur risiko secara keseluruhan (*aggregate*) maupun per risiko, dengan mempertimbangkan keterkaitan antar risiko.
5. Seluruh risiko yang melekat pada seluruh transaksi serta produk perbankan, termasuk produk dan aktivitas baru, dan dapat diintegrasikan dalam sistem informasi manajemen Bank.

Metode pengukuran dapat dilakukan secara kuantitatif dan/atau kualitatif. Metode pengukuran tersebut dapat berupa metode yang ditetapkan oleh Bank Indonesia dan Otoritas Jasa Keuangan dalam rangka penilaian risiko dan perhitungan modal (baik berupa metode standar atau metode internal yang dikembangkan sendiri oleh Bank). Dalam rangka mengatasi kelemahan yang dapat timbul

Review of The Effectiveness of The Risk Management System

The risk measurement system used to measure the Bank's risk exposure serves as a guideline for conducting control and is carried out periodically. The system must at least be able to measure:

1. Product/activity sensitivity to changes in the factors that influence it, the bank is in normal or abnormal circumstances.
2. The trend of changes in these factors is based on fluctuations that occurred in the past and their correlations.
3. Risk factors individually.
4. Overall risk exposure (aggregate) as well as per risk, taking into account the interrelationships between risks.
5. All risks inherent in all banking transactions and products, including new products and activities, and can be integrated into the Bank's management information system.

Measurement methods can be carried out quantitatively and/or qualitatively. The measurement method may be in the form of a method stipulated by Bank Indonesia and the Financial Services Authority for risk assessment and capital calculation (either in the form of a standard method or an internal method developed by the Bank). In order to overcome the weaknesses that may arise

atas penggunaan model pengukuran risiko tertentu maka Bank harus melakukan validasi model tersebut. Sistem pengukuran risiko dievaluasi dan disempurnakan secara berkala atau sewaktu-waktu apabila diperlukan untuk memastikan kesesuaian asuransi, akurasi, kewajaran, dan integritas data, serta prosedur yang digunakan untuk mengukur risiko. Dalam melakukan evaluasi atas efektivitas sistem manajemen risiko Perseroan maka satuan kerja manajemen risiko melakukan program pemantauan sebagai berikut:

1. Perseroan memiliki sistem dan prosedur pemantauan antara lain mencakup pemantauan terhadap besarnya eksposur risiko, kepatuhan limit internal dan hasil *stress testing* maupun konsistensi dengan kebijakan dan prosedur yang ditetapkan.
2. Pemantauan dilakukan baik oleh unit pelaksana (*risk taking unit*) maupun oleh Satuan Kerja Manajemen Risiko Hasil pemantauan disajikan dalam laporan berkala yang disampaikan kepada manajemen dalam rangka mitigasi risiko dan tindakan yang diperlukan.
3. Perseroan menyiapkan suatu sistem *back up* dan prosedur yang efektif untuk mencegah terjadinya gangguan (*disruptions*) dalam proses pemantauan risiko, dan melakukan pengecekan serta penilaian kembali secara berkala terhadap sistem *back up* tersebut.

Berdasarkan evaluasi atas efektivitas yang telah dilakukan selama tahun 2022, menunjukkan bahwa sistem manajemen risiko pada bank **bjb** telah memadai.

Pernyataan Direksi dan Dewan Komisaris Atas Kecukupan Sistem Manajemen Risiko

Direksi dan Dewan Komisaris melalui Komite Pemantau Risiko menilai bahwa kecukupan manajemen risiko telah berjalan memadai yang tercermin hasil *review* atas kelengkapan dan keakuratan identifikasi, pengukuran, pemantauan, pengendalian dan pelaporan risiko, serta atas kecukupan skenario mitigasi yang diusulkan oleh unit kerja operasional telah memadai.

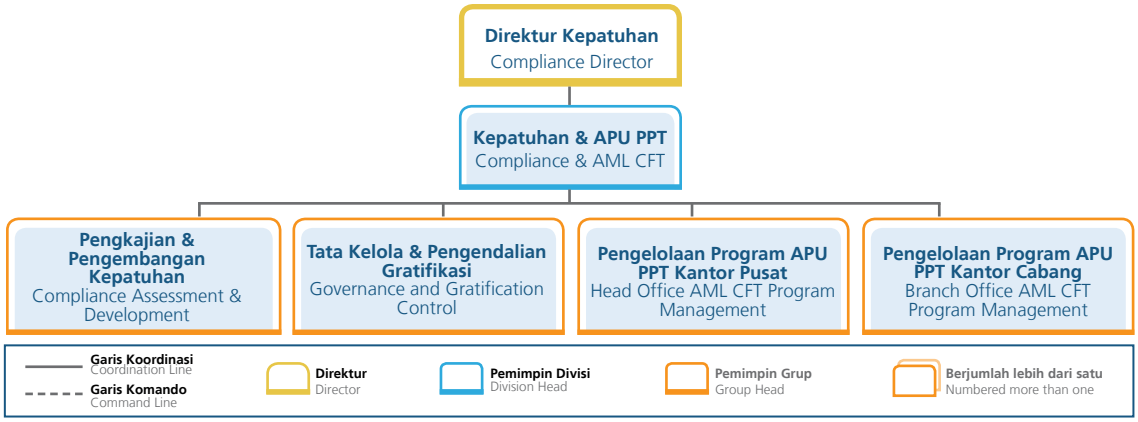
Struktur Organisasi Divisi Kepatuhan dan APU PPT

from the use of certain risk measurement models, the Bank must validate the model. The risk measurement system is evaluated and refined periodically or at any time if necessary to ensure the suitability of insurance, accuracy, fairness and data integrity, as well as the procedures used to measure risk. In evaluating the effectiveness of the Company's risk management system, the risk management work unit carries out the monitoring program as follows:

1. The Company has monitoring systems and procedures which include monitoring the magnitude of risk exposure, compliance with internal limits and the results of stress testing as well as consistency with established policies and procedures.
2. Monitoring is carried out both by the implementing unit (risk taking unit) and by the Risk Management Work Unit. Monitoring results are presented in periodic reports submitted to management in the context of risk mitigation and necessary actions.
3. The Company prepares an effective back-up system and procedures to prevent disruptions in the risk monitoring process, and periodically checks and reassesses the back-up system.

.

Based on the evaluation of the effectiveness that has been carried out during 2022, it shows that the risk management system at bank **bjb** was adequate.



Statements of The Directors and The Board of Commissioners on The Adequacy of The Risk Management System

Kode Etik

Kode etik adalah suatu sistem norma, nilai dan juga aturan profesional tertulis yang secara tegas menyatakan perbuatan apa saja yang benar atau salah, perbuatan apa yang harus dilakukan dan perbuatan apa yang harus dihindari. Secara singkatnya definisi kode etik yaitu suatu pola aturan, tata cara, tanda, pedoman etis ketika melakukan suatu kegiatan atau suatu pekerjaan. bank **bjb** memandang penting dan memberikan perhatian yang khusus terhadap penerapan kode etik. Oleh sebab itu bank **bjb** telah menetapkan *Code of Conduct* yang menjadi pedoman insan bank dalam membangun hubungan dengan para pemangku kepentingan (*stakeholders*).

Di samping itu, kode etik merupakan salah satu perangkat yang ditetapkan Bank dalam menjaga dan meningkatkan integritas seluruh insan **bjb** pada kerangka penerapan *Good Corporate Governance* (GCG) sehingga pengimplementasiannya dapat dilakukan secara konsisten. Dalam rangka menegakkan kode etik, Pejabat eksekutif telah menyampaikan komitmen kepada Direksi melalui penandatanganan pernyataan Integritas yang diperbaharui setiap tahunnya. Melalui upaya ini diharapkan Pejabat eksekutif dapat menjadi *role model* bagi jajaran di bawahnya.

Pokok-Pokok Kode Etik

Direksi melalui Surat Keputusan Direksi Nomor 709/SK/DIRKP/2014 tanggal 7 Oktober 2014 tentang Etika Usaha dan Tata Perilaku (*Code of Conduct*) PT Bank Pembangunan Daerah Jawa Barat dan Banten, Tbk., kode etik bank **bjb** merupakan pedoman yang menjelaskan etika usaha dan tata perilaku insan bank **bjb** untuk melaksanakan praktik-praktik pengelolaan perusahaan yang baik. Di dalam pedoman tersebut bank **bjb** mengatur mengenai:

Code of Ethics

The code of ethics is a system of norms, values as well as written professional rules that expressly state what actions are right or wrong, what actions must be done and what actions should be avoided. In short, the definition of a code of ethics is a pattern of rules, procedures, signs, ethical guidelines when carrying out an activity or a job. bank **bjb** considers it important and gives special attention to the application of the code of ethics. Therefore, the bank **bjb** has established a Code of Conduct that guides the people of the Company in building relationships with stakeholders.

In addition, the code of ethics is one of the tools established by the Bank in maintaining and enhancing the integrity of all **bjb** people in the framework of implementing Good Corporate Governance (GCG) so that its implementation can be carried out consistently. In order to uphold the code of ethics, the executive officer has conveyed his commitment to the Directors through the signing of an updated Integrity statement every year. Through this effort, it is hoped that executive officers can become role models for the subordinates.

Code of Conduct

Directors through Directors Decree Number 709/SK/DIRKP/2014 dated October 7th, 2014, concerning Business Ethics and Code of Conduct of PT Bank Pembangunan Daerah Jawa Barat and Banten, Tbk., bank **bjb** code of ethics is a guideline describing business ethics and bank **bjb** people behavior to implement good corporate management practices. Penerapan Tata Kelola Terintegrasi

Basic Application of Corporate Governance Integrated

Sesuai dengan Peraturan Otoritas Jasa Keuangan Nomor 18/POJK.03/2014 tentang Penerapan Tata Kelola Bagi Konglomerasi Keuangan Tata Kelola Terintegrasi, bank **bjb** termasuk lembaga keuangan yang memiliki kewajiban penerapan tata kelola terintegrasi. Hal tersebut dikarenakan terdapatnya kepemilikan saham beberapa Lembaga Jasa Keuangan oleh bank **bjb**.

Selain hal tersebut, dengan kedudukan bank **bjb** sebagai Lembaga Jasa Keuangan yang Pemegang Saham Pengendalinya adalah Pemerintah Provinsi Jawa Barat, bank **bjb** memiliki keterkaitan dengan Lembaga Jasa Keuangan yang dimiliki oleh Pemerintah Provinsi Jawa Barat. Hal ini menjadikan Perseroan memiliki hubungan pengendalian dengan Lembaga Jasa Keuangan yang dimiliki oleh Pemerintah Provinsi Jawa Barat. Atas dasar inilah Perseroan bersama seluruh Lembaga Jasa Keuangan yang memiliki hubungan kepemilikan maupun hubungan pengendalian dapat dikategorikan sebagai suatu Konglomerasi Keuangan.

Sebagai bagian dari Konglomerasi Keuangan tersebut, bank **bjb** berkeinginan untuk dapat berperan aktif di dalam melaksanakan tata kelola terintegrasi sesuai Peraturan Otoritas Jasa Keuangan nomor 18/POJK.03/2014 tentang Penerapan Tata Kelola Bagi Konglomerasi Keuangan. Dengan demikian, pelaksanaan tata kelola yang dilakukan secara terintegrasi tersebut kedepannya dapat mewujudkan suatu konglomerasi keuangan yang sehat yang dapat berpartisipasi di dalam menciptakan sektor jasa keuangan yang tumbuh secara berkelanjutan dan stabil.

Berdasarkan surat Nomor 539/1030/Inves&BUMD tanggal 2 Maret 2015 perihal Penunjukan bank **bjb** Selaku Entitas Utama dan surat nomor 539/1495/Inves&BUMD tanggal 27 Maret 2015 perihal Penunjukan bank **bjb** Selaku Entitas Utama, Bank ditunjuk selaku Entitas Utama bagi seluruh Lembaga Jasa Keuangan yang dimiliki dan/atau dikendalikan oleh Pemerintah Provinsi Jawa Barat. Beberapa upaya yang telah dilakukan oleh Bank terkait implementasi Peraturan Otoritas Jasa Keuangan nomor 18/POJK.02/2014 tersebut adalah sebagai berikut:

1. **Pembentukan Satuan Kerja**
   Berdasarkan Surat Keputusan Direksi Nomor 0376/SK/DIR-PST/2021 tanggal 10 Mei 2021 tentang Deskripsi Jabatan, diatur mengenai hal-hal sebagai berikut:

A.1.	**Prinsip 1: Meningkatkan Nilai Penyelenggaraan Rapat Umum Pemegang Saham (RUPS).** **Principle 1: Increasing the Value of Organizing a General Meeting of Shareholders (GMS)**	
A.1.1.	**Rekomendasi 1**: Perusahaan Terbuka memiliki cara atau prosedur teknis pengumpulan suara (*voting*) baik secara terbuka maupun tertutup yang mengedepankan independensi, dan kepentingan pemegang saham	***Comply*** Bank telah memiliki tata cara pengumpulan suara (*voting*) baik secara terbuka maupun tertutup dalam Rapat Umum Pemegang Saham yang diatur pada Anggaran Dasar Perseroan.
	Penjelasan: Setiap saham dengan hak suara yang dikeluarkan mempunyai satu hak suara (*one share one vote*). Pemegang saham dapat menggunakan hak suaranya pada saat pengambilan keputusan, terutama dalam pengambilan keputusan dengan cara pengumpulan suara (*voting*). Namun demikian, mekanisme pengambilan keputusan dengan cara pengumpulan suara (*voting*) baik secara terbuka maupun tertutup belum diatur secara rinci. Perusahaan Terbuka direkomendasikan mempunyai prosedur pengambilan suara dalam pengambilan keputusan atas suatu mata acara RUPS. Adapun prosedur pengambilan suara (*voting*) tersebut harus menjaga independensi ataupun kebebasan pemegang saham. Sebagai contoh, dalam pengumpulan suara (*voting*) secara terbuka dilakukan dengan cara mengangkat tangan sesuai dengan instruksi pilihan yang ditawarkan oleh pimpinan RUPS. Sedangkan, dalam pengumpulan suara (*voting*) secara tertutup dilakukan pada keputusan yang membutuhkan kerahasiaan ataupun atas permintaan pemegang saham, dengan cara menggunakan kartu suara ataupun dengan penggunaan *electronic voting*.	
	Recommendation 1: A Public Company had a technical method or procedure for voting, both openly and privately, that prioritized independence and the interests of shareholders.	**Comply** The Bank has voting procedures both openly and closedly at the General Meeting of Shareholders which is set out in the Company's Articles of Association.
	Explanation: Each share with voting rights issued had one vote (one share one vote). Shareholders could exercise their voting rights when making decisions, especially in making decisions by voting. However, the decision-making mechanism by means of voting, both openly and privately, had not been regulated in detail. Public companies were recommended to have voting procedures in making decisions on a GMS agenda. The voting procedure had to maintain the independence or freedom of shareholders. For example, in open voting, it was done by raising hands in accordance with the choice instructions offered by the chairman of the GMS. Meanwhile, closed voting was carried out on decisions that require confidentiality or at the request of shareholders, by using a voting card or by using electronic voting.

A.1.2.	**Rekomendasi 2:** Seluruh anggota Direksi dan anggota Dewan Komisaris Perusahaan Terbuka hadir dalam RUPS Tahunan. **Penjelasan:** Kehadiran seluruh anggota Direksi dan anggota Dewan Komisaris Perusahaan Terbuka bertujuan agar setiap anggota Direksi dan anggota Dewan Komisaris dapat memperhatikan, menjelaskan, dan menjawab secara langsung permasalahan yang terjadi atau pertanyaan yang diajukan oleh pemegang saham terkait mata acara dalam RUPS.	***Comply*** Seluruh anggota Direksi dan anggota Dewan Komisaris hadir pada penyelenggaran RUPS Tahun Buku 2021 yang diselenggarakan pada bulan April 2022.
	Recommendation 2: All members of the Directors and members of the Board of Commissioners of a Public Company attended the Annual GMS. **Explanation**: The presence of all members of the Directors and members of the Board of Commissioners of a Public Company was intended so that each member of the Directors and member of the Board of Commissioners could pay attention, explain, and answer directly the problems that occured or questions raised by shareholders related to the agenda at the GMS.	**Comply** All members of the Directors and members of the Board of Commissioners were present at the 2021 Fiscal Year GMS held in April 2022.
A.1.3.	**Rekomendasi 3:** Ringkasan risalah RUPS tersedia dalam Situs Web Perusahaan Terbuka paling sedikit selama 1 (satu) tahun. **Penjelasan:** Berdasarkan ketentuan dalam Pasal 34 ayat (2) Peraturan Otoritas Jasa Keuangan Nomor 32/POJK.04/2014 tentang Rencana dan Penyelenggaraan Rapat Umum Pemegang Saham Perusahaan Terbuka, Perusahaan Terbuka wajib membuat ringkasan risalah RUPS dalam bahasa Indonesia dan bahasa asing (minimal dalam bahasa Inggris), serta diumumkan 2 (dua) hari kerja setelah RUPS diselenggarakan kepada masyarakat, yang salah satunya melalui Situs Web Perusahaan Terbuka. Ketersediaan ringkasan risalah RUPS pada Situs Web Perusahaan Terbuka memberikan kesempatan bagi pemegang saham yang tidak hadir untuk mendapatkan informasi penting dalam penyelenggaraan RUPS secara mudah dan cepat. Oleh karena itu, ketentuan tentang jangka waktu minimal ketersediaan ringkasan risalah RUPS di Situs Web dimaksudkan untuk menyediakan kecukupan waktu bagi pemegang saham untuk memperoleh informasi tersebut.	***Comply*** Perseroan telah menyediakan ringkasan risalah RUPS tersedia dalam Situs Web Perseroan.
	Recommendation 3: The summary of the minutes of the GMS was available on the Public Company Website for at least 1 (one) year. **Explanation:** Based on the provisions in Article 34 paragraph (2) of the Financial Services Authority Regulation Number 32/POJK.04/2014 concerning the Plan and Organizing of the General Meeting of Shareholders of a Public Company, a Public Company was required to make a summary of the minutes of the GMS in Indonesian and foreign languages (at least in English).), and announced 2 (two) working days after the GMS was held to the public, one of which was through the Public Company Website. The availability of a summary of the minutes of the GMS on the Public Company Website provided an opportunity for shareholders who were not present to obtain important information in holding the GMS easily and quickly. Therefore, the provision regarding the minimum period for the availability of the summary of the minutes of the GMS on the Website was intended to provide sufficient time for shareholders to obtain such information.	**Comply** The Company has provided a summary of the minutes of the GMS available on the Company's Website.

A.2.	**Prinsip 2: Meningkatkan Kualitas Komunikasi Perusahaan Terbuka dengan Pemegang Saham atau Investor.** **Principle 2: Improving the Quality of Public Company Communication with Shareholders or Investors.**	
A.2.1.	**Rekomendasi 4:** Perusahaan Terbuka memiliki suatu kebijakan komunikasi dengan pemegang saham atau investor. **Penjelasan:** Adanya komunikasi antara Perusahaan Terbuka dengan pemegang saham atau investor dimaksudkan agar para pemegang saham atau investor mendapatkan pemahaman lebih jelas atas informasi yang telah dipublikasikan kepada masyarakat, seperti laporan berkala, keterbukaan informasi, kondisi atau prospek bisnis dan kinerja, serta pelaksanaan tata kelola Perusahaan Terbuka. Disamping itu, pemegang saham atau investor juga dapat menyampaikan masukan dan opini kepada manajemen Perusahaan Terbuka. Kebijakan komunikasi dengan para pemegang saham atau investor menunjukan komitmen Perusahaan Terbuka dalam melaksanakan komunikasi dengan para pemegang saham atau investor. Dalam kebijakan tersebut dapat mencakup strategi, program, dan waktu pelaksanaan komunikasi, serta panduan yang mendukung pemegang saham atau investor untuk berpartisipasi dalam komunikasi tersebut. **Recommendation 4:** The Public Company had a communication policy with shareholders or investors. **Explanation:** The existence of communication between the Public Company and the shareholders or investors was intended so that the shareholders or investors got a clearer understanding of the information that had been published to the public, such as periodic reports, information disclosure, business conditions or prospects and performance, as well as the implementation of the Public Company's governance. In addition, shareholders or investors could also submit inputs and opinions to the management of the Public Company. The communication policy with shareholders or investors showed the commitment of the Public Company in carrying out communication with shareholders or investors. The policy might include strategies, programs, and timing of communications, as well as guidelines that supported shareholders or investors to participate in these communications.	***Comply*** Perseroan telah memiliki kebijakan mengenai komunikasi dengan pemegang saham atau investor, yang dalam hal ini dilakukan melalui *Analyst Meeting, Public Expose*, serta melakukan pertemuan dengan investor atau calon investor. **Comply** The Company has a policy regarding communication with shareholders or investors, which is carried out through Analyst Meetings, Public Exposes and holding meetings with investors or potential investors.
A.2.2.	**Rekomendasi 5:** Perusahaan Terbuka mengungkapkan kebijakan komunikasi Perusahaan Terbuka dengan pemegang saham atau investor dalam Situs Web. **Penjelasan:** Pengungkapan kebijakan komunikasi merupakan bentuk transparansi atas komitmen Perusahaan Terbuka dalam memberikan kesetaraan kepada semua pemegang saham atau investor atas pelaksanaan komunikasi. Pengungkapan informasi tersebut juga bertujuan untuk meningkatkan partisipasi dan peran pemegang saham atau investor dalam pelaksanaan program komunikasi Perusahaan Terbuka. **Recommendation 5:** The Public Company disclosed the Public Company's communication policies with shareholders or investors on the Website. **Explanation:** Disclosure of communication policies was a form of transparency on the commitment of the Public Company in providing equality to all shareholders or investors in the implementation of communications. Disclosure of information also aimed to increase the participation and role of shareholders or investors in the implementation of the Public Company communication program.	***Comply*** Perseroan telah memiliki kebijakan komunikasi dalam rangka transparansi dan memberikan kesetaraan kepada Pemegang Saham atau Investor yang dapat diakses pada situs resmi perseroan wwww.bank**bjb**.co.id **Comply** The Company has a communication policy in the context of transparency and providing equality to Shareholders or Investors which can be accessed on the company's official website www.bank**bjb**.co.id

B.	**ASPEK 2: FUNGSI DAN PERAN DEWAN KOMISARIS** **ASPECT 2: FUNCTION AND ROLE OF THE BOARD OF COMMISSIONERS**	
B.1.	**Prinsip 3: Memperkuat Keanggotaan dan Komposisi Dewan Komisaris.** **Principle 3: Strengthening the Membership and Composition of the Board of Commissioners.**	
B.1.1.	**Rekomendasi 6:** Penentuan jumlah anggota Dewan Komisaris mempertimbangkan kondisi Perusahaan Terbuka. **Penjelasan:** Jumlah anggota Dewan Komisaris dapat mempengaruhi efektivitas pelaksanaan tugas dari Dewan Komisaris. Penentuan jumlah anggota Dewan Komisaris Perusahaan Terbuka wajib mengacu kepada ketentuan peraturan perundang-undangan yang berlaku, yang paling kurang terdiri dari 2 orang berdasarkan ketentuan Peraturan Otoritas Jasa Keuangan Nomor 33/POJK.04/2014 tentang Direksi dan Dewan Komisaris Emiten atau Perusahaan Publik. Selain itu, perlu juga mempertimbangkan kondisi Perusahaan Terbuka yang antara lain yang meliputi karakteristik, kapasitas, dan ukuran, serta pencapaian tujuan dan pemenuhan kebutuhan bisnis yang berbeda di antara Perusahaan Terbuka. Namun demikian, jumlah anggota Dewan Komisaris yang terlalu besar berpotensi dapat mengganggu efektivitas pelaksanaan fungsi Dewan Komisaris. **Recommendation 6:** The determination of the number of members of the Board of Commissioners considered the conditions of the Public Company. **Explanation:** The number of members of the Board of Commissioners could affect the effectiveness of the implementation of the duties of the Board of Commissioners. Determination of the number of members of the Board of Commissioners of a Public Company had to refer to the provisions of the applicable laws and regulations, which consists of at least 2 people based on the provisions of the Financial Services Authority Regulation Number 33/POJK.04/2014 concerning the Directors and Board of Commissioners of Issuers or Public Companies. In addition, it was also necessary to consider the condition of the Public Company which includes the characteristics, capacity, and size, as well as the achievement of goals and fulfillment of different business needs among Public Companies. However, the number of members of the Board of Commissioners that was too large has the potential to interfere with the effectiveness of the implementation of the functions of the Board of Commissioners.	***Comply*** Penentuan jumlah Dewan Komisaris serta pemilihan anggota Dewan Komisaris telah mempertimbangkan kondisi Perseroan. **Comply** The determination of number of the Board of Commissioners and the selection of members of the Board of Commissioners has taken into account the condition of the Company.
B.1.2.	**Rekomendasi 7:** Penentuan komposisi anggota Dewan Komisaris memperhatikan keberagaman keahlian, pengetahuan, dan pengalaman yang dibutuhkan. **Penjelasan:** Komposisi Dewan Komisaris merupakan kombinasi karakteristik baik dari segi organ Dewan Komisaris maupun anggota Dewan Komisaris secara individu, sesuai dengan kebutuhan Perusahaan Terbuka. Karakteristik tersebut dapat tercermin dalam penentuan keahlian, pengetahuan, dan pengalaman yang dibutuhkan dalam pelaksanaan tugas pengawasan dan pemberian nasihat oleh Dewan Komisaris Perusahaan Terbuka. Komposisi yang telah memperhatikan kebutuhan Perusahaan Terbuka merupakan suatu hal yang positif, khususnya terkait pengambilan keputusan dalam rangka pelaksanaan fungsi pengawasan yang dilakukan dengan mempertimbangkan berbagai aspek yang lebih luas. **Recommendation 7:** The determination of the composition of the members of the Board of Commissioners considered the diversity of expertise, knowledge, and experience required. **Explanation:** The composition of the Board of Commissioners was a combination of characteristics, both in terms of the organs of the Board of Commissioners and individual members of the Board of Commissioners, in accordance with the needs of the Public Company. These characteristics could be reflected in the determination of the expertise, knowledge, and experience required in carrying out the supervisory duties and providing advice by the Board of Commissioners of a Public Company. The composition that has considered the needs of the Public Company was a positive thing, especially regarding decision making in the context of implementing the supervisory function carried out by considering various broader aspects.	***Comply*** Komposisi anggota Dewan Komisaris telah memperhatikan keberagaman keahlian, pengetahuan dan pengalaman yang dibutuhkan oleh Perseroan. **Comply** The composition of members of the Board of Commissioners has taken into account the diversity of expertise, knowledge, and experience required by the Company.

B.2.	**Prinsip 4: Meningkatkan Kualitas Pelaksanaan Tugas dan Tanggung Jawab Dewan Komisaris.** **Principle 4: Improving the Quality of Implementation of the Duties and Responsibilities of the Board of Commissioners**	
B.2.1.	**Rekomendasi 8:** Dewan Komisaris mempunyai kebijakan penilaian sendiri (*self assessment*) untuk menilai kinerja Dewan Komisaris. **Penjelasan:** Kebijakan penilaian sendiri (*self assessment)* Dewan Komisaris merupakan suatu pedoman yang digunakan sebagai bentuk akuntabilitas atas penilaian kinerja Dewan Komisaris secara kolegial. Self assessment atau penilaian sendiri dimaksud dilakukan oleh masing-masing anggota untuk menilai pelaksanaan kinerja Dewan Komisaris secara kolegial, dan bukan menilai kinerja individual masing-masing anggota Dewan Komisaris. Dengan adanya self assessment ini diharapkan masing-masing anggota Dewan Komisaris dapat berkontribusi untuk memperbaiki kinerja Dewan Komisaris secara berkesinambungan. Dalam kebijakan tesebut dapat mencakup kegiatan penilaian yang dilakukan beserta maksud dan tujuannya, waktu pelaksanaannya secara berkala, dan tolok ukur atau kriteria penilaian yang digunakan sesuai dengan dengan rekomendasi yang diberikan oleh fungsi nominasi dan remunerasi Perusahaan Terbuka, dimana adanya fungsi tersebut telah diwajibkan dalam Peraturan Otoritas Jasa Keuangan Nomor 34/POJK.04/2014 tentang Komite Nominasi dan Remunerasi Emiten atau Perusahaan Publik. **Recommendation 8:** The Board of Commissioners had a self-assessment policy to assess the performance of the Board of Commissioners. **Explanation:** The Board of Commissioners' self-assessment policy was a guideline used as a form of accountability for collegially assessing the performance of the Board of Commissioners. The self-assessment was meant to be carried out by each member to assess the performance of the Board of Commissioners in a collegial manner, and not to assess the individual performance of each member of the Board of Commissioners. With this self-assessment, it was hoped that each member of the Board of Commissioners could contribute to improving the performance of the Board of Commissioners on an ongoing basis. The policy might include assessment activities carried out along with their aims and objectives, periodic implementation times, and benchmarks or assessment criteria used in accordance with the recommendations given by the nomination and remuneration function of a Public Company, where the existence of this function had been required in the Authority Regulation. Financial Services Number 34/POJK.04/2014 concerning the Nomination and Remuneration Committee for Issuers or Public Companies.	***Comply*** Dewan Komisaris telah mempunyai kebijakan penilaian sendiri (*self assessment*) untuk menilai kinerja Dewan Komisaris melalui Komite Nominasi dan Remunerasi yang telah disahkan melalui Surat Keputusan Dewan Komisaris Nomor 03/SK/DKO/2022 tanggal 4 Januari 2022 tentang Pedoman dan Tata Tertib Kerja Komite Nominasi dan Remunerasi PT Bank Pembangunan Daerah Jawa Barat dan Banten Tbk. **Comply** The Board of Commissioners has a self-assessment policy to assess the performance of the Board of Commissioners through the Nomination and Remuneration Committee, which has been ratified by the Decree of the Board of Commissioners Number SK/DKO/2022 dated January 4, 2022 concerning Guidelines and Work Rules of the Nomination and Remuneration Committee of PT Bank Pembangunan Daerah Jawa Barat dan Banten Tbk.
B.2.2.	**Rekomendasi 9:** Kebijakan penilaian sendiri (*self assessment*) untuk menilai kinerja Dewan Komisaris, diungkapkan melalui Laporan Tahunan Perusahaan Terbuka. **Penjelasan:** Pengungkapan kebijakan *self assessment* atas kinerja Dewan Komisaris dilakukan tidak hanya untuk memenuhi aspek transparansi sebagai bentuk pertanggungjawaban atas pelaksanaan tugasnya, namun juga untuk memberikan keyakinan khususnya kepada para pemegang saham atau investor atas upaya-upaya yang perlu dilakukan dalam meningkatkan kinerja Dewan Komisaris. Dengan adanya pengungkapan tersebut pemegang saham atau investor mengetahui mekanisme *check and balance* terhadap kinerja Dewan Komisaris. **Recommendation 9:** The self-assessment policy to assess the performance of the Board of Commissioners is disclosed through the Public Company Annual Report. **Explanation**: Disclosure of the self-assessment policy on the performance of the Board of Commissioners is carried out not only to fulfill the transparency aspect as a form of accountability for the implementation of its duties, but also to provide confidence, especially to shareholders or investors, on the efforts that need to be made to improve the performance of the Board of Commissioners. With this disclosure, shareholders or investors know the mechanism of checks and balances on the performance of the Board of Commissioners.	***Comply*** Hasil penilaian sendiri (*self assessment*) Dewan Komisaris telah diungkapkan Perseroan melalui Laporan Tahunan Perusahaan Terbuka. **Comply** The Company has disclosed the results of the Board of Commissioners' self-assessment through the Public Company Annual Report.

B.2.3.	**Rekomendasi 10:** Dewan Komisaris mempunyai kebijakan terkait pengunduran diri anggota Dewan Komisaris apabila terlibat dalam kejahatan keuangan. **Penjelasan:** Kebijakan pengunduran diri anggota Dewan Komisaris yang terlibat dalam kejahatan keuangan merupakan kebijakan yang dapat meningkatkan kepercayaan para pemangku kepentingan terhadap Perusahaan Terbuka, sehingga integritas perusahaan akan tetap terjaga. Kebijakan ini diperlukan untuk membantu kelancaran proses hukum dan agar proses hukum tersebut tidak mengganggu jalannya kegiatan usaha. Selain itu, dari sisi moralitas, kebijakan ini membangun budaya beretika di lingkungan Perusahaan Terbuka. Kebijakan tersebut dapat tercakup dalam Pedoman ataupun Kode Etik yang berlaku bagi Dewan Komisaris. Selanjutnya, yang dimaksud dengan terlibat dalam kejahatan keuangan merupakan adanya status terpidana terhadap anggota Dewan Komisaris dari pihak yang berwenang. Kejahatan keuangan dimaksud seperti manipulasi dan berbagai bentuk penggelapan dalam kegiatan jasa keuangan serta Tindakan Pidana Pencucian Uang sebagaimana dimaksud dalam Undang-Undang Nomor 8 Tahun 2010 tentang Pencegahan dan Pemberantasan Tindak Pidana Pencucian Uang. **Recommendation 10:** The Board of Commissioners has a policy regarding the resignation of members of the Board of Commissioners if they are involved in financial crimes. **Explanation:** The policy of resigning members of the Board of Commissioners who are involved in financial crimes is a policy that can increase the confidence of stakeholders in a Public Company, so that the integrity of the company will be maintained. This policy is needed to help smooth the legal process and so that the legal process does not interfere with the running of business activities. In addition, from a morality point of view, this policy builds an ethical culture within the Public Company. These policies can be included in the Guidelines or Code of Ethics applicable to the Board of Commissioners. Furthermore, what is meant by being involved in a financial crime is the convict status of a member of the Board of Commissioners from the authorized party. The financial crimes referred to are manipulation and various forms of embezzlement in financial service activities as well as the Criminal Action of Money Laundering as referred to in Law Number 8 of 2010 concerning Prevention and Eradication of the Crime of Money Laundering.	***Comply*** Kebijakan pengunduran diri Dewan Komisaris telah diatur pada Anggaran Dasar Perseroan. **Comply** The policy for the resignation of the Board of Commissioners has been regulated in the Company's Articles of Association.
B.2.4.	**Rekomendasi 11:** Dewan Komisaris atau Komite yang menjalankan fungsi Nominasi dan Remunerasi menyusun kebijakan suksesi dalam proses Nominasi anggota Direksi. **Penjelasan:** Berdasarkan ketentuan Peraturan Otoritas Jasa Keuangan Nomor 34/POJK.04/2014 tentang Komite Nominasi dan Remunerasi Emiten atau Perusahaan Publik, komite yang menjalankan fungsi nominasi mempunyai tugas untuk menyusun kebijakan dan kriteria yang dibutuhkan dalam proses Nominasi calon anggota Direksi. Salah satu kebijakan yang dapat mendukung proses Nominasi sebagaimana dimaksud adalah kebijakan suksesi anggota Direksi. Kebijakan mengenai suksesi bertujuan untuk menjaga kesinambungan proses regenerasi atau kaderisasi kepemimpinan di perusahaan dalam rangka mempertahankan keberlanjutan bisnis dan tujuan jangka panjang perusahaan. **Recommendation 11**: The Board of Commissioners or the Committee that carries out the Nomination and Remuneration function shall formulate a succession policy in the process of nominating members of the Directors. **Explanation:** Based on the provisions of the Financial Services Authority Regulation Number 34/POJK.04/2014 concerning the Nomination and Remuneration Committee for Issuers or Public Companies, the committee that carries out the nomination function has the task of formulating the policies and criteria needed in the nomination process for prospective members of the Directors. One of the policies that can support the nomination process as referred to is the succession policy for members of the Directors. The succession policy aims to maintain the continuity of the regeneration process or leadership regeneration in the company in order to maintain business sustainability and the company's long-term goals.	***Comply*** Dewan Komisaris melalui Komite Nominasi dan Remunerasi telah mempunyai kebijakan suksesi dalam proses Nominasi anggota Direksi, yang tertuang dalam Pedoman Nominasi bank **bjb**. **Comply** The Board of Commissioners through the Nomination and Remuneration Committee has a succession policy in the nomination process for members of the Directors, which is stated in the bank **bjb** Nomination Guidelines.

C.1.	**Prinsip 5: Memperkuat Keanggotaan dan Komposisi Direksi.** **Principle 5: Strengthening the Membership and Composition of Directors**	
C.1.1.	**Rekomendasi 12:** Penentuan jumlah anggota Direksi mempertimbangkan kondisi Perusahaan Terbuka serta efektivitas dalam pengambilan keputusan. **Penjelasan:** Sebagai organ perusahaan yang berwenang dalam pengurusan perusahaan, penentuan jumlah Direksi sangat mempengaruhi jalannya kinerja Perusahaan Terbuka. Dengan demikian, penentuan jumlah anggota Direksi harus dilakukan melalui pertimbangan yang matang dan wajib mengacu pada ketentuan Peraturan Perundang-undangan yang berlaku, dimana berdasarkan Peraturan Otoritas Jasa Keuangan Nomor 33/POJK.04/2014 tentang Direksi dan Dewan Komisaris Emiten atau Perusahaan Publik paling sedikit terdiri dari 2 (dua) orang. Disamping itu, dalam penentuan jumlah Direksi harus didasarkan pada kebutuhan untuk mencapai maksud dan tujuan Perusahaan Terbuka dan disesuaikan dengan kondisi Perusahaan Terbuka yang meliputi karakteristik, kapasitas, dan ukuran Perusahaan Terbuka serta bagaimana tercapainya efektivitas pengambilan keputusan Direksi. **Recommendation 12:** The determination of the number of members of the Directors takes into account the condition of the Public Company and its effectiveness in decision making. **Explanation:** As a company organ that is authorized in managing the company, the determination of the number of Directors greatly affects the performance of the Public Company. Thus, the determination of the number of members of the Directors must be carried out through careful consideration and must refer to the provisions of the applicable laws and regulations, which are based on the Financial Services Authority Regulation Number 33/POJK.04/2014 concerning the Directors and Board of Commissioners of Issuers or Public Companies at least consists of 2 (two) people. In addition, the determination of the number of Directors must be based on the need to achieve the aims and objectives of the Public Company and adjusted to the conditions of the Public Company which includes the characteristics, capacity, and size of the Public Company as well as how to achieve the effectiveness of the Directors' decision making.	***Comply*** Penentuan jumlah anggota Direksi telah mempertimbangkan kondisi Perseroan serta efektivitas dalam pengambilan keputusan. **Comply** The determination of the number of members of the Directors has taken into account the Company's condition and effectiveness in decision making.
C.1.2.	**Rekomendasi 13:** Penentuan komposisi anggota Direksi memperhatikan, keberagaman keahlian, pengetahuan, dan pengalaman yang dibutuhkan. **Penjelasan:** Seperti halnya Dewan Komisaris, keberagaman komposisi anggota Direksi merupakan kombinasi karakteristik yang diinginkan baik dari segi organ Direksi maupun anggota Direksi secara individu, sesuai dengan kebutuhan Perusahaan Terbuka. Kombinasi tersebut ditentukan dengan cara memperhatikan keahlian, pengetahuan dan pengalaman yang sesuai pada pembagian tugas dan fungsi jabatan Direksi dalam mencapai tujuan Perusahaan Terbuka. Dengan demikian, pertimbangan kombinasi karakteristik dimaksud akan berdampak dalam ketepatan proses pencalonan dan penunjukan individual anggota Direksi ataupun Direksi secara kolegial. **Recommendation 13:** The determination of the composition of the members of the Directors takes into account the diversity of expertise, knowledge, and experience required. **Explanation:** Like the Board of Commissioners, the diversity of the composition of the members of the Directors is a combination of desirable characteristics both in terms of organs of the Directors and individual members of the Directors, in accordance with the needs of a Public Company. The combination is determined by taking into account the appropriate expertise, knowledge and experience in the division of duties and functions of the Directors in achieving the objectives of the Public Company. Thus, the consideration of the combination of these characteristics will have an impact on the accuracy of the nomination process and the appointment of individual members of the Directors or the Directors collegially.	***Comply*** Penentuan komposisi anggota Direksi telah memperhatikan, keberagaman, keahlian, pengetahuan dan pengalaman yang dibutuhkan oleh Perseroan. **Comply** The determination of the composition of the members of the Directors has taken into account the diversity of expertise, knowledge, and experience required by the Company.

C.1.3.	**Rekomendasi 14**: Anggota Direksi yang membawahi bidang akuntansi atau keuangan memiliki keahlian dan/atau pengetahuan di bidang akuntansi. **Penjelasan:** Laporan Keuangan merupakan laporan pertanggungjawaban manajemen atas pengelolaan sumber daya yang dimiliki oleh Perusahaan Terbuka, yang wajib disusun dan disajikan sesuai dengan Standar Akuntansi Keuangan yang berlaku umum di Indonesia dan juga peraturan OJK terkait, antara lain peraturan perundang-undangan di sektor Pasar Modal yang mengatur mengenai penyajian dan pengungkapan Laporan Keuangan Perusahaan Terbuka. Berdasarkan peraturan perundang-undangan di sektor Pasar Modal yang mengatur mengenai tanggung jawab Direksi atas Laporan Keuangan, Direksi secara tanggung renteng bertanggung jawab atas Laporan Keuangan, yang ditandatangani Direktur Utama dan anggota Direksi yang membawahi bidang akuntansi atau keuangan. Dengan demikian, pengungkapan dan penyusunan informasi keuangan yang disajikan dalam laporan keuangan akan sangat tergantung pada keahlian, dan/atau pengetahuan Direksi, khususnya anggota Direksi yang membawahi bidang akuntansi atau keuangan. Adanya kualifikasi keahlian dan/atau pengetahuan di bidang akuntansi yang setidaknya dimiliki anggota Direksi dimaksud dapat memberikan keyakinan atas penyusunan Laporan Keuangan, sehingga Laporan Keuangan tersebut dapat diandalkan oleh para pemangku kepentingan (stakeholders) sebagai dasar pengambilan keputusan ekonomi terkait Perusahaan Terbuka dimaksud. Keahlian dan/atau pengetahuan tersebut dapat dibuktikan dengan latar belakang pendidikan, sertifikasi pelatihan, dan/atau pengalaman kerja terkait. **Recommendation 14:** Members of the Directors in charge of accounting or finance have expertise and/or knowledge in accounting. **Explanation:** The Financial Report is a management accountability report for the management of resources owned by a Public Company, which must be prepared and presented in accordance with generally accepted Financial Accounting Standards in Indonesia as well as related OJK regulations, including the laws and regulations in the Capital Market sector which regulates the presentation and disclosure of Public Company Financial Statements. Based on the laws and regulations in the Capital Market sector which regulates the responsibilities of the Directors for the Financial Statements, the Directors is jointly and severally responsible for the Financial Statements, which are signed by the President Director and members of the Directors in charge of accounting or finance. Thus, the disclosure and preparation of financial information presented in the financial statements will greatly depend on the expertise and/or knowledge of the Directors, particularly members of the Directors in charge of accounting or finance. The existence of qualifications of expertise and/or knowledge in the field of accounting that at least belongs to the said member of the Directors can provide confidence in the preparation of the Financial Statements, so that the Financial Statements can be relied on by stakeholders as the basis for making economic decisions regarding the Public Company. Such expertise and/or knowledge can be proven by educational background, training certification, and/or related work experience.	***Comply*** Anggota Direksi yang membawahi bidang akuntansi atau keuangan telah memiliki keahlian dan/atau pengetahuan di bidang akuntansi. **Comply** Members of the Directors in charge of accounting or finance have expertise and/or knowledge in accounting.

C.2.1.	**Rekomendasi 15:** Direksi mempunyai kebijakan penilaian sendiri (*self assessment*) untuk menilai kinerja Direksi. **Penjelasan:** Seperti halnya pada Dewan Komisaris, kebijakan penilaian sendiri (self assessment) Direksi merupakan suatu pedoman yang digunakan sebagai bentuk akuntabilitas atas penilaian kinerja Direksi secara kolegial. *Self assessment* atau penilaian sendiri dimaksud dilakukan oleh masing-masing anggota Direksi untuk menilai pelaksanaan kinerja Direksi secara kolegial, dan bukan menilai kinerja individual masing-masing anggota Direksi. Dengan adanya *self assessment* ini diharapkan masing-masing anggota Direksi dapat berkontribusi untuk memperbaiki kinerja Direksi secara berkesinambungan. Dalam kebijakan tesebut dapat mencakup kegiatan penilaian yang dilakukan beserta maksud dan tujuannya, waktu pelaksanaannya secara berkala, dan tolak ukur atau kriteria penilaian yang digunakan sesuai dengan dengan rekomendasi yang diberikan oleh fungsi nominasi dan remunerasi Perusahaan Terbuka, dimana pembentukan fungsi tersebut telah diwajibkan dalam Peraturan Otoritas Jasa Keuangan Nomor 34/POJK.04/2014 tentang Komite Nominasi dan Remunerasi Emiten atau Perusahaan Publik. **Recommendation 15:** The Directors has a self-assessment policy to assess the performance of the Directors. **Explanation:** As with the Board of Commissioners, the Directors' self-assessment policy is a guideline used as a form of accountability for collegially assessing the performance of the Directors. The self-assessment is meant to be carried out by each member of the Directors to assess the performance of the Directors collegially, and not to assess the individual performance of each member of the Directors. With this self-assessment, it is hoped that each member of the Directors can contribute to improving the performance of the Directors on an ongoing basis. The policy may include assessment activities carried out along with their aims and objectives, periodical implementation time, and benchmarks or assessment criteria used in accordance with the recommendations given by the nomination and remuneration function of a Public Company, where the establishment of this function has been required in the Authority Regulation. D.1.2.	**Rekomendasi 19:** Perusahaan Terbuka memiliki kebijakan anti korupsi dan anti *fraud*. **Penjelasan:** Kebijakan anti korupsi bermanfaat untuk memastikan agar kegiatan usaha Perusahaan Terbuka dilakukan secara legal, prudent, dan sesuai dengan prinsip-prinsip tata kelola yang baik. Kebijakan tersebut dapat merupakan bagian dalam kode etik, ataupun dalam bentuk tersendiri. Dalam kebijakan tersebut dapat meliputi antara lain mengenai program dan prosedur yang dilakukan dalam mengatasi praktik korupsi, balas jasa (*kickbacks*), *fraud*, suap dan/atau gratifikasi dalam Perusahaan Terbuka. Lingkup dari kebijakan tersebut harus menggambarkan pencegahan Perusahaan Terbuka terhadap segala praktik korupsi baik memberi atau menerima dari pihak lain.	***Comply*** Perseroan telah menetapkan pedoman pengendalian gratifikasi dan pedoman pelaporan LHKPN dalam rangka upaya pencegahan anti korupsi dan anti *fraud* yang tertuang dalam Surat Keputusan Direksi Nomor 0149/SK/DIR-KAP/2022 31 Mei 2022 tentang Pedoman Laporan Harta Kekayaan Penyelenggara Negara (LHKPN) dan Seputusan Direksi Nomor 0148/SK/DIR-KAP/2022 31 Mei 2022 Tentang Pedoman Pengendalian Gratifikasi.
	Recommendation 19: The Public Company has an anti-corruption and anti-fraud policy. **Explanation:** The anti-corruption policy is useful to ensure that the business activities of the Public Company are carried out legally, prudently, and in accordance with the principles of good governance. The policy can be part of the code of ethics, or in a separate form. The policy may include, among others, the programs and procedures carried out in overcoming the practice of corruption, kickbacks, fraud, bribery and/or gratuities in a Public Company. The scope of the policy must describe the prevention of the Public Company against all corrupt practices, both giving and receiving from other parties.	**Comply** The Company has established guidelines for controlling gratification and guidelines for reporting LHKPN in the context of anti-corruption and anti-fraud prevention efforts as stated in the Decree of the Directors Number 0149/SK/DIR-KAP/2022 May 31, 2022, concerning Guidelines for Reporting on State Administrators Wealth (LHKPN) and Decision of the Directors Number 0148/SK/DIR-KAP/2022 May 31, 2022, concerning Guidelines for Gratification Control.
D.1.3.	**Rekomendasi 20:** Perusahaan Terbuka memiliki kebijakan tentang seleksi dan peningkatan kemampuan pemasok atau vendor. **Penjelasan:** Kebijakan tentang seleksi pemasok atau vendor bermanfaat untuk memastikan agar Perusahaan Terbuka memperoleh barang atau jasa yang diperlukan dengan harga yang kompetitif dan kualitas yang baik. Sedangkan kebijakan peningkatan kemampuan pemasok atau vendor bermanfaat untuk memastikan bahwa rantai pasokan (*supply chain*) berjalan dengan efisien dan efektif. Kemampuan pemasok atau vendor dalam memasok/memenuhi barang atau jasa yang dibutuhkan perusahaan akan mempengaruhi kualitas output perusahaan. Dengan demikian, pelaksanaan kebijakan-kebijakan tersebut dapat menjamin kontinuitas pasokan, baik dari segi kuantitas maupun kualitas yang dibutuhkan Perusahaan Terbuka. Adapun cakupan kebijakan ini meliputi kriteria dalam pemilihan pemasok atau vendor, mekanisme pengadaan yang transparan, upaya peningkatan kemampuan pemasok atau vendor, dan pemenuhan hak-hak yang berkaitan dengan pemasok atau vendor. Perseroan memiliki kebijakan terkait pengadaan barang dan jasa yang berisi tentang seleksi dan peningkatan kemampuan pemasok atau vendor yang tertuang dalam standar Pedoman Procurement.	***Comply*** Dalam rangka pelaksanaan pengadaan barang dan jasa, Perseroan telah menetapkan kebijakan barang dan jasa yang di dalamnya terdapat ketentuan mengenai seleksi dan peningkatan kemampuan pemasok yang tertuang dalam surat keputusan Direksi Nomor 0496/SK/DIR-UMU/2022 tanggal 18 Juni 2022 tentang Standar Operasional Prosedur Pengadaan Barang/Jasa.
	Recommendation 20: The Public Company has a policy regarding the selection and capacity building of suppliers or vendors. Explanation: The policy regarding the selection of suppliers or vendors is useful to ensure that the Public Company obtains the goods or services needed at competitive prices and of good quality. Meanwhile, the policy of increasing the ability of suppliers or vendors is useful to ensure that the supply chain runs efficiently and effectively. The ability of suppliers or vendors to supply/ fulfill the goods or services needed by the company will affect the quality of the company's output. Thus, the implementation of these policies can ensure continuity of supply, both in terms of quantity and quality required by the Public Company. The scope of this policy includes criteria for selecting suppliers or vendors, transparent procurement mechanisms, efforts to increase the capacity of suppliers or vendors, and fulfillment of rights related to suppliers or vendors. The Company has a policy related to the procurement of goods and services which contains the selection and improvement of supplier or vendor capabilities as stated in the standard Procurement Guidelines.	**Comply** In the context of implementing the procurement of goods and services, the Company has established a policy on goods and services in which there are provisions regarding the selection and improvement of supplier capabilities as stated in the Decree of the Directors Number 0496/SK/DIR-UMU/2022 dated June 18, 2022, concerning Standard Operating Procedures for Procurement of Goods/Services.

D.1.5.	**Rekomendasi 22:** Perusahaan Terbuka memiliki kebijakan sistem *whistleblowing*. Penjelasan: Kebijakan sistem *whistleblowing* yang telah disusun dengan baik akan memberikan kepastian perlindungan kepada saksi atau pelapor atas suatu indikasi pelanggaran yang dilakukan karyawan atau manajemen Perusahaan Terbuka. Penerapan kebijakan sistem tersebut akan berdampak pada pembentukan budaya tata kelola perusahaan yang baik. Kebijakan sistem whistleblowing mencakup antara lain jenis pelanggaran yang dapat dilaporkan melalui sistem *whistleblowing*, cara pengaduan, perlindungan dan jaminan kerahasiaan pelapor, penanganan pengaduan, pihak yang mengelola aduan, dan hasil penanganan dan tindak lanjut pengaduan. **Recommendation 22:** Public Companies have a whistleblowing system policy. **Explanation:** A whistleblowing system policy that has been prepared properly will provide certainty of protection to witnesses or reporters on an indication of a violation committed by the employees or management of the Public Company. The implementation of the system policy will have an impact on the formation of a good corporate governance culture. The whistleblowing system policy covers, among other things, the types of violations that can be reported through the whistleblowing system, the method of complaints, protection and assurance of the confidentiality of the reporter, handling of complaints, the party managing complaints, and the results of handling and following up on complaints.	***Comply*** Perseroan telah menetapkan kebijakan sistem *whistleblowing* yang dilaksanakan oleh Satuan Kerja Audit Internal sebagaimana diatur dalam Surat Keputusan Direksi No. 708/SK/DIR-KP/2014 tanggal 7 Oktober 2014 tentang Tata Kerja Pelaporan Pelanggaran (*Whistleblowing*) di Lingkungan PT Bank Pembangunan Daerah Jawa Barat dan Banten, Tbk., yang telah diperbaharui dalam Surat Keputusan Direksi No. 1079/SK/DIR-AI/2016 tanggal 1 Desember 2016 tentang Standar Operasional Prosedur (SOP) *Whistleblowing System*. **Comply** The Company has established a whistleblowing system policy implemented by the Internal Audit Unit as stipulated in the Decree of the Directors No. 708/SK/DIR-KP/2014 dated October 7, 2014, concerning Work Procedures for Reporting Violations (Whistleblowing) in PT Bank Pembangunan Daerah Jawa Barat dan Banten Tbk., which has been updated in the Decree of the Directors No. 1079/SK/DIR-AI/2016 dated December 1, 2016, concerning Standard Operating Procedures (SOP) for Whistleblowing System.
D.1.6.	**Rekomendasi 23:** Perusahaan Terbuka memiliki kebijakan pemberian insentif jangka panjang kepada Direksi dan karyawan. **Penjelasan:** Insentif jangka panjang merupakan insentif yang didasarkan atas pencapaian kinerja jangka panjang. Rencana insentif jangka panjang mempunyai dasar pemikiran bahwa kinerja jangka panjang perusahaan tercermin oleh pertumbuhan nilai dari saham atau target-target jangka panjang perusahaan lainnya. Insentif jangka panjang bermanfaat dalam rangka menjaga loyalitas dan memberikan motivasi kepada Direksi dan karyawan untuk menigkatkan kinerja atau produktivitasnya yang akan berdampak pada peningkatan kinerja perusahaan dalam jangka panjang. Adanya suatu kebijakan insentif jangka panjang merupakan komitmen nyata Perusahaan Terbuka untuk mendorong pelaksanaan pemberian insentif jangka panjang kepada Direksi dan Karyawan dengan syarat, prosedur dan bentuk yang disesuaikan dengan tujuan jangka panjang Perusahaan Terbuka. accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Hal Audit Utama

Hal audit utama adalah hal-hal yang, menurut pertimbangan profesional kami, merupakan hal yang paling signifikan dalam audit kami atas laporan keuangan konsolidasian periode kini. Hal-hal tersebut disampaikan dalam konteks audit kami atas laporan keuangan konsolidasian secara keseluruhan, dan dalam merumuskan opini kami atas laporan keuangan konsolidasian terkait, kami tidak menyatakan suatu opini terpisah atas hal audit utama tersebut.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Cadangan Kerugian Penurunan Nilai atas Kredit yang Diberikan, dan Pembiayaan dan Piutang Syariah

Pada tanggal 31 Desember 2022, total kredit yang diberikan sebesar Rp108.339.692 juta dan Bank telah membentuk cadangan kerugian penurunan nilai sebesar Rp1.631.811 juta. Pada tanggal 31 Desember 2022, total pembiayaan dan piutang syariah sebesar Rp7.415.907 juta dan Bank telah membentuk cadangan kerugian penurunan nilai sebesar Rp160.726 juta.

Allowance for Impairment Losses of Loans, and Sharia Financing and Receivables

As of December 31, 2022, total loans amounted to Rp108,339,692 million and the Bank has provided allowance for impairment losses amounted to Rp1,631,811 million. As of December 31, 2022, total sharia financing and receivables amounted to Rp7,145,907 million and the Bank has provided allowance for impairment losses amounted to Rp160,726 million.

Berdasarkan Standar Akuntansi Keuangan di Indonesia, cadangan kerugian penurunan nilai atas kredit yang diberikan ditentukan berdasarkan kerangka kerugian kredit ekspektasian (KKE) yang memperhitungkan informasi bersifat perkiraan masa depan untuk mencerminkan perkiraan kondisi ekonomi masa depan. Sementara itu, untuk pembiayaan dan piutang syariah, cadangan kerugian penurunan nilai dihitung berdasarkan Pernyataan Standar Akuntansi Keuangan yang berlaku dan kebijakan akuntansi Perusahaan pada Catatan 2m.

Based on Indonesian Financial Accounting Standards, the allowance for impairment of loans is determined based on the expected credit loss (ECL) framework which consider forward-looking information to reflect estimated future economic conditions. Meanwhile, allowance for impairment losses of sharia financing and receivables is calculated based on related Statement of Financial Accounting Standards and the Company's accounting policy in Note 2m.

Kami fokus pada area ini karena total kredit yang diberikan, pembiayaan dan piutang syariah mewakili 63,87% dari total aset Bank dan total cadangan kerugian penurunan nilai yang dibentuk nilainya signifikan terhadap laporan keuangan konsolidasian Bank, serta dalam menghitung cadangan kerugian penurunan nilai, Bank menerapkan model yang bergantung pada data internal dan eksternal serta membutuhkan pertimbangan manajemen yang subjektif dan melibatkan penggunaan estimasi dengan tingkat ketidakpastian yang tinggi.

We focused on this area as the total loans, and sharia financing and receivables represent 63.87% of the total assets of the Bank and total allowance for impairment losses is significant to the Bank's consolidated financial statements, and in calculating the allowance for impairment losses, the Bank utilises models which are reliant on internal and external data and involves subjective management judgement and is subject to a high degree of estimation uncertainty.

Pertimbangan-pertimbangan signifikan yang digunakan dalam menentukan cadangan kerugian penurunan nilai antara lain:

- Menentukan apakah telah terjadi peningkatan risiko kredit yang signifikan atau terdapat bukti objektif penurunan nilai;
- Mengembangkan model penilaian kolektif yang tepat untuk menghitung KKE. Model yang dikembangkan secara inheren adalah kompleks dan melibatkan pertimbangan manajemen dalam menentukan dan mempersiapkan model tersebut;
- Mengestimasi skenario perkiraan makroekonomi masa depan;
- Mengidentifikasi dan menentukan penyesuaian *post model* atas model KKE;
- Mengestimasi proyeksi arus kas masa depan dalam menghitung KKE individual; dan
- Menentukan beberapa skenario probabilitas tertimbang dalam menghitung KKE individual.

Lebih lanjut, pandemi COVID-19 yang berkepanjangan telah meningkatkan ketidakpastian estimasi ini dan tingkat pertimbangan yang diperlukan untuk digunakan dalam mengestimasi cadangan kerugian penurunan nilai.

Pengungkapan Bank mengenai cadangan kerugian penurunan nilai kredit yang diberikan, pembiayaan dan piutang syariah dijelaskan pada Catatan 2.m, 12 dan 13 atas laporan keuangan konsolidasian.

Bagaimana Audit Kami Merespons Hal Audit Utama

Kami melakukan prosedur-prosedur audit berikut untuk merespons hal audit utama ini:

1. Kami memahami dan menguji pengendalian yang relevan atas cadangan kerugian penurunan nilai atas kredit yang diberikan. Pengendalian tersebut meliputi:
   - Reviu dan persetujuan atas informasi bersifat perkiraan masa depan yang digunakan dalam model KKE;
   - Penggunaan elemen data penting yang andal dan akurat dalam model KKE;
   - Reviu dan persetujuan atas hasil KKE, termasuk penyesuaian model setelahnya yang diterapkan;
2. Kami memeriksa permodelan dan menilai kewajaran pertimbangan dan asumsi utama yang dibuat oleh manajemen dalam model dan parameter yang digunakan.

The significant judgements involved in determining the allowance for impairment losses include the following:

- *Determining whether a significant increase in credit risk has occurred or objective evidence of impairment was identified;*
- *Developing appropriate collective assessment models used to calculate ECL. The models are inherently complex, and management's judgement is applied in determining and preparing the models.*
- *Estimating forward-looking macroeconomic scenarios;*
- *Identifying and determining post model adjustments to the ECL model;*
- *Estimating future cash flow projection in the calculation of individual ECL; and*
- *Determining probability-weighted scenarios in assessing individual ECL.*

Further the prolonged COVID-19 pandemic has increased the uncertainty of these estimates and degree of judgement required to be exercised in estimating the allowance or impairment losses.

The Bank's disclosures regarding allowance for impairment losses of loans, and sharia financing and receivables are described in Notes 2.m, 12 and 13 to the consolidated financial statements.

How Our Audit Addressed the Key Audit Matters

We have performed the following audit procedures to address in this key audit matters:

1. *We understood and tested the relevant controls over allowance for impairment losses of loans. These controls include:*
   - *Review and approval of forward-looking information used in the ECL model;*
   - *Use of reliable and accurate critical data elements in the ECL model;*
   - *Review and approval of the ECL results, including post model adjustments applied;*
2. *We examined the modelling and assessed the reasonableness of key judgements and assumptions made by management in the model and parameters used.*

3. Kami memahami dan menguji pengendalian yang relevan atas identifikasi aset keuangan yang mengalami peningkatan risiko kredit secara signifikan atau bukti objektif penurunan nilai, melalui pengujian atas pengendalian penetapan kolektibilitas kredit yang diberikan, pembiayaan dan piutang syariah dan melakukan pemeriksaan secara sampling atas dokumen kredit yang diberikan, pembiayaan dan piutang syariah. Kami memeriksa sampel kredit yang diberikan, pembiayaan dan piutang syariah, yang diidentifikasi oleh Bank memiliki kualitas kredit yang lebih rendah, kredit yang direstrukturisasi, debitur yang terkena dampak COVID- 19 dan membuat penilaian independen kami apakah ada peningkatan risiko kredit secara signifikan atau terdapat bukti objektif penurunan nilai.

3. *We understood and tested the relevant controls over the identification of financial assets that have experienced a significant increase in credit risk or objective evidence of impairment by performing control testing over the collectability of loans, sharia financing and receivables and examining the credit files on a sampling basis. We examined sampled loans, sharia financing and receivables identified by the Bank as having lower credit quality, restructured loans, debtors impacted by COVID-19 and formed our own independent judgement as to whether there was a significant increase in credit risk or any objective evidence of impairment.*

4. Kami menilai kecukupan cadangan kerugian penurunan nilai yang dihitung secara individual dengan memeriksa baik jumlah dan waktu dari arus kas masa depan yang digunakan oleh Bank dalam perhitungan cadangan kerugian penurunan nilai, menguji rata-rata probabilitas tertimbang yang digunakan dalam menyusun arus kas, termasuk membandingkan jadwal pembayaran kembali dengan perjanjian kredit dan memeriksa ketepatan penggunaan faktor diskonto.

4. *We assessed the adequacy of individual allowance for impairment losses by examining both the quantum and timing of future cash flows used by the Bank in the allowance for impairment loss calculation, testing the probability-weighted scenarios used in preparing the cash flows, including comparing the repayment schedule to the credit agreement and checking the appropriateness of discount factor used.*

5. Kami menilai dan menguji metodologi dan asumsi pemodelan signifikan yang digunakan dalam model KKE kolektif, termasuk penentuan *probability of default, loss given default* dan *exposure at default*, yang mencakup: evaluasi model dan metodologi yang digunakan dalam perhitungan; evaluasi prakiraan makroekonomi Indonesia dengan membandingkan prakiraan dengan informasi yang tersedia untuk umum tentang prospek makroekonomi Indonesia; dan menguji kelengkapan dan keakuratan data yang digunakan dalam model dengan data aktual yang tersedia di Bank dan menguji keakuratan perhitungan KKE kolektif.

5. *We assessed and tested the methodologies and significant modelling assumptions inherent within the collective ECL models, which include determination of probability of default, loss given default and exposure at default, which involved evaluating the models and methodologies used in the calculations; evaluating the forecasts of Indonesia macroeconomics by comparing forecasts with publicly available information on the Indonesia macroeconomic outlook; and testing the completeness and accuracy of data used in the model with the actual data available within the bank and accuracy the calculation of the collective ECL.*

6. Kami menilai kecukupan cadangan kerugian penurunan nilai atas pembiayaan dan piutang syariah berdasarkan persentase tertentu untuk masing-masing kualitas pembiayaan dan piutang syariah dan menguji keakuratan perhitungannya.

6. *We assessed the adequacy of allowance for impairment losses of sharia financing and receivables based on specific percentage for each collectability and tested the accuracy of the calculation.*

Penekanan Suatu Hal
Kami membawa perhatian ke Catatan 56 atas laporan keuangan konsolidasian terlampir yang menjelaskan tentang kondisi perekonomian Indonesia yang terkena dampak dari pandemi global dan di Indonesia karena virus corona. Resolusi kondisi ekonomi ini tergantung pada tindakan Pemerintah dan Otoritas yang berada di luar kendali Bank. Oleh karena itu, pada saat ini dampak masa depan terhadap Bank belum dapat diperkirakan. Opini kami tidak dimodifikasi sehubungan dengan hal tersebut.

Emphasis of Matter
We draw attention to Note 56 to the accompanying consolidated financial statements which explains the condition of the Indonesian economy affected by the global and local pandemic due to the corona virus. The resolution of this economic conditions depends on the actions of the Government and the Authority which are beyond the Bank's controls. Therefore, the future impact on the Bank cannot be estimated at this time. Our opinion is not modified in respect of this matter.

Opini kami atas laporan keuangan tidak mencakup informasi lain, dan oleh karena itu, kami tidak menyatakan bentuk keyakinan apapun atas informasi lain tersebut.

Sehubungan dengan audit kami atas laporan keuangan, tanggung jawab kami adalah untuk membaca informasi lain yang teridentifikasi di atas, jika tersedia dan, dalam melaksanakannya, mempertimbangkan apakah informasi lain mengandung ketidakkonsistensian material dengan laporan keuangan atau pemahaman yang kami peroleh selama audit, atau mengandung kesalahan penyajian material.

Ketika kami membaca laporan tahunan, jika kami menyimpulkan bahwa terdapat suatu kesalahan penyajian material di dalamnya, kami diharuskan untuk mengomunikasikan hal tersebut kepada pihak yang bertanggung jawab atas tata kelola dan mengambil tindakan tepat berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia.

Other Information
Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditors' report thereon. The annual report is expected to be made available to us after the date of this auditors' report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants.

Tanggung Jawab Manajemen dan Pihak yang Bertanggung Jawab atas Tata Kelola terhadap Laporan Keuangan Konsolidasian
Manajemen bertanggung jawab atas penyusunan dan penyajian wajar laporan keuangan konsolidasian tersebut sesuai dengan Standar Akuntansi Keuangan di Indonesia, dan atas pengendalian internal yang dianggap perlu oleh manajemen untuk memungkinkan penyusunan laporan keuangan konsolidasian yang bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements
Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Dalam penyusunan laporan keuangan konsolidasian, manajemen bertanggung jawab untuk menilai kemampuan Bank dalam mempertahankan kelangsungan usahanya, mengungkapkan, sesuai dengan kondisinya, hal-hal yang berkaitan dengan kelangsungan usaha, dan menggunakan basis akuntansi kelangsungan usaha, kecuali manajemen memiliki intensi untuk melikuidasi Bank atau menghentikan operasi, atau tidak memiliki alternatif yang realistis selain melaksanakannya.

In preparing the consolidated financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Pihak yang bertanggung jawab atas tata kelola bertanggung jawab untuk mengawasi proses pelaporan keuangan konsolidasian Bank.

Those charged with governance are responsible for overseeing the Bank's consolidated financial reporting process.

Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan Konsolidasian

Tujuan kami adalah untuk memperoleh keyakinan memadai tentang apakah laporan keuangan konsolidasian secara keseluruhan bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan, dan untuk menerbitkan laporan auditor yang mencakup opini kami. Keyakinan memadai merupakan suatu tingkat keyakinan tinggi, tetapi bukan merupakan suatu jaminan bahwa audit yang dilaksanakan berdasarkan Standar Audit akan selalu mendeteksi kesalahan penyajian material ketika hal tersebut ada. Kesalahan penyajian dapat disebabkan oleh kecurangan maupun kesalahan dan dianggap material jika, baik secara individual maupun secara agregat, dapat diekspektasikan secara wajar akan mempengaruhi keputusan ekonomi yang diambil oleh pengguna berdasarkan laporan keuangan konsolidasian tersebut.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Sebagai bagian dari suatu audit berdasarkan Standar Audit, kami menerapkan pertimbangan profesional dan mempertahankan skeptisisme profesional selama audit. Kami juga:

- Mengidentifikasi dan menilai risiko kesalahan penyajian material dalam laporan keuangan konsolidasian, baik yang disebabkan oleh kecurangan maupun kesalahan, mendesain dan melaksanakan prosedur audit yang responsif terhadap risiko tersebut, serta memperoleh bukti audit yang cukup dan tepat untuk menyediakan basis bagi opini kami. Risiko tidak terdeteksinya kesalahan penyajian material yang disebabkan oleh kecurangan lebih tinggi dari yang disebabkan oleh kesalahan, karena kecurangan dapat melibatkan kolusi, pemalsuan, penghilangan secara sengaja, pernyataan salah, atau pengabaian pengendalian internal.
- Memperoleh suatu pemahaman tentang pengendalian internal yang relevan dengan audit untuk mendesain prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan opini atas keefektivitasan pengendalian internal Bank.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- *Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.*
- *Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.*

- Mengevaluasi ketepatan kebijakan akuntansi yang digunakan serta kewajaran estimasi akuntansi dan pengungkapan terkait yang dibuat oleh manajemen.
- Menyimpulkan ketepatan penggunaan basis akuntansi atas kelangsungan usaha oleh manajemen dan, berdasarkan bukti audit yang diperoleh, apakah terdapat suatu ketidakpastian material yang terkait dengan peristiwa atau kondisi yang dapat menyebabkan keraguan signifikan atas kemampuan Bank untuk mempertahankan kelangsungan usahanya. Ketika kami menyimpulkan bahwa terdapat suatu ketidakpastian material, kami diharuskan untuk menarik perhatian dalam laporan auditor kami ke pengungkapan terkait dalam laporan keuangan konsolidasian atau, jika pengungkapan tersebut tidak memadai, harus menentukan apakah perlu untuk memodifikasi opini kami. Kesimpulan kami didasarkan pada bukti audit yang diperoleh hingga tanggal laporan auditor kami. Namun, peristiwa atau kondisi masa depan dapat menyebabkan Bank tidak dapat mempertahankan kelangsungan usaha.
- Mengevaluasi penyajian, struktur, dan isi laporan keuangan konsolidasian secara keseluruhan, termasuk pengungkapannya, dan apakah laporan keuangan konsolidasian mencerminkan transaksi dan peristiwa yang mendasarinya dengan suatu cara yang mencapai penyajian wajar.
- Memperoleh bukti audit yang cukup dan tepat terkait informasi keuangan entitas atau aktivitas bisnis dalam Bank untuk menyatakan opini atas laporan keuangan konsolidasian. Kami bertanggung jawab atas arahan, supervisi, dan pelaksanaan audit atas laporan keuangan konsolidasian Bank. Kami tetap bertanggung jawab sepenuhnya atas opini audit kami.

Kami mengomunikasikan kepada pihak yang bertanggung jawab atas tata kelola mengenai, antara lain, ruang lingkup dan saat yang direncanakan atas audit, serta temuan audit signifikan, termasuk setiap defisiensi signifikan dalam pengendalian internal yang teridentifikasi oleh kami selama audit.

Kami juga memberikan suatu pernyataan kepada pihak yang bertanggung jawab atas tata kelola bahwa kami telah mematuhi ketentuan etika yang relevan mengenai independensi, dan mengomunikasikan seluruh hubungan, serta hal-hal lain yang dianggap secara wajar berpengaruh terhadap independensi kami, dan, jika relevan, pengamanan terkait.

- *Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.*
- *Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.*
- *Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.*
- *Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Bank to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of audit of the Bank's consolidated financial statement. We remain solely responsible for our audit opinion.*

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Dari hal-hal yang dikomunikasikan kepada pihak yang bertanggung jawab atas tata kelola, kami menentukan hal tersebut yang paling signifikan dalam audit atas laporan keuangan konsolidasian periode kini dan oleh karenanya menjadi hal audit utama. Kami menguraikan hal audit utama dalam laporan auditor kami, kecuali peraturan perundang-undangan melarang pengungkapan publik tentang hal tersebut atau ketika, dalam kondisi yang sangat jarang terjadi, kami menentukan bahwa suatu hal tidak boleh dikomunikasikan dalam laporan kami karena konsekuensi merugikan dari mengomunikasikan hal tersebut akan diekspektasikan secara wajar melebihi manfaat kepentingan publik atas komunikasi tersebut.

From the matters communicated with those charged with governance, we determine such matter that was of most significance in the audit of the consolidated financial statements of the current period and is therefore the key audit matter. We describe the matter in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

1. Informasi Umum / *1. General Information*

a. Pendirian dan informasi umum Bank / *a. Establishment and general information about the Bank*

PT Bank Pembangunan Daerah Jawa Barat dan Banten Tbk ("Bank") didirikan berdasarkan Peraturan Pemerintah No. 33 tahun 1960 tentang penentuan perusahaan milik Belanda di Indonesia yang dikenakan nasionalisasi. Salah satu perusahaan milik Belanda yang berkedudukan di Bandung yaitu N.V. Denis (*De Eerste Nederlandsche Indische Shareholding)* terkena ketentuan tersebut dan diserahkan kepada Pemerintah Daerah Provinsi Daerah Tingkat I Jawa Barat. Bank telah mulai beroperasi secara komersial pada tanggal 20 Mei 1961.

PT Bank Pembangunan Daerah Jawa Barat dan Banten Tbk (the "Bank") was established based on the Government Regulation No. 33 year 1960 regarding the nationalization of a Dutch-owned company domiciled in Indonesia. The regulation applied to a Dutch - owned company, N.V. Denis (De Eerste Nederlandsche Indische Shareholding), which was then handed over to the Regional Government of West Java Province Level I. The Bank started its commercial operations on May 20, 1961.

Sebagai tindak lanjut dari Peraturan Pemerintah No. 33 tahun 1960, Pemerintah Daerah Provinsi Daerah Tingkat I Jawa Barat mendirikan Bank Karya Pembangunan, dengan Akta Notaris Noezar No. 152 tanggal 21 Maret 1961 dan No. 184 tanggal 13 Mei 1961 yang kemudian dikukuhkan dengan Surat Keputusan Gubernur Provinsi Jawa Barat No. 7/GKDN/BPD/61 tanggal 20 Mei 1961 dengan nama PD Bank Karya Pembangunan Daerah Jawa Barat. Berdasarkan Peraturan Daerah Provinsi Jawa Barat No. 11/PD-DPRD/72 tanggal 27 Juni 1972, kedudukan hukum PD Bank Karya Pembangunan Daerah Jawa Barat dikukuhkan sebagai Perusahaan Daerah yang berusaha di bidang perbankan. Selanjutnya, melalui Peraturan Daerah Provinsi Jawa Barat No. 1/DP-40/PD/1978 tanggal 27 Juni 1978, nama PD Bank Karya Pembangunan Daerah Jawa Barat diubah menjadi Bank Pembangunan Daerah Jawa Barat. Bank Pembangunan Daerah Jawa Barat mendapat sebutan "Bank Jabar" dan logo baru berdasarkan Peraturan Daerah No. 11 tahun 1995.

Following the Government Regulation No. 33 year 1960, the Regional Government of West Java Province Level I established Bank Karya Pembangunan, as covered by Notarial Deeds No. 152 dated March 21, 1961 and No. 184 dated May 13, 1961 of Noezar which was approved based on Decision Letter of the Governor of West Java Province No. 7/GKDN/BPD/61 dated May 20, 1961, using the name of PD Bank Karya Pembangunan Daerah Jawa Barat. Based on Provincial Government Regulation No. 11/PD-DPRD/72 dated June 27, 1972 of West Java Province, the legal status of PD Bank Karya Pembangunan Daerah Jawa Barat was changed to become a Regional Enterprise engaged in a banking business. Subsequently, based on Provincial Government Regulation No. 1/DP-40/PD/1978 dated June 27, 1978 of West Java Province, PD Bank Karya Pembangunan Daerah Jawa Barat changed its name to Bank Pembangunan Daerah Jawa Barat. Bank Pembangunan Daerah Jawa Barat obtained its trade name of "Bank Jabar" and a new logo based on Provincial Government Regulation No. 11 year 1995.

Berdasarkan Surat Keputusan Direksi Bank Indonesia No. 25/84/KEP/DIR tanggal 2 November 1992, Bank memperoleh status sebagai bank devisa.

Based on the Decision Letter No. 25/84/KEP/DIR dated November 2, 1992 of the Directors of Bank Indonesia, the Bank obtained the status of a foreign exchange bank.

Penyesuaian bentuk badan hukum Bank menjadi Perseroan Terbatas dinyatakan dalam Akta Notaris No. 4 tanggal 8 April 1999 yang dibuat di hadapan Notaris Popy Kuntari Sutresna, S.H., M. Hum., yang telah mendapatkan pengesahan dari Menteri Kehakiman dengan Surat Keputusan No. C2-7103.HT.01.01.TH.99 tanggal 16 April 1999 dan diumumkan dalam Berita Negara Republik Indonesia No. 39 tanggal 14 Mei 1999.

The change in the Bank's legal status to a Limited Liability Corporation was stated under Notarial Deed No. 4 dated April 8, 1999 of Popy Kuntari Sutresna, S.H., M. Hum., which was approved by the Minister of Justice in its Decision Letter No. C2-7103.HT.01.01.TH.99 dated April 16, 1999 and was published in the State Gazette No. 39 dated May 14, 1999 of the Republic of Indonesia.

Pada tanggal 12 September 2007, nama Bank diubah menjadi PT Bank Pembangunan Daerah Jawa Barat dan Banten berdasarkan pengesahan dari Menteri Kehakiman dan Hak Asasi Manusia

2. Summary of Significant Accounting Policies

a. Basis of preparation of the consolidated financial statements

Statement of Compliance

The consolidated financial statements as of December 31, 2022 and 2021 and for the years ended December 31, 2022 and 2021 in accordance with Indonesian Financial Accounting Standards, which includes the Statements and Interpretations issued by the Financial Accounting Standards Board Indonesian Institute of Accountants and Bapepam-LK's Regulation No. VIII.G.7, Appendix of the Decision of the Chairman of Bapepam-LK No. KEP-347/BL/2012 dated June 25, 2012 regarding the "Guidelines on Financial Statements Presentations and Disclosures for Issuers or Public Companies".

Laporan keuangan disusun dan disajikan sesuai dengan Pernyataan Standar Akuntansi Keuangan ("PSAK"), yaitu PSAK 101 (Revisi 2019) tentang "Penyajian Laporan Keuangan Syariah", PSAK 102 (Revisi 2019) tentang "Akuntansi Murabahah", PSAK 104 tentang "Akuntansi Istishna", PSAK 105 tentang "Akuntansi Mudharabah", PSAK 106 tentang "Akuntansi Musyarakah", PSAK 107 (Revisi 2016) tentang "Akuntansi Ijarah", PSAK 110 (Revisi 2020) tentang "Akuntansi Sukuk", PSAK 111 tentang "Akuntansi Wa'ad", Pedoman Akuntansi Perbankan Syariah Indonesia (PAPSI Revisi 2013. Bank juga menerapkan Standar Akuntansi Keuangan di Indonesia ("SAK"), yang ditetapkan Ikatan Akuntan Indonesia (IAI).

The financial statements have been The financial statements have been prepared and presented in accordance with the Statement of Financial Accounting Standards ("SFAS"), namely: SFAS 101 (Revised 2019), "Presentation of Sharia Financial Statements", SFAS 102 (Revised 2019), "Accounting for Murabahah", SFAS 104 "Accounting for Istishna", SFAS 105, "Accounting for Mudharabah", SFAS 106, "Accounting for Musyarakah", SFAS 107 (Revised 2016), "Accounting for Ijarah", SFAS 110 (Revised 2020) "Accounting for Sukuk", SFAS No. 111 "Accounting for Wa'ad", Indonesia Sharia Banking Accounting Guidelines (PAPSI Revised 2013). The Bank also applied Indonesian Financial Accounting Standards (FAS) issued by the Institute of Indonesia Chartered Accountants (IAI).

Laporan keuangan konsolidasian telah disajikan berdasarkan nilai historis, kecuali untuk beberapa akun yang dinilai menggunakan dasar pengukuran lain sebagaimana dijelaskan pada kebijakan akuntansi dari akun tersebut. Laporan keuangan konsolidasian disusun dengan dasar akrual, kecuali pendapatan dari istishna dan bagi hasil dari pembiayaan mudharabah dan musyarakah serta laporan arus kas konsolidasian.

The consolidated financial statements have been prepared on a historical cost basis, except for some accounts that were assessed using another measurement basis as explained in the accounting policies of the account. The consolidated financial statements have been prepared on accrual basis, except for the revenue from istishna and the profit sharing from the mudharabah and musyarakah financing and the consolidated statement of cash flow.

Laporan arus kas konsolidasian disusun menggunakan metode langsung dan arus kas dikelompokkan atas dasar aktivitas operasi, investasi dan pendanaan. Kas dan setara kas terdiri dari kas, giro pada Bank Indonesia dan giro pada bank lain, penempatan pada Bank Indonesia dan bank lain yang jatuh tempo dalam waktu 3 (tiga) bulan sejak tanggal perolehan, sepanjang tidak digunakan sebagai jaminan atas pinjaman yang diterima serta tidak dibatasi penggunaannya.

The consolidated statement of cash flows has been prepared using the direct method and the cash flows have been classified based on operating, investing, and financing activities. Cash and cash equivalents consist of cash, current accounts with Bank Indonesia and other banks, placements with Bank Indonesia and other banks maturing within 3 (three) months or less from the acquisition date, provided they are not used as collateral for borrowings nor restricted.

Mata uang penyajian yang digunakan dalam laporan keuangan konsolidasian adalah rupiah, yang merupakan mata uang fungsional. Angka-angka yang disajikan dalam laporan keuangan, kecuali bila dinyatakan secara khusus adalah dibulatkan dalam jutaan Rupiah.

The presentation currency used in the consolidated financial statements is Indonesian rupiah, which is the Bank and its subsidiaries' functional currency. Unless otherwise stated, all figures presented in the consolidated financial statements are rounded off to millions of Rupiah.

b. Prinsip konsolidasian

Laporan keuangan konsolidasian mencakup laporan keuangan Bank dan entitas anak seperti disebutkan pada Catatan 1.g.

Entitas anak adalah entitas yang dikendalikan oleh Bank, yakni Bank terekspos, atau memiliki hak atas imbal hasil variabel dari keterlibatannya dengan entitas dan memiliki kemampuan untuk mempengaruhi imbal hasil tersebut melalui kemampuan kini untuk mengarahkan aktivitas relevan dari entitas (kekuasaan atas *investee*).

b. Principles of consolidation

The consolidated financial statements incorporate the financial statements of the Bank and its subsidiaries as described in Note 1.g.

A subsidiary is an entity controlled by the Bank, the Bank is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its current ability to direct the entity's relevant activities (power over the investee).

Keberadaan dan dampak dari hak suara potensial dimana Bank memiliki kemampuan praktis untuk melaksanakan (yakni hak substantif) dipertimbangkan saat menilai apakah Bank mengendalikan entitas lain.

The existence and effect of substantive potential voting rights that the Bank has the practical ability to exercise (ie substantive rights) are considered when assessing whether the Bank controls another entity.

Laporan keuangan Bank dan entitas anak mencakup hasil usaha, arus kas, aset dan liabilitas dari Bank dan seluruh entitas anak yang, secara langsung dan tidak langsung, dikendalikan oleh Bank. Entitas anak dikonsolidasikan sejak tanggal efektif akuisisi, yaitu tanggal dimana Bank dan entitas anak secara efektif memperoleh pengendalian atas bisnis yang diakuisisi, sampai tanggal pengendalian berakhir.

The Bank and its subsidiaries' financial statements incorporate the results, cash flows, assets, and liabilities of the Bank and all of its directly and indirectly controlled subsidiaries. Subsidiaries are consolidated from the effective date of acquisition, which is the date on which the Bank effectively obtains control of the acquired business, until that control ceases.

Entitas induk menyusun laporan keuangan konsolidasian dengan menggunakan kebijakan akuntansi yang sama untuk transaksi dan peristiwa lain dalam keadaan yang serupa. Seluruh transaksi, saldo, penghasilan, beban, dan arus kas dalam intra kelompok usaha terkait dengan transaksi antar entitas dalam kelompok usaha dieliminasi secara penuh.

A parent prepares consolidated financial statements using uniform accounting policies for like transactions and other events in similar circumstances. All intra-group transactions, balances, income, expenses, and cash flows relating to transactions between entities of the group are eliminated in full.

Bank dan entitas anak mengatribusikan laba rugi dan setiap komponen dari penghasilan komprehensif lain kepada pemilik entitas induk dan kepentingan non-pengendali meskipun hal tersebut mengakibatkan kepentingan non-pengendali memiliki saldo defisit. Bank dan entitas anak menyajikan kepentingan non-pengendali di ekuitas dalam laporan posisi keuangan konsolidasian, terpisah dari ekuitas pemilik entitas induk.

The Bank and its subsidiaries attributed the profit or loss and each component of other comprehensive income to the owners of the parent and non-controlling interest even though this results in the non-controlling interests having a deficit balance. The Bank and its subsidiaries presents non-controlling interest in equity in the consolidated statement of financial position, separately from the equity owners of the parent.

Perubahan dalam bagian kepemilikan entitas induk pada entitas anak yang tidak mengakibatkan hilangnya pengendalian adalah transaksi ekuitas (yaitu transaksi dengan pemilik dalam kapasitasnya sebagai pemilik). Ketika proporsi ekuitas yang dimiliki oleh kepentingan non-pengendali berubah, Bank dan entitas anak menyesuaikan jumlah tercatat kepentingan pengendali dan kepentingan non-pengendali untuk mencerminkan perubahan kepemilikan relatifnya dalam entitas anak. Selisih antara jumlah tercatat kepentingan non-pengendali yang disesuaikan dan nilai wajar dari jumlah yang diterima atau dibayarkan diakui langsung dalam ekuitas dan diatribusikan pada pemilik dari entitas induk.

Changes in the parent's ownership interest in a subsidiary that do not result in loss of control are equity transactions (ie transactions with owners in their capacity as owners). When the proportion of equity held by non-controlling interest change, the Bank and its subdidiaries adjusted the carrying amounts of the controlling interest and non-controlling interest to reflect the changes in their relative interest in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the parent.

Jika Bank dan entitas anak kehilangan pengendalian, maka Bank dan entitas anak akan:

a) Menghentikan pengakuan aset (termasuk *goodwill*) dan liabilitas entitas anak pada jumlah tercatatnya ketika pengendalian hilang;
b) Mengakui nilai wajar pembayaran yang diterima (jika ada) dari transaksi, peristiwa, atau keadaan yang mengakibatkan hilangnya pengendalian;
c) Mengakui sisa investasi pada entitas anak terdahulu pada nilai wajarnya pada tanggal hilangnya pengendalian;

If the Bank and its subsidiaries loses control, so Bank and its subsidiaries will:

(a) Derecognise the assets (including goodwill) and liabilities of the subsidiary at their carrying amounts at the date when control is lost;
(b) Recognise the fair value of the consideration received (if any) from the transaction, event or circumstances that resulted in the loss of control;
(c) Recognise any investment retained in the former subsidiary at fair value at the date when control is lost;

d) Mereklasifikasi ke laba rugi, atau mengalihkan secara langsung ke saldo laba jika disyaratkan oleh SAK lain, jumlah yang diakui dalam penghasilan komprehensif lain dalam kaitan dengan entitas anak;
e) Mengakui perbedaan apapun yang dihasilkan sebagai keuntungan atau kerugian dalam laba rugi yang diatribusikan kepada entitas induk.

(d) Reclassify to profit or loss, or transfer directly to retained earnings if required by other FAS, the amount recognized in other comprehensive income in relation to the subsidiary;

(e) Recognise any resulting difference as a gain or loss attributable to the parent.

c. Penjabaran mata uang asing

Transaksi dalam mata uang asing dijabarkan ke mata uang rupiah dengan menggunakan kurs yang berlaku pada tanggal transaksi. Pada tanggal laporan posisi keuangan konsolidasian, aset dan liabilitas moneter dalam mata uang asing dijabarkan dengan menggunakan kurs yang berlaku pada tanggal laporan posisi keuangan konsolidasian.

Keuntungan dan kerugian selisih kurs yang timbul dari transaksi dalam mata uang asing dan dari penjabaran aset dan liabilitas moneter dalam mata uang asing diakui dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian tahun berjalan.

Laba atau rugi kurs valuta asing atas aset dan liabilitas moneter merupakan selisih antara biaya perolehan diamortisasi dalam rupiah pada awal tahun, disesuaikan dengan tingkat suku bunga efektif dan pembayaran selama tahun berjalan, dan biaya perolehan diamortisasi dalam valuta asing yang dijabarkan ke dalam rupiah dengan menggunakan kurs pada akhir tahun.

Aset dan liabilitas non-moneter dalam mata uang asing dijabarkan dengan menggunakan kurs pada tanggal transaksi.

Berikut ini adalah kurs mata uang asing utama yang digunakan untuk penjabaran dalam rupiah pada 31 Desember 2022 dan 2021 yang menggunakan kurs tengah berdasarkan *Reuters* (pukul 16.00 Waktu Indonesia Barat) (dalam Rupiah penuh).

c. Foreign currency translation

Transactions denominated in foreign currencies are converted into rupiah at the exchange rates prevailing at the dates of the transactions. At the consolidated statement of financial position, monetary assets and liabilities denominated in foreign currencies are translated at the exchange rates prevailing at such date.

Exchange gains and losses arising from transactions denominated in foreign currencies and from the translation of monetary assets and liabilities denominated in foreign currencies are recognized in the consolidated statement of profit and loss and other comprehensive income for the current year.

The foreign currency gains or losses on monetary assets and liabilities are the difference between amortized cost in rupiah at the beginning of the year, adjusted for effective interest rate and payments during the year, and the amortized cost in foreign currency translated into rupiah using the exchange rate at the end of the year.

Non-monetary assets and liabilities denominated in foreign currencies are translated using the exchange rates prevailing at the transaction date.

Below are the major exchange rates used for translation into rupiah as of December 31, 2022 and 2021 using the middle rates based on Reuters (at 04:00 PM Western Indonesian Time) (in full amount).

Bank dan entitas anak, menerapkan PSAK 60 (Revisi 2020), "Instrumen Keuangan: Pengungkapan". Penerapan PSAK ini tidak menimbulkan pengaruh yang signifikan terhadap pelaporan keuangan dan pengungkapan dalam laporan keuangan konsolidasian.

Bank dan entitas anak menerapkan PSAK 68, "Pengukuran Nilai Wajar". Penerapan PSAK ini mendefinisikan nilai wajar, menetapkan dalam satu pernyataan, suatu kerangka pengukuran nilai wajar dan mensyaratkan pengungkapan mengenai pengukuran dan hierarki nilai wajar.

Bank dan entitas anak selain BJBS menerapkan PSAK 71, "Instrumen Keuangan", yang menggantikan PSAK 55, "Instrumen Keuangan: Pengakuan dan Pengukuran".

(i) Klasifikasi

Bank dan entitas anak mengklasifikasikan aset keuangannya berdasarkan kategori sebagai berikut pada saat pengakuan awal:

1. Aset keuangan yang diukur pada nilai wajar melalui laba rugi;
2. Aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain;
3. Aset keuangan yang diukur pada biaya perolehan diamortisasi.

Model bisnis merefleksikan bagaimana kelompok aset keuangan dikelola untuk mencapai tujuan bisnis tertentu.

d. Financial assets and liabilities

The Bank and its subsidiaries' financial assets consist of cash, current accounts with Bank Indonesia, current accounts with other banks, placements with Bank Indonesia and other banks, derivative receivables, marketable securities, marketable securities purchased under agreements to resell, bills and other receivables, loans and sharia financing and receivable, acceptances receivable, investments in shares, interest receivables, and other assets (guarantee deposit).

The Bank and its subsidiaries' financial liabilities consist of obligations due immediately, deposits from customers, deposits from customers sharia, deposits from other banks, derivative payable, marketable securities sold under agreement to repurchase, acceptances payable, debt securities issued, borrowings, interest payable, other liabilities.

The Bank and its subsidiaries, adopted SFAS 60 (Revised 2020), "Financial Instruments: Disclosures". The adoption of the SFAS has no significant effects on the financial reporting and disclosures in the consolidated financial statement.

The Bank and its subsidiaries adopted SFAS 68, "Fair Value Measurement". The adoption of the SFAS defines fair value, establishes in a statement, a framework to measure fair value and requires disclosures on fair value measurement and hierarchy.

The Bank and its subsidiaries exclude BJBS adopted SFAS 71, "Financial Instruments", which replaced SFAS 55, "Financial Instruments: Recognition and Measurement".

(i) Classification

The Bank and its subsidiaries classify its financial assets according to the following categories at initial recognition:

1. *Financial assets measured at fair value through profit or loss;*
2. *Financial assets measured at fair value through other comprehensive income;*
3. *Financial assets measured at amortized cost.*

The business model reflects how Bank and its subsidiaries of financial assets are managed to achieve a particular business objective.

Bank dan entitas anak melakukan pengujian karakteristik arus kas kontraktual dari aset keuangan yang dikelola untuk mengetahui karakteristik arus kas kontraktual berasal hanya dari pembayaran pokok dan bunga dari jumlah pokok terutang *(Solely Payment of Principal and Interest* atau *Pass SPPI)* yang konsisten dengan pengaturan pinjaman dasar *(Basic Lending Agreement).* Dalam melakukan penilaian, Bank dan entitas anak mempertimbangkan:

- Imbalan untuk nilai waktu dari uang;
- *Leverage*;
- Variabilitas pada waktu dan jumlah arus kas;
- Instrumen yang terkait secara kontraktual;
- Pembayaran dipercepat;
- Ketentuan kontrak tidak sah dan *de minimis*.

The Bank and its subsidiaries assess the contractual cash flow characteristics of financial assets to determine the characteristics of contractual cash flows only from the payment of principal and interest from the outstanding principal (Solely Payment of Principal and Interest or Pass SPPI) that is consistent with basic lending agreement. In making the assessment, the Bank and its subsidiaries considers:

- *The time value of money element of interest;*
- *Leverage;*
- *Variability in timing or amount of cash flows;*
- *Contractually linked instruments;*
- *Early repayment;*
- *Non-genuine features and de minimis.*

Aset keuangan diukur pada biaya perolehan diamortisasi jika kedua kondisi berikut terpenuhi:

- Aset keuangan yang dikelola dalam model bisnis yang bertujuan untuk memiliki aset keuangan dalam rangka mendapatkan arus kas kontraktual; dan
- Arus kas kontraktual tersebut semata dari pembayaran pokok dan bunga (SPPI).

Financial assets are measured at amortized cost if both of the following conditions are met:

- *Financial assets are managed where the business model objectives in order to collect the contractual cash flows; and*
- *The contractual cash flows are solely payments of principal and interest (SPPI).*

Aset keuangan diukur pada nilai wajar melalui penghasilan komprehensif lain (FVTOCI) jika kedua kondisi berikut:

- Aset keuangan yang dikelola untuk mendapatkan arus kas kontraktual dan menjual aset keuangan; dan
- Arus kas kontraktual tersebut semata dari pembayaran pokok dan bunga (SPPI).

Financial assets are measured at fair value through other comprehensive income (FVTOCI) if both of the following conditions are met:

- *Financial assets are managed to collect the contractual cash flows and sell the assets; and*
- *The contractual cash flows are solely payments of principal and interest (SPPI).*

Aset keuangan diklasifikasikan pada nilai wajar melalui laba rugi (FVTPL) jika tidak memenuhi kondisi yang disyaratkan untuk diukur pada biaya perolehan diamortisasi atau nilai wajar melalui penghasilan komprehensif lain.

Financial assets are measured at fair value through profit or loss (FVTPL) if do not meet the conditions required to be measured at amortized cost or fair value through other comprehensive income.

Pada saat pengakuan awal, Bank dan entitas anak dapat membuat pilihan yang tidak dapat dibatalkan untuk menyajikan instrumen ekuitas yang bukan dimiliki untuk diperdagangkan pada nilai wajar melalui penghasilan komprehensif lain.

At initial recognition, the Bank and its subsidiaries may make an irrevocable choice to present equity instruments that are not held for trading at fair value through other comprehensive income.

Liabilitas keuangan diklasifikasikan ke dalam kategori sebagai berikut pada saat pengakuan awal:

I. Liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi, yang memiliki 2 (dua) sub-klasifikasi, yaitu liabilitas keuangan yang ditetapkan demikian pada saat pengakuan awal dan diklasifikasikan dalam kelompok diperdagangkan;
II. Liabilitas keuangan lain. Liabilitas keuangan lainnya merupakan liabilitas keuangan yang tidak dimiliki untuk dijual atau ditentukan sebagai nilai wajar melalui laba rugi saat pengakuan liabilitas.

Financial liabilities are classified into the following categories at initial recognition:

I. Financial liabilities at fair value through profit or loss, which has 2 (two) sub-classifications, i.e. those designated as such upon initial recognition and those classified as held for trading;

II. Other financial liabilities. Other financial liabilities pertain to financial liabilities that are not held for trading nor designated as at fair value through profit or loss upon recognition of the liability.

(ii) Pengakuan awal

a. Pembelian atau penjualan aset keuangan yang memerlukan penyerahan aset dalam kurun waktu yang telah ditetapkan oleh peraturan dan kebiasaan yang berlaku di pasar (pembelian secara reguler) diakui pada tanggal penyelesaian, seperti tanggal perusahaan berkomitmen untuk membeli atau menjual aset.

b. Aset keuangan dan liabilitas keuangan pada awalnya diukur pada nilai wajarnya. Dalam hal aset keuangan atau liabilitas keuangan tidak diukur pada nilai wajar melalui laporan laba rugi, nilai wajar tersebut ditambah biaya transaksi yang dapat diatribusikan secara langsung. Pengukuran aset keuangan dan liabilitas keuangan setelah pengakuan awal tergantung pada klasifikasinya.

(ii) Initial recognition

a. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way purchases) are recognized on the settlement date, i.e., the date that the companies commit to purchase or sell the assets.

b. Financial assets and liabilities are initially recognized at fair value. For those financial assets and liabilities not measured at fair value through profit and loss, plus directly attributable transaction costs. The subsequent measurement of financial assets and liabilities depends on their classification.

Biaya transaksi hanya meliputi biaya-biaya yang dapat diatribusikan secara langsung untuk perolehan suatu aset keuangan atau penerbitan suatu liabilitas keuangan dan merupakan biaya tambahan yang tidak akan terjadi apabila instrumen keuangan tersebut tidak diperoleh atau diterbitkan. Untuk aset keuangan, biaya transaksi ditambahkan pada jumlah yang diakui pada awal pengakuan aset, sedangkan untuk liabilitas keuangan, biaya transaksi dikurangkan dari jumlah utang yang diakui pada pengakuan awal liabilitas. Biaya transaksi tersebut diamortisasi selama umur instrumen berdasarkan metode suku bunga efektif dan dicatat sebagai bagian dari pendapatan bunga untuk biaya transaksi sehubungan dengan aset keuangan atau sebagai bagian dari beban bunga untuk biaya transaksi sehubungan dengan liabilitas keuangan.

Transaction costs only include costs that are directly attributable to the acquisition of a financial asset or issuance of a financial liability and an additional charge that would not occur if the instrument is not acquired or issued. For financial assets, transaction costs are added to the amount recognized in the initial recognition of the asset, while for financial liabilities, transaction costs are deducted from the amount of debt recognized on initial recognition of a liability. The transaction costs are amortized over the terms of the instrument based on the effective interest rate method and recorded as part of interest income for transaction costs related to the financial asset or as part of interest expense for transaction costs related to financial liabilities.

Bank dan entitas anak, pada pengakuan awal, dapat menetapkan aset keuangan dan liabilitas keuangan tertentu sebagai nilai wajar melalui laba rugi (opsi nilai wajar). Opsi nilai wajar dapat digunakan hanya bila memenuhi ketetapan sebagai berikut:

- penetapan sebagai opsi nilai wajar mengurangi atau mengeliminasi ketidak-konsistenan pengukuran dan pengakuan (*accounting mismatch*) yang dapat timbul;
- aset keuangan dan liabilitas keuangan merupakan bagian dari portofolio instrumen keuangan yang risikonya dikelola dan dilaporkan kepada manajemen kunci berdasarkan nilai wajar; atau
- aset keuangan dan liabilitas keuangan terdiri dari kontrak utama dan derivatif melekat yang harus dipisahkan, tetapi tidak dapat mengukur derivatif melekat secara terpisah.

The Bank and its subsidiaries, upon initial recognition, may designate certain financial assets and liabilities, at fair value through profit or loss (fair value option). The fair value option is only applied when the following conditions are met:

- *the application of the fair value option reduces or eliminates an accounting mismatch that would otherwise arise;*
- *the financial assets and liabilities are part of a portfolio of financial instruments, the risks of which are managed and reported to key management on a fair value basis; or*
- *the financial assets and liabilities consist of a host contract and an embedded derivative that must be bifurcated, but unable to measure the embedded derivative separately.*

(iii) Pengukuran setelah pengakuan awal

Aset keuangan dalam kelompok aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain dan aset keuangan dan liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi diukur pada nilai wajarnya.

(iii) Subsequent measurement

Financial assets at fair value through other comprehensive income and financial assets and financial liabilities at fair value through profit or loss are measured at fair value.

Aset keuangan kelompok biaya perolehan diamortisasi dan liabilitas keuangan lainnya diukur pada biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif.

Financial assets classified as amortized cost and other financial liabilities measured at amortized cost using the effective interest rate method.

(iv) Penghentian pengakuan

a. Aset keuangan dihentikan pengakuannya jika:
   - Hak kontraktual atas arus kas yang berasal dari aset keuangan tersebut berakhir; atau

(iv) Derecognition

a. Financial assets are derecognized when:

- *The contractual rights to receive cash flows from the financial assets have expired; or*

- Bank dan entitas anak mentransfer hak untuk menerima arus kas yang berasal dari aset keuangan atau menanggung liabilitas untuk membayarkan arus kas yang diterima tersebut secara penuh tanpa penundaan berarti kepada pihak ketiga di bawah kesepakatan pelepasan (*pass-through arrangement*); dan
- Antara (a) Bank dan entitas anak telah mentransfer secara substansial seluruh risiko dan manfaat atas aset, atau (b) Bank dan entitas anak tidak mentransfer maupun tidak memiliki secara substansial seluruh risiko dan manfaat atas aset, namun telah mentransfer kendali atas aset.

Ketika Bank dan entitas anak telah mentransfer hak untuk menerima arus kas dari aset atau di bawah kesepakatan pelepasan (*pass-through arrangement*), dan tidak mentransfer serta tidak mempertahankan secara substansial seluruh risiko dan manfaat atas aset dan masih memiliki pengendalian atas aset, aset diakui sebesar keterlibatan Bank dan entitas anak yang berkelanjutan atas aset tersebut.

Kredit yang diberikan atau aset keuangan lain dihapusbukukan ketika tidak terdapat prospek yang realistis mengenai pengembalian kredit dalam waktu dekat atau hubungan normal dengan debitur telah berakhir. Kredit yang tidak dapat dilunasi dihapusbukukan dengan mendebit cadangan kerugian penurunan nilai.

b. Liabilitas keuangan dihentikan pengakuannya jika liabilitas keuangan tersebut berakhir, yaitu ketika liabilitas yang ditetapkan dalam kontrak dilepaskan atau dibatalkan atau kadaluwarsa.

Jika suatu liabilitas keuangan yang ada digantikan dengan yang lain oleh pemberi pinjaman yang sama pada keadaan yang secara substansial berbeda, atau berdasarkan suatu liabilitas yang ada yang secara substansial telah diubah, seperti pertukaran atau modifikasi yang diperlakukan sebagai penghentian pengakuan liabilitas awal dan pengakuan liabilitas baru, dan perbedaan nilai tercatat masing-masing diakui dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

- *The Bank and its subsidiaries have transferred its rights to receive cash flows from the financial assets or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through arrangement'; and*
- *Either (a) the Bank and its subsidiaries has transferred substantially all the risks and rewards of the asset, or (b) the Bank and its subsidiaries has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.*

When the Bank and its subsidiaries has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement and has neither transferred nor retained substantially all risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Bank and its subsidiaries' continuing involvement in the asset.

Loans or other financial assets are written off when there is no realistic prospect of collection in the near future or the normal relationship with the borrowers has ceased to exist. When a loan is deemed uncollectible, it is written off against the related allowance for impairment losses.

b. Financial liabilities are derecognized when they are extinguished, i.e. liabilities stated in the contract are released or cancelled or have expired.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the consolidated statement of profit and loss and other comprehensive income.

(v) Pengakuan pendapatan dan beban

a. Pendapatan dan beban bunga atas aset tersedia untuk dijual, serta aset keuangan dan liabilitas keuangan yang dicatat berdasarkan biaya perolehan diamortisasi diakui pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian dengan menggunakan metode suku bunga efektif.

b. Keuntungan dan kerugian yang belum direalisasi yang timbul dari perubahan nilai wajar aset keuangan dan liabilitas keuangan yang diukur pada nilai wajar melalui laporan laba rugi diakui pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

Keuntungan dan kerugian yang belum direalisasi yang timbul dari perubahan nilai wajar aset keuangan yang diklasifikasikan dalam kelompok tersedia untuk dijual kecuali keuntungan atau kerugian akibat perubahan nilai tukar diakui secara langsung dalam ekuitas, sampai aset keuangan tersebut dihentikan pengakuannya atau adanya penurunan nilai.

Pada saat aset keuangan dihentikan pengakuannya atau dilakukan penurunan nilai, keuntungan atau kerugian kumulatif yang sebelumnya diakui dalam ekuitas harus diakui pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

(vi) Reklasifikasi aset keuangan

Bank dan entitas anak mereklasifikasi aset keuangan jiika dan hanya jika, model bisnis untuk pengelolaan aset keuangan berubah.

Reklasifikasi aset keuangan dari klasifikasi biaya perolehan yang diamortisasi ke klasifikasi nilai wajar melalui laba rugi dicatat sebesar nilai wajarnya. Selisih antara nilai tercatat dengan nilai wajar diakui sebagai keuntungan atau kerugian pada laba rugi.

Reklasifikasi aset keuangan dari klasifikasi biaya perolehan yang diamortisasi ke klasifikasi nilai wajar melalui penghasilan komprehensif lain dicatat sebesar nilai wajarnya.

Reklasifikasi aset keuangan dari klasifikasi nilai wajar melalui penghasilan komprehensif lain ke klasifikasi nilai wajar melalui laba rugi dicatat pada wajar. Keuntungan atau kerugian yang belum direalisasi direklasifikasi ke laba rugi.

(v) Income and expense recognition

a. Interest income and expense on available-for-sale assets and financial assets and liabilities measured at amortized cost are recognised in the consolidated statement of profit and loss and other comprehensive income using the effective interest method.

b. Unrealized gains and losses arising from changes in the fair value of the financial assets and liabilities measured at fair value through profit or loss are included in the statement of profit and loss and other comprehensive income.

Unrealized gains and losses arising from changes in the fair value of available-for-sale financial assets other than foreign exchange gains and losses from monetary items are recognised directly in equity, until the financial asset is derecognized or impaired.

At the time the financial asset is derecognized or impaired, the cumulative gains or losses previously recognized in equity are recognized in consolidated statement of profit or loss and other comprehensive income.

(vi) Reclassification of financial assets

The Bank and its subsidiaries reclassifies financial assets if and only if, the business model for managing financial assets changes.

Reclassifications of financial assets from amortized cost classifications to fair value through profit or loss are recorded at fair value. The difference between the recorded value and fair value is recognized in profit or loss on the statement of profit or loss and other comprehensive income.

Reclassifications of financial assets from amortized cost classifications to fair value classifications through other comprehensive are recorded at their fair values.

Reclassification of financial asseets from fair value classification through other comprehensive income to fair value classification through profit or loss is recorded at fair value. Unrealized gains or losses are reclassified to profit or loss.

Reklasifikasi aset keuangan dari klasifikasi nilai wajar melalui penghasilan komprehensif lain ke klasifikasi biaya perolehan yang diamortisasi dicatat pada nilai tercatat. Keuntungan atau kerugian yang belum direalisasi dihapus dari ekuitas dan disesuaikan terhadap nilai wajar.

Reclassification of financial assets from fair value classifications through other comprehensive income to the amortized cost classification is recorded at carrying value. Unrealized gains or losses is removed from equity and adjusted agains the fair value.

Reklasifikasi aset keuangan dari klasifikasi nilai wajar melalui laba rugi ke klasifikasi nilai wajar melalui penghasilan komprehensif lain dicatat pada nilai wajar.

Reclassifications on financial assets from fair value classification through profit or loss to fair value classification through other comprehensive income are recorded at fair value.

Reklasifikasi aset keuangan dari klasifikasi nilai wajar melalui laba rugi ke klasifikasi biaya perolehan yang diamortisasi dicatat pada nilai wajar.

Reclassification of financial assets from fair value classification through profit or loss to amortized cost classification is recorded at fair value.

(vii) Saling hapus
Aset keuangan dan liabilitas keuangan dilakukan saling hapus dan nilai bersihnya disajikan dalam laporan posisi keuangan konsolidasian jika, dan hanya jika, Bank dan entitas anak memiliki hak yang berkekuatan hukum untuk melakukan saling hapus atas jumlah yang telah diakui tersebut dan adanya maksud untuk menyelesaikan secara neto atau untuk merealisasikan aset dan menyelesaikan liabilitasnya secara simultan.

(vii) Offsetting
Financial assets and liabilities are off-set and the net amount is presented in the consolidated statement of financial position when, and only when, the Bank and its subsidiaries have a legal right to off-set the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

Pendapatan dan beban disajikan dalam jumlah bersih hanya jika diperkenankan oleh Standar Akuntansi Keuangan.

Income and expenses are presented on a net basis only when permitted by the Financial Accounting Standards.

(viii) Pengukuran biaya diamortisasi
Biaya perolehan diamortisasi dari aset keuangan atau liabilitas keuangan adalah jumlah aset keuangan atau liabilitas keuangan yang diukur pada saat pengakuan awal dikurangi pembayaran pokok pinjaman, ditambah atau dikurangi amortisasi kumulatif menggunakan metode suku bunga efektif yang dihitung dari selisih antara nilai pengakuan awal dan nilai jatuh temponya, dan dikurangi penurunan nilai.

(viii) Amortized cost measurement
The amortized cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortization using the effective interest rate method of any difference between the initial amount recognized and the maturity amount, minus any reduction for impairment.

(ix) Pengukuran nilai wajar
Nilai wajar adalah harga yang akan diterima untuk menjual suatu aset atau harga yang akan dibayar untuk mengalihkan suatu liabilitas dalam transaksi teratur antara pelaku pasar pada tanggal pengukuran.

(ix) Fair value measurement
Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Pengukuran nilai wajar mengasumsikan bahwa transaksi untuk menjual aset atau mengalihkan liabilitas terjadi:

- di pasar utama untuk aset dan liabilitas tersebut; atau
- jika tidak terdapat pasar utama, dipasar yang paling menguntungkan untuk aset atau liabilitas tersebut.

The fair value measurement is based on the presumption that the transaction to sell an asset or paid to transfer a liability takes place either:

- *in the principal market for the assets and liabilities; or*
- *in the absence of a principal market, in the most advantageous market for the asset or liability.*

Nilai wajar suatu aset atau liabilitas diukur menggunakan asumsi yang akan digunakan pelaku pasar ketika menentukan harga aset dan liabilitas tersebut dengan asumsi bahwa pelaku pasar bertindak dalam kepentingan ekonomi terbaiknya.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when determining the price of the asset and liability assuming that market participants act in their own economic best interest.

Pengukuran nilai wajar aset non-keuangan memperhitungkan kemampuan pelaku pasar untuk menghasilkan manfaat ekonomi dengan menggunakan aset dalam penggunaan tertinggi dan terbaiknya atau dengan menjualnya kepada pelaku pasar lain yang akan menggunakan aset tersebut dalam penggunaan tertinggi dan terbaiknya.

A fair value measurement of non-financial assets considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to other market participants that would use the asset in its highest and best use.

Bank dan entitas anak menggunakan teknik penilaian yang sesuai dalam keadaan dan dimana data yang memadai tersedia untuk mengukur nilai wajar, memaksimalkan penggunaan input yang dapat diobservasi yang relevan dan meminimalkan penggunaan input yang tidak dapat diobservasi.

The Bank and its subsidiaries use valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

Pada saat nilai wajar dari *unlisted equity instruments* tidak dapat ditentukan dengan andal, instrumen tersebut dinilai sebesar biaya perolehan dikurangi dengan penurunan nilai. Nilai wajar atas pinjaman yang diberikan dan piutang, serta liabilitas kepada bank dan nasabah ditentukan menggunakan nilai berdasarkan arus kas kontraktual, dengan mempertimbangkan kualitas kredit, likuiditas, dan biaya.

In cases when the fair value of unlisted equity instruments cannot be determined reliably, the instruments are carried at cost less impairment value. The fair value for loans and receivables as well as liabilities to banks and customers are determined using a present value model on the basis of contractually agreed cash flows, taking into account credit quality, liquidity and costs.

Semua aset dan liabilitas dimana nilai wajar diukur atau diungkapkan dalam laporan keuangan konsolidasian dapat dikategorikan pada level hierarki nilai wajar, berdasarkan tingkatan input terendah yang signifikan atas pengukuran nilai wajar secara keseluruhan:

- Level 1: harga kuotasian (tanpa penyesuaian) di pasar aktif untuk aset atau liabilitas yang identik yang dapat diakses pada tanggal pengukuran;
- Level 2: input selain harga kuotasian yang termasuk dalam level 1 yang dapat diobservasi untuk aset dan liabilitas, baik secara langsung atau tidak langsung;
- Level 3: input yang tidak dapat diobservasi untuk aset dan liabilitas.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are classified within fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole:

- *Level 1: quoted (unadjusted) market prices in active markets for identical assets or liabilities accessible at the measurement date;*
- *Level 2: inputs other than quoted prices included in level 1 for the asset and liability, which is directly or indirectly observable;*
- *Level 3: unobservable inputs for the asset and liability.*

Untuk aset dan liabilitas yang diakui pada laporan keuangan konsolidasian secara berulang, Bank dan entitas anak menentukan apakah terjadi transfer antara level di dalam hierarki dengan cara mengevaluasi kategori (berdasarkan input level terendah yang signifikan dalam pengukuran nilai wajar) setiap akhir periode pelaporan.

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, Bank and its subsidiaries determine whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Untuk tujuan pengungkapan nilai wajar, Bank dan entitas anak telah menentukan kelas aset dan liabilitas berdasarkan sifat, karakteristik, risiko aset dan liabilitas, dan level hierarki nilai wajar (Catatan 40).

For the fair value disclosures purposes, Bank and its subsidiaries has determined classes of assets and liabilities based on the nature, characteristics, risks of the asset and liability, and the level of the fair value hierarchy (Note 40).

(x) Aset Keuangan Sukuk

Pada saat pengakuan awal, Bank dan entitas anak menentukan klasifikasi investasi pada sukuk diukur pada biaya perolehan atau diukur pada nilai wajar.

   - *Sukuk acquisition cost includes transaction cost;*
   - *The difference between the acquisition cost and the nominal value is amortized on a straight-line basis over the period of the sukuk;*
   - *Impairment loss is recognized if the recoverable amount is less than the carrying amount and is presented as an impairment loss in the consolidated statement of profit or loss and other comprehensive income.*

b. Measured at fair value through profit or loss
   - *The fair value is determined with reference to the following order:*
     - *Quoted price in active market;*
     - *Price from the current transaction, if there is no available price quotations in an active market;*
     - *Fair value of similar instrument, if there is no available price quotations in an active market and no price from the current transaction.*
   - *Sukuk acquisition cost does not include transaction cost;*
   - *The difference between fair value and carrying value is presented in the consolidated statement of profit or loss and other comprehensive income.*

c. Diukur pada nilai wajar melalui penghasilan komprehensif lain
   - Selisih antara biaya perolehan dan nilai nominal Sukuk diamortisasi secara garis lurus selama jangka waktu Sukuk;
   - Selisih antara nilai wajar dan nilai tercatat dari investasi Sukuk diakui sebagai penghasilan komprehensif lain.

Semua investasi sukuk dilakukan dengan akad ijarah.

c. *Measured at fair value through other comprehensive income*

m. Identifikasi dan pengukuran penurunan nilai atas aset keuangan

Bank dan entitas anak mengakui penyisihan kerugian kredit ekskpektasian pada instrumen keuangan yang tidak diukur pada nilai wajar melalui laba rugi.

m. Identification and measurement of impairment for financial assets

The Bank and its subsidiaries recognize the allowance for expected credit losses on financial instruments that are not measured at fair value through profit or loss.

Tidak ada penyisihan kerugian kredit ekspektasian pada investasi instrumen ekuitas.

Bank dan entitas anak mengukur cadangan kerugian sejumlah kerugian kredit ekspektasian sepanjang umurnya, kecuali untuk hal berikut, diukur sejumlah kerugian kredit ekspektasian 12 bulan:

i. Instrumen utang yang memiliki risiko kredit rendah pada tanggal pelaporan; dan
ii. Instrumen keuangan lainnya yang risiko kreditnya tidak meningkat secara signifikan sejak pengakuan awal.

Bank dan entitas anak menganggap instrumen utang memiliki risiko kredit yang rendah ketika peringkat risiko kreditnya setara dengan definisi *investment grade* yang dipahami secara global.

Kerugian kredit ekspektasian 12 bulan adalah bagian dari kerugian kredit ekspektasian sepanjang umurnya yang merepresentasikan kerugian kredit ekspektasian yang timbul dari peristiwa gagal bayar instrumen keuangan yang mungkin terjadi dalam 12 bulan setelah tanggal pelaporan.

Pengukuran kerugian kredit ekspektasian
Kerugian kredit ekspektasian adalah estimasi probabilitas tertimbang dari kerugian kredit yang diukur sebagai berikut:

i. aset keuangan yang tidak memburuk pada tanggal pelaporan, kerugian kredit ekspektasian diukur sebesar selisih antara nilai kini dari seluruh kekurangan kas (yaitu selisih antara arus kas yang terutang kepada Bank dan entitas anak sesuai dengan kontrak dan arus kas yang diperkirakan akan diterima oleh Bank dan entitas anak);
ii. aset keuangan yang memburuk pada tanggal pelaporan, kerugian kredit ekspektasian diukur sebesar selisih antara jumlah tercatat bruto dan nilai kini arus kas masa depan yang diestimasi;
iii. komitmen pinjaman yang belum ditarik, kerugian kredit ekspektasian diukur sebesar selisih antara nilai kini jumlah arus kas jika komitmen ditarik dan arus kas yang diperkirakan akan diterima oleh Bank dan entitas anak;
iv. kontrak jaminan keuangan, kerugian kredit ekspektasian diukur sebesar selisih antara pembayaran yang diperkirakan untuk mengganti pemegang atas kerugian kredit yang terjadi dikurangi jumlah yang diperkirakan dapat dipulihkan.

Aset keuangan yang direstrukturisasi
Jika ketentuan aset keuangan dinegosiasikan ulang atau dimodifikasi atau aset keuangan yang ada diganti dengan yang baru karena kesulitan keuangan peminjam, maka dilakukan penilaian apakah aset keuangan yang ada harus dihentikan pengakuannya dan kerugian kredit ekspektasian diukur sebagai berikut:

There is no allowance for expected credit losses on investment in equity instruments.

The Bank and its subsidiaries measure the allowance for losses for the lifetime of an expected credit losses, except for the following, which are measured according to 12 months expected credit losses:

i. Debt instruments that have low credit risk at the reporting date; and
ii. Other financial instruments for which credit risk has not increased significantly since initial recognition.

The Bank and its subsidiaries consider debt instruments to have low credit risk when the credit risk rating is at par with the globally understood definition of investment grade.

The 12-month expected credit loss is part of the expected credit loss throughout its lifetime that represents an expected credit loss arising from a default on financial instruments that might occur within 12 months after reporting date.

Measurement of expected credit losses
Expected credit loss is an estimate of the weighted probability of a credit loss measured as follows:

i. financial assets that do not deteriorate at the reporting date, the expected credit loss is measured at the difference between the present value of all cash shortages (i.e. the difference between the cash flows owed to the Bank and its subsidiaries in accordance with the contract and the cash flows expected to be received by the Bank and its subsidiaries);
ii. financial assets that deteriorate at the reporting date, the expected credit loss is measured at the difference between the gross carrying amount and the present value of estimated future cash flows;
iii. for undisbursed loan commitments, expected credit losses are measured at the difference between the present value of the amount of cash flow if the commitments is withdrawn and the cash flow expected to be received by the Bank and its subsidiaries;
iv. for financial guarantee contracts, expected credit losses are measured at the difference between the estimated payments to replace the holder for the credit losses incurred less the amount estimated to be recoverable.

Restructured financial assets
If the terms of the financial assets are renegotiated or modified or the existing financial assets are replaced with new ones due to the borrower's financial difficulties, an assessment is made whether recognition of existing financial assets must be derecognized and expected credit losses measured as follows:

i. Jika restrukturisasi tidak mengakibatkan penghentian pengakuan aset yang ada, maka arus kas yang diperkirakan yang timbul dari aset keuangan yang dimodifikasi dimasukkan dalam perhitungan kekurangan kas dari aset yang ada;
ii. Jika restrukturisasi akan menghasilkan penghentian pengakuan aset yang ada, maka nilai wajar aset baru diperlakukan sebagai arus kas akhir dari aset keuangan yang ada pada saat penghentian pengakuannya. Jumlah ini dimasukkan dalam perhitungan kekurangan kas dari aset keuangan yang ada yang didiskontokan dari tanggal penghentian pengakuan ke tanggal pelaporan menggunakan suku bunga efektif awal dari aset keuangan yang ada.

i. If the restructuring does not result in the termination of recognition of existing assets, then the estimated cash flows arising from the modified financial assets are included in the calculation of cash shortages of existing assets;
ii. If the restructuring will result in a derecognition of the existing assets, the fair value of the new asset is treated as the final cash flow of the existing financial assets at the time of derecognition. This amount is included in the calculation of cash shortages from existing financial assets which are discounted from the date of derecognition to the reporting date using the initial effective interest rate of the existing financial assets.

Aset keuangan yang memburuk
Pada setiap tanggal pelaporan, Bank dan entitas anak menilai apakah aset keuangan yang dicatat pada biaya perolehan diamortisasi dan aset keuangan instrumen utang yang dicatat pada nilai wajar melalui penghasilan komprehensif lain mengalami penurunan nilai kredit (memburuk). Aset keuangan memburuk ketika satu atau lebih peristiwa yang memiliki dampak merugikan atas estimasi arus kas masa depan dari aset keuangan telah terjadi.

Bukti objektif bahwa aset keuangan mengalami penurunan nilai meliputi wanprestasi atau tunggakan pembayaran oleh debitur, restrukturisasi kredit atau tagihan oleh Bank dan entitas anak dengan persyaratan yang tidak mungkin diberikan jika debitur tidak mengalami kesulitan keuangan, indikasi bahwa debitur atau penerbit akan dinyatakan pailit, hilangnya pasar aktif dari aset keuangan akibat kesulitan keuangan, atau data yang dapat diobservasi lainnya yang terkait dengan kelompok aset keuangan seperti memburuknya status pembayaran debitur atau penerbit dalam kelompok tersebut, atau kondisi ekonomi yang berkorelasi dengan wanprestasi atas aset dalam kelompok tersebut.

Credit-impaired financial assets
At each reporting date, the Bank and its subsidiaries assesses whether the financial assets recorded at amortized cost and the financial assets of debt instruments which are recorded at fair value through other comprehensive income are credit impaired (worsening). Financial assets deteriorate when one or more events that have an adverse effect on the estimated future cash flows of the financial assets have occurred.

Objective evidence that financial assets are impaired can include default or payment arrears by a borrower, restructuring of a loan or receivable by the Bank and its subsidiaries on terms that the Bank and its subsidiaries would not otherwise consider, indications that a borrower or issuer will enter bankruptcy, the disappearance of an active market for a security due to financial difficulties, or other observable data relating to a Bank and its subsidiaries of assets such as adverse changes in the payment status of borrowers or issuers in the Bank and its subsidiaries, or economic conditions that correlate with defaults in the Bank and its subsidiaries.

Aset keuangan yang dibeli atau yang berasal dari aset keuangan memburuk
Aset keuangan dikategorikan sebagai POCI apabila terdapat bukti objektif penurunan nilai pada saat pengakuan awal. Pada saat pengakuan awal, tidak ada penyisihan kerugian kredit yang diakui karena harga pembelian atau nilainya telah termasuk estimasi kerugian kredit sepanjang umurnya. Selanjutnya, perubahan kerugian kredit sepanjang umurnya, apakah positif atau negatif, diakui dalam laporan laba rugi sebagai bagian dari cadangan kerugian penurunan nilai.

Purchased or originated credit impaired financial assets – POCI
Financial assets are ategorized as POCI if there is objective evidence of impairment at initial recognition. At initial recognition, no allowance for credit losses is recognized because the purchase price or value has included lifetime estimated credit losses. Furthermore, changes in lifetime credit losses, whether positive or negative, are recognized in the statement of profit or loss as part of the allowance for impairment losses.

Penyajian penyisihan kerugian kredit ekspektasian dalam laporan posisi keuangan konsolidasian

Penyisihan kerugian kredit ekspektasian disajikan dalam laporan posisi keuangan konsolidasian sebagai berikut:

i. Aset keuangan yang diukur pada biaya perolehan diamortisasi, penyisihan kerugian kredit ekspektasian disajikan sebagai pengurang dari jumlah tercatat bruto aset;
ii. Komitmen pinjaman dan kontrak jaminan keuangan, penyisihan kerugian kredit ekspektasian disajikan sebagai provisi;
iii. Instrumen utang yang diukur pada nilai wajar melalui penghasilan komprehensif lain, penyisihan kerugian kredit ekspektasian tidak diakui dalam laporan posisi keuangan konsolidasian karena jumlah tercatat dari aset-aset ini adalah nilai wajarnya. Namun demikian penyisihan kerugian kredit ekspektasian diungkapkan dan diakui dalam penghasilan komprehensif lain.

Presentation of allowance for expected credit losses in the consolidated statements of financial position

Allowance for expected credit losses is presented in the consolidated statement of financial positions as follows:

i. Financial assets measured at amortized cost, allowance for expected credit losses is presented as a deduction from the gross carrying amount of the asset;
ii. Loan commitments and financial guarantee contracts, allowance for expected credit losses is presented as a provision;
iii. Debt instruments measured at fair value through other comprehensive income, allowance for expected credit losses are not recognized in the consolidated statement of financial position because the carrying amounts of these assets are at their fair values. However, allowance for expected credit losses is disclosed and recognized in other comprehensive income.

Penerimaan kembali atas aset keuangan yang telah dihapusbukukan

Ketika kredit yang diberikan tidak tertagih, pinjaman yang diberikan tersebut dihapusbuku dengan menjurnal balik cadangan kerugian penurunan nilai. Kredit yang diberikan tersebut dapat dihapus buku setelah semua prosedur yang diperlukan telah dilakukan dan jumlah kerugian telah ditentukan.

Penerimaan kembali atas aset keuangan yang telah dihapusbukukan pada tahun berjalan dikreditkan dengan menyesuaikan akun cadangan kerugian penurunan nilai. Penerimaan kembali atas aset keuangan yang telah dihapusbukukan pada tahun sebelumnya dicatat sebagai pendapatan operasional selain pendapatan bunga.

Bank dan entitas anak menggunakan nilai wajar agunan sebagai dasar arus kas masa datang apabila memenuhi salah satu kondisi berikut:

1. Kredit bersifat *collateral dependent*, yaitu jika pelunasan kredit hanya bersumber dari agunan;
2. Pengambilalihan agunan kemungkinan besar terjadi dan didukung dengan perjanjian legal pengikatan agunan.

Kerugian penurunan nilai atas aset keuangan yang dicatat pada biaya perolehan diamortisasi diukur sebesar selisih antara nilai tercatat aset keuangan dengan nilai kini estimasi arus kas masa datang yang didiskonto menggunakan suku bunga efektif awal dari aset keuangan tersebut. Jika kredit yang diberikan atau surat-surat berharga dimiliki hingga jatuh tempo memiliki suku bunga variabel, maka tingkat diskonto yang digunakan untuk mengukur setiap kerugian penurunan nilai adalah suku bunga efektif terkini.

Recoveries of written-off financial assets

When a loan is uncollectible, it is written off against the related allowance for impairment loss. Such loans are written off after all the necessary procedures have been completed and the amount of the loss has been determined.

The recoveries of written-off financial assets in the current year are credited by adjusting the allowance for impairment losses accounts. Recoveries of written-off financial assets from previous years are recorded as operational income other than interest income.

The Bank and its subsidiaries use the fair value of collateral as the basis for the future cash flow if one of the following conditions is met:

1. Loans are collateral dependent, i.e, if the source of loans repayment is only from collateral;
2. Foreclosure of collateral is most likely to occur and supported by legally binding collateral agreement.

Impairment losses on financial assets carried at amortized cost are measured as the difference between the carrying amount of the financial assets and present value of estimated future cash flows discounted at the financial assets original effective interest rate. If loans or held-to-maturity marketable securities have variable interest rate, the discount rate used to measure loss on impairment is the current effective interest rate.

Sebagai panduan praktis, Bank dan entitas anak dapat mengukur penurunan nilai berdasarkan nilai wajar instrumen dengan menggunakan harga pasar yang dapat diobservasi, dimana perhitungan nilai kini dari estimasi arus kas masa datang atas aset keuangan dengan agunan (*collateralized financial asset*) mencerminkan arus kas yang dapat dihasilkan dari pengambilalihan agunan dikurangi biaya-biaya untuk memperoleh dan menjual agunan, terlepas apakah pengambilalihan tersebut berpeluang terjadi atau tidak.

As a practical guidance, the Bank and its subsidiaries can measure the impairment based on the instrument's fair value by using observable market price, where the calculation of present value of estimated future cash flows on collateralized financial assets reflects the generated cash flow from the foreclosure of collateral net of costs to acquire and sell the collateral, regardless whether such acquisition occurs or not.

Kerugian penurunan nilai yang terjadi diakui pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian dan dicatat pada akun "Cadangan kerugian penurunan nilai" sebagai pengurang terhadap aset keuangan yang dicatat pada biaya perolehan diamortisasi.

Impairment losses are recognized in the consolidated statement of profit or loss and other comprehensive income and reflected in an "Allowance for impairment losses" account as a deduction from financial assets carried at amortized cost.

Pendapatan bunga atas aset keuangan yang mengalami penurunan nilai tetap diakui atas dasar suku bunga yang digunakan untuk mendiskonto arus kas masa datang dalam pengukuran kerugian penurunan nilai.

Interest income on the impaired financial assets continues to be recognized using the rate of interest used to discount the future cash flow for the purpose of measuring the impairment loss.

Ketika peristiwa yang terjadi setelah tanggal laporan posisi keuangan konsolidasian menyebabkan jumlah kerugian penurunan nilai berkurang, kerugian penurunan nilai yang sebelumnya diakui harus dipulihkan dan pemulihan tersebut diakui dalam laba rugi pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

When subsequent event causes the amount of impairment loss to decrease, the impairment loss is reversed through profit or loss in the consolidated statements of profit or loss and other comprehensive income.

Untuk aset keuangan yang tersedia untuk dijual, pada setiap tanggal laporan posisi keuangan konsolidasian, Bank dan entitas anak mengevaluasi apakah terdapat bukti objektif bahwa aset keuangan atau kelompok aset keuangan mengalami penurunan nilai. Penurunan yang signifikan atau penurunan jangka panjang atas nilai wajar investasi dalam instrumen ekuitas dibawah biaya perolehannya merupakan bukti objektif terjadinya penurunan nilai dan menyebabkan pengakuan kerugian penurunan nilai. Kerugian penurunan nilai atas efek-efek yang tersedia untuk dijual diakui dengan mengeluarkan kerugian kumulatif yang telah diakui secara langsung dalam ekuitas ke dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

For financial assets classified as available for sale, Bank and its subsidiaries assess on each consolidated statement of financial position reporting date whether there is objective evidence that a financial asset or a Bank and its subsidiaries of financial assets is impaired. In the case of equity instruments, a significant or prolonged decline in the fair value of the equity instruments below its cost is an objective evidence of impairment resulting in the recognition of an impairment loss. Impairment losses on available for sale marketable securities are recognized by transferring the cumulative loss that has been recognized directly in equity to the consolidated statement of profit or loss and other comprehensive income.

Jumlah kerugian kumulatif yang dikeluarkan dari ekuitas dan diakui pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian merupakan selisih antara biaya perolehan (setelah dikurangi dengan nilai pelunasan pokok dan amortisasi) dengan nilai wajar kini, dikurangi kerugian penurunan nilai aset keuangan yang sebelumnya telah diakui pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

The cumulative loss that has been removed from equity and recognized in the consolidated statement of profit or loss and other comprehensive income is the difference between the acquisition cost (net of any principal repayment and amortization) and the current fair value, less any impairment loss previously recognized in the consolidated statement of profit or loss and other comprehensive income.

Kerugian penurunan nilai yang diakui pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian atas investasi instrumen ekuitas yang diklasifikasikan sebagai instrumen ekuitas yang tersedia untuk dijual tidak boleh dipulihkan melalui pembalikan atas penurunan nilai sebelumnya pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian pada tahun berjalan.

Impairment losses recognized in the consolidated statement of profit or loss and other comprehensive income on available for sale equity instruments should not be recovered through a reversal of a previously recognized impairment loss in the current year consolidated statement of profit or loss and other comprehensive income.

Jika pada periode berikutnya, nilai wajar surat-surat berharga yang diklasifikasikan dalam kelompok tersedia untuk dijual yang mengalami penurunan nilai meningkat dan peningkatan tersebut dapat secara objektif dihubungkan dengan peristiwa yang terjadi setelah pengakuan kerugian penurunan nilai pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian, maka kerugian penurunan nilai tersebut harus dipulihkan dan pemulihan tersebut diakui pada tahun terjadinya.

If in a subsequent period, the fair value of an impaired available-for-sale marketable securities increased and the increase can be objectively related to an event occurring after the impairment loss was recognized in the consolidated statement of profit or loss and other comprehensive income, the impairment loss is reversed, with the amount of reversal recognized in the year it occurred.

Jika persyaratan kredit yang diberikan, piutang atau surat-surat berharga yang dimiliki hingga jatuh tempo dinegosiasi ulang atau dimodifikasi karena debitur atau penerbit mengalami kesulitan keuangan, maka penurunan nilai diukur dengan suku bunga efektif awal yang digunakan sebelum persyaratan diubah.

If the term on loans receivable or held-to-maturity marketable securities are renegotiated or modified since the debtor or issuer has financial difficulties, the impairment is measured with the original effective interest rate used before the modification of terms.

Jika pada suatu periode berikutnya, jumlah kerugian penurunan nilai berkurang dan pengurangan tersebut dapat dikaitkan secara objektif pada peristiwa yang terjadi setelah penurunan nilai diakui (seperti meningkatnya peringkat kredit debitur atau penerbit), maka kerugian penurunan nilai yang sebelumnya diakui harus dipulihkan, dengan menyesuaikan akun cadangan. Jumlah pemulihan aset keuangan diakui pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian pada tahun berjalan.

If in the next period, the amount of allowance for impairment losses is decreased and the decreased can be objectively related to an event that occurred after the recognition of the impairment losses (i.e. upgrade of debtor's or issuer's collectibility credit rating), the impairment losses that was previously recognized has to be reversed, by adjusting the allowance account. The reversal amount of financial assets is recognized in the current year consolidated statement of profit or loss and other comprehensive income.

Penerimaan kembali atas aset keuangan yang telah dihapusbukukan dicatat sebagai pendapatan operasional lainnya.

The recoveries of written-off financial assets are recorded as other operating income.

Sehubungan dengan kepatuhan terhadap Otoritas Jasa Keuangan (OJK), Bank dan entitas anak terkecuali Bank Jabar Banten Syariah menerapkan Peraturan Otoritas Jasa Keuangan (POJK) No.40/POJK.03/2019 tanggal 19 Desember 2019 tentang "Penilaian Kualitas Aset Bank Umum". The criterias for assessment of the value of collateral that can be deducted in the calculation of allowance for impairment losses are based on Bank Indonesia Regulations (PBI).

n. Tagihan dan liabilitas akseptasi

Tagihan dan liabilitas akseptasi merupakan transaksi *letter of credit* (L/C) yang diaksep oleh bank pengaksep (*accepting bank*). Tagihan akseptasi diklasifikasikan sebagai aset keuangan dalam kelompok biaya perolehan diamortisasi. Liabilitas akseptasi dikasifikasikan sebagai liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi.

Lihat Catatan 2d untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

n. Acceptance receivable and payable

Acceptance receivables and acceptance payable are Letter of Credit (L/C) transactions accepted by accepting bank Acceptance receivables are classified as financial assets measured at armotised cost. Acceptance liabilities are classified financial liabilities measured at amortised cost.

Refer to Note 2d for the accounting policies of financial assets and liabilities.

o. Penyertaan saham

Penyertaan saham merupakan penanaman dana dalam bentuk saham pada perusahaan non-publik yang bergerak di bidang jasa keuangan yang tidak melalui pasar modal untuk tujuan jangka panjang.

Perusahaan asosiasi adalah seluruh entitas di mana Bank dan entitas anak mempunyai pengaruh signifikan, namun tidak memiliki kendali atas entitas-entitas tersebut. Dalam hal ini, Bank dan entitas anak umumnya mempunyai persentase kepemilikan 20% sampai dengan 50% hak suara. Penyertaan saham pada perusahaan asosiasi dicatat dengan metode ekuitas dan pada awalnya dicatat sebesar harga perolehan dan disesuaikan dengan bagian Bank dan entitas anak atas laba atau rugi neto perusahaan asosiasi sesuai dengan jumlah persentase kepemilikan dan dikurangi dengan penerimaan dividen sejak tanggal akuisisi.

Untuk penyertaan saham dengan persentase kepemilikan di bawah 20%. Dengan metode ini, penyertaan saham dicatat sebesar biaya perolehan dikurangi dengan cadangan kerugian penurunan nilai, dan tidak memiliki pengaruh yang signifikan. Pendapatan dividen diakui pada saat keputusan pembagian dividen diumumkan.

Lihat Catatan 2d untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

o. Investment in shares

Investment in shares represent investments in non-publicly listed companies engaged in the financial services industry that not through capital market held for long term purposes.

Associated companies are all entities over which the Bank and its subsidiaries has significant influence but does not have control. Generally, the Bank and its subsidiaries' shareholding is between 20% and 50% of the voting rights. Investment in associates is recorded for under the equity method and are initially recognized at cost and adjusted for the Bank and its subsidiaries' share in net profit or loss of the associated companies less dividends received after the acquisition date.

Investments in shares with an ownership interest below 20%. Under this method, investments in shares are carried at cost less allowance for impairment losses and have no significant influence. Dividend income is recognized when the decision to distribute the dividend is declared.

Refer to Note 2d for the accounting policies of financial assets and liabilities.

p. Aset tetap, aset hak guna dan liabilitas sewa

Aset tetap awalnya diakui sebesar biaya perolehan, yang terdiri atas harga perolehan dan biaya-biaya tambahan yang dapat diatribusikan langsung untuk membawa aset ke lokasi dan kondisi yang diinginkan supaya aset tersebut siap digunakan sesuai dengan maksud manajemen.

Setelah pengakuan awal, aset tetap dinyatakan pada biaya perolehan dikurangi akumulasi penyusutan dan akumulasi rugi penurunan nilai.

Tanah awalnya dinyatakan sebesar biaya perolehan dan tidak disusutkan. Setelah pengakuan awal, tanah diukur pada nilai wajar pada tanggal revaluasi dikurangi akumulasi rugi penurunan nilai setelah tanggal revaluasi. Penilaian terhadap tanah dilakukan oleh penilai yang memiliki kualifikasi profesional, dan dilakukan secara berkala untuk memastikan bahwa jumlah tercatat tanah tidak berbeda secara material dengan jumlah yang ditentukan dengan menggunakan nilai wajarnya pada akhir periode pelaporan.

Kenaikan nilai tercatat yang timbul dari revaluasi dicatat sebagai "Surplus Revaluasi Aset Tetap", dan disajikan dalam penghasilan komprehensif lain. Namun, kenaikan tersebut diakui dalam laba rugi hingga sebesar jumlah penurunan nilai aset yang sama akibat revaluasi yang pernah dilakukan sebelumnya dalam laba rugi. Penurunan nilai tercatat yang timbul dari revaluasi diakui dalam laba rugi.

Revaluasi akan dilakukan dengan keteraturan yang cukup reguler untuk memastikan bahwa jumlah tercatat tidak berbeda secara material dari jumlah yang ditentukan dengan menggunakan nilai wajar pada akhir periode pelaporan. Jika perubahan nilai wajar tidak berbeda secara signifikan, aset tersebut akan direvaluasi paling kurang setiap 3 (tiga) atau 5 (lima) tahun sekali.

Aset tetap yang diperoleh dalam pertukaran aset nonmoneter atau kombinasi aset moneter dan nonmoneter diukur dalam nilai wajar, kecuali:

(i) transaksi pertukaran tidak memiliki substansi komersial, atau
(ii) nilai wajar dari aset yang diterima dan diserahkan tidak dapat diukur secara andal.

Penyusutan aset dimulai pada saat aset tersebut siap untuk digunakan sesuai maksud penggunaannya dan dihitung dengan menggunakan metode garis lurus, berdasarkan taksiran masa manfaat ekonomis aset tetap yang bersangkutan, sebagai berikut:

p. Fixed assets, right-of-use assets, and lease liability

Fixed assets are initially recognized at cost, which comprises its purchase price and any costs directly attributable in bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Subsequent to initial recognition, fixed assets are carried at cost less any subsequent accumulated depreciation and impairment losses.

Land is initially recognized at cost and not depreciated. Subsequent to initial recognition, land is measured at fair value at the revaluation date less any subsequent accumulated impairment losses. Valuation of land are performed by appraisers with professional qualification and is done in regular basis to ensure that the carrying amount does not differ materially from its fair value at the end of reporting period.

Increase in the carrying amount arising from revaluation is recorded in "Revaluation Surplus of Fixed Assets" and presented in other comprehensive income. However, the increase is recognized in profit or loss, up to the amount of impairment of the same assets due to revaluation previously recognised in profit or loss. A decrease in carrying value arising as a result of a revaluation should be recognised in profit or loss.

Revaluation is carried out with fairly regular regularity to ensure that the carrying amount does not differ materially from the amount determined using the fair value at the end of the reporting period. If the changes in fair value is insignificant, the asset will be revaluated at least between 3 (three) or 5 (five) years.

Fixed assets acquired in exchange for a non-monetary asset or for a combination of monetary and non-monetary assets are measured at fair values, unless:

(i) the exchange transaction lacks commercial substance, or
(ii) the fair value of neither the assets received, nor the assets given up can be measured reliably.

Depreciation of an asset starts when it is available for use and is computed using the straight-line method, based on the estimated useful lives of the assets, as follows:

	Tahun/*Years*	
Bangunan	20	*Buildings*
Kendaraan	4 - 8	*Vehicles*
Perlengkapan	4 - 8	*Office equipment*

Pada setiap akhir tahun buku, manajemen melakukan pengkajian ulang atas nilai residu, masa manfaat dan metode penyusutan dan disesuaikan secara prospektif, jika diperlukan.

At the year end, management conducts a re-assessment of the residual value, useful life and depreciation method and adjusted prospectively, if needed.

Jumlah tercatat komponen dari suatu aset tetap dihentikan pengakuannya pada saat dilepaskan atau saat sudah tidak ada lagi manfaat ekonomis masa depan yang diekspektasikan dari penggunaan maupun pelepasannya.

The carrying amount of an item of fixed assets is derecognized upon disposal or when no future economic benefits are expected from its use or disposal.

Keuntungan atau kerugian yang timbul dari penghentian pengakuan tersebut dimasukkan ke dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian untuk tahun penghentian pengakuan tersebut dilakukan.

Any gain or loss arising from the derecognition of the asset is directly included in the consolidated statement of profit or loss and other comprehensive income when the item is derecognized.

Beban pemeliharaan dan perbaikan dibebankan pada operasi pada saat terjadinya. Beban pemugaran dan penambahan dalam jumlah besar dikapitalisasi kepada jumlah tercatat aset tetap terkait bila besar kemungkinan manfaat ekonomi masa depan menjadi lebih besar dari standar kinerja awal yang ditetapkan sebelumnya dan disusutkan sepanjang sisa masa manfaat aset tetap terkait.

Repairs and maintenance is charged to the profit or loss as incurred. The cost of major renovation and restoration is capitalized to the carrying amount of the related fixed assets when it is probable that future economic benefits in excess of the originally assessed standard of performance of the existing asset and is depreciated over the remaining useful life of the related asset.

Aset hak guna dan liabilitas sewa
PSAK 73 memperkenalkan model akuntansi penyewa tunggal dan mensyaratkan penyewa untuk mengakui aset dan liabilitas untuk semua sewa dengan pengecualian sewa jangka pendek dan aset dengan nilai rendah. Penyewa diharuskan untuk mengakui aset hak-guna yang mewakili haknya untuk menggunakan aset sewaan dan liabilitas sewa yang mewakili kewajibannya untuk melakukan pembayaran sewa. PSAK 73 secara substansial masih menggunakan persyaratan akuntansi atas pesewa (*lessor*) sesuai PSAK 30 "Sewa". Oleh karena itu, penyewa masih akan menggunakan klasifikasi sewa dalam sewa operasi atau pembiayaan, dan perlakuan atas kedua tipe sewa tersebut.

Right-of-use assets and lease liabilities
SFAS 73 introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with the exemptions of short-term leases and the underlying asset is of low value. A lessee is required to recognize a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments. SFAS 73 substantially carries forward the lessor accounting requirements in SFAS 30 "Leases". Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently.

Dampak penerapan PSAK 73 adalah Bank dan entitas anak sebagai penyewa atas kontrak sewa properti dan kendaraan. Bank dan entitas anak telah memilih *simplified approach* dalam melakukan transisi dan tidak melakukan penyajian kembali untuk informasi komparatif. Dengan demikian, informasi komparatif tetap dilaporkan sesuai dengan PSAK 30, "Sewa".

The impact of SFAS 73 at the Bank and its subsidiaries is where the Bank and its subsidiaries is a lessee in property and vehicle lease contracts. The Bank and its subsidiaries has elected the simplified approach of transition and did not restate comparative information. Therefore, the comparative information continues to be reported under SFAS 30, "Leases".

Kebijakan sewa
Bank dan entitas anak mengakui liabilitas sewa, sebagai pembayaran sewa yang tersisa termasuk atas opsi perpanjangan dimana perpanjangan hampir dapat dipastikan, didiskontokan

Leases policy
The Bank and its subsidiaries recognised a lease liability, being the remaining lease payments including extensions options where renewal is reasonably certain, discounted using the

menggunakan tingkat bunga pinjaman inkremental pada tanggal penerapan awal. Sedangkan aset hak guna mencakup jumlah liabilitas sewa yang diakui, biaya langsung awal yang dibayarkan, biaya pemulihan dan pembayaran sewa yang dilakukan pada atau sebelum tanggal mulai sewa, dikurangi insentif sewa yang diterima. Aset hak guna disusutkan dengan metode garis lurus selama jangka waktu yang lebih pendek antara masa sewa dengan estimasi masa manfaat aset.

incremental borrowing rate at the date of initial application. Meanwhile, rights of use assets include the amount of lease liabilities recognized, initial direct costs paid, recovery costs and lease payments made on or before the start date of the lease, less rental incentives received. Rights of use assets are depreciated using the straight-line method over the shorter period between the lease term and the estimated useful life of the asset.

Beban keuangan dicatat dalam laporan laba rugi konsolidasian. Aset sewa (disajikan sebagai bagian aset tetap) disusutkan selama jangka waktu yang lebih pendek antara umur manfaat aset sewa dan periode masa sewa, jika tidak ada kepastian yang memadai bahwa Bank dan entias anak akan mendapatkan hak kepemilikan pada akhir masa sewa.

Finance expense is recorded in the statement of income consolidated. Leased assets (presented under fixed assets) are depreciated over the shorter of the estimated useful life of the assets and the lease term, if there is no reasonable certainty that Bank and its subsidiaries will obtain ownership by the end of the lease term.

Aset dalam penyelesaian
Aset tetap dalam penyelesaian dicatat sebesar biaya perolehan, yang mencakup kapitalisasi beban pinjaman dan biaya-biaya lainnya yang terjadi sehubungan dengan pendanaan aset tetap dalam penyelesaian tersebut. Akumulasi biaya perolehan akan direklasifikasi ke akun "Aset Tetap" yang bersangkutan pada saat aset tetap tersebut telah selesai dikerjakan dan siap untuk digunakan. Aset tetap dalam penyelesaian tidak disusutkan karena belum tersedia untuk digunakan.

Construction in progress
Constructions in-progress are stated at cost, including capitalized borrowing costs and other charges incurred in connection with the financing of construction in progress. The accumulated costs will be reclassified to the appropriate "Premises and Equipment" account when the construction is completed and available for intended use. Construction in progress are not depreciated as these are not yet available for use.

Biaya pengurusan legal hak atas tanah dalam bentuk Hak Guna Usaha ("HGU"), Hak Guna Bangunan ("HGB") dan Hak Pakai ("HP") ketika tanah diperoleh pertama kali diakui sebagai bagian dari biaya perolehan tanah pada akun "Aset Tetap". Biaya pengurusan perpanjangan atau pembaruan legal hak atas tanah diakui sebagai aset tidak berwujud dan diamortisasi sepanjang umur hak hukum atau umur ekonomi tanah, mana yang lebih pendek.

The legal cost of land rights in the form of Business Usage Rights ("Hak Guna Usaha" or "HGU"), Building Usage Right ("Hak Guna Bangunan" or "HGB") and Usage Rights ("Hak Pakai" or "HP") when the land was initially acquired are recognized as part of the cost of the land under the "Fixed Assets". The extension or the legal renewal costs of land rights were recognized as intangible assets and were amortized over the shorter of the rights' legal life or land's economic life.

q. Penurunan nilai aset non-keuangan

Pada setiap akhir tahun periode pelaporan, Bank dan entitas anak menilai apakah terdapat indikasi suatu aset mengalami penurunan nilai. Jika terdapat indikasi tersebut, maka Bank dan entitas anak akan membuat estimasi atas jumlah terpulihkan aset tersebut.
Jumlah terpulihkan yang ditentukan untuk aset individual adalah jumlah yang lebih tinggi antara nilai wajar aset atau Unit Penghasil Kas (UPK) dikurangi biaya untuk menjual dan nilai pakainya, kecuali aset tersebut tidak menghasilkan arus kas masuk yang sebagian besar independen dari aset atau kelompok aset lain.

q. Impairment of non-financial assets

At the end of each reporting year the Bank and its subsidiaries assesses at each annual reporting period whether there is an indication that an asset may be impaired. If any such indication exists, Bank and its subsidiaries makes an estimate of the asset's recoverable amount.
The recoverable amount detemined for an individual asset is the higher of an asset's fair value or Cash Generating Unit (CGU) less costs to sell and its value in use, unless the asset does not generate cash inflows that are largely independent of those from other assets or Bank and its subsidiaries of assets.

Jika nilai tercatat aset lebih besar daripada nilai terpulihkannya, maka aset tersebut dianggap mengalami penurunan nilai dan nilai tercatat aset diturunkan menjadi sebesar nilai terpulihkannya. Rugi penurunan nilai dari operasi yang

Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses of continuing operations are recognized in the consolidated

berkelanjutan diakui pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian sebagai "rugi penurunan nilai".

Dalam menghitung nilai pakai, estimasi arus kas masa depan neto didiskontokan ke nilai kini dengan menggunakan tingkat diskonto sebelum pajak yang menggambarkan penilaian pasar kini atas nilai waktu uang dan risiko spesifik aset.

Dalam menentukan nilai wajar dikurangi biaya pelepasan, mengacu pada PSAK 68: "Pengukuran Nilai Wajar" (Catatan 2d).

Kerugian penurunan nilai dari operasi yang berkelanjutan, jika ada, diakui pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian sesuai dengan kategori biaya yang konsisten dengan fungsi aset yang diturunkan nilainya.

statement of profit or loss and other comprehensive income as "impairment losses".

In assessing the value in use, the estimated net future cash flows are discounted to the present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

In determining fair value less costs of disposal, refer to SFAS 68: "Fair Value Measurements" (Note 2d).

Impairment losses of continuing operations, if any, are recognized in the consolidated statements of profit or loss and other comprehensive income under expense categories that are consistent with the functions of the impaired assets.

r. Beban dibayar dimuka

Biaya dibayar dimuka diamortisasi selama masa manfaat dengan menggunakan metode garis lurus (*straight-line method*).

r. Prepaid expenses

Prepaid expenses are amortized over the useful life using the straight-line method.

s. Aset lain-lain

Aset lain-lain terdiri dari biaya dibayar dimuka, kliring dalam penyelesaian, uang muka dan lain-lain.

Aset lain-lain disajikan sebesar nilai tercatat setelah dikurangi dengan cadangan kerugian penurunan nilai.

Pada setiap tanggal laporan posisi keuangan konsolidasian, Bank dan entitas anak melakukan penelaahan terhadap nilai yang dapat diperoleh kembali atas aset non-keuangan untuk menentukan apakah terdapat indikasi penurunan nilai sebagaimana dijelaskan dalam Catatan 2q.

s. Other assets

Other assets include prepaid expenses, clearing in progress, advances and others.

Other assets are stated at the carrying amounts less allowance for impairment losses.

At the consolidated statement of financial position date, the Bank and its subsidiaries evaluate the recoverable amount of its non-financial assets to determine whether there is any indication of impairment as discussed in Note 2q.

t. Liabilitas segera

Liabilitas segera dicatat pada saat timbulnya liabilitas atau diterimanya perintah pemindahbukuan, baik dari nasabah maupun dari bank lain.

Liabilitas segera dicatat berdasarkan biaya perolehan diamortisasi dan diklasifikasikan sebagai liabilitas keuangan lainnya.

Lihat Catatan 2d untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

t. Obligations due immediately

Obligations due immediately are recorded at the time the obligations occur or upon receipt of transfer orders from customers or other banks.

Obligations due immediately are stated at amortized cost and classified as other financial liabilities.

Refer to Note 2d for the accounting policies of financial assets and liabilities.

u. Simpanan nasabah, simpanan nasabah syariah dan dana syirkah temporer

Giro merupakan simpanan nasabah yang dapat digunakan sebagai alat pembayaran, yang penarikannya dapat dilakukan setiap saat melalui cek, atau dengan cara pemindahbukuan dengan bilyet giro atau sarana perintah pembayaran lainnya. Giro dinyatakan sebesar nilai liabilitas kepada pemegang giro.

u. Deposits from customers, sharia deposits from customers and temporary syirkah fund

Current accounts represent customers' funds which can be used as payment instruments, that can be withdrawn by the depositors at any time through cheque, or transfers between accounts using cheque and other orders of payment or transfer. These current accounts are stated at the amount due to the current account holder.

Tabungan merupakan simpanan nasabah yang penarikannya hanya dapat dilakukan menurut syarat tertentu yang disepakati. Tabungan dinyatakan sebesar nilai liabilitas kepada pemilik tabungan.

Savings accounts represent customers' funds, which can only be withdrawn by the depositors under agreed conditions. Savings account are stated at the amount due to the account holders.

Deposito berjangka merupakan simpanan nasabah yang penarikannya hanya dapat dilakukan pada waktu tertentu sesuai dengan perjanjian dengan penyimpan. Deposito berjangka dinyatakan sebesar nilai nominal yang tercantum dalam bilyet deposito atau yang diperjanjikan.

Time deposits represent customers' funds, which can only be withdrawn by the depositors at specific maturities according to the deposit agreements. Time deposits are stated at the nominal amount provided in the certificates of deposits or at the amount stated in the agreement.

Giro dan tabungan wadiah merupakan giro dan tabungan wadiah *adh-dhamanah* yakni titipan dana dalam bentuk giro dan tabungan pihak lain dimana pemilik dana bisa mendapatkan pendapatan bonus. Giro wadiah dinyatakan sebesar titipan pemegang giro BJBS.

Wadiah current and saving account is a wadiah adh-dhamanah funds deposits in the form of current and saving account on which the customer may receive bonus income. Wadiah current accounts are stated at the amount due to the account holder of the deposit BJBS.

Dana syirkah temporer adalah dana yang diterima oleh BJBS. BJBS mempunyai hak untuk mengelola dan menginvestasikan dana, baik sesuai dengan kebijakan BJBS atau kebijakan pembatasan dari pemilik dana, dengan keuntungan dibagikan sesuai dengan kesepakatan. Dana syirkah temporer dinyatakan sebesar nilai nominal sesuai dengan perjanjian antara pemegang dana syirkah temporer bank.

Temporary syirkah funds represent investment received by the BJBS. The BJBS has the right to manage and invest funds in accordance with either the BJBS' policy or restriction policy by the depositors with the agreed profit sharing. Temporary syirkah funds are stated at the nominal amount as agreed by the temporary syirkah funds holder.

Hubungan antara BJBS dan pemilik dana syirkah temporer merupakan hubungan kemitraan berdasarkan akad mudharabah.

Relationship between the BJBS and the owner of temporary syirkah funds are partnership based on mudharabah agreement.

Dana syirkah temporer tidak dapat digolongkan sebagai liabilitas. Hal ini karena BJBS tidak mempunyai liabilitas ketika mengalami kerugian, untuk mengembalikan jumlah dana awal dari pemilik dana kecuali akibat kelalaian atau wanprestasi BJBS.

Temporary syirkah funds can not be classified as liability because BJBS has no obligation to return the fund to the owner when BJBS has loss, unless there is negligence or default by the BJBS.

Dana syirkah temporer tidak dapat digolongkan sebagai ekuitas karena mempunyai waktu jatuh tempo dan pemilik dana tidak mempunyai hak kepemilikan yang sama dengan pemegang saham seperti hak *voting* dan hak atas realisasi keuntungan yang berasal dari aset lancar dan aset non-investasi.

Temporary syirkah funds can not be classified as equity since they have maturity and the owner of the funds do not have ownership rights as common shareholders, such as voting rights and right of the profit derived from current assets and non-investment assets.

Dana syirkah temporer merupakan salah satu unsur laporan posisi keuangan konsolidasian, hal tersebut sesuai dengan prinsip syariah yang memberikan hak kepada BJBS untuk mengelola dana, termasuk untuk mencampur dana dimaksud dengan dana lainnya.

Temporary syirkah funds represent one of the consolidated statements of financial position accounts which is in accordance with sharia principle that provide right to the BJBS to manage fund, including to mixing of one funds with the other funds.

Pemilik dana syirkah temporer memperoleh bagian atas keuntungan sesuai kesepakatan dan menerima kerugian berdasarkan jumlah dana dari masing-masing pihak. Pembagian hasil dana syirkah temporer dapat dilakukan dengan konsep bagi hasil atau bagi untung.

The owner of temporary syirkah funds receive profit sharing in accordance with the agreement and receive loss sharing based on proportion to the total funds. The profit sharing of temporary syirkah funds might be based on profit sharing or revenue sharing concept.

v. Simpanan dari bank lain

Simpanan nasabah diklasifikasikan sebagai liabilitas keuangan lainnya dan diukur pada biaya perolehan diamortisasi menggunakan suku bunga efektif, kecuali simpanan yang didasarkan pada prinsip perbankan syariah dan dana syirkah temporer yang dinyatakan sebesar kewajiban BJBS kepada nasabah. Biaya tambahan yang dapat diatribusikan secara langsung kepada perolehan simpanan nasabah, dikurangkan dari jumlah simpanan yang diterima.

Simpanan dari bank lain terdiri dari liabilitas terhadap bank lain dalam bentuk giro, tabungan, *interbank call money*, *deposit on call* dan deposito berjangka.

Di dalam simpanan dari bank lain termasuk simpanan syariah dalam bentuk giro wadiah.

Simpanan dari bank lain diklasifikasikan sebagai liabilitas keuangan dan diukur pada biaya perolehan diamortisasi menggunakan suku bunga efektif kecuali simpanan syariah yang dinyatakan sebesar nilai liabilitas Bank dan entitas anak kepada nasabah.

Biaya tambahan yang dapat diatribusikan secara langsung dengan perolehan simpanan dari bank lain dikurangkan dari total simpanan yang diterima.

Lihat catatan 2d untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

v. Deposits from other banks

Deposits from customers are classified as other financial liabilities and measured at amortized cost using the effective interest method, except for sharia deposits and temporary syirkah fund which are stated at the BJBS' liability to the customers. Incremental costs that can be attributed directly to the acquisition of deposits from customers are deducted from total deposits received.

Deposits from other banks represent liabilities to other banks, in the form of current accounts, savings, interbank call money, deposit on call and time deposits.

Deposits from other banks include sharia deposits in the form of wadiah current accounts.

Deposits from other banks are classified as financial liabilities and measured at amortized cost using the effective interest rate except for sharia deposits which are stated at the Bank and its subsidiaries liability amount to the customer.

Incremental costs that can be attributed directly to the acquisition of deposits from other banks are deducted from the total deposits received.

Refer to note 2d for the accounting policies of financial assets and liabilities.

w. Efek utang yang diterbitkan

Surat berharga yang diterbitkan Bank adalah obligasi. Surat berharga yang diterbitkan diakui sebesar nilai wajar pada awalnya dan selanjutnya diukur sebesar biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif. Biaya perolehan diamortisasi dihitung dengan memperhitungkan adanya diskonto atau premi terkait dengan pengakuan awal dan biaya transaksi yang tidak terpisah dari suku bunga efektif.

Lihat Catatan 2d untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

w. Debt securities issued

Securities issued by Bank consist of bonds. The securities issued are recognized initially at fair value and subsequently measured at amortized cost using the effective interest rate method. Amortized cost is calculated by taking into account any discount or premium related to the initial recognition and transaction costs that are an integral part of the effective interest rate.

Refer to Note 2d for the accounting policies of financial assets and liabilities.

x. Pinjaman yang diterima

Pinjaman yang diterima merupakan dana yang diterima oleh Bank dan entitas anak dari Bank Indonesia, pemerintah dan lembaga pembiayaan lain dengan kewajiban pembayaran berdasarkan perjanjian pinjaman.

Pinjaman yang diterima diakui sebesar nilai wajar pada awalnya dan selanjutnya diukur sebesar biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif. Biaya perolehan diamortisasi dihitung dengan memperhitungkan adanya diskonto atau premi terkait dengan pengakuan awal dan biaya transaksi yang tidak terpisah dari suku bunga efektif.

x. Borrowings

Borrowings are funds received by the Bank and its subsidiaries from Bank Indonesia, the Government and other financing institutions with payment obligation based on borrowing agreements.

Borrowings are recognized initially at fair value and subsequently measured at amortized cost using the effective interest rate method. Amortized cost is calculated by taking into account any discount or premium related to the initial recognition and transaction costs that are an integral part of the effective interest rate.

Lihat catatan 2d untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

Refer to note 2d for the accounting policies of financial assets and liabilities.

y. Pendapatan bunga, beban bunga dan bagi hasil syariah

y. Interest income, interest expense and sharia profit sharing

Konvensional

Pendapatan dan beban bunga diakui pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian dengan menggunakan metode suku bunga efektif.

Suku bunga efektif adalah suku bunga yang secara tepat mendiskontokan estimasi pembayaran atau penerimaan kas di masa datang selama perkiraan umur dari aset keuangan atau liabilitas keuangan (atau, jika lebih tepat, digunakan periode yang lebih singkat) untuk memperoleh nilai tercatat bersih dari aset keuangan atau liabilitas keuangan.

Pada saat menghitung suku bunga efektif, Bank dan entitas anak mengestimasi arus kas di masa datang dengan mempertimbangkan seluruh persyaratan kontraktual dalam instrumen keuangan tersebut, tetapi tidak mempertimbangkan kerugian kredit di masa mendatang.

Perhitungan ini mencakup seluruh komisi, provisi dan bentuk lain yang diterima oleh para pihak dalam kontrak yang merupakan bagian tak terpisahkan dari suku bunga efektif, biaya transaksi, dan seluruh premi atau diskon lainnya.

Jika aset keuangan atau kelompok aset keuangan serupa telah diturunkan nilainya sebagai akibat kerugian penurunan nilai, maka pendapatan bunga setelahnya diakui berdasarkan suku bunga yang digunakan untuk mendiskonto arus kas masa datang dalam menghitung kerugian penurunan nilai.

Conventional

Interest income and expenses are recognized in the consolidated statement of profit or loss and other comprehensive income using the effective interest method.

The effective interest rate is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial assets or liabilities (or, where appropriate, a shorter period) to the net carrying amount of the financial asset or financial liability.

When calculating the effective interest rate, Bank and its subsidiaries estimates future cash flows considering all contractual terms of the financial instruments except future credit losses.

This calculation includes all commissions, provision fees and other forms received by the parties in the contract that are inseparable from the effective interest rate, transaction costs and all other premiums or discounts.

If a financial asset or group of similar financial assets has been impaired as a result of an impairment loss, the subsequent interest income is recognized based on the interest rate used to discount future cash flows in calculating the impairment loss.

Syariah

Pendapatan operasi syariah utama terdiri dari pendapatan dari transaksi murabahah dan istishna, pendapatan bagi hasil dari pembiayaan mudharabah dan musyarakah, pendapatan dari transaksi *ijarah muntahiyah bittamlik* dan pendapatan lainnya.

Pendapatan dari transaksi ijarah murabahah dan istishna diakui dengan menggunakan metode akrual. Pendapatan bagi hasil dari pembiayaan mudharabah dan musyarakah diakui dalam periode terjadinya hak bagi hasil. Beban berdasarkan prinsip syariah terdiri dari beban bagi hasil mudharabah dan beban bonus wadiah.

Pendapatan atas piutang murabahah menggunakan metode setara tingkat imbal hasil efektif (margin efektif).

Margin efektif adalah margin yang secara tepat mendiskontokan estimasi pembayaran atau penerimaan kas di masa datang selama perkiraan

Sharia

The main sharia operating income consists of income from murabahah and istishna transactions, income from revenue sharing of mudharabah and musyarakah financing, income from ijarah muntahiyah bittamlik and other income.

Income from ijarah murabahah and istishna revenue sharing is recognized using the accrual method. Income from mudharabah and musyarakah financing are recognized in the period in which the revenue sharing rights occur. Expenses based on Sharia principles consist of mudharabah profit sharing expense and wadiah bonus expense.

Income from murabahah receivables using the effective rate of return method (effective margin).

Effective margin is the margin that precisely discounts the estimated future cash payments or receipts through the expected life of the

umur dari piutang murabahah. Pada saat menghitung margin efektif, BJBS mengestimasi arus kas di masa datang dengan mempertimbangkan seluruh persyaratan kontraktual dalam instrumen keuangan tersebut, tetapi tidak mempertimbangkan kerugian piutang di masa mendatang.

Perhitungan ini mencakup seluruh komisi, provisi dan bentuk lain yang diterima oleh para pihak dalam kontrak yang merupakan bagian tak terpisahkan dari margin efektif, biaya transaksi, dan seluruh premi atau diskon lainnya.

murabahah receivables. When calculating the effective margin, BJBS estimates the future cash flows considering all contractual terms of the financial instrument, but does not consider the loss of receivables in the future.

This calculation includes all commissions, provision fees and other forms accepted by the parties in the contract that are an inseparable part of the effective margin, transaction costs and all other premiums or discounts.

z. Pendapatan provisi dan komisi

Pendapatan provisi dan komisi yang berkaitan langsung dengan kegiatan pinjaman, atau pendapatan provisi dan komisi yang berhubungan dengan jangka waktu tertentu, diamortisasi sesuai dengan jangka waktu kontrak menggunakan metode suku bunga efektif dan diklasifikasikan sebagai bagian dari pendapatan bunga pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

Pendapatan provisi dan komisi yang tidak berkaitan dengan kegiatan pemberian kredit atau suatu jangka waktu dan/atau terkait dengan pemberian suatu jasa, diakui sebagai pendapatan pada saat terjadinya transaksi dan dicatat pada akun pendapatan operasional lainnya.

z. Fees and commission

Fees and commissions directly related to lending activities, or fee and commission which relates to a specific period, is amortized over the term of the contract using the effective interest method and classified as part of interest income in the consolidated statement of profit or loss and other comprehensive income.

Fees and commissions that are not related to the lending activity or a period of time and/or associated with the service provided, are recognized as revenue at the time of the transaction and recorded under other operating income.

aa. Sewa operasi

Kontrak sewa yang tidak mengalihkan secara substansial seluruh risiko dan manfaat kepemilikan aset tetap berada ditangan perusahaan sewa-menyewa (*lessor*), maka sewa tersebut diklasifikasikan sebagai sewa operasi. Pembayaran sewa operasi dibebankan ke laporan laba rugi dan penghasilan komprehensif lain konsolidasian menggunakan metode garis lurus selama masa sewa.

aa. Operating lease

Leases, which do not transfer substantially all the risks and rewards of ownership are retained by the lessor, are classified as operating leases. Payments made under operating leases are charged to the consolidated statement of profit or loss and other comprehensive income on a straight-line method over the period of the lease.

bb. Pajak penghasilan

Bank dan entitas anak menerapkan PSAK 46 (Revisi 2018), "Pajak Penghasilan".

Beban pajak tahun berjalan ditetapkan berdasarkan taksiran penghasilan kena pajak tahun berjalan. Aset dan liabilitas pajak tangguhan diakui atas perbedaan temporer aset dan liabilitas antara pelaporan komersial dan pajak pada setiap tanggal pelaporan.

Aset pajak tangguhan diakui menggunakan metode posisi keuangan untuk seluruh perbedaan temporer yang boleh dikurangkan dan saldo rugi fiskal yang belum dikompensasikan, sepanjang besar kemungkinan perbedaan temporer yang boleh dikurangkan dan saldo rugi fiskal yang belum digunakan tersebut dapat dimanfaatkan untuk mengurangi laba fiskal pada masa yang akan datang.

bb. Income tax

Bank and its subsidiaries adopted SFAS 46 (Revised 2018), "Income Taxes".

Current tax expense is provided based on the estimated taxable income for the current year. Deferred tax assets and liabilities are recognized for temporary differences between the financial and the tax bases of assets and liabilities at each reporting date.

Deferred tax assets are recognized, using the statement of financial position method, for all deductible temporary differences and carry forward of unused tax losses to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences and carry forward of unused tax losses can be utilized.

Jumlah tercatat aset pajak tangguhan ditelaah pada setiap tanggal neraca dan nilai tercatat aset pajak tangguhan tersebut diturunkan apabila tidak lagi terdapat kemungkinan besar bahwa laba fiskal yang memadai akan tersedia untuk mengkompensasi sebagian atau semua manfaat aset pajak tangguhan.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to compensate all or part of the benefit of the deferred tax assets.

Aset dan kewajiban pajak tangguhan diukur berdasarkan tarif pajak yang akan berlaku pada tahun saat aset direalisasikan atau liabilitas diselesaikan berdasarkan peraturan perpajakan yang berlaku atau yang telah secara substantif telah diberlakukan pada tanggal laporan posisi keuangan konsolidasian.

Deferred tax assets and liabilities are measured at the tax rates that are expected to applied to the year when the asset is realized or the liability is settled based on tax laws that have been enacted or substantively enacted as of the consolidated statement financial position date.

Pengaruh pajak terkait dengan penyisihan untuk dan/atau pembalikan seluruh perbedaan temporer selama tahun berjalan, termasuk pengaruh perubahan tarif pajak, diakui sebagai "Manfaat/(Beban) Pajak Penghasilan, Tangguhan" dan termasuk dalam laba atau rugi neto tahun berjalan, kecuali untuk transaksi-transaksi yang sebelumnya telah langsung dibebankan atau dikreditkan ke ekuitas.

The related tax effects of the provisions for and/or reversals of all temporary differences during the year, including the effect of change in tax rates, are recognized as "Income Tax Benefit (Expense), Deferred" and included in the determination of net profit or loss for the year, except to the extent that they relate to items previously charged or credited to equity.

Perubahan terhadap liabilitas pajak diakui pada saat surat ketetapan pajak diterima, atau apabila diajukan keberatan dan atau banding oleh Bank dan entitas anak, pada saat telah ada keputusan atas banding dan atau keberatan tersebut.

Amendment to tax obligation is recorded when an assessment letter is received or, if objected to or appealed against by the Bank and its subsidiaries, when the result of such appeal or objection is determined.

Untuk setiap entitas yang dikonsolidasi, pengaruh pajak atas perbedaan temporer dan akumulasi rugi pajak, yang masing-masing dapat berupa aset atau liabilitas, disajikan dalam jumlah neto untuk masing-masing entitas tersebut.

For each of the consolidated entity, the tax effects on temporary differences and tax loss carry forward, which can individually be either asset or liability, are shown at the applicable net amounts.

Aset dan liabilitas atas pajak tangguhan dan pajak kini dapat saling hapus apabila terdapat hak yang berkekuatan hukum untuk melakukan saling hapus.

Assets and liabilities on deferred tax and current tax can be offset if there is a legal enforceable right to offset.

cc. Imbalan kerja

Bank dan entitas anak menerapkan PSAK 24 (Revisi 2018), "Imbalan Kerja".

cc. Employee benefits

Bank and its subsidiaries apply SFAS 24 (Revised 2018), "Employee Benefit".

Imbalan kerja jangka pendek

Imbalan kerja jangka pendek seperti upah, iuran jaminan sosial, cuti jangka pendek, bonus dan imbalan non-moneter lainnya diakui selama periode jasa diberikan. Imbalan kerja jangka pendek dihitung sebesar jumlah yang tidak didiskontokan.

Short-term employee benefits

Short-term employee benefits such as wages, social security contributions, short-term compensated leaves, bonuses and other non-monetary benefits are recognized during the period when services have been rendered. Short-term employee benefits are measured using undiscounted amounts.

Program pensiun iuran pasti

Iuran kepada dana pensiun sebesar persentase tertentu gaji pegawai yang menjadi peserta program pensiun iuran pasti Bank dan entitas anak, dicadangkan dan diakui sebagai biaya ketika jasa telah diberikan oleh pegawai-pegawai tersebut. Pembayaran dikurangkan dari utang iuran. Iuran terutang dihitung berdasarkan jumlah yang tidak didiskontokan.

Contribution payable to a pension fund equivalent to a certain percentage of salaries for qualified employees under the Bank and its subsidiaries' defined contribution plan is accrued and recognized as expense when services have been rendered by qualified employees. Actual payments are deducted from the contribution payable. Contribution payable is measured using undiscounted amounts.

Program imbalan pasti dan imbalan kerja jangka panjang lainnya

Imbalan pasca-kerja dicadangkan dan diakui sebagai biaya ketika jasa telah diberikan oleh pegawai yang menjadi peserta program pensiun Bank dan entitas anak. Imbalan kerja ditentukan berdasarkan peraturan Bank dan entitas anak dan persyaratan minimum Undang-undang No. 11 tahun 2020 tentang "Undang-undang Cipta Kerja" sejak tahun 2021, mana yang lebih tinggi.

Defined benefit plan and other long-term employee benefits

The post-employment benefits are accrued and recognized as expense when services have been rendered by qualified Bank and its subsidiaries employees. The benefits are determined based on the Bank and its subsidiaries regulations and the minimum requirements of Law No. 11 year 2020 regarding "Undang-undang Cipta Kerja" since 2021, whichever is higher.

Imbalan pasca-kerja dan imbalan kerja jangka panjang lainnya secara aktuaris ditentukan berdasarkan metode *Projected Unit Credit*.

The post-employment benefits and other long-term employee benefits are actuarially determined using the Projected Unit Credit Method.

Pengukuran kembali atas liabilitas (aset) imbalan pasti neto, yang diakui sebagai penghasilan komprehensif lain, terdiri atas:
(i) Keuntungan dan kerugian aktuarial;
(ii) Imbal hasil atas aset program tidak termasuk jumlah yang dimasukkan dalam bunga neto atas liabilitas (aset);
(iii) Setiap perubahan dampak batas aset, tidak termasuk jumlah yang dimasukkan dalam bunga neto atas liabilitas (aset).

Remeasurement of net defined benefit liabilities (assets), which is recognized as other comprehensive income, consist of:
(i) Actuarial gains and losses;
(ii) Return on plan assets excluding amounts that included in net interest on liabilities (assets);
(iii) The changes in the impact of the asset ceiling, excluding amounts that included in net interest on liabilities (assets).

Pengukuran kembali atas liabilitas (aset) imbalan pasti neto, yang diakui sebagai penghasilan komprehensif lain tidak direklasifikasi ke laba rugi pada periode berikutnya.

Remeasurement of net defined benefit liabilities (assets), which is recognized as other comprehensive income are not reclassified to profit or loss in subsequent periods.

Untuk imbalan kerja jangka panjang lain atas biaya jasa kini, biaya bunga neto atas liabilitas (aset) imbalan pasti neto, dan pengukuran kembali liabilitas (aset) imbalan pasti neto langsung diakui pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian periode berjalan.

For other long-term employee benefits over the current service cost, net interest on net defined benefit liabilities (assets), and the remeasurement of net defined benefit liability (asset) obligations are recognized immediately in the current consolidated statement of profit or loss and other comprehensive income.

Biaya jasa lalu diakui sebagai beban pada tanggal yang lebih awal antara ketika amandemen atau kurtailmen program terjadi, dan ketika biaya restrukturisasi atau pesangon diakui, sehingga biaya jasa lalu yang belum *vested* tidak lagi dapat ditangguhkan dan diakui selama periode *vesting* masa depan.

All past service costs are recognised at the earlier of when the amendment or curtailment occurs, and when the related restructuring or termination costs are recognized, as a result, unvested past service cost can no longer be deferred and recognised over the future vesting period.

dd. Laba per saham dasar

Laba per saham dasar dihitung dengan membagi laba tahun berjalan yang dapat diatribusikan kepada pemilik entitas induk dengan rata-rata tertimbang jumlah saham biasa yang beredar selama tahun berjalan.

dd. Basic earnings per share

Basic earnings per share amounts are computed by dividing income for the year attributable to equity holders of the parent entity by the weighted average number of shares outstanding during the year.

ee. Transaksi dengan pihak-pihak berelasi

Dalam menjalankan usahanya, Bank dan entitas anak melakukan transaksi dengan pihak-pihak berelasi seperti yang didefinisikan dalam PSAK 7 (Revisi 2015) tentang "Pengungkapan Pihak-Pihak Berelasi".

Yang dimaksud dengan pihak yang berelasi adalah orang atau entitas yang berelasi dengan entitas pelapor sebagai berikut:

ff. Dividends

Dividends distribution to the shareholders is recognized as a liability in the consolidated financial statements at the date when the dividend distribution is approved by the shareholders.

gg. Informasi segmen usaha

Segmen adalah bagian yang dapat dibedakan dari kelompok usaha yang terlibat baik dalam menyediakan produk tertentu (segmen usaha), maupun dalam menyediakan produk dalam lingkungan ekonomi tertentu (segmen geografis), yang memiliki risiko dan imbalan yang berbeda dengan segmen lainnya.

Pendapatan, beban, hasil, aset dan liabilitas segmen mencakup item-item yang dapat diatribusikan langsung kepada suatu segmen serta hal-hal yang dapat dialokasikan dengan dasar yang sesuai kepada segmen tersebut. Item-item segmen ditentukan sebelum saldo dan transaksi antar kelompok usaha, dieliminasi sebagai bagian dari proses konsolidasi.

Bank dan entitas anak menyajikan segmen usaha berdasarkan laporan internal konsolidasian yang disajikan kepada pengambil keputusan operasional yaitu Direksi.

Bank dan entitas anak telah mengidentifikasikan dan mengungkapkan informasi keuangan berdasarkan kegiatan bisnis utama (segmen usaha) yang terbagi atas konvensional dan syariah, juga berdasarkan segmen geografis.

Segmen geografis meliputi penyediaan barang maupun jasa di dalam lingkungan ekonomi tertentu yang memiliki risiko serta tingkat pengembalian yang berbeda dengan segmen operasi lainnya yang berada dalam lingkungan ekonomi lain.

gg. Business segment information

A segment is a distinguishable component of the business unit that is engaged either in providing certain products (business segment), or in providing products within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

Segment revenue, expenses, results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis to that segment. They are determined before intra-group balances and transactions are eliminated as part of consolidation process.

The Bank and its subsidiaries present business segments based on a consolidated internal report which is presented to the chief operating decision maker, namely the Board of Directors.

The Bank and its subsidiaries have identified and disclosed financial information based on their main business activities (business segments) which are divided into conventional and sharia, also based on geographical segments.

A geographical segment is engaged in providing products or services within a particular economic environment with risks and different returns compared to other operating segments in other economic environments.

hh. Biaya emisi penerbitan saham

Biaya-biaya emisi yang terjadi sehubungan dengan penawaran saham kepada masyarakat (termasuk penerbitan hak memesan efek terlebih dahulu) dikurangkan langsung dari hasil emisi dan disajikan sebagai pengurang pada akun Tambahan Modal Disetor, sebagai bagian dari Ekuitas pada laporan posisi keuangan konsolidasian.

hh. Issuance cost on shares issued

Issuance costs related to offering of shares to the public (including pre-emptive rights issue) are deducted directly from the proceeds and presented as a deduction on Additional Paid in Capital account, as part of Equity in the consolidated statement of financial position.

Until the date of the consolidated financial statements is authorized, the Bank and its subsidiaries is still evaluating the potential impact of the adoption of new standards, amendments to standards and interpretations of these standards.

ll. Provisi

Provisi diakui jika Bank dan entitas anak memiliki liabilitas kini (baik bersifat hukum maupun bersifat konstruktif) yang sebagai akibat peristiwa masa lalu, besar kemungkinannya penyelesaian liabilitas tersebut akan mengakibatkan arus keluar sumber daya yang mengandung manfaat ekonomi dan estimasi yang andal mengenai jumlah kewajiban tersebut dapat dibuat.

Provisi ditelaah pada setiap tanggal pelaporan dan disesuaikan untuk mencerminkan estimasi terbaik yang paling kini. Jika arus keluar sumber daya untuk menyelesaikan kewajiban kemungkinan besar tidak terjadi, maka provisi dibatalkan.

ll. Provisions

Provisions are recognized when the Bank and its subsidiaries have a present obligation (legal or constructive) where, as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed.

mm. Cadangan kerugian penurunan nilai aset non-produktif dan komitmen dan kontinjensi

Sesuai dengan POJK No.40/POJK.03/2019 tanggal 19 Desember 2019, Bank dan entitas anak tidak diwajibkan lagi untuk membentuk cadangan kerugian penurunan nilai atas aset nonproduktif dan transaksi rekening administratif (komitmen dan kontinjensi), namun Bank dan entitas anak tetap harus menghitung cadangan kerugian penurunan nilai mengacu pada Pernyataan Standar Akuntansi Keuangan yang berlaku.

Atas aset non-produktif, manajemen Bank dan entitas anak menentukan cadangan kerugian penurunan nilai pada nilai yang lebih rendah antara nilai tercatat dan nilai wajar setelah dikurangi biaya pelepasan.

Atas komitmen dan kontinjensi yang memiliki risiko kredit, manajemen Bank dan entitas anak menentukan cadangan kerugian penurunan nilai

mm. Allowance for impairment losses on non-earning assets and commitments and contingencies

In accordance with POJK No.40/POJK.03/2019 dated December 19, 2019, the Bank and its subsidiaries is not required to provide an allowance for impairment losses on non-earning assets and administrative account transactions (commitments and contingencies), but the Bank and its subsidiaries should still calculate the allowance for impairment losses in accordance with the Statement of Financial Accounting Standards.

For non-earning assets, the management of Bank and its subsidiaries determine the impairment losses at the lower amount between the carrying value and fair value after deducting cost of disposal.

For commitments and contingencies with credit risk, Bank and its subsidiaries' management determine the impairment losses based on the

berdasarkan selisih antara nilai tercatat dan nilai kini atas pembayaran kewajiban yang diharapkan akan terjadi (ketika pembayaran atas jaminan tersebut menjadi *probable*).

difference between the carrying amount and the present value of the payment obligations that are expected to occur (when payment under the guarantee has become probable).

nn. Peristiwa setelah periode pelaporan

Setiap peristiwa setelah akhir periode yang menyebabkan tambahan informasi mengenai posisi keuangan Bank dan entitas anak (*adjusting event*) akan disesuaikan dalam laporan keuangan konsolidasian. Peristiwa setelah akhir periode yang bukan merupakan *adjusting events*, jika ada, akan diungkapkan ketika memiliki dampak material terhadap laporan keuangan konsolidasian.

nn. Events after the reporting period

Any event after the end of the period that causes additional information regarding the financial position of the Bank and its subsidiaries (adjusting event) will be adjusted in the consolidated financial statements. Events after the end of the period which are not adjusting events, if any, will be disclosed when it has a material impact on the consolidated financial statements.

3. Pertimbangan, Estimasi dan Asumsi Akuntansi yang Signifikan

3. Significant Accounting Judgments, Estimates and Assumptions

Penyusunan laporan keuangan konsolidasian mengharuskan manajemen untuk membuat pertimbangan, estimasi dan asumsi yang mempengaruhi jumlah yang dilaporkan dari pendapatan, beban, aset dan liabilitas, dan pengungkapan atas liabilitas kontinjensi pada akhir periode pelaporan.

The preparation of the consolidated financial statement requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period.

Ketidakpastian mengenai asumsi dan estimasi tersebut dapat mengakibatkan penyesuaian material terhadap nilai tercatat aset dan liabilitas dalam periode pelaporan berikutnya.

Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amounts of the asset and liability affected in future periods.

Pertimbangan

Pertimbangan berikut ini dibuat oleh manajemen dalam rangka penerapan kebijakan akuntansi yang memiliki pengaruh paling signifikan atas jumlah yang diakui dalam laporan keuangan konsolidasian:

Judgments

The following judgments are made by management in the process of applying the accounting policies that have the most significant effects on the amounts recognized in the consolidated financial statements:

Usaha yang berkelanjutan

Manajamen telah melakukan penilaian atas kemampuan Bank dan entitas anak untuk melanjutkan kelangsungan usahanya dan berkeyakinan bahwa Bank dan entitas anak memilki sumber daya untuk melanjutkan usahanya di masa mendatang.

Going concern

The management has made an assessment of the Bank and its subsidiaries' abilities to continue as a going concern and is satisfied that the Bank and its subsidiaries have the resources to continue its business for the foreseeable future.

Selain itu, aset dan liabilitas tidak mengetahui adanya ketidakpastian material yang dapat menimbulkan keraguan yang signifikan terhadap kemampuan Bank dan entitas anak untuk melanjutkan usahanya. Oleh karena itu, laporan keuangan konsolidasian telah disusun atas dasar usaha yang berkelanjutan.

Furthermore, the management is not aware of any material uncertainties that may cast significant doubt to the Bank and its subsidiaries' abilities to continue as a going concern. Therefore, the consolidated financial statement continues to be prepared on the going concern basis.

Klasifikasi aset dan liabilitas keuangan

Manajemen menetapkan klasifikasi atas aset dan liabilitas tertentu sebagai aset keuangan dan liabilitas keuangan dengan mempertimbangkan bila definisi yang ditetapkan PSAK 71 dipenuhi. Dengan demikian, aset keuangan dan liabilitas keuangan diakui sesuai dengan kebijakan akuntansi seperti diungkapkan pada Catatan 2d.

Classification of financial assets and financial liabilities

The Management determines the classifications of certain assets and liabilities as financial assets and financial liabilities by judging if they meet the definition set forth in SFAS 71. Accordingly, the financial assets and financial liabilities are accounted for in accordance with the accounting policies disclosed in Note 2d.

Nilai wajar atas dan liabilitas keuangan
Semua aset dan liabilitas dimana nilai wajar diukur atau diungkapkan dalam laporan keuangan konsolidasian dapat dikategorikan pada level hierarki nilai wajar, berdasarkan tingkatan input terendah yang signifikan atas pengukuran nilai wajar secara keseluruhan:

- Level 1: harga kuotasian (tanpa penyesuaian) di pasar aktif untuk aset atau liabilitas yang dapat diakses pada tanggal pengukuran;
- Level 2: input selain harga kuotasian yang termasuk dalam level 1 yang dapat diobservasi untuk aset dan liabilitas, baik secara langsung atau tidak langsung;
- Level 3: input yang tidak dapat diobservasi untuk aset dan liabilitas.

Aset keuangan yang tidak memiliki harga pasar
Bank dan entitas anak mengklasifikasikan aset keuangan dengan mengevaluasi, antara lain, apakah nilai tersebut dikutip atau tidak di pasar aktif. Termasuk dalam evaluasi pada apakah aset keuangan yang dikutip di pasar aktif adalah penentuan apakah harga pasar dapat segera dan secara teratur tersedia, dan apakah mereka mewakili harga aktual dan teratur terjadi transaksi pasar secara *arms-length*.

Kontinjensi
Ketika Bank dan entitas anak sedang terlibat dalam proses hukum, perkiraan biaya kemungkinan bagi penyelesaian klaim telah dikembangkan melalui konsultasi dengan bantuan konsultan hukum Bank dan entitas anak didasarkan pada analisis hasil yang potensial.

Manajemen Bank dan entitas anak tidak berkeyakinan bahwa hasil dari hal ini akan mempengaruhi hasil usaha. Besar kemungkinan, bagaimanapun, bahwa hasil operasi di masa depan dapat secara material terpengaruh oleh perubahan dalam estimasi atau efektivitas dari strategi yang terkait dengan hal tersebut.

Estimasi dan asumsi
Asumsi dan estimasi utama masa depan dan sumber utama estimasi ketidakpastian lain pada tanggal pelaporan yang memiliki risiko untuk dapat menyebabkan penyesuaian yang material terhadap nilai tercatat aset dan liabilitas untuk tahun berikutnya diungkapkan di bawah ini. Bank dan entitas anak mendasarkan asumsi dan estimasi yang digunakan pada parameter yang tersedia pada saat laporan keuangan konsolidasian disusun.

Asumsi dan situasi mengenai perkembangan masa depan dapat berubah akibat perubahan pasar atau situasi yang timbul di luar kendali Bank dan entitas anak. Perubahan tersebut dicerminkan dalam asumsi yang digunakan pada saat terjadinya.

Fair value of financial instruments
All assets and liabilities in which fair value is measured or disclosed in the consolidated financial statements can be classified in fair value hierarchy levels, based on the lowest level of input that is significant on the overall fair value measurement:

- *Level 1: quoted (unadjusted) market prices in active markets for identical assets or liabilities accessible at the measurement date;*
- *Level 2: inputs other than quoted prices included in Level 1 for the assets and liabilities, which is directly or indirectly observable;*
- *Level 3: unobservable inputs for the assets and liabilities.*

Financial assets not quoted in an active market
The Bank and its subsidiaries classify financial assets by evaluating, among others, whether the asset is quoted or not in an active market. Included in the evaluation on whether a financial asset is quoted in an active market is the determination on whether quoted prices are readily and regularly available, and whether those prices represent actual and regularly occurring market transactions on an arm's length basis.

Contingencies
When the Bank and its subsidiaries are currently involved in legal proceedings, the estimate of the probable cost for the resolution of claims determined in consultation with the aid of the legal counsel of the Bank and its subsidiaries based upon an analysis of potential results.

Management of the Bank and its subsidiaries does not believe that the outcome of this matter will affect the results of operations. It is probable, however, that future results of operations could be materially affected by changes in the estimates or in the effectiveness of the strategies relating to these proceedings.

Estimates and assumptions
The key estimates and assumptions concerning the future and other key sources of estimating uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are disclosed below. The Bank and its subsidiaries based their assumptions and estimates on parameters available when the consolidated financial statements were prepared.

Existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Bank and its subsidiaries. Such changes are reflected in the assumptions when they occur.

Cadangan kerugian penurunan nilai aset keuangan
Kondisi spesifik *counterparty* yang mengalami penurunan nilai dalam pembentukan cadangan kerugian atas aset keuangan dievaluasi secara individu berdasarkan estimasi terbaik manajemen atas nilai kini arus kas yang diharapkan akan diterima. Dalam mengestimasi arus kas tersebut, manajemen membuat pertimbangan tentang situasi keuangan *counterparty* dan nilai realisasi bersih dari setiap agunan. Setiap aset yang mengalami penurunan nilai dinilai sesuai dengan manfaat yang ada, dan strategi penyelesaian serta estimasi arus kas yang diperkirakan dapat diterima.

Bank dan entitas anak menelaah portofolio pinjaman dan piutang setiap tahun untuk menilai penurunan nilai dengan memperbaharui provisi yang dibentuk selama periode yang diperlukan berdasarkan analisis berkelanjutan dan pemantauan terhadap rekening individual oleh petugas kredit.

Dalam menentukan apakah penurunan nilai harus dibentuk dalam laporan laba rugi komprehensif konsolidasian, Bank dan entitas anak membuat penilaian, apakah terdapat data yang dapat diobservasi yang menunjukkan bahwa terdapat penurunan yang dapat diukur dalam laporan perkiraan arus kas masa depan dari portofolio pinjaman sebelum penurunan tersebut dapat diidentifikasi secara individual dalam portofolio tersebut.

Bukti seperti ini dapat termasuk data yang dapat diobservasi yang menunjukkan bahwa telah terjadi perubahan yang merugikan pada status pembayaran kelompok debitur, atau kondisi ekonomi nasional atau lokal yang berkorelasi dengan wanprestasi atas aset dalam kelompok. Bank dan entitas anak menggunakan perkiraan dalam menentukan jumlah dan waktu dari arus kas masa depan ketika menentukan tingkat penyisihan yang diperlukan. Estimasi tersebut didasarkan pada asumsi mengenai sejumlah faktor dan hasil aktual yang dapat berbeda, yang mengakibatkan perubahan terhadap jumlah penyisihan di masa yang akan datang.

Penurunan nilai untuk surat berharga
Bank dan entitas anak menentukan bahwa surat berharga memiliki kriteria penurunan nilai yang sama dengan aset keuangan yang dicatat pada biaya perolehan diamortisasi.

Umur ekonomis dari aset tetap
Bank dan entitas anak memperkirakan masa manfaat aset tetap berdasarkan periode dimana aset diharapkan akan tersedia untuk digunakan. Masa manfaat ekonomis aset tetap ditinjau secara berkala dan diperbarui jika memiliki ekspektasi yang berbeda dari perkiraan sebelumnya, karena kerusakan secara fisik dan teknis, atau keusangan secara komersial dan legal atau batasan lainnya

Allowance for impairment losses of financial assets
In the calculation of allowance for impairment losses of financial assets, the specific condition of impaired counterparty is individually evaluated based on management's best estimate of the present value of the expected cash flows to be received. In estimating these cash flows, management makes judgements about the counterparty's financial situation and the net realizable value of any underlying collateral. Each impaired asset is assessed on its merits, and the workout strategy and estimated cash flows considered recoverable.

The Bank and its subsidiaries reviews its loan portfolio and receivables to assess impairment on an annual basis with updating provisions made during the intervals as necessary based on the continuing analysis and monitoring of individual accounts by credit officers.

In determining whether an impairment loss should be recorded in the consolidated statements of comprehensive income, the Bank and its subsidiaries make judgments as to whether there is any observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of loans before the decrease can be identified with an individual loan in that portfolio.

This evidence may include observable data indicating that there has been an adverse change in the payment status of borrowers in a Bank and its subsidiaries, or national or local economic conditions that correlate with defaults on assets in the Bank and its subsidiaries. The Bank and its subsidiaries use estimates in the amount and timing of future cash flows when determining the level of allowance required. Such estimates are based on assumptions about a number of factors and actual results may differ, resulting to future changes in the allowance.

Impairment of marketable securities
The Bank and its subsidiaries determine that securities are impaired based on the same criteria as financial assets carried at amortized cost.

Useful lives of premises and equipment
The Bank and its subsidiaries estimate the useful lives of premises and equipment based on the period over which the assets are expected to be available for use. The estimated useful lives of premises and equipment are reviewed periodically and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or

atas penggunaan aset tersebut. Selain hal tersebut, estimasi masa manfaat dari aset tetap didasarkan pada penilaian secara kolektif dengan menggunakan praktik industri, teknik evaluasi internal dan pengalaman dengan aset serupa.

Tetap dimungkinkan, bagaimanapun, bahwa hasil masa depan dapat secara material dipengaruhi oleh perubahan estimasi yang disebabkan oleh perubahan faktor-faktor tersebut di atas.

Jumlah dan saat pencatatan biaya untuk setiap periode akan dipengaruhi oleh perubahan dari faktor dan keadaan saat pencatatan. Pengurangan taksiran masa manfaat dari aset tetap akan meningkatkan beban operasional yang diakui.

Penurunan nilai aset non-keuangan
Bank dan entitas anak mengevaluasi penurunan nilai aset apabila terdapat kejadian atau perubahan keadaan yang mengindikasikan bahwa nilai tercatat aset tidak dapat dipulihkan kembali.

Faktor-faktor penting yang dapat menyebabkan penelaahan penurunan nilai adalah sebagai berikut:
a) kinerja yang rendah secara signifikan jika dibandingkan dengan ekspektasi dari hasil operasi historis maupun proyeksi hasil operasi di masa yang akan datang;
b) perubahan yang signifikan dalam cara penggunaan aset atau strategi bisnis secara keseluruhan; dan
c) industri atau tren ekonomi yang secara signifikan bernilai negatif.

Bank dan entitas anak mengakui kerugian penurunan nilai apabila nilai tercatat aset melebihi nilai yang dapat dipulihkan. Jumlah terpulihkan adalah nilai yang lebih tinggi antara nilai wajar dikurang biaya untuk menjual dengan nilai pakai aset (atau unit penghasil kas).

Jumlah terpulihkan diestimasi untuk aset individual atau, jika tidak memungkinkan, untuk unit penghasil kas yang mana aset tersebut merupakan bagian daripada unit tersebut.

Pengakuan aset pajak tangguhan
Aset pajak tangguhan diakui untuk seluruh saldo rugi fiskal yang belum digunakan sejauh terdapat kemungkinan bahwa saldo rugi tersebut dapat dikompensasikan terhadap penghasilan kena pajak di masa yang akan datang. Pertimbangan manajemen yang signifikan diperlukan untuk menentukan jumlah aset pajak tangguhan yang dapat diakui, sesuai dengan saat dan jumlah penghasilan kena pajak di masa mendatang seiring dengan strategi perencanaan pajak.

Bank dan entitas anak menelaah aset pajak tangguhan pada setiap tanggal laporan posisi keuangan konsolidasian dan mengurangi jumlah tercatat dalam hal tidak adanya lagi kemungkinan

other limits on the use of the assets. In addition, estimation of the useful lives of premises and equipment is based on collective assessment of industry practice, internal technical evaluation and experience with similar assets.

It is possible, however, that future results of operations could be materially affected by changes in estimates brought about by changes in factors mentioned above.

The amounts and timing of recorded expenses for any period would be affected by changes in these factors and circumstances. A reduction in the estimated useful lives of premises and equipment would increase the recorded operating expenses.

Impairment of non-financial assets
The Bank and its subsidiaries assess impairment on assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

The factors that which could trigger an impairment review include the following:
a) significant underperformance relative to expected historical or projected future operating results;
b) significant changes in the manner of use of the acquired assets or the strategy for overall business; and
c) significant negative industry or economic trends.

The Bank and its subsidiaries recognize an impairment loss whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's (or Cash Generating Unit's) fair value less costs to sell and its value in use.

Recoverable amounts are estimated for individual assets or, if it is not possible, for the cash generating unit to which the asset belongs.

Recognition of deferred tax assets
Deferred tax assets are recognized for all unused tax losses and credits to the extent that it is probable that taxable income will be available against which the losses can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and level of future taxable income together with future tax planning strategies.

The Bank and its subsidiaries review their deferred tax assets at each consolidated statement of financial position date and reduce the carrying amount to the extent that it is no longer probable

bahwa penghasilan kena pajak yang cukup akan tersedia untuk mengkompensasi sebagian atau seluruh aset pajak tangguhan.

Pertimbangan signifikan diperlukan dalam menentukan provisi perpajakan
Bank dan entitas anak menentukan provisi perpajakan berdasarkan estimasi atas kemungkinan adanya tambahan beban pajak. Jika hasil akhir dari hal ini berbeda dengan jumlah yang dicatat semula, maka perbedaan tersebut akan berdampak terhadap laba/rugi.

Nilai kini atas kewajiban imbalan pasca kerja dan imbalan jangka panjang lainnya
Biaya atas kewajiban imbalan pasca kerja dan imbalan jangka panjang lainnya ditentukan dengan perhitungan aktuaris. Perhitungan aktuaris melibatkan penggunaan asumsi mengenai tingkat diskonto, tingkat pengembalian yang diharapkan dari aset, kenaikan gaji di masa depan, tingkat kematian dan tingkat kecacatan. Karena program tersebut memiliki sifat jangka panjang, maka perkiraan tersebut memiliki ketidakpastian yang signifikan.

that sufficient taxable income will be available to allow all or part of the deferred tax assets to be utilized.

Significant judgement is required in determining the provision for taxes
The Bank and its subsidiaries provides for tax provision based on estimates whether the additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the profit/loss.

Present value of post employment and other long term employment benefits
The cost of post employment and other long term employment benefits is determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases, mortality rates and disability rate. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

Tabel di bawah ini menyajikan instrumen keuangan yang diakui pada nilai wajar berdasarkan hierarki yang digunakan untuk menentukan dan mengungkapkan nilai wajar dari instrumen keuangan:

The tables below shows the financial instruments recognized at fair value based on the hierarchy used in determining and disclosing the fair value of financial instruments:

(i) Tingkat 1: dikutip dari harga pasar aktif untuk aset atau liabilitas keuangan yang identik;

(i) Level 1: Quoted (unadjusted) prices in active markets for identical financial assets or liabilities;

(ii) Tingkat 2: yang melibatkan input selain dari harga pasar aktif yang dikutip yang termasuk dalam tingkat 1 yang dapat diobservasi untuk aset dan liabilitas, baik secara langsung (seperti harga) atau tidak langsung (turunan dari harga);

(ii) Level 2: Those involving inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices);

(iii) Tingkat 3: input untuk aset dan liabilitas yang tidak didasarkan pada data yang dapat diobservasi di pasar (input yang tidak dapat diobservasi).

(iii) Level 3: Those with inputs for the asset or liability that are not based on observable market data (unobservable inputs).

(i) Nilai wajar aset dan kewajiban keuangan tertentu, kecuali kredit yang diberikan, surat-surat berharga, dan efek utang yang diterbitkan, dan pinjaman yang diterima mendekati nilai tercatatnya karena mempunyai jangka waktu jatuh tempo yang singkat.

Estimasi nilai wajar terhadap aset keuangan tertentu ditetapkan berdasarkan diskonto arus kas dengan menggunakan suku bunga pasar uang yang berlaku untuk utang dengan risiko kredit dan sisa jatuh tempo yang serupa.

Estimasi nilai wajar terhadap kewajiban keuangan tertentu yang tidak memiliki kuotasi di pasar aktif ditetapkan berdasarkan diskonto arus kas dengan menggunakan suku bunga utang baru dengan sisa jatuh tempo yang serupa.

(i) The fair values of certain financial assets and liabilities, except for loans, marketable securities, marketable securities issued, and borrowings, approximate their carrying values due to their short-term maturities.

The estimated fair values of certain financial assets are determined based on discounted cash flows using money market interest rates for instruments with similar credit risk and remaining maturities.

The estimated fair values of certain financial obligations which are not quoted in an active market are determined based on discounted cash flows using interest rates of instruments with similar remaining maturities.

(ii) Kredit yang diberikan
Portofolio kredit secara umum terdiri dari kredit yang diberikan dengan suku bunga mengambang dan kredit yang diberikan dengan suku bunga tetap. Kredit yang diberikan dinyatakan biaya perolehan yang diamortisasi. Nilai wajar dari kredit yang diberikan menunjukkan nilai diskon dari perkiraan arus kas masa depan yang diharapkan akan diterima dengan menggunakan suku bunga pasar.

Nilai tercatat dari kredit yang diberikan dengan suku bunga mengambang dan pinjaman jangka pendek dengan suku bunga tetap adalah perkiraan yang layak atas nilai wajarnya.

(iii) Surat-surat berharga
Nilai wajar untuk surat-surat berharga biaya perolehan yang diamortisasi ditetapkan berdasarkan harga pasar atau harga kuotasi perantara (*broker*)/pedagang efek (*dealer*). Jika informasi ini tidak tersedia, nilai wajar diestimasi dengan menggunakan harga pasar kuotasi efek yang memiliki karakteristik kredit, jatuh tempo dan *yield* yang serupa atau dengan menggunakan metode penilaian internal.

(iv) Efek utang yang diterbitkan dan pinjaman yang diterima
Nilai wajar agregat dihitung berdasarkan model diskonto arus kas menggunakan tingkat suku bunga pasar untuk sisa periode jatuh temponya.

(ii) Loans
The credit portfolio generally consists of loans with floating interest rates and short term loan with fixed interest rate. Loans are stated at amortized cost. The fair value of loans shows the estimated value of discounted future cash flows expected to be received using current market interest rates.

Carrying value of loans with floating interest rates and short-term loans with fixed interest rate are the reasonable estimate of fair values.

(iii) Marketable securities
The fair value for marketable securities at amortised cost is determined based on market price or quoted price of broker/dealer. If this information is not available, fair value is estimated using quoted market prices of securities with similar credit maturity and yield characteristics or using internal valuation model.

(iv) Debt securities issued and borrowings

The aggregate fair value is calculated based on discounted cash flow model using current market rate for the remaining period to maturity.

46. Risiko Kredit / *46. Credit Risk*

Sesuai dengan karakteristiknya, kredit yang ada di Bank dan entitas anak saat ini terbagi dalam kredit produktif dan kredit konsumtif. Untuk mengelola risikonya, Bank dan entitas anak mengukur risiko kredit dari portofolio yang ada baik secara kuantitatif maupun secara kualitatif. Hal ini untuk memastikan kemungkinan kerugian dari tidak dibayarnya pinjaman yang diberikan menjadi seminimal mungkin, baik untuk debitur individual maupun secara keseluruhan.

In accordance with the loan characteristics, the Bank and its subsidiaries' loan portfolios are classified into productive loans and consumer loans. In order to manage the risk, the Bank and its subsidiaries measure credit risk arising from the existing portfolios quantitatively and qualitatively to ensure that the potential losses from default loans are minimized, both for individual borrowers and the overall portfolio.

Sistem dan prosedur kredit Bank dan entitas anak telah dibakukan untuk menjamin diterapkannya kebijakan dan pelaksanaan pemberian pinjaman secara konsisten. Untuk kredit produktif, Bank dan entitas anak menggunakan model *Internal Credit Risk Rating* untuk menganalisis risiko bisnis dan finansial dari debitur secara objektif dan memberikan *rating* kepada nasabahnya. Selain itu, Bank dan entitas anak juga menggunakan *Credit Risk Capital Allocation and Pricing* untuk menguantifikasi risiko kredit dan menentukan harga yang sesuai berdasarkan risiko kredit.

The Bank and its subsidiaries' credit system and procedures have been formalized to ensure consistent implementation and policy in credit approval. For productive loans, the Bank uses the Internal Credit Risk Rating model to analyze the business and financial risks of debtors objectively and to give ratings to debtors. In addition, the Bank and its subsidiaries also use Credit Risk Capital Allocation and Pricing in quantifying credit risk and determining the appropriate pricing.

Untuk kredit konsumtif maupun produktif, Bank dan entitas anak menggunakan model *Internal Credit Scoring* untuk menganalisis dan menghitung risiko dari pemberian kredit kepada konsumer.

For both consumer loans and productive loans, the Bank and its subsidiaries uses the internal Credit Scoring model to analyze and calculate the credit risk for consumer.

Dalam rangka menerapkan prinsip pemberian kredit yang sehat, Bank dan entitas anak menerapkan prinsip *Four Eyes* (pengambilan keputusan kredit yang dilakukan oleh dua orang atau lebih) pada setiap kantor cabang dengan penggunaan *Credit Scoring* dan *Credit Reviewer*.

To implement a healthy credit granting process, the Bank and its subsidiaries apply the Four Eyes Principle (credit decision-making by two persons or more) at each branch office by using Credit Scoring and Credit Reviewer.

Berikut ini adalah rasio kredit bermasalah/*non-performing loans* (NPL) tidak termasuk pembiayaan syariah dan rasio kualitas aset produktif Bank dan entitas anak (konsolidasian):

The following are the non-performing loans (NPL) ratios not include sharia financing and the earnings asset quality ratio of the Bank and its subsidiaries (consolidated):

	31 Desember/ *December 31, 2022*	**31 Desember/ *December 31, 2021***	
Rasio NPL-bruto	1.16%	1.32%	*NPL ratio - gross*
Rasio NPL-neto	0.46%	0.47%	*NPL ratio - net*
Rasio kualitas aset produktif (tidak diaudit)	0.85%	0.95%	*Earnings assets quality ratio (unaudited)*

Rasio kualitas aset produktif merupakan rasio aset yang diklasifikasikan sebagai *non-performing* dibandingkan dengan jumlah aset produktif.

Earnings asset quality ratio is the ratio of assets classified as non-performing to total earning assets.

Sistem pengelolaan manajemen risiko kredit Bank dan entitas anak telah dibakukan dalam suatu ketentuan dan dikaji secara periodik.

The Bank and its subsidiaries credit risk management system has been standardized in the Bank's Guidelines (PP) and reviewed periodically.

(i) Analisis eksposur maksimum terhadap risiko kredit setelah memperhitungkan dampak agunan dan mitigasi risiko kredit lainnya:

Nilai tercatat dari aset keuangan Bank selain kredit yang diberikan dan efek-efek yang dibeli dengan janji dijual kembali menggambarkan eksposur maksimum atas risiko kredit.

Tabel di bawah ini menunjukkan *net maximum exposure* atas risiko kredit untuk efek-efek yang dibeli dengan janji dijual kembali pada tanggal 31 Desember 2022 dan 2021:

(i) Analysis on maximum exposures against credit risks after considering the impact of collateral and other credit risks mitigation:

The carrying value of the Bank's financial assets other than loans and marketable securities purchased under agreement to resell represents its maximum exposure to credit risk.

The table bellow show the net maximum exposure to credit risk of securities purchased under agreement to resell as of December 31, 2022 and 2021:

31 Desember 2022/*December 31, 2022*

Eksposur Maksimum/ *Maximum Exposure*	**Agunan/*Collateral***	**Net Eksposur/ *Nett Exposure***

Eksposur Maksimum/ *Maximum Exposure*	**Agunan/*Collateral***	**Net Eksposur/ *Nett Exposure***
3,129,032	3,118,291	10,741

Bank menetapkan jenis dan nilai agunan yang dijaminkan sesuai skema kredit dan perkiraan tingkat risiko kredit dari *counterparty* sebagai *second way out* yang ditetapkan. Jenis dari agunan terdiri dari:

a) *Physical collateral*, berupa tanah dan bangunan;
b) *Financial collateral*, berupa simpanan (tabungan, giro, dan deposito), surat berharga, dan lain-lain;
c) Lainnya berupa garansi, lembaga penjamin, dan lain-lain.

The Bank determined the type and value of collateral according to the loan scheme as well as estimated credit risk level from the counterparty as a determined second way out. The types of collateral are as follows:

a) Physical collateral, such as land and buildings;
b) Financial collateral, such as third party funds (saving deposits, current accounts, and time deposits), securities, etc;
c) Others, such as guarantees, guarantee institution, etc.

Pemberian kredit yang dilaksanakan oleh Bank diatur dalam kebijakan dan prosedur perkreditan dimana untuk setiap jenis atau skema kredit telah ditentukan agunan minimal yang harus dipenuhi.

Untuk segmen kredit komersial, sesuai ketentuan perkreditan wajib dijamin oleh agunan yang memadai. Agunan dapat berupa *physical collateral*, *financial collateral* atau lainnya berupa tagihan usaha atau garansi. Untuk seluruh agunan khususnya *physical collateral* akan dilakukan taksasi yang akan dipergunakan dalam menentukan kecukupan nilai agunan (*coverage ratio*).

Selain aspek agunan untuk meminimalkan risiko kredit, pemberian kredit oleh Bank selalu dilakukan berdasarkan evaluasi dan analisis kelayakan sehingga kemampuan pengembalian kredit (*first way out*) dapat dipastikan.

Adanya keharusan bagi debitur untuk memenuhi agunan yang dipersyaratkan, evaluasi atas kelayakan kredit, pengikatan kredit secara legal dan prosedur *pre-screening* akan menurunkan eksposur risiko kredit Bank ke tingkat yang layak dan dapat diterima.

Manajemen yakin akan kemampuan Bank dan entitas anak untuk mengendalikan dan memelihara eksposur risiko kredit yang berasal dari kredit yang diberikan berdasarkan hal-hal sebagai berikut:

- Bank dan entitas anak telah memiliki pedoman tertulis mengenai kebijakan dan proses kredit yang mencakup seluruh aspek pemberian kredit yang dilakukan. Setiap pemberian kredit harus senantiasa mengacu pada kebijakan tersebut;
- Bank dan entitas anak telah memiliki sistem deteksi dini masalah melalui "*early warning system*" dan pemantauan yang disiplin.

(ii) Konsentrasi risiko aset keuangan konsolidasi dengan eksposur risiko kredit

a) Sektor geografis
Tabel berikut menggambarkan rincian eksposur kredit Bank dan entitas anak pada nilai tercatat (tanpa memperhitungkan agunan atau pendukung kredit lainnya), yang dikategorikan berdasarkan area geografis pada tanggal 31 Desember 2022 dan 2021.

Untuk tabel ini, Bank dan entitas anak telah mengalokasikan eksposur area berdasarkan wilayah geografis tempat mereka beroperasi.

The loan granting conducted by the Bank is stipulated in the loan policy and procedure in which every loan type or scheme has minimum determinable collaterals that should be fulfilled.

For commercial loans segment, according to the loan policy has to be collateralized adequately. The collaterals can be physical collateral, financial collateral or others such as accounts receivable or guarantees. All collaterals particularly for physical collateral will be assessed in which the collateral's liquidation value will be use in determining the coverage ratio.

In addition collateral aspect to minimize credit risk, loan granting is conducted based on evaluation and feasibility analysis so that the loan repayment ability (first way out) can be ascertained.

The necessity for debtors to comply with collaterals requirement, loan feasibility evaluation, notarial agreement and pre screening procedures will decrease the Bank's credit risk exposure to the acceptable level.

Management believes on the Bank and its subsidiaries' abilities to control and maintain their credit risk exposure arising from loans based on the following:

- *The Bank and its subsidiaries has written guidelines regarding credit policies and processes that cover all aspects of loans granted. Each granting of credit should always refer to such policy;*
- *The Bank and its subsidiaries has an early problem detection system through 'early warning system' and disciplined monitoring.*

47. Risiko Nilai Tukar

Risiko nilai tukar timbul sebagai kerugian yang ditimbulkan oleh posisi terbuka neto valuta asing pada sisi aktiva, sisi pasiva ataupun rekening administratif akibat perubahan nilai tukar valuta asing. Kegiatan perdagangan mata uang asing meliputi transaksi nilai tukar valuta asing *spot*, *forward*, *swap*, *interest rate swap* dan *cross currency swap*.

Penerapan manajemen risiko nilai tukar yang dijalankan oleh Bank dan entitas anak adalah dengan melakukan pengukuran, pemantauan, dan pengendalian risiko nilai tukar secara berkala baik secara *bankwide* maupun parsial. Secara *bankwide*, bank melakukan pengukuran risiko nilai tukar melalui simulasi *value at risk* (var) dengan berbagai metode (*Variance Covariance & Historical*) yang disesuaikan dengan karakteristik transaksi.

Pemantauan risiko nilai tukar dilakukan melalui pemantauan Posisi Devisa Neto (PDN) dan sebagai bentuk pengendalian risiko nilai tukar, Bank membuat limit internal PDN baik untuk neraca maupun secara keseluruhan sebagai bentuk *risk tolerance* Bank dalam menghadapi risiko nilai tukar. Sedangkan, penerapan manajemen risiko nilai tukar Bank secara parsial pada aktivitas tresuri adalah melalui pengukuran & pengendalian *budget loss limit & open position* untuk setiap transaksi nilai tukar dan sebagai bentuk pemantauan risiko nilai tukar, Bank melakukan pelaporan transaksi tresuri sesuai dengan ketentuan secara periodik untuk memastikan bahwa *exposure* yang timbul oleh pergerakan nilai tukar berada pada batas yang telah ditentukan oleh ketentuan internal Bank dan sesuai dengan ketentuan regulasi Bank Indonesia.

Menurut Peraturan Bank Indonesia (PBI) No. 17/5/PBI/2015 tanggal 29 Mei 2015 perubahan keempat atas PBI No. 5/13/PBI/2003 tentang Posisi Devisa Neto Bank Umum tanggal 17 Juli 2003, PDN ditetapkan maksimum sebesar 20% dari modal.

PDN secara keseluruhan adalah angka yang merupakan penjumlahan dari nilai absolut untuk jumlah dari selisih bersih aset dan liabilitas dalam laporan posisi keuangan untuk setiap valuta asing ditambah dengan selisih bersih aset dan liabilitas baik yang merupakan komitmen maupun kontinjensi dalam rekening administratif untuk setiap valuta asing.

Berikut adalah PDN pada tanggal 31 Desember 2022 dan 2021 per mata uang (dalam ekuivalen rupiah) sesuai dengan peraturan Bank Indonesia :

47. Foreign Exchange Risk

Foreign exchange risk arises as losses arising from net open positions of foreign exchange on assets, liabilities or administrative accounts due to changes in foreign exchange rates. Foreign exchange trading activities include spot, forward, swap, interest rate swaps and foreign exchange transactions cross currency swap.

Implementation of forex risk management in the Bank and its subsidiaries through a measurement, monitoring, and controlling of foreign exchange risk periodically both partial and comprehensive. Comprehensively, bank measure foreign exchange risk through value at risk simulation with several methods (Variance Covariance & Historical) and adjusted to characteristic of transactions.

Bank monitor foreign exchange risk through monitoring of Net Open Position (NOP) and intraday and for a foreign exchange risk control, bank establish internal limit of NOP both on balance sheet and overall as risk tolerance to foreign exchange risk. Meanwhile, implementation of forex risk management partially on treasury activities is performed through measurement & control of budget loss limit & open position for every transaction and for monitoring, bank create Treasury transactions report periodically to ensure that exposure arise from foreign exchange risk is at the limit which has been specified by the internal Bank dan Bank Indonesia Regulations.

According to Bank Indonesia Regulation (PBI) No. 17/5/PBI/2015 dated May 29, 2015 the fourth amendment to PBI No. 5/13/ PBI / 2003 concerning the Net Open Position of Commercial Banks on July 17, 2003, the NOP is set at a maximum of 20% of capital.

The overall NOP is the sum of the absolute value of the difference between each foreign currency asset and liability on the statement of financial position and the difference between commitments and contingent assets and liabilities in administrative accounts for each foreign currency.

Below is the NOP as of December 31, 2022 and 2021 by currency (in equivalent rupiah) based on Bank Indonesia regulations :

48. Risiko Likuiditas / *48. Liquidity Risk*

Risiko akibat ketidakmampuan Bank dan entitas anak untuk memenuhi kewajiban yang jatuh tempo dari sumber pendanaan arus kas dan/atau dari aset likuid berkualitas tinggi yang dapat diagunkan, tanpa mengganggu aktivitas dan kondisi keuangan Bank dan entitas anak. Besar kecilnya risiko likuiditas ditentukan antara lain:

a. Kecermatan dalam perencanaan arus kas atau arus dana berdasarkan prediksi pembiayaan dan prediksi pertumbuhan dana, termasuk mencermati tingkat fluktuasi dana;
b. Ketepatan dalam mengatur struktur dana termasuk kecukupan dana;
c. Ketersediaan aset yang siap dikonversikan menjadi kas;
d. Kemampuan menciptakan akses ke pasar antar bank atau sumber dana lainnya, termasuk fasilitas *lender of last resort*.

Apabila kesenjangan tersebut cukup besar maka akan menurunkan kemampuan Bank dan entitas anak untuk memenuhi kewajibannya pada saat jatuh tempo. Oleh karena itu untuk mengantisipasi terjadinya risiko likuiditas, maka diperlukan manajemen likuiditas, yang merupakan bagian dari pengelolaan liabilitas.

Kebijakan likuiditas Bank dan entitas anak ditujukan untuk memastikan bahwa kebutuhan dana dapat dipenuhi, baik untuk membayar kewajiban pada saat jatuh tempo atau untuk memenuhi fasilitas kredit yang belum digunakan.

Penerapan manajemen risiko likuiditas diantaranya melalui pengelolaan dan pemantauan posisi likuiditas Bank dan entitas anak berada dalam tanggung jawab Bagian Manajemen ALM &

Risk due to the inability of the Bank and its subsidiaries to fulfill maturing obligations from cash flow funding sources and/or from high-quality liquid assets that can be pledged, without disrupting the activities and financial condition of the Bank and its subsidiaries. The size of the liquidity risk is determined, among others:

a. Accuracy in cash flow or flow of fund planning based on financing and fund growth prediction, include observe the fund rate volatility;
b. The precision in managing the fund structure, including the adequacy of funding;
c. The availability of asset that is ready to be converted into cash;
d. Ability to create access to the interbank market or other funding sources, including the lender of last resort facilities.

If the gap is large enough it will reduce the Bank and its subsidiaries' ability to meet its liabilities at maturity. Therefore, liquidity management is needed to anticipate liquidity risk, which is a part of the management liability.

The Bank and its subsidiaries' liquidity policies are aimed to ensuring that fund requirements can be fulfilled, either to pay time deposits at maturity or to fulfill unused loan facility.

The application of liquidity risk management includes managing and monitoring the Bank and its subsidiaries' liquidity position in the responsibility of the ALM Management & Liquidity Division in the

Likuiditas di Divisi *Treasury* sedangkan pengukuran serta analisa terhadap risiko likuiditas menjadi tugas Divisi Manajemen Risiko diantaranya *stress test* likuiditas berdasarkan tiga skenario dan pembuatan profil risiko yang terkait risiko likuiditas, selain itu Bank telah melakukan perhitungan Basel III terkait risiko likuiditas yaitu perhitungan *Net Stable Funding Ratio* (NSFR) dan *Liquidity Coverage Ratio* (LCR).

Treasury Division while measuring and analyzing liquidity risk is the task of the Risk Management Division including stress test liquidity based on three scenarios and risk-related risk profiles liquidity, in addition banks have made Basel III calculations related to liquidity risk, namely the calculation of Net Stable Funding Ratio (NSFR) and Liquidity Coverage Ratio (LCR).

Pengelolaan kelebihan dana likuiditas yang tidak terserap penyaluran kredit, teroptimalisasi melalui pengelolaan *treasury*.

Managing the excess of liquidity fund, which are not absorbed by loans, disbursement will be optimized through managing treasury.

Sebagian besar kelebihan dana likuiditas tersalurkan melalui instrumen-instrumen yang berjangka pendek dan aman. Umumnya, kondisi likuiditas bank terjaga baik dimana penarikan dana nasabah dapat terpenuhi sekaligus kelebihan dana teroptimalkan dengan imbal hasil yang optimal.

Most of the excess of liquidity will be placed in short-term and secured instruments. In general, the Bank and its subsidiaries' liquidity condition is well maintained where the customers withdrawal can be fulfilled while the excess fund can be optimized with optimum return.

Sumber dana dan waktu jatuh tempo deposito dikelola untuk menghindari adanya dana yang *idle* dan menentukan jumlah serta instrumen aset likuid yang tepat untuk menjamin tingkat likuiditas yang terkendali secara terus menerus.

Sources of funds and maturity dates of time deposits are managed to avoid idle funds and determine the appropriate liquidity level and liquid asset instrument to ensure a sustainable liquidity level.

Bank dan entitas anak telah membangun model pengukuran risiko likuiditas untuk mengukur risiko likuiditas dari portofolio aset dan liabilitas Bank dan entitas anak berdasarkan skenario normal, spesifik, dan krisis secara triwulan dengan proses *stress test* likuiditas.

The Bank and its subsidiaries has developed a liquidity risk measurement model to measure the liquidity risk of the Bank and its subsidiaries' assets and liabilities portfolio, based on normal case, specific case, and crisis case scenarios by liquidity stress testing process.

49. Risiko Suku Bunga / *49. Interest Rate Risk*

Risiko suku bunga merupakan potensi kerugian Bank dan entitas anak yang timbul akibat fluktuasi suku bunga pasar yang berlawanan dengan posisi portofolio Bank dan entitas anak.

Interest rate risk is the Bank and its subsidiaries' potential losses arising from market interest rates fluctuations as opposed to the position of the Bank and its subsidiaries' portfolios.

Bank dan entitas anak melakukan pengukuran risiko suku bunga meliputi penilaian risiko suku bunga yang melekat pada aset, kewajiban, dan pada posisi *off balance sheet*; penggunaan konsep keuangan yang berlaku secara umum dan teknik-teknik manajemen risiko; asumsi dan parameter yang terdokumentasi dan dievaluasi secara berkala; terintegrasi dengan proses manajemen risiko secara rutin baik dari aspek pengambilan keputusan, struktur *governance* maupun proses alokasi modal internal. Dengan menggunakan metodologi tersebut, Bank dan entitas anak dapat mengidentifikasi risiko suku bunga dari portofolio aset dan kewajiban yang sensitif terhadap perubahan suku bunga serta menentukan besaran risiko terhadap Bank dan entitas anak.

The Bank and its subsidiaries conduct measurement of interest rate risk that includes assessing inherent interest rate risk in asset, liabilities, and off balance sheet positions; implementation of the generally applicable financial concept and risk management techniques; assumptions and parameters which are documented and evaluated regularly; integrated with periodic risk management process either from the aspect of decision making, governance structure or internal capital allocation process. By using such methodologies, the Bank and its subsidiaries can identify interest rate risk of asset and liabilities portfolio that are sensitive to interest rate changes and determine the risk scale for the Bank and its subsidiaries.

i. Risiko tingkat suku bunga

Analisis sensitivitas untuk beberapa faktor pasar menunjukkan bagaimana laba rugi dan ekuitas dapat dipengaruhi oleh perubahan dari beberapa faktor risiko sesuai dengan tabel dibawah ini. Secara umum, sensitivitas diestimasi dengan membandingkan suatu nilai awal ke nilai tertentu setelah perubahan tertentu dari faktor pasar, dengan mengasumsikan seluruh variabel lainnya tetap. Sensitivitas atas laporan laba rugi merupakan efek atas perubahan estimasi suku bunga atas laba rugi untuk suatu periode, berdasarkan nilai suku bunga mengambang atas aset dan liabilitas yang diperdagangkan dan tidak diperdagangkan yang dimiliki Bank dan entitas anak. Analisis sensitivitas atas laporan laba rugi komprehensif konsolidasian dihitung dengan menilai kembali perubahan estimasi suku bunga tetap atas aset keuangan yang tersedia untuk dijual. Jumlah sensitivitas atas laporan laba rugi komprehensif konsolidasian didasarkan pada asumsi bahwa terdapat perubahan paralel dalam kurva penghasilan.

Tabel di bawah ini menunjukkan sensitivitas dari laporan laba rugi komprehensif konsolidasian Bank dan entitas anak terhadap kemungkinan perubahan wajar atas suku bunga untuk aset dan liabilitas keuangan dengan suku bunga tetap pada tanggal 31 Desember 2022 dan 2021:

i. Interest rate risk

Sensitivity analysis for several market factors showing how profit or loss and equity could be affected by changes in the relevant risk factor are in the following tables below. In general, sensitivity is estimated by comparing an initial value to the value derived after a specified change in the market factor, assuming all other variables are constant. The sensitivity of the statement of income is the effect of the assumed changes in interest rates on the profit or loss for a period, based on the floating rate trading and non-trading financial assets and liabilities held by the Bank and its subsidiaries. The sensitivity of the consolidated statement of comprehensive income is calculated by revaluing fixed rate available-for-sale financial assets for the effects of the assumed changes in interest rates. The total sensitivity of the consolidated statement of comprehensive income is based on the assumption that there are parallel shifts in the yield curve.

The table below demonstrates the sensitivity of the Bank and its subsidiaries' consolidated statement of income and statement of comprehensive income to reasonably possible changes in interest rates for fixed rate financial assets and liabilities as of December 31, 2022 and 2021:

56. Perkembangan Kondisi Ekonomi di Indonesia / *56. Indonesia's Economic Condition*

Pada awal tahun 2020, Badan Nasional Penanggulangan Bencana Republik Indonesia mengumumkan berlakunya "Status Keadaan Tertentu Darurat Bencana Wabah Virus Corona." Wabah virus corona menjadi pandemi global yang berdampak terhadap perekonomian Indonesia dan dunia, antara lain ditandai dengan melemahnya nilai tukar Rupiah dan menurunnya harga-harga sekuritas di pasar modal.

In early 2020, National Agency for Disaster Management of the Republic of Indonesia announced the enactment of "Status of the Certain Disaster Emergency Conditions Due to Corona Virus Pandemic". The corona pandemic, that become global pandemic may had impacted domestic economy, which was characterized by weakening of the rupiah exchange rate and decline in the prices of securities on the capital market.

Resolusi dari dampak ekonomi Indonesia ini, banyak tergantung dari kebijakan fiskal dan moneter yang akan ditempuh oleh Pemerintah Republik Indonesia dan otoritas, yang merupakan suatu tindakan yang berada diluar kendali Bank dan entitas anak. Oleh karena itu, tidaklah mungkin untuk menentukan dampak masa depan kondisi ekonomi terhadap likuiditas dan pendapatan Bank dan entitas anak dan realisasi dari aset, termasuk pengaruh dari nasabah, kreditur, pemegang saham, dan pihak-pihak yang berkepentingan lainnya. Pengaruh dari ketidakpastian yang ada pada aset dan liabilitas yang dilaporkan dalam laporan posisi keuangan pada saat ini tidak dapat diperkirakan jumlahnya. Pengaruh tersebut akan dilaporkan dalam laporan keuangan pada saat diketahui dan dapat diperkirakan jumlahnya.

The resolution of Indonesia economic is dependent to a large degree on any fiscal and monetary measures that may be taken by the Government of Republic of Indonesia and the authority, an action that is beyond the Bank and its subsidiaries' control. Therefore, it is not possible to determine the impact of future economics condition to the Bank and its subsidiaries' liquidity and earnings, asset realization, effect from customers, debtors, shareholders, and other stakeholders. The effects of this uncertainty on the assets and liabilities reported in the statement of financial position cannot be presently determined. Such effects will be reported in the financial statements when they are known and can be estimated.
